METROPOLITAN DEPOT

Omaha to Have a Central Passenger Station Worthy of the Name.

LOCAL CAPITALISTS FORM A COMPANY

Arrangements Made for a Magnificent Structure at the Foot of Farnam Street.

WILL BE BIG ENOUGH FOR EVERYBODY

Ample Accommodations Are Provided for All Road Centering in Omaha.

PLANS LAID FOR A MAMMOTH BUILDING

Object So Long Sought For Now to Be Realized in a Most Substantial and Satisfactory Manner—Details of the Scheme.

Omaha, after years of weary waiting, is at last going to have a new depot that will be a credit to the city and state.

INTERVIEW WITH MR. CLARK.

It has been an open secret for months that a project looking toward interesting the heaviest capitalists of Omaha in the new depot question has been under way...

PRELIMINARY PLANS COMPLETED.

Within the past forty-eight hours the preliminary work looking toward an organization of this nature was completed and yesterday afternoon the articles of incorporation were filed with the secretary of state.

The organization is to be known as the Metropolitan Union Depot and Railway Company, the following named gentlemen constituting the incorporators: Guy C. Barton, Henry W. Yates, Herman Koucky, Benjamin F. Smith, Charles W. Hamilton, Frank Murphy, John A. Crighton, Fred Metz, Sr., William A. Paxton, Alfred Altland, C. H. Lyman, Milton Rogers, E. L. Stone, Thomas Swobe, John Rash and Charles J. Karbach...

WILL COVER FOUR BLOCKS.

The new structure is to run from Farnam to Howard streets, and cover from Ninth street east to Seventh. All the necessary surveys have been made and plans drawn for an elevated station of tracks forming a "Y" into and out of the building, making the depot accessible to all railroads from all parts of the city.

ESTIMATED COST.

It is estimated that the cost of the proposed improvements, the purchase of lots, condemnation proceedings and the depot and sheds will foot up \$1,750,000.

Within a few days the incorporators will hold a meeting and perfect temporary organization and in thirty days thereafter will open stock books for subscription according to the terms of the corporation charter.

It is understood the new company will ask a subsidy from the city to assist in building this new main depot for which an election is to be called and also ask the city council to quitclaim to the Union Pacific the lots now being used for railroad purposes over which a major controversy has been had in past years.

After reciting the reasons for the association of the above named gentlemen into a corporation the articles of incorporation state "that the nature of the business to be transacted by said corporation shall be the location, establishment, construction, furnishing, maintaining and operation of freight and passenger railway depots at such points as may be determined upon with such tracks, trackage, turnouts, switches, offices and structures as may be deemed necessary, and to take, acquire and hold all real, personal and mixed property necessary or convenient for the execution of said business and the accomplishment of the objects and purposes of this corporation, etc."

AMOUNT OF CAPITAL STOCK.

The authorized capital stock of said corporation shall be \$2,500,000, divided into shares of \$100 each, a clause for the increasing of the capital stock being attached.

The life of the corporation is bounded by December 31, 1895, and December 31, 1905.

The business of the corporation is to be conducted by a board of seven directors to be elected at a regular annual stockholders' meeting held on the second Monday in January of each year. The officers are to be a president, secretary and treasurer, chosen by the board of directors.

The highest amount of indebtedness to which said corporation can at any time subject itself shall not be more than two-thirds of the amount of the capital stock of said company at the time said indebtedness is contracted. And then follows:
