Motor Company Officials and Citizens Fail to Compromise.

FIVE-CENT FARE STILL DIVIDES THEM

Conference Between the Interested Partim Results in Numerous Propositions on Both Sides, but the Difference Cannot Be Settled.

The conference between the motor directors, the city council and the committee from the picken fare clubs yestermay morning resulted in the entire destruction of hopes that a 5-cent fare might be brought about by peaces ble means. All populations are now off, and only the future can tell what will be the next step tagen by the advocates of a reduced motor fare between Council Bluffe and Omaha.

The committee was represented by Spencer Smith, L. C. Besley, John Clausen, F. C. Louger, G. A. Schoedenck and W. F. Barer. the council by Aldermen S. S. Keller, V. Jennings, C. R. Nicholson, J. J. Hathaway, Peter Smith, and U. H. White. George F. Wright was at first the only representative of the company who showed up, but he was later on joined by John T. Stewart, who, however, took no part in trying to arrive at an amerable settle-ment of the difficulties. Mayor Lawrence

resided over the meeting.
Mr Wright opened proceedings by taking up the demands formulated by the coun-cil and presented at the last conference. The city requires: Payment of cost of filling Avenue A: payment of all special taxes delinquent: payment of claims for intersections, etc. as set out in suit now pending in superior court; payment to abutting property owners the amounts due for paving between ralls and one foot on either side; commutation tickets, twenty rides for \$1, unlimited, transferable, on sale 8-cent fare ordinances. equity suit to forfeit charter and repeal the Deent fare ordinance.

Proposition of the Company.

Taking up the proposition by paragraphs, Mr. Wright said: We are willing to pay for fifthe Avenue A; we never objected to this. We are willing to pay all special taxes now delinquent. We supposed we had been buying them right along and it was only an oversight on our part that they were not said before. In regard to the pay for intersection paving, mentioned in para-graph 3, we want the matter settled in the courts. No one wants us to pay what we are not legally bound to pay, and there is an honest difference between us as to our legal rights. We will pay all money due property owners as provided in paragraph 4

For three months we have been consider In August a petition was submitted to us asking for this, and bearing the signa tures of between 150 and 250 citizens of Council Bluffs, each of whom claimed to be making two trips over the line each day between Council Bluffs and Omaha. Along in November we determined to compromise with them and put into force January 1 a commu-tation ticket giving fifty rides for \$3.50, good for thirty days, and non-transferable. For the last three months the road has been only paying interest on the hopey invested and the costs of runnian. We now stand ready to compromise with you on the same basis of fare as we did hast fall, and if you want the negotiations 'go on further I would suggest that the way to carry them on would be by ap, ing a committee, consisting of C. M. Har, not

was Wright's reply. Spencer Smith called
Wright's attention to the fact, that the paying on Pierce street was put in after the motor line, and that the cost of the paving, had accordingly been assessed against the company instead of the property owners, so that the property owners had never had anything to sign away Wright assumed a look that would have done credit to a country rustic who had just learned that he had been duped by a green goods man and ejacolated. Then these releases that we have are not worth a span and I

Only Attorney Hazelton punned Mr.
Wright down to the one main point at issue, which was whether or not the company would agree to a 5-cent fare. Wright replied that it would not. Alderman Keller bereupon moved that unless the company was willing to concede a commutation rate of twenty rides for \$1 no further consideration should be given the matter. Nicholson seconded the motion, and it was carried with-out a dissenting vote. The meeting then adjourned without, apparently, making a single step of progress toward the desired

The persistence with which this corporation has refused to comply with its charter oldinations and to have the amounts due to the city and to the citizens, and their refusal to rive respectful consideration to the demands of our people leave us but one alternative, via. To use against them all the powers conferred by law upon the municipal government. Their charter has been forfeited for willful abuse of its privileges; they are now upon our streets without a franchise and subject to such requisitions as the city council in its wisdom may impose. We recommend the continuance and strengthening of the ward clubs to the end that they may insist upon and aid the city government in the collection of the obligations due from this corporation and in the granting of a new franchise to such respectation only as will comply with the just and consumable demands of our citizens expressed in the resolution of the Five-Cent Fare clubs.

