Gladstonian Leaders Express Themselves as Satisfied to Accept the Gauntlet, Feeling Certain of Victory in the Final Contest.

(Copyrighted 1894 by Press Publishing Company] LONDON, Feb. 10 .- (New York World Cable-Special to The Bee.)-It seems quite clear from speeches made last night by four members of the Gladstone government and strikingly similar editorials in the News and Chronicle this morning and the Speaker, a liberal weekly organ, that the liberal leaders have at last determined to make a vigorous and probably immediate war on the House of Lords. The House of Commons will meet again next Monday and the annual meeting of the Liberal federation will begin at Portsmouth on the same day. The program of the federation, published today, indicates that "ending or mending" the lords will be almost the sole topic of discussion, and that the House of Commons must forthwith decide whether to accept the amendments by the lords to the employers' liability and the parish councils bills, or by insisting on the original bills as passed by the Commons precipitate an ominous conflict between the two bodies. The Chronicle frankly says the abolition of the House of Lords means revolution, adding;

"The lords have temporarily wrecked the three great measures of the season. They have rejected the home rule bill for the pacification of Ireland by such just redress as can now be offered for centuries of outrageous misrule. They have mangled the employers' liability bill in frank contempt for the unanimous claim of the workers to protection of life and limb. They have mauled the parish councils bill in sheer disgust that any part of village and parish administration should be taken out of the hands of the landlords and the parson and be conducted by the people themselves in their own way. The second chamber is an effete institution. It is useless and dangerous and should be abolished with all convenlent dispatch."

The News, owned by Arnold Morley, the postmaster general, is not less mandatory and explicit.

"Let the quarrel come," it exclaims. "We need hardly say what the quarrel is. It is the old controversy between the representative principle and the hereditary principle.

The robbery likely took place during dinner. We do not understand why the thieves picked out at once the room where the most valuable and most portable property was to be found. They showed considerable familiarity with the house and neighborhood." Mrs. Clinton was much distressed by the loss of her jewelry. She would not for sentimental reasons, like to give a detailed list of the articles stolen, but they include a very valuable diamond tiara, a pair of diamond stars and a number of pieces which had been a long time in the ducal family of Pelham Clinton. Her husband is a cousin of the present duke of Newcastle. BISMARCK AND THE KAISER. A telegram from Berlin gives official con firmation to the report exclusively given in the World's Berlin cable of January 27 that the kaiser would speedily return Bismarck's visit. Count Eulenberg, the marshal of the court, said today that the visit will certainly be made this month, but the emperor has not decided whether he will stop at Fried-

The Hamburger richsruh on the way to Wilhelmshaven, Nachrichten accordingly exhibits a sudden whither he goes to assist at the launch of a change of views, probably in anticipation of new man-of-war on the 20th, or on his rethe emperor's approaching visit to Bismarck, turn to Berlin. structions had been sent to the governor of Soudan and to other governors with the result that reinforcements were on their way there and it was expected the French force at Timbuctoo would soon be relieved. There could be no question of evacuating Timbuctoo. (Cheers.) The incident he added, conveyed a lesson to France, and she would not forget that the necessary measures should be taken to prevent its recurrence.

"We are convinced," the premier finally said. "that the Chamber does not desire to discuss the merits of the case at pres ent." (Cheers.) The interpolators agreed to postpone any further discussion of the Timbuctoo question and the Chamber of Deputies adjourned.

ST. No lynching has taken place. The only arrest has been that of Jack Dillingham, whose shoe tracks fitted those at the wreck and led to his house, and whose recently discharged shotguns contained wads corresponding to those

found at the wreck. He is still in jail and continues, although conflicting stories, to ontend that he is innocent.

Officials are very reticent as clews, but are working diligently. The boy who is said to have made a written statement is kept under surveillance. His statement is said to be that he was employed to carry the crowbar to remove the spikes, but took no part in the wreck. It is said his statement is to

They were there to rob the dead bodies. As the passenger coaches remained on the track, they feared an attack from them, and abandoned the plan of robbery, running away as soon as the mall, express and baggage cars crashed through

LONDON, Feb. 10 .- (New York World Cable-Special to The Bee.)-The Statist of today intimates very bluntly that the silver tankard, very recently presented to Mr. Fred D. Tappan by the New York Clearing House association, and which had been the gift of the directors of the Bank of England to Sir John Houblon, its first governor, must have been stolen from the family, since its circumstances have never been such that it would have knowingly parted with such an heirloom.

