Coasins, who was supposed to have lost his head along with all the other special police officers seems to have been more lucky than his brothers. He is the only one of the lot who is still on the force, and the report that he was let out was the result of the confusion that reigned in the council chamber at the time the mayor made his announcement with reference to the others. The new calendar just issued by the Council Hluffs Insurance company is something Tather unique. It bears a representation of the spot now occupied by the home of the secretary, J. Q. Many Indictments Expected.

DUREQUE, Der. 5.—(Special to Tan BER.]-The case of George M. VanLeuven, the pension claim attorney of Lime Springs, la., who gained unenviable notoriety last June, comes before the grand jury in the federal court. which Judge Sairas opened syesterday.

From an humble beginning VanLeuver developed an amazing business, and several clerks were employed in his office, which contained a large vauit stored with papers sented before the examining boards at Cresco and Decorah were uniformly rated high. This excited the suspicon of the de-partment officials at Washington, and m May last E.J. Watte, a special arent located at Minamaralis was sout to Lino Springer to

at Minneapolis, was sent to Lime Springs to investigate. He stated his mission to Van Leuven, who received him courteously invited him to explore the office. V Waite asked to see the private file, and while he was searching the vault Van Leuven entered and took therefrom a box which he said contained his private papers. Waite demanded possession, and, with the aid of a stenog-rapher from Minneapolis, succeeded in gaining it after a struggle with Van Leuven and his clerks. Waite then wired to Dubuque for a search warrant and a deputy marshall but was invited to come to Dubuque and flic information. He did so, and charged Van Leuven with charging illegal fees and Dr.

Kessel, surgeou of the examining board at Crosco, with accepting bribes. Their pre-June 1 at Lime Springs were held May 31 and June 1 at Lime Springs and Cresco. They made no defense and United States Com-missioner Habbs held them in bonds of \$2,000 each, which they furnished. Meanwhile Waite gave up the keys to Van Leuven's box, in which he claims to have

found evidence enough to justify a multitude of indictments by the grand jury. Van Leuven procured a writ of replevin in the state court, but Waite and Goodenough escaped to Minnesota with the box and the replevin proceedings were subsequently withdrawn. Subsequently also the examin-ing boards at Cresco and Decorah were supercedea. The government expects this grand jury to return many indictments in the case. Van Leuven will be defended by Senator John Day Smith of Minneapolis. The government has subpœnaed 150 witnesses in the case.

referring to President Cleveland's message, says: "Not often has an American presi dent delivered so statesmanlike a message. It is courageous throughout, and reveals that the president has a strong mind with a definite policy. He risks giving offense to the admirets of spread-eagleism by repudiating a breach of international eliquette.' In reference to Admiral Stanton's salute

Rio de Janeiro and the admiral's recall, the Globe says: "This amende to Brazil was if I were killed you would have to wear followed by very friendly allusions to Great a black one. "Yeees. Oh, why doesn't somebody come along? We could call for them to send the police. What time is it, Britain, much to the distaste of the Irish Americans, while further a still smarter rebuff was administered to that-section by the announcement that President Cleveland Henry?' At this Henry, glad of a diversion, began feeling under the pillow. Sudhad resolved to re-establish the status quo in Hawaii. That may prove more difficult dealy he sprang out on the floor, crying: perhaps, than he seems to consider, but he

deserves great credit all the same for refusing to sanction annexationist proceedings. which undoubtedly went in the tecth of treaty obligations.

Wishing Us Success.

"His resolve to do what he can to carry forward the Nicaragua canal under dis tinctly American auspices is perfectly legitlinate. If our enterprising cousins like to spend money that way they are perfectly entitled to do so. England can well afford to wish them success. Our commercial in terests would not suffer, but very much the contrary, were a short cut to the Pacific provided instead of a long voyage around the Horn. Of course, the situation would b wholly different were the United States to res rve the canal to the exclusive use of Americ a shipping. But the president guarantees that the canal would be equally open to the ships of all nations."

The Globe also remarks that a matter deserving the attention of the world is that fast, and O, Henry, 'If you continue to use such language I shall certainly go home to mamma?' a deficit of £5,600,000 or £6,000,000 looms in sight and attributes this fact to an inflated currency, to the McKinley bill and to silver

purchases. "That," the Globe continues, "the Americans will easily be able to bear this additional burden does not require proof; but it will strengthen the cause of protec-tion. Mr. Cleveland is happily courageous in facing the difficulties and if he is able to give effect to his statesmanlike scheme the United States will be on the high road to free trade." Frank and Honest.

The Pall Mall Gazette hails the president's message as a good departure, saying: "Pres-ident Cleveland's frank, honest statement regarding Hawaii may well cause ex-Presi-dent Harrison to hide his head in order to hide his bushes. It is evident that Mr. Cleveland, like most American politicians, still hankers after bimetallism. He shows still hankers after bimetallism. to the best advantage when talking of the tariff, and practically announces his faith in the principles of free trade. But the battle begun, to have McKinley back and his tariff in force would be a disaster to the United States and to the trade of the world."

The St. James' Gazette says President Cleveland's tone toward foreign states con-trasts agreeably with that adopted by his predecessors and himself. The paper adds: "It is enough that he is now courteous to us and scrapulously fair to Brazil and Hawaii Whether the unlucky royal family of Hono-lulu will be any better off for the president's disayowal of Minister Stevens and his nets is an inquiry which need not be pursued. The most remarkable passages of the message are those devoted to the tariff and financial position." The St. James' Gazette applauds President Cleveland's courage.

BEAUTIFUL AND BRILLIANT COLORS THAT DO NOT FADE.

Scientific Discoveries that Lighten Labor-A Weaver's Experience in Dycing-Car-pets where the Color Stays as Bright as When New

Those economical women who have learned how easy it is to save money by home-dyeing, have often complained because there were not fast and non-fading dyes for cotton goods.

Within the last few years science has been at work, and the results are the fast diamond dyes for cotton,-turkey red, pink, purple, orange, olive green, brown, etc. These dyes make colors so fast that even washing in strong soapsads will not start them. If a woman is sure to get the fast diamond dyes for cotton, when she wants to dye cotton. she will be able to dyo absolutely fast, non-fading colors that will stay until the goods are worn out.

A practical dyer, writing in the Wea-vers' Herald, says, "I used to dye with roots and barks, but after all my work, (and it was a tedious job.) I was not sat-isfied, for the colors were homely and often faded. At last I commenced to use diamond dyes, and the process is so simple and easy that the work is a pleasure. I have used carpets made of rags dyed with diamond dyes three years, and the colors are still as bright as when new.

Many of the diamond dye fast cotton colors are so superior to other dyestuffs that they are used by dyers everywhere, even in the big mills and the large dye houses. Imitators of these reliable dyes have claimed that their cotton dyes are "just as good," but practical prove the diamond is the only kind that makes colors which soap will not

wash out or sunlight fade. The diamond dyes come in nearly lifty different colors, for silk, wool, and cotton, and will dye anything, from a pair of stockings to a dress or cloak.

Wild Horses in Delaware. Few people would imagine that such a thing as wild horse could be found in an old, settled country like Delaware, but a recent lawsuit brings out the fact that there are such there. It seems that twenty-one years ago the Wistar brothers gave two ponies to a Mr. Black to be cared for in pasture on an island in the Delaware river. They have been

there ever since, and have multiplied until there are now seventy-two of them, all unbroken, and they are so wild that it is dangerous to come near them. Black's widow has sued the Wistars for the care of the horses, and got a judg-ment for over \$5,000, much more than anybody will give for the horses. The Wistars refuse to pay or take their stock

If the application is filed the judge must issue the warrants In that case the parties are brought before him and the hearing takes the form of an inquiry into what the mayor and council have done.
