Wheat Gained Considerable on Large Exports and Other Conditions.

THAT CEREAL OPENED THE DAY STRONG

Corn Was Firmer in Sympathy with Wheat and, Owing to Indications of a Decrease in the Movement, Advanced Nearly One Cent.

CHICAGO, Jan. 4.-Wheat gained 11/40 today on large exports, a decrease in stocks of flour, encouraging cables and good buying. Corn gained %c and oats about as much. Provisions closed at the nighest quotations of the day.

Wheat started firm, with May 1/6 higher, at 65%c. New York sent large selling orders early and Harry Champlin and Pardridge and Leeming sold heavily. The result was a loss of Mc. A reaction set in with the encouraging cable advices and prices began to advance. Laverpool was quoted steadier and a private Paris cable told that the market there was very firm. Chicago receipts were under the estimate and only 45 cars are expected tomorrow.

Another influence which added to the strength of the market was the decrease in the stocks of flour. Public stocks of flour in this country on January 1, as compared with those on December 1, decreased 234,000 bbls. At the marked advance in prices there were some realizing sales, causing a temporary reaction, but the firmness of the continental cables forced prices up again and May closed 1)4c above the bottom figures of the day and but \(\frac{1}{3} \text{c} \), from the top. May opened at 65\(\frac{1}{3} \text{c} \), indvanced \(\frac{1}{3} \text{c} \), then \(\frac{1}{3} \text{c} \), reacted \(\frac{1}{3} \text{c} \), and advanced \(\frac{1}{3} \text{c} \) to the close, at 66\(\frac{1}{3} \text{c} \).

and advanced 35c to the close, at 665c.

Corn was firmer, in sympathy with wheat and, owing to the indications of a decrease in the movement. May opened 35c higher, at 1855c, declined 15c, advanced 55c and closed at the top figures of the day 305c.

Onts was firm, in sympathy with the strength in wheat and corn. Receipts were one car under the estimate and the estimate

for tomorrow's receipts was light. May opened 'sc higher, at 301'se and advanced to Sic, closing at that figure.
The provision market opened on higher

for live hogs. Armour & Co. and Swift & Co. did considerable buying and prices advanced steaully but with few and prices advanced steadily out with less might May pork is 25c higher. May lard 71/2c higher, and May ribs 17/2c higher. Estimated receipts for tomorrow: Wheat, 45 cars; corn, 295 cars; oats, 125 cars;

New York Dry Goods Market. New York Dry Goods Market.

New York, Jan. 4.—Advices from the south and west regarding the condition and prospects of the dry goods trade are generally of a favorable nature. Business shows signs of recuperating upon conservative lines with a tendency, however, still to avoid anticipating future wants in buying goods. Print cloths show some irregularity, but prices are generally unchanged. Ginghams and woven wash fabrics show a slow demand. Woolen goods show no improvement. The jobbing trade is fairly active. fairly active.

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis, Jan. 4.—The wheat market opened higher and closed stronger. The advance was started by shorts buying in some of the wheat that was sold yesterday. After the market had started upward others bought and the close was about 1c higher than yesterday. It is probable some of the strength was due to the reports of large clearances from the seaboard. It is estimated that there is about 25,000,000 bu, of wheat back to come to Minneapolis and Duluth between January I and September 1. That would include the amounts now in country storehouses and the amount in farmers' hands. Receipts today: 235 cars; shipments, 10 cars. The demand for cash wheat was good for lots on track and the prices were at about the same spread below Minneapolis as yesterday. This demand for cash wheat will probably continue as long as the mills are able to run with a current output of flour. Farmers continue to sell ilberally at places within ten miles of Minneapolis, but from the outside reports show that they are selling very little. May opened at 61½c and closed at 63½c. Track wheat closed: Hard, 62½c; No. 1 northern, 61c; No. 2 northern, 59c. The flour mills are worked to about the sme capacity as yesterday and the market remains duil. A few millers claim to be selling all the flour they make. Others say their stocks are accumulating somewhat. Prices quiet and unchanged.

STOCKS AND BONDS.