Whenever determined by the courts the contention of our people has been sustained. We are advised that men with capital are ready to accept a franchise upon the terms demanded by our citizens, and every legal and moral obligations of our people has been sustained. We are advised that men with capital are ready to accept a franchise upon the terms demanded by our citizens, and every legal and moral obligations of our people or of the city government to this corporation, has been canceled by the willful repudiation of their charter obligations. With united and persistent actions in support of the city government to the regress and welfare of our city, can be procured without the viniation of the legal or moral rights of any person or corporation. Let the good work go on.

His bond was fixed at \$500 and if he is convicted, he is liable to a fine of \$100 or a term in the county jall, or both, at the discretion of the

Searched the Hospital.

A fire alarm came in yesterday afternoon about I o'clock from the Woman's Christian Association hospital, corner of Ninth street and Sixth avenue. The fire was in a ball in the fourth story, but how it got there is a mystery. It was some little distance away from the flue and the only theory now advanced is that a combination of more and matches caused it. The fire department did good work, getting the flames soon under control. Although they had to tear a way a lot of plastering to get at them. Very little damage was done by the smoke or water to the rooms in the lower stories, and the damage to the fourth story it is

thought will not exceed \$100.

The executive committee of the Associated Charities held a meeting at the Baptist church yesterday afternoon at 2 o'clock. It was ununimously decided to invite all other societies and individuals engaged in charitable work to unite under one organization, whose aim will be by district visitors and other systematic means to dispense charity wisely. The committee also adopted the cines to avoid imposition. Rev. Henry De Long was authorized to receive all donations of clothing or groceries solicited by the different committees.

MORTON MISKEPRESENTED.

His Position on Certain Things, He Says, is Misunderstood.

Washington, Jan. 4. - Secretary Morton expressed surprise today at what he regards as a misrepresentation of his position in regard to the agricultural experimental stations appropriation and of his action on omitting that branch of the service from the estimates of department expenditures for the fiscal year.

'As a matter of fact," said the secretary, "I have taken the same course in this respect as was adopted by my predecessor. Mr Rusk. I have taken pains in a statement included in my annual report to deduct \$720,000 (the amount omitted for experiment stations) from the total decrease in the estimations, with the explanation that it is a sur-improperly included in the department appropriation, and to claim erecut only for the pet decrease of nearly \$369,656,856.
"The fact is plain that no suggestion for

the abolition of the state stations was suggested by me. The inclusion in my estimate of \$25,000 for the purpose of experiment stations indicates I do not expect the work of that division to cease, although it is well understood that it is maintained as the conerting link between the department and the state stations, and for the special benefit of the latter. It is obvious I would not have wasted words in my report arging the necessity for a more satisfactory and clearer defini tion of the regulations of the stations to the department, and, vice versa, had my object been merely to extinguish them altogether. I am afraid the misapprehension existing in the minds of most people is due to some misrepresentation of a few who ought to think some before they talk."

Gold Shipment Talk. Washington, Jan. 4.—Some gossip is being indulged in as to the probability of further immediate gold shipments, in view of the fact that the average loss in good to the treasury in January for the past twelve years has been \$0.000,000. Some of the treasury officials do not believe there is any prospect of such shipment, while others hold to the opinion that with the stiffening of rates of exchange such exports are altogether probable. The belief is general however, that if such shipments are induled in the Year York banks would come to the relief of the treasury to a considerable extent and thus prevent the depletion of gold reserve.

Released the Funds.

Sioux Ciry, Jan. 4 - Special Telegram to THE BER |- The long drawn out litigation that has tied up the funds in the hands of the assignee of the Sloux City Dry Goods company was terminated today by an order to prorate \$100,000 of the funds among cer-tain creditors. Creditors who held \$15,000 worth of claims filed before August 17 were permitted by the order to share in the pri coeds. The assignee's notice was published April 29, but by error be gave it out as pub-lished May 17. So many creditors did not get their claims in within the chree months required by law that the court held that the assignee's error did not debar them. This point will be appealed, however, and pending the appeal their portion is withheid. Nearly \$60,000 is also held out to await a decision on the claim of the Borton Investment company for rept.

Patent Attorneys in Trouble. SHOULKEY, In., Jan. 4.—Deputy United States Marshal Fulton arrested W. A. Bell of William A. Bell & Co. and John Wills of

the lows State Patent Investment company today, charged with the using of the mails for fraudulent purposes. They have been posing as patent attorneys for several years. The men operated by renting the agency for the sale of patents and then collecting money to negotiate the sales and then let the matter drop until the inventor

begins to inquire about the money. Fatal Effects of Grip. Canson, In., Jan. 4 - Special to Tur But |-Since Christmas day three men have died of grip or its complications in the vicinity of Taylor, in Pottawattamie county. P. B. Matthews and George W. Briggs were old settlers here and of ac-vanced age. The other, Silas White was

about 30 years of age, and leaves a large family in destitute circumstances. Because His Drafts Were Protested. Story Orry, Jan 4 .- Special Telegram to THE BER |- E. L. Dimick, owner of the Citizens bank at Hartington, has commenced suit here for \$50,000 against D. T. Gilman of the lows State National bank and the bank for protesting his drafts, when, he alleges, he had funds in Gilman's institution them, claiming that it damaged his business and embarrassed him.

IN THE TRUS TRADE.

Distressing Outlook for the Coming Year-Low Prices Prevail. CLEVELAND, Jan. 4.—The Iron Trade Re-

view this week says: The close of 1893 recorded the lowest prices for iron and steel in the history of the trade. There has been a disposition to think that the coming of 1894 would arrest the downward tendency, but the evidences are to the contrary. It is known that on ores, offers have been made for the coming year lower than were touched in 1883 for standard grades. In pig iron, the opening of the pear brings a report of an offer by a northern furnace using Lake Superior ore to sell for deliveries, running into the spring at figures not touched by De-cember transactions. The study of costs is the most serious business the producers have on hand today, and, while every buyer may be satisfied that as raw material to him has touched a level that leaves the may ter without profit, he knows that with greater reductions in labor prices will be still further depressed, and, with northern competition, added to that of home the tendency must be still further downward.

Delegates Arriving. The annual convention of the Bricklayers and Masons International union will be held in this city next Monday at Patterson hall. The session will just several days. CRIME IN HIGH PLACES! It is not strange that some people do wrong through ignorance, others from a failure to investigate as to the right or wrong of a matter. But it is strange, that individuals and firms, who are fully nware of the rights of others, will persist in perpetrating frauds upon them. High-toned, wealthy manufrcturing firms will offer and sell to retail merchapts, articles which they know to be infringements on the rights of proprie-tors, and imitations of well known goods. We want to sound a note of warning to the retailers to beware of such imitations and simulations of "CARTER'S LIT-TLE LIVER PILLS." When they are offered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. Ben Franklin said "Honesty is the best policy"; it is just as true that "Honesty is thebest principle.3

## THE WILSON BILL.

Congressman Wilson of West Virginia, the framer of the much abused "Wilson Bill" is no doubt a commercial genius. The measure is framed for the reduction of the tariff, also a reduction of the treasury (?) surplus-The idea of herding up mountains of silver, when we can issue paper bonds and buy a clean supply of silver every year is ridiculous. Give the masses the benefit of what you can easily spare and let the treasury take care of itself-Precisely as the Nebraska deals with that

### Semi-Annual Odd and Ends Sale.

We consider a most spicidal policy for us to herd up broken lots when we can obtain brand new and fresh stock. Thus we give the masses the benefit, regardless of what our treasury suffers -- We are just in claiming the ace of trump, for completeness of stock at every beginning of a season.
