Democrats Find it Necessary to Run the Government at Slower Speed.

BUSY CUTTING DOWN APPROPRIATIONS

crease in Revenue to Be Met by Abandoning Internal Improvements-Inconsistencies in the Turiff-Foreeasting Their Own Fate.

WASHINGTON BUREAU OF THE BEE. 513 Fourteenth Street, WASHINGTON, Feb. 12.

When Speaker Crisp was delivering his great speech in favor of the Wilson tariff bill last week he announced that the deficiency in the revenues which are to be raised under the operation of the proposed law would be met by ecoomy; that whatever there might be of shortage in bearing the expenses of the government after this bill gets into operation would be met by decreasing expenses, by reducing appropriatons for public improvements, etc. Chairman Sayres, in explaining the cause which led him to cut off all appropriations for public improvements not provided by law when the great sundry civil appropriation bill was reported the other day, stated that it was to be the policy of the party in power to make no appropriations, except where it was absolutely necessary to keep the wheels of the government

running. When Chairman Wilson delivered his final appeal to the democrats in the house for support on the final passage of his bill he announced, as did many of his democratic colleagues in their speeches, that after the peal of the corn laws in England, when all protection to home industries was wiped away and but six articles were left upon the dutiable list, articles of luxury like wines and tobacco, the revenues rapidly in-creased, fully commensurate with the great increase of expenses of the British They announced repeatedly the Wilson bill revenues overnment. under the would increase. Between the statements of this and that democratic leader there not only a wide disparity, one claiming that the revenues would be less under the Wil-son bill and must be met by cutting off appropriations for public improvements, and the other that there would be increased revenues under the operation of the law but there is the announcement that we are to hereafter operate this country from a federal point of view under the theory that it is fully developed. New improvements it is fully developed. New improvements for rivers and harbors, coast and geodetic surveys, explorations, proposed irrigation of the arid plains, and all sorts of movements BULVOVS. intended to enlighten the people as to the resources of the country and develop them, are to be shut off.

There is no question that democratic leaders like Chairman Sayres and Speaker Crisp and the author of the Wilson bil know more about the policy of the democratic party than the smaller fry. The leaders named say the revenues under the Wilson bill will be less than at present, and the deficiency must be covered by re-ducing expenses, by cutting off improvements, and permitting the country to grow up in weeds, the rivers and harbors to lose their navigable currents, and this part of the continent to go back into savagery Evidence of the fact that this is the party's intention is found in the appropriation bills miready prepared. The appropriations for public lands are cut in half; for urveyi artificial limbs and appliances for soldiers reduced from \$647,000 to \$196,000; claims back pay and bounty to soldiers, reduced from \$750,000 to \$440,000; pensions reduced \$15,000,000; no provision for river and harbor improvements except those under contract. The increase of appropriations are for running the white house, making comfortable democratic congressmen at the capitol and other personal and selfish ends SOME APPARENT INCONSISTENCIES.

