## IS NOW TWELVE HUNDRED Cash Contributions for Relief of Destitute Came in Rapidly Yesterday.

ADOPTED BY THE COMMITTEE

It Will Handle All Funds on Orders Endorsed by Associated Charities-What the County Commissioners Are Doing-Much Encouragement,

The charity committee of fifteen appointed At Wednesday night's mass meeting met at 4 o'clock yesterday afternoon at the mayor's office and completed its organization, electing John Rush secretary and Alfred Millard treasurer.

Mr. T. L. Kimball explained the working of the Associated Charities. He said that 600 families were now being helped, and that thus far no meritorious applications had been refused. He was quite certain. however, that the resources of the organization would not be equal to the demands that would be made in the next two months. The means used to prevent imposture were detailed, and the system of solicitation for relief funds by the 200 ladies who are looking after that work in as many districts, into which the city had been divided.

Mr. Rush advocated turning over all funds raised to the Associated Charitles for distribution, in order to secure a wholly satisfactory and impartial relief on a business system that has already commended itself.

Chairman Yates thought it would be well to issue supplies to the various charitable organizations on request and require from them daily or weekly reports. He had been particularly impressed with the system of charity dispensation conducted under the

direction of Dr. Duryea. W. A. Roberson put in a good word for Rescue hall and thought an immense amount of good could be done by aiding that institu-

Clarke wanted the assistance that might be given so rendered as to not wound the feelings of unfortunate persons, and that it be not given as charity, as that tended to inculcate a spirit of Indolence. He favored the plan pursued by Dr. Duryea. C. F. Weller was satisfied that the com-mittee would be imposed on if it attempted to look after the disposition of the funds, and thought it better to raise all the money

and thought it better to raise all the money possible and turn it over to the Associated Charities.

## Committee Will Handle Funds.

Committee Will Handle Fands. After some discussion, participated in by Thomas Kilpatrick, Dr. Miller, Mr. Yates and Mayor Bemis, it was decided to have the citizens' relief committee handle all funds and to honor all requisitions for help. In order to guard against duplicate cases it was decided to refer all requests to the Associated Charities for endorsement and record. Requests for many charitable or-Associated Charities for endorsement and record. Requests from any charitable or-ganization or relief society will also receive attention. Mayor Bemis urged immediate action and a scarcity of red tape methods. A motion was unanimously carried to donate fifty cords of wood to the Associated Charities and 200 loaves of bread per day to Rescue hall at once. Henry W. Yates, the chairman, was authorized to respond to all requests describe of attention which may be reported before the committee meets

requests deserving of attention which may be reported before the committee meets again next Saturday at noon. After consideration of methods of raising a popular subscription to relieve every deserving case of poverty in the city and raise a fund to alleviate suffering during the entire winter, the following committee was appointed to solicit a charity fund: Charles F. None failed, seem ingly, to enter into this spirit, and with song instrumental music and native dances, the ours were spent with the patron saint of Scottish song, whose picture adorned the title page of the program. Without exception every number was well

Dr. Patterson's Address. "The Memory of Burns" was the subject of an address by Rev. J. M. Patterson, who said substantially:

said substantially: "Sometimes Americans object to the im-migrant, but never to the Scotch-man. Foreigners may gather to plot against the stars and stripes, the Scotchman never. We see in tim a man after our own heart and our gates are, therefore, always open to him. Any American might be giad to be called a Scotchman. Why does this nationality bear such an affectionate remembrance of Robert Burns! Because he was the true

Robert Burns? Because he was the true poet of their native country. Poetry is the incarnation of truth. It is necessary for him to enter into keenest sympathy with his theme, and Burns did this. He sang the hopes and fears, the joys and sorrows of his people as an intense Scotchman only can. The commonest laborer is proud of his handiwork after a perusal of Burns. There was a time when to be a Scotchman was not a thing to be proud of. Wars, removals of national emblems and disloyatty of the men of letters put the spirit of patriotism at low ebb. Burns succeeded in reviving it. He sang the

nation's heroic history and her beautiful scenery, and thereby became the true patron saint of patriotism. "But he was more than a Scotchman. He was the mouthpicce for all humanity. Hence it follows that we Scotch-Irish-Ameri-

The first number in part second of the program consisted of a highly appreciated ad-dress by Mr. Thomas Kilpatrick, who, in the course of his remarks, recited a poem by America's own Quaker poet with Burns in memory. BERLIN, Jan. 25 .- In the Unter house oday the conservatives and free conservatives moved the Prossian government take steps in the Bundesrath to prevent the conclusion of fresh commercial treaties providing for a reduction of duties without allowance being made for the difference between the monetary systems of Germany and the Baron von Berlespich, minister of com

Currency on a stiding scale would have, in the opinion of the minister of commerce, serious consequences for German husbandry and the government would prefer not to con clude treaties rather than introduce such novel features.

According to the books of a chattel mortgage agent in Omaha Mrs. Maggie Alexander, the wife of an invalid Grand Army man living near Sixteenth and Corby streets, has a mortgage on her meager household good and furnishings to the amount of \$8.50, but if any effort is ever made to foreclose on that mortgage or to collect the notes for which it is security there will be a lively time of it and the law may be invoked to prevent a further bleeding of the woman by the chattel Shylocks.

Mrs. Alexander has had a remarkable experience with the mortgage men. She hus in the last two years paid \$27 interest on an original loan of \$10 and still has a claim of \$3.50 of the principal against her and has her furniture mortgaged as security for the payment of the amount.