Marked Change in the Temper of Specula

tion Characterized Dealings. New York, Jan. 4 .- A marked change in the temper of speculation characterized the dealings on the Stock exchange today and despite the efforts of the bears to de press the market by means of rumors, inuendoes and direct oppressive movements on

the weak properties, prices moved upward in solid phalanx, with but few of the active stocks lagging behind. In the early dealings the short interest depressed St. Paul a fraction on reports that the earnings for the fourth week in December would be much heavier than for any of the preceding weeks, but when the figures were published and did not fulfill wournfut prophecies the re-vulsion of feeling carried the stock upward, forcing the bears to cover in quick order, arge blocks being bought at advancing quo

Early in the day an earnest effort was made to force the bull pool in Western Union to liquidate by various selling devices, and strong hopes were indulged in of uncov-ering stop less orders which should cause a serious break, but the buying was too heavy for the short interest and the result was that sellers of the morning became pur-chasers in the later dealings, thus materially assisting in the consequent appreciation of the shares. Sugar was not in good tone in the open dealings and broke 1½ per cent upon a much smaller volume of business than is usually required to affect this stock, the depression being mainly due to lack of inside support. Subsequently, the general buoyancy carried Sugar up 1% per cent, but in the latter dealings a reaction of 1 per cent occurred and the last sale was % per cent below last night's prices. Distilling was sagged off a small fraction during the morning, for the lack of buying orders grew strong on the afternoon purchases, largely for western account.

The coal stocks were all strong. Northern Pacific preferred was heavy on reports unfavorable to the earning capacity of the company and also owing to the contest over the receivership. The general market was benefited by advices from Chicago of a con-certed effert to be made to maintain railroad rates. At the very opening of the day the market was a rising one and though occa-sional reactions temporarily checked the advance the losses were quickly recovered, and the late dealings were characterized by an activity and firmness which continued to the close, an advance recorded on the day of

The Post says: The process of reaction from Tuesday's semi-panic continued today, and recent sellers of stock were forced into some rather heavy covering. There was, moreover, an obvious and decided check to the liquidating movement which has paralyzed the recent market in several stocks, and aggressive bidding up of prices took its place. Speculators for the decline strave to revive business on the St. Paul's \$218,000 de-crease in gross earnings for the last week in But the temper of the street was very different from what it was a week ago, and every one understood that this

statement not only covers a longer period than that of the week proceding, but includes the business of two Sundays against only one in the similar period last year. The statement, in short, had no influence whatever on the warket, and the granger stocks, as was patural after the recent heavy sellas was natural after the recent heavy sell-ing, shared liberally in the day's recovery. The buying was once more most active in Western Union. There was a fair supply of news to entertain the speculative mind, but

it was not unfavorable. The following are the closing quotations on the leading stocks on the New York ex-change today:

On the London Market. On the London Market.

New York, Jan. 4.—The Post's special from London says: The Bank of England's reserve increased this week £64,000, of which £43,000 was in gold imported from the continent and South Australia. The market supply of cash has much increased and other deposits have increased £1,867,000, but the other securities are also up £2,000,000, the market having borrowed largely before the new year. Silver was unchanged today, but rather steadier. America was inclined to buy futures. Rupee paper is 66d. The stock markets were steadier today, except for the break in Erie shares on American sales, due to exaggerated reports of today, except for the break in Erie shares on American sales, due to exargerated reports of the force of the opposition to the reconstruc-tion scheme here, which is more noise than substance. If the bond is drawn to preserve the coupons on the second against danger through payment of share dividends this will probably be satisfactory to everybody.

Chicago Live Stock Market.

Chicago, Jan. 4.—There was freer buying today than at any previous time within the last fortnight. The attendance of theyers was good and all wanted some cattle. The effect of the increased demand was to impart a firmer and healthier tone to the market. In no grade of stock was there any pronounced advance as compared with yesterday's prices, though during the week there had been a gain of from 10c to 25c per cwt. Receipts for the first half week foot up about the same as for the previous week, but they are notably light, even for the first week in January. Dressed beef and shipping steers were in demand at from \$3.50 to \$3.75 not many ripe steers being offered. Safes of cows and heifers were principally at from \$2.0 \$3. though there was trading all the way from \$1.25 to \$1.50 for scalawags to from \$3.50 to \$3.50 according to quality. The calf market was strong at an advance on last week's prices.

The hog market opened quiet and steady at

Wednesday's quotations, but soon became active and strong. The average of prices was a fraction higher than for yesterday, the bulk of the offerings going out of saisanen's hands at from \$5.25 to \$5.40. There were a few trades at \$5.45 and one at \$5.50, while rough mixed bus sold around \$5.10. Eastern buyers were again active competitors and to that fact must be given credit for whatever strength the market may have possessed. About 33.000 bend constituted the day's supply and nearly all of that number had passed over the scales before noon.

Yesterday's sheep receipts proved to be much heavier than they were supposed to be. They were estimated at 14,000 hend, while the actual count was 18,715 hend. Several thousand were left in sellers' hands and as there were about 10,000 head of fresh receipts the market today was in bad shape. The demand was small and prices were from 15c to 25c lower than on Tuesday, closing weak at from \$1 to \$3.50 for poor to choke sheep and at from \$2.75 to \$4.85 for lambs.

