TWO IMPORTANT DECISIONS.

Two decisions have just been handed down by the state supreme court which vitally concern the taxpayers of this state. One of these involves the recovery of the \$230,000 deposited by the state treasurer in the Capital National bank.

In the first case the court holds that the prosecution of ex-Treasurer Hill and his bondsmen shall be under the jurisdiction of the courts of Lancaster county. This decision, although in accord with the principle that persons held for offenses against the law shall be tried at the place where the offense was committed, is for many reasons to be deplored.

In ordinary processes between resident litigants and even non-resident corporations the average Lancaster county jury will do the fair thing and render verdicts according to the law and evidence. But when it comes to depositions on the state, defalcations, embezzlements and misplacements of public funds a miscarriage of justice is almost certain. It is reported that Mr. Hill was jubilant when the decision was announced, and his bondsmen doubtless felt even more jubilant. The chances are a hundred to one that Mr. Hill and his bondsmen will be released.

The decision with regard to the state and county depositories will be hailed by the taxpayers with supreme satisfaction. It affords proof that the supreme court is not in league with money lenders and warrant shavers.

The decision of the supreme court on the state depository law will save the taxpayers thousands of dollars annually. The state treasurer alone has had an average of \$1,250,000 on hand during the past year, which at 3 per cent should yield an income of over \$37,000 a year.

AMERICAN workmen may congratulate themselves that they have not yet been overtaken by the severe winter weather that has been prevailing throughout Europe.

IT WOULD be interesting to know just why \$4,000 has been chosen as the limit for exemption from the proposed federal income tax.

How kind in the subcommittee of the ways and means committee to put the income tax exemption limit low enough to include their own salaries as congressmen among the taxable incomes!

IT IS rumored that certain ex-councilmen will now be requested to pay for whatever gas, water and electric lighting they may consume. It is likewise rumored that they will no longer travel upon street railway passes.

THE city electrician reports that he is making a thorough inspection of electric light wires in buildings. He has found a great deal of defective work, which rendered the buildings liable to destruction by fires.

WE ARE not in the confidences of the local democratic refreshment committee, but if Hon. William Jennings Bryan and Hon. Toburington Castor are expected at the Jacksonian feast we assume that they will not be seated together.

THE discrepancy between the treasurer and the auditor may be straightened out. The discrepancy between ex-Treasurer Hill and Treasurer Bartley as to which is to be held responsible for the quarter of a million deposited in the defunct Capital National bank will not be so easily disentangled.

OMAHA and Nebraska are deriving no little advertising from Coan Lubinski's proposal to erect a beet sugar factory at this point and to back it up by locating a Polish colony of beet farmers in the Elkhorn valley.

GENERAL MASTER WORKMAN SOBERING likes to talk. He seems to be intoxicated by the higher atmosphere which he has breathed but a few short weeks. He evidently has not learned the truism that a man whose jaw is always working soon finds himself without respectful auditors.

EARLY in the spring work will begin on the government building and at Fort Crook, the new Metropolitan Union depot will be started, a \$1,000,000 beet sugar factory is almost a certainty, public improvements to cost many thousands of dollars, extensive stock yards improvements and large operations by East Omaha people will all contribute to prosperity and make life worth living.

MAYOR BEMIS takes an excusable pride in pointing to his connection with the settlement of the recent gas franchise controversy. The people have not yet begun to appreciate the extent of the concessions which the mayor's persistent efforts secured them.

WHEN Galusha A. Grow takes his seat in congress as congressman-at-large from Pennsylvania he will return to the house over which he presided as speaker at the outbreak of the war. Mr. Grow began public life in 1851 at the age of 27 and was active in the early struggles of the republican party.

THOUSANDS of pounds of meat packed by Omaha packers finds its way to Europe. Within a week one house has exported over 25,000 pounds. This product is inspected by government examiners, and under such guarantee is received by the continental meat eaters.

THE Nebraska populists still profess to see a panacea for all evils in free coinage at the old rate of 16 to 1. Free coinage is expected to soften the hearts of the railroad magnates, to reform the methods of managing state institutions, to make up the deficit in the state treasury and to raise a beautiful crop without the exertion of labor.

THE attempt of the populists to introduce the state liquor dealer in Nebraska is as impolitic as it is impracticable. Such an issue forced upon the people in the coming campaign will have about the same effect as if the party sought to revive the prohibition corpse which was buried under 50,000 majority only three years ago.

PLAIN TALK ON THE TARIFF BILL.

The resolutions adopted by the Pennsylvania republican convention which nominated Galusha A. Grow for congressman-at-large speak in unequivocal terms against the democratic tariff policy, and there can be no doubt that the people of that state will endorse the utterance by giving an even larger republican majority than that of last November.

There is no demand or necessity for such legislation as is provided for by the bill in question and its expediency is doubtful. Congress should not waste any time on financial schemes which are more makeshifts. It should with as little delay as possible provide relief for the treasury and that having been accomplished all other financial expedients may safely wait.

A PUSIBLE PLOT. The schemers, tricksters, impostors and pharisees who have been making such loud noises about closing up the gambling houses will presently discover that the courts cannot be used to promote political conspiracies and assist blackmailers.

WASHINGTON COUNTY WANTS A SHOW.

For successful sugar beet growing we invite the Lubinski to come up and take a few items in Washington county. The beet has been tested in our soil and the state experiment station at Lincoln has the record. Washington county has the soil for beet culture.

A Colorado Sneeze. The Colorado coal companies have formed a combine to control the output of coal and prices of this commodity. Colorado is the state whence the most indignant protests against eastern monopolies emanate.

Explorations in Order. Nebraska City News. The Omaha Bee has been investigating the amount paid by state institutions for coal and fuel. The statistics are an optimistic price. It bases its comparisons on the cost of heating The Bee building, the New York Life building and Omaha city hall.

Less Haste the More Goodies. Lincoln News. Whatever may be the exact facts in the matter of the condition of the state treasury, the existing condition is not a very bright one. It is bad enough—and what is still worse, there does not appear to be any great desire on the part of the state to change the existing condition.

MAY KILL THE WHOLE BILL.

Cleveland's Opposition to Income Tax Will Probably Defeat Tariff Legislation.

Democrats are now widely divided between the party growing daily, while the causes for factional disputes are multiplying on every hand in congress.

WASHINGTON BUREAU OF THE BEE. 515 FOURTEENTH STREET, WASHINGTON, Jan. 4. So open and bitter and bold became the administration's opposition to income taxes today that a southern democratic member of the ways and means committee observed to the Bee correspondent: "The president cannot defeat income taxes, but he can carry his opposition far enough to defeat the Wilson tariff bill."

It transpires that Grover Cleveland has severely "sat down upon" Walter Q. Gresham in the matter of the income tax agreed to by the ways and means committee. It was Gresham who was largely responsible for introducing the subject in the minds of democratic members of the committee.