#### **Oppression** Discovered.

The Alexanders live on the alley between Sixteenth and Seventeenth and Ohio and Corby streets. The family consists of an aged husband and wife and several children. Two years ago, in November, 1891, Mrs. Alexander was driven, by reason of continued sickness in her family, to mortgage her scanty stock of furniture and household effects for \$10. In securing this she went to the office of Fred Terry in the Ramge block, and gave a note for \$10 payable to a man

named Burroughs at Believue, and as secur ity gave the usual mortgage on her property The note was an innocent affair, simpl calling for interest at the rate of 10 per cent per annum. But there were incidenta features that cut quite a figure in the pay ment of the claims. Mrs. Alexander has had a very serious time of it for the past two years. Her husband has become a con-firmed invalid and it is all that the woman from absolute want. Even this and family from absolute want. Even this sho has not been able to do lately and it was through the people to whom she applied for aid, the Grand Army of the Republic people and the Woman's Relief corps, that the extortion practiced upon her by the money suarks was discovered. By them it was found that the woman had paid \$27 interest on the original loan and was still in the debt of the money lengers the original amount.

#### Some Protests Made.

Mrs. T. C. Cramblett, wife of the pastor of the First Christian church, had her interest der's case, and went with her to Terry's office, where she protested against any further robbing of Mrs. Alexander. Terry did not make any fight whatever for additional interest on his \$10. He magnanimously agreed to draw up other notes, payable weekly, for the original amount, \$10. and not charge Mrs. Alexander any interest on them. The notes were accordingly drawn, four for \$1.50 each and two for \$2 each, pay-able weekly, the first payment to be made on Tuesday, January 2. This obligation was met, and before the second payment was due the matter came to the attention of Mr. John Jeffcoat, the well known Grand Army man, who was doing some relief work when who was doing some rollef work when his attention was called to Mrs. Alex-ander's case. With her he visited Terry's office and there found several new features of the case that somewhat surprised him and gave him an insight into the manner of the money lenders in bleeding vic-tims and still keeping within the limit of the law. He found that while Mrs. Alexander had never received but \$10 from Terry two notes had been secured from her and fras Wedniesday and \$5.10 and 1891. AB

## Yesterday a Quiet and Uneventful Day in

Securities. NEW YORK, Jan. 25 .- This was a very quiet and uneventful day. Only on five stocks did the transactions exceed 5,000 shares, these being St. Paul, which was the leader of the market, Sugar, Burlington, Western Union and Louisville & Nashville. St. Paul receded 4 per cent at the opening and then advanced 36 per cent, fluctuating between these extremes until the publication of the net earnings for December was made, which showed a heavier decrease than anticipated. This precipitated a sharp selling movement, which brought heavy plocks of the stock out. A break of 1% per cent resulted, the last being the lowest price of the day. Sugar closed at yesterday's final figures and at no time during the day touched a point more than  $\frac{1}{6}$  per cent below that quotation. In the early dealings it rose 1 per cent, but lost the improvement in the late trading. The preferred fluctuated within a limit of 11g per cent, closing as yesterday at 82. Chicago Burlington & Quincy lost 1/2 per cent at the opening, rose % ver cent and in the after-noon slump broke 1/4 per cent, with a final rally of 3/4 per cent. Western Union was firmly held until late in the afternoon, when it became affected by the general depression but only slightly, the last sale being only 1

but only under yesterday's close. Louisville & Nashville moved between  $453_4'$  and  $444_4'$ , closing  $\frac{1}{5}$  per cent above the lowest at yesterday's quotations. The other coal stocks were entirely conservative in their movements. London sold St. Paul and Louisville & Nashville, and the west was a seller o

grangers on the announcement that the Atchison receivers had made a cut on corn and wheat from Missouri river points. The question in congress as to the new loan had a depressing effect on the general market, which closed heavy at or about the lowest of

the day. The Post says: The stock market was firmly held until the closing hour, when it appeared that some considerable feeling was under way, and especially in granger stocks; for this the chief cause was the St. Paul's statement of the December net earnings, which was unfavorable. Cattle Trade Steadying Down Some-Hogs Scarce and Lively.

THURSDAY, Jan. 25. Receipts so far this week compared with last show a falling off of 2,500 cattle, 5,500 hogs and 600 sheep.

There was a fair average run of cattle, and the general character of the receipts showed little if any improvement. Buyers for local killers again had a clear field, and were slow in taking hold. Prices in the main were steady, in some cases firm. Fair to good beef steers weighing from 1,000 to 1.350 lbs. sold at from \$3.50 up to \$4, while poor to fair stuff went at from \$2.85 to \$3.40. It was not a particularly brisk market, but the movement was continuous, and a fair clearance was soon effected. Butchers' and canners' stock was gen

erally weak, the supply being comparatively liberal and the demand not at all pressing. Prices averaged lower all around. Commo and cunning cower all around. Common and cunning cower changed hands at from \$1.50 to \$2.25, and good to choice fait cows and heifers at from \$2.75 up to \$3.50. Calves were in good domand and firm at from \$2 to the complete the second states and the second states at the second stat \$5.50 and the market for rough stock was about steady, poor to choice bulls, oxen and stags going at from \$2 to \$3.25.

There was a fair amount of trading in stockers and feeders, regular dealers doing the most of the business. Prices ruled the most of the busiless. Frices right steady to strong and the feeling was better than for some time past. Good to choice feeders are quoted at from \$3 to \$3.70, fair to good at from \$2.70 to \$3, and lighter, commoner grades at from \$2.70 down. Representative sales:
