Pottawattamie County Farmers Becoming Interested in Sugar Best Culture.

EXPERIMENTS THAT WILL BE TRIED

If the Trials of Agriculturists Are Successful Boets Will Be Sown on Many Acres-Another Industry that Is Looming Up.

About twenty farmers, gardeners and other interested persons met h, the office of Leonard Everett yesterday afternoon to discuss the possibility of raising sugar beets in this vicinity. A number of prominent citizens have been in correspondence with well known authorities on this subject, believing that the soil of Pottawattamic county is as well adapted for this branch of industry as that of any other county. They have met with great encouragement from these authorities, and now nothing remains but an actual and practical test. After the matter had been thoroughly discussed it was decided to appoint a con mittee of gentlemen to carry on the work of raising beets in various parts of this county. with a view of ascertaining whether all the opinions so far advanced were well founded or not. This committee consists of F. R. Davis, H. G. McGee, Leonard Everett, Douglas Graves and F. W. Menary of Crescent. Each will start out with one nere of ground, which will be sowed with sugar beet seed. At the end of the season they will be sent to Grand Island for inspection, and from the result of the inspection it will be determined what the future action of the genzlemen will be. In case the result is favorable there is no doubt that beet raising will become an established industry and that a factory will be started in

SOME GRATEFUL PEOPLE.

Mr. and Mrs. Patton of Omaha Testi'y Their Thanks for Saving Their Child. One of the brightest little girls in Omaha lives with her parents at 2620 North Nineteenth street. She is a very interesting child, 12 years old, and the idol of her home. Her father, a bluff and hearty Englishman, and his two sons are employes at the Union Pacific shops, and are comfortably fixed, so far as this world's blessings are concerned. The only thing that has come up to cloud their happiness in recent years is the dark shadow that has hung over little Louise, the bright little girl alluded to. Two years ago the child showed evidences of epilepsy, or rather the symptoms that had been present for nearly a year prior to that time, developed into that unmistakable and dreadful disease. To a BEE reporter yesterday Mrs. Robert Patton told the story of the wreck and rescue of her darling. "Our home physicians told us that Louise had epilepsy," said she, "and we at once urged them to do all in their power to save her from the dreadful fate of mental ruin that awaited her. We were willing to make any possible sacrifice for her, and we provided the best medical skill and care that could be obtained. Varying results came from the first year's treatment, but with the commencement of the second year her condition was very much worse, and this condition continued right along. Her spasms grew in frequency until she had as high as forty in a day. I have known her to fall senseless at my feet four times while going from Corby street to Twentieth and Lake, a distance of three blocks, while bringing her home from a visit to the doctor's office. As the fits grew in frequency many of them would show increased power, and by the mid-dle of last summer her mind became a complete blank and her condition that of drooling idiocy. She

Attempt to Burn Congressman Baldwin In Effigy at Dufuth. Sr. Paul, Jan. 26, - A Pioneer Press special from Duluth, Minn., says: An attempt was made tonight to burn Congressman Baldwin in effigy for voting for the free iron ore schedule of the Wilson bill. A band of music made its appearance near the Merchants hotel and a youth appeared bearing a banner, on which was painted a figure labeled "Baldwin," with his neck encircled by a noose. A procession was quickly formed, and, preceded by the band and banner, started west along Superior street. It had not proceed far when a man umped from the erned on the sidewalk and rabbed the banner. As he caught hold of t some one langed a well-directed blow on the back of his head. Hie let go the banner and dropped to the ground, while the pro-cession proceeded on its way.

Two blocks further west several men rushed toward the head of the procession and one grabbed the banner, which was quickly torn to pieces. This created a small-sized riot for a few minutes, but a squad of police and a patrol wagon came in sight and quickly dispersed the crowd, while the youth who had been carrying the banner was staken in the pairol to headquarters. The band ceased playing and the effigy business ended in a flasco.

Be it Resolved by the General Assembly of the State of Iowa. That the following amendment to the constitution of the state of Iowa be and is hereby proposed and referred to the legislature of Iowa to be elected at the next general election for membership of the general assembly thereof; that is to say, add to article 1 of the constitution as section 26 the following:

Section 20. The manufacture, sale and keeping for sale of all intoxicating liquors whatever is prohibited, except for medicinal, chemical, mechanical and sacramental purposes. The general assembly shall by appropriate legislation provide for the enforcement of this section. "In your American elimate estarrh is unquestionally the cause of more deaths than any other disease. At first it is as a rule a little thing, merely a cold in the head. But in a climate like this, one cold is not entirely cured before another follows. A succession of colds constitues chronic entarrh. A strong and healthy constitution will suffer only inconvenience from cutarrh, but all others may a great rise of what may follow. The health is broken, the constitution weakened, and, although the extarrh liself may not be the actual cause of death, still, indirectly, by so weakening the system that it is made a to resist the attick of other diseases. DENVER, Jan. 26.—The executive commit-

tee of the Republican league of Colorado has adopted resolutions asking the national ex-ecutive committee to postpone the Republican National league convention in this city from May 8 to June 12. One reason given for the proposed change of date is that the local committee is desirous of giving the con-vention a free excursion to Cripple Creek and other points of interest, and the weather in May is usually too cold for such a mountain trip.