Beccipts: Cattle, 12,000 head; calves, 300 head; hogs, 31,000 head; sheep, 10,000 head.

The Evening Journal reports:

CATTLE—Receipts, 12,000 head; market in better demand and a triffe stronger on nice handy steers and the best heavies; top steers \$5.5065.85; others, \$4.5025.80; common, \$3.5024.25.

Hogs—Receipts, 31,000 head; market active, steady; rough heavy, \$4.5025.80; common, \$3.5024.25.

OMAHA LIVE STOCK MARKETS. Buoyant Tone to Trade in Both Cattle and

Hogs. THURSDAY, Jan. 4. There was another light run today and other markets are having a similar experience. So far this week, compared with last, there has been an increase of about 3,500

cattle, 6,500 hogs and 1,100 sheep. The cattle market was in very fair shape. Receipts were rather limited and the quality averaged up nothing extra, but eastern advices were in the main favorable, and with a good stiff demand from local houses trade ruled brisk with prices about 10c higher than Wednesday on anything at all useful. Good, fleshy steers, weighing around 1,200 lbs., sold readily at from \$3.90 to \$4.10, with fair to good 900 to 1,200 lb. steers at from \$3.50 to \$3.80, and fair to poor stuff down to \$3. The feeling was firm throughout, and the forenoon's trading

about cleared up the supply.

Butchers and canners stock was in moderate supply, about twenty-five loads, and there was a fair inquiry from outsiders. Fair to good cows and heifers sold freely at from \$2.20 to \$2.75, with choice fat stock up to \$3.25 or strong to a dime higher than yesterday. On the common and canning grades the market was not more than grades the market was not more than steady and inclined to drag at that. Sales were at from \$1.25 to \$2.10. Poor heavy to choice year calves sold anywhere from \$1 to \$5, or at fully steady prices. Rough stock of all kinds was in good demand and firm, common to choice bulls, oxen and stags selling at from \$1.50 to \$3.25.

There was very little doing in feeders. As usual of late the fresh receipts were comparatively limited, but they were freely picked up by the regular dealers at good, strong prices. The country demand was not at all urgent, but more cattle would be sold if more were here. Good to choice feeders were quoted at \$3.00@3.60; fair to good at \$2.70@3.00, and lighter, commoner grades at from \$2.70 down. Representative sales:

Business opened out dull, with prices not more than steady. Local houses were all somewhat indifferent in the face of the ample supplies, but Armour of Chicago the ample supplies, but Armour of Chicago was out again after hogs, and this, with more encouraging news from Chicago, caused a sharp rally and the bulk of the trading was on the basis of a 5c advance over Wednesday's prices. Good to choice hogs of all weights sold at \$5.10 and \$5.15, with a load or two of choice butcher and heavy hogs at \$5.17\frac{1}{2}\$. Fair to good hogs, both heavy and light, sold mostly at \$5.05 and \$5.10, with a few early sales at \$5. After the first round trade was lively and the first round trade was lively soon over, the market closing up strong the advance. Sales were largely at \$5.05 to \$5.15, as against \$5 to \$5.10 Wednesday and \$5.05 to \$5.10 one week ago today. Representative sales:

HE'S AFTER HIS CHILDREN.

Martin Becker of St. Louis Follows Ilia Wife to New York. Utica, N. Y., Jan. 4.-Martin M. Becker

of St. Louis has arrived here in pursuit of his wife and two children and her alleged paramour, G. R. Mechin of St. Louis. Mrs. Becker and party reached here ahead of him. Upon arrival Becker went to the home of his wife's parents in Whitesboro, five miles from here, and saw his children. He also saw his wife, but they failed to come to an agreement. Mr. Becker was visited by Alexander Mackenzie, his father-in-law, and they had a long talk together. To a reporter Mr. Becker, said, "There is no porter Mr. Becker said: There is no change in the situation at present, but I am

determined to secure control of my children and will eventually."

Arrangements in Hand for Camping Knights of Pythias at Washington. WASHINGTON, Jan. 4 .- The Knights of

Pythias in this city are getting well in hand the work of organization for the encampment to be held here next August. Committees have been appointed to canvass the whole city and also all trades and businesses. A committee of public comfort has also been named and provisions will be made at once to send circulars of information to all Pythian lodges. Arrangements cannot be made for entertaining 15,000 visitors, and General James R. Caroanan says that 2,000 will encamp on the lot south of the white house, the use of which has been granted