The Statist, which is the leading financial paper here, adds that the clearing house mmittee would have done a just and courteous act if, before presenting the tankard to Mr. Tappan, it had made inquiries of the Houblen family here as to how such a valuable relic had passed out of its pos-

Desperate Sortle by President Vasquez's Forces-Two Reports of the Affair.

NEW YORK, Feb. 10 .- A World special from San Salvador, February 10, says: A message from Tegucigalpa says that President Vasquez's army made a brilliant sortie against their beseigers yesterday, during which over 100 of the enemy were killed. Vasquez drove Bonilla and Guitarrez back on the south and is now engaged in repelling repeated assaults by Ortiz on the north. Three cannon were captured from Bonilla. At the time the message was sent Ortiz was preparing to advance in force. Vasques said he could hold out indefinitely

MANAGUA, Nicaragua, Feb. 10.-General Ortiz telegraphs that he has cut off a band of Indians who were on their way to join Vasquez. It is said that the movement in the direction of Tegucigalpa in favor of Bonilla is growing stronger and that Vasquez's friends advised him to surrender, for, although he might be able to hold out for some time yet, defeat must be the ultimate issue. A telegram at noon says there was a terrible battle, which ended in Vasquez being repulsed. Losses on both sides were heavy. General Ortiz said he would be in Tegucigalpa within a few hours. GUATEMALA, Feb. 10 .- The rebellion er the Atlantic coast of Nicaragua is causing that government considerable anxiety. Priests are said to be exciting the Indians to revolt and are supplying them with arms to that end, pledging them to rise against President Zelaya when th signal is given. Boniila, the Honduras revolutionist is reported to have shot all the prisoners he took.

The controversy has now reached an acut stage and calls for immediate settlement."

"Present appearances," says the Speaker, "indicate that we are on the eve of one of the fiercest struggles on record between the representative chamber and the body that only represents the absurd and exclusive privileges of a narrow caste."

VOICED IN PUBLIC SPEECH.

Henry Campbell Cannerman, secretary war, spoke at Newcastle last night of the fashion in which the unrepresentative lords have emasculated bills passed by the popular majority in the representative commons.

"The lords," he said, "have asserted the absolute privilege of their order and the selfish interests of themselves and friends. Let the quarrel come. There must be no compromise and no yielding on it."

Arnold Morley at Nottingham and Attorney General Russell at Weisbech used substantially the same terms, and Prof. Bryce, chancellor of the duchy of Lancaster, author of "The American Commonwealth,' and regarded as the most conservative member of the government, expressed perhaps more radical views than his colleagues.

"The liberal party," he said, "would have preferred to proceed with measures of social reform rather than be driven to mend the machinery of the government, if the lords themselves had permitted them to do so, but if the lords choose to force a conflict. the conflict must be faced, and an effort made to clear away this bar on which so many vessels freighted with useful legislation have been wrecked. What would be the issue of a struggle between the hereditary

house and the commons of England few could doubt, and the liberal party would be true to its best traditions in accepting it with promptitude and courage."

All this, in the present excited state of popular feeling, may present startling events within the coming fortnight.

RELEASING THE IRISH FUND. It has been a long time since any forward step has been taken toward releasing the Irish relief fund now in Paris, and which was mainly subscribed in the United States, but a report is current this week that an agreement has been arrived at by which the French lawyers engaged in the suit between the Irish leaders to the effect that on presentation of an application signed by Mr. McCarthy for his side and Dr. Kenny for the Redmondites, the Messrs. Munroe will hand over to them jointly the \$200,000 locked up in their bank since the Parnellite split. The McCarthyites deny that this particular decision has been obtained, but admit that the prospect of an

early release is greatly improved. One condition that they insist upon is that after the payment of liabilities incurred previous to the split the balance shall be devoted to the relief of evicted tenants exclusively. It is estimated that after the payment of claims there would be \$150,000 for this purpose.

STOLE THE FAMILY JEWELS. A robbery at Weybourne house, the resi dence of Captain Burns, alde-de-camp of the duke of Connaught, by which Mrs. Charles Pelham Clinton lost jewelry valued at from \$8,000 to \$10,000, was reported in yesterday's papers here. Captain Burns married Miss Forbes Leith of New York and Mrs. Pelham Clinton was Miss Dizorega of New York. A reporter went down to obtain from Captain Burns and Mrs. Clinton full details of the burglary at Warnham in Surry. Weybourse house s a quaint red brick building about 200 years
