CONGRESS does not seem to be in quite the hurry to take up the tariff bill that the public has been led to expect.

MANUFACTURERS build up cities. What Omaha needs is steady employment for workmen in mills and factories.

OUR merchants cannot complain this year that the weather is unseasonable. If there is a shrinkage in the holiday trade the cause must be a shrinkage in earnings and a general shortage of money.

THE packing industry has become the backbone of this city. It would only utilize all the raw materials—hides, bones, hoofs and tallow—by converting them into manufactured articles, this city would be one of the greatest manufacturing points in America.

THE author of the celebrated Junius letters is once more to be disclosed. If every one for whom the authorship of these letters has been claimed had a hand in their composition they would be the most wonderful composite photograph that has ever been constructed.

IF ANYBODY heretofore entertained doubts of Sam Macleod's incompetency as superintendent of school repairs the testimony adduced before the investigating committee last evening ought to dispel them.

TOBE CASTOR doesn't travel to Washington for nothing nowadays. The democratic plums are falling with other fruit still in sight.

ALL the sins of the Lincoln boogie gang now rest upon the shoulders of poor Gresham Betts. Betts is the unfortunate scapegoat who has been hurled over the rocks.

WITHIN a very short time the beauties of the new garbage ordinance will be forced upon the notice of residents of Omaha. We miss our guess if there will not be a howl from one end of the city to the other.

SOME of our democratic contemporaries are trying to gain support for the Wilson bill by alleging that it differs only in minor respects from the tariff law of 1883.

OFFICIAL figures show that nearly \$500,000 have been expended in Omaha the past year in sewer construction, paving, curbing and grading.

PARTIES conducting business under authority of licenses authorizing them to deal in malt and spirituous liquors will be interested in an opinion coming from the city attorney's office.

LANCASTER COUNTY JUSTICE

The action of the county attorney for Lancaster county in filing a nolle prosequi upon all the indicted counts in the indictments brought by the grand jury against the men who looted the state treasury vindicates the reputation of that county as a place where borders and ringsters may freely run riot with perfect impunity.

Whether the trials of these cases were carried to the end or whether a nolle prosequi had been entered in the beginning, the result would probably have been the same.

Not longly justification of the course he had taken is needed from the county attorney who quashed the indictments. "Charges proven, but impossible to convict," is ample explanation.

It is the duty of the county commissioners to remove all insane persons from the Douglas county jail, which is not a fit place for them and never was.

With three state hospitals for the insane there certainly can be no valid excuse for detaining these unfortunates in this county for any great length of time.

The burden, however, is becoming too heavy. There is no reason why the taxpayers of Douglas county should be forced to pay a duplex tax for the care and support of insane subjects.

Embodied by the impunity with which dynamite outrages have recently been committed in several European countries, the bomb-throwing mania of the anarchists has at last entered the very halls of the French legislature.

The perpetrator of Saturday's crime asserts that he alone is responsible for his act, that he undertook it knowingly and that he is quite willing to abide by its consequences.

The present postmaster general agrees with his predecessor regarding the expediency of establishing postal districts in the various sections of the country.

The committee on ways and means has cleared from March 1 to June 1 the time when the Wilson tariff bill is to go into effect.