A democratic member of the senate com-mittee on finance acknowledged to your cor-respondent today that those who were rensible for the present revision of the tariff law would encounter a great deal of embarrassment and trouble in many sections of the country during the next campaign in explaining apparent if not actual inconsistenies in the Wilson bill as it is to become Why wool and eggs and farm produce of the most important character to our agricultur ists should be placed upon the free list when the raw materials taken out of the ground, and which the democratic leaders of the country have been howling for during the past quarter of a century, should be pro-tected by a duty is one of the things the senator acknowledged to be difficult of ex planation. Why a duty for revenue only is to be placed upon some of the necessities of life which are not yet produced in this coun-try in half sufficient quantities to meet the estic demand, and articles which are made in superabundance in this country are placed on the free list is another nut which the democrats say they must crack on the rostrum next fall. When the democrats in the house put coal on the free list they explained their action to the owners and operators of domestic coal fields that free coal would not injure the coal interests in this country; that it would only lower the prices at the seaboard. When the bill went to the senate it was found that the senators from Maryland, the Virginia: Alabama threatened to vote against the bill if coal was not made dutiable. So they were told that their coal interests would b protected. The democratic senators acknowledged that if the price of coal at the sea board was lowered by free competition from importations, the prices for coal in the in-terior portions of the country must of course decline. There appeared to be no one in democratic states to demand protection for wool, and so no thought was given about that important product of the farm, although was demonstrated that the wool interests of this country is more important than the coal interests, and that while our sheep most largely grown by small farmers and persons in ordinary financial circumstances the coal interests are nearly all owned and every one controlled by capitalists. The same was true of iron ore and lead and other minerals. A democratic member of the ways and committee frankly acknowledges that there is real polities in placing wool upor the free list; that it is intended to give east ern manufacturers raw material at the low st possible prices. He says that after all he eastern states, like New Jersey, New 124 York, Massachusetts and Connecticut, con-trol the politics of the country, and that these states manufacture nearly all of the woolen goods produced in this country. These states are to be made or kept democratic in politics by a democratic enourage ment of certain industries and the destru tion of certain other industries. He says the states producing wool are either so strongly democratic as not to be affected by this act or are so nearly irredeemably republican as to have no consideration at democratic hands. FOR DUTIES ON LEAD ORES. When the tariff bill comes before the set ate the fight for an increased duty on lead and lead ore will be taken up by senators from the silver producing states instead those which produce lead ore itself. T The senators from Idaho and Colorado, states which produce enormous amounts of lead-bearing silver ore, will fight for a duty considerably higher than that provided in the Wilson bill. They will ask that the duty on lead be made 1 cent a pound instead of half a cont, contending that a cut of 50 per cent in the present law is more than adequate to other reductions; and that the proposition of other reductions; and that the proposition of the Wilson bill to reduce the duty on lead ore and its products 75 per cent is wholly un-just. Statistics have been prepared for pre-sentation in the tariff discussion which are surprising. They show that 84 per cent of the total production of lead in the United States comes from silver-lead ores in the Bocky mountain regions. The two precision Rocky mountain regions. The impression generally obtains that Missouri, utilinois, Iowa, Wisconsin and Michigan, which do not produce silver-lead ore but have lead ore mines, produce most of the lead of this country, and it will be a surprise to ascertain that these states last year only proountain silver states produced 182,725 ton of lead from silver ores. The Mexican and Canadian lead imported last year amounted to only 29,270 tons, against 213,773 tons pro-duced in this country. If silver-lead ore Symm placed on the free list, as proposed by

silver-lead mine in this country and cut off three-fourths of the production of lead and over half the production of s lver. DEMOCRATS ANTICIPATE THEIR DOOM. When this congress assembled in extraordinary mession on the 7th of last August it was a strange one, with few exception to the habitues of Washington. There were about 150 new faces. When the majority in the Fifty-first, or Reed, congrous was defeated at the polls in '91, scores of familiar faces in the house of representa-tives were retired to private life. The Fifty-second congress, with a democrati majority smaller than the present congress, presented many more new faces than those familiar to Washington. To an habitue of the house galleries, the body looked like a Mississippi river improvement or free silver convention. Now and then a famillar face

the Wilson bill, the act would close up every

was seen. The men who had helped to make the McKinley tariff law had been left at home. Not less than 150 democrats in this con gress will pack their grip-sacks mext win-ter for their homeward journey. It is improbable that more than two or three of the democratic members of the ways and committee will be re-elected. sides the proverbial political fatality that follows those who bring about a revision of the tariff laws, there is every so many years a landslide or a cold wave which over the popular branch of congress and sweeps away nearly all of the old wheel horses in the majority. When the law of was passed nearly every republican 1883 who assisted in making it was retired at the first congressional election. When Mc-Kinley went out after the adoption of his tariff law he took with him about three-fourths of his republican colleagues. A peculiar feature of the democratic retirem inticipated at the coming election is that hearly every prominent democrat in the nearly house frankly acknowledges that he ex-pects to be defeated next November, and is now speculating upon whom of his colleagues will be forced out with him. It is not likely that enough of the present democratic

leaders will be returned to act as school teachers for their new brethren. POPULISTS AFTER THE RAILROADS. When the scheme of the Pacific Railroad ommission in congress for refunding the in debtedness of the Pacific railroads to the government or closing in upon them is made public, it is expected that there will be precipitated a lively row. The populats in con-gress are trying to formulate a plan whereby the Union Pacific will be purchased by the government from foreclosure of its mortgages and operated by Uncle Sam with the view to testing the feasibility of federal ownership of at least one trunk system of railroad lines, and they declare that they have a majority of those, if not all, in the senate, with them. Many others are advocating an extension of the mortgage bonds, while others believe that there should be a forelosure and sales at public auction. This is

the first opportunity the populists have had to demonstrate the strength of their plan of government ownership of railroads, and they intend to make the most of it. It is believed that a bill will be evolved by the Pacific railroad commissioners in congress within the next month or two, but the kernel of their plan is not likely to be known until the bill is ready for the public.

PECKHAM IN THE SENATE. It is the prevailing impression in Washington that the nomination of Wheeler H. Peckham to the supreme court of the United Peckham to the supreme court of commit-States, reported from the judiciary commit-ten to the senate today without to the senate today w ommendation, the committee tie, will be ultimately reject teo to being ultimately rejected by a majority of about the proportions of that cast against the nomination of Hornblower. Personal considerations and ties led two or three senators today to vote for confirma-tion, while one member of the committee, Mr. Hoar of Massachusetts, is said to have absented himself from the meeting of the committee because he did not want to vote for or against Peckham. It is not prob-able that this nomination will be disposed of under considerable time, although it may come up on next Thursday. The republicans will, of course, control the situation, and they do not see any political or other advantage in relieving the stress of the democratic conditions. They cannot see that there will be any advantage in ending the strife between the president and the two democratic senators from New York, or giving the president opportunity to send in another offensive nomination, until he has had ample time for amplification of his ideas of character and ability for the supreme court of the United States and what properly constitutes

AUTHORITY OF THE BISHOP Father Phelan of St. Louis Must Answer Serious Obarges.

EXTENSION OF THE BONACUM CASE

Copy of the Citation Served on the Aggressive Missouri Prelate . Fine Points of Canonical Law Sald to Be Involved.

LINCOLN, Feb. 12 -- (Special to The Bee.) -A great many people fall to understand just how Bishop Bonacum of the diocese of Lincoln has power to cite a priest of another diccese to appear before him for trial upon grave charges. The authority of the bishop comes from the canonical law, which as may readily be imagined differs very materially from the civil statutes. Under the law governing a Catholic church a priest is amenable to the authority then of a bishop if he temporarily resides in

the diocese. Father Phelan came to Lincoln to assist in the prosecution of Bishop Bonacum for alleged libel of a priest of a local parish. In addressing the court in behalf of his client he used language which s believed by the bishop to be tabooed by the Catholic church. Hence Father Phe-lan has been charged with several serious lapses from priestly dignity and is cited to appear before a commission to sit in Lincoln on March 2. The citation served apon Father Phelan is as follows:

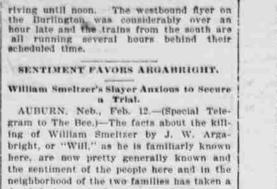

upon Father Phelan is as follows: LINCOLN, Neb., Feb. 9, 1894.—Rev. David S. Phelan, Priest of the Archdiocese of St. Louis, Mo., Lincoln, Neb.: Reverend and Dear Sir—You are hereby cited to appear before the commission of investigation, for criminal and disciplinary carses, of the Lincoln diacese, which will sit in Lyceum hall, in the city of Lincoln, Neb., on Thursday, March 2, of the present year, 1894, at the hour of 10 a. m., and you will then and there be prepared to an-swer to the following charges and specifica-tions, rowit: tions, to-wit: Charge I-Making and reiterating in public

statements grossly disrespectful to the person of RL, Rev. Thomas Bonacum, bishop of Lin-coln, and calculated to lessen in the minds of the faithful due respect of ecclesiastical au-thories.

of RL Rev. Thomas Bonacum, hishop of Lin-coln, and calculated to leason in the minds of the faithful due respect of ecclesiastical au-thority. — Specification 1.—On February 6, of the pres-ent year, you did, in this city, in Justice Spen-err s court and in the presence of many per-sons, declare, affirm and reiterate that Rt. Rev. Thomas Bonacum, bishop of the Lincolt, diocese, was a tiar and had lied mailciously, or words to that effect. — Specification 2.—You likewise, in the afore-said court of this city of Lincoln, on February 7 of the present year, did anoly to the right reverend bishop of the diocese the oppropri-ous epithet, "the artful dodger." — Charge II.—Of zivinggrave and serious scan-dal to the faithful of the city and diocese of Lincoln. Specification: That you did, by your actions referred to in specifications 1 and 2 of the first charge, give grave and serious scan-dal to the faithful of the city and diocese. — Charge II.—Of zivinggrave and serious scan-dal to the faithful of the city and diocese, con-ting a recalcitrant prick in forcing a judge of the civil courts to pass upon ecclesiastical matters without canonical warrant. — Specification 1.—That you did in the afore-said city of Lincoln, in the court of Justice former, on February 6, 7, 8 and 9 of the pres-ent year, encourage, aid and abet one key. M. J. Corbett of this diocese in forcing a civil judge to pass upon ecclesiastical cause, con-trary to all canonical warrant and precedent. — For which charges and specifications you are hereby cited to appear before the aforesaid commission of investigation at the place and date herein mentioned, viz, m the city of Lin-coln, Neb. The case will be conducted accord-ing to the tubes of procedure laid down in the instructions of the sacred congregation, dated alty 10, 1878. Very Rev. E. Hartig, vicar-gen-eral of the Lincoln diocese, will preside at the investigation and the festimony will be re-viewed and judgment promomced by him. This citation is peremptory and final. By o

MAY MANAGE LINCOLN'S TEAM.

The local management of the Lincoln Base Ball club has had some little difficulty in securing a manager for the local team during the coming Western league season. About ten days ago it was announced that McClusky of Montgomery, Ala., would man-age the club, but it has since been learned that Mr. McClusky would not be able to accept the position. Negotiations were ther opened with Buck Ebright, now of California but formerly a well known player in the Western league in the halcyon days of that organization when it was composed of Omaha, Lincoln, Hastings, Denver, Leadville, Topeka, Atchison and St. Joe. Ebright, who was the well known back stop of the Hastings team, proposes to bring a thoroughly equipped team of players from California to L\_\_\_\_\_oln and play it during the coming sea-son. Is proposition has been accepted and a telegrom was forwarded to him today. REINFORCEMENTS FOR THE MAYOR The Salvation army has marched to Lin coln from Omaha to assist Mayor Weir in his crusade against the social evil. The army will endeavor to reclaim the fallen siz terhood as fast as the latter are smoked out by the mayor and his special policemen. Th vork will be in charge of Mrs. Major French of Omaha, whose wide experience in the reclamation of the fallen gives her especial ad-vantages. Mrs. French held a preliminary meeting at the hall in the Young Men Christian association building at 3 o'clocl this afternoon. It is proper to state that the Omaha leader comes to Lincoln at the ear nest solicitation of the members of the Lincoin branch of the Women's Christian Tem perance union, and the two organizations will work in concert. It is proposed to furnish respectable homes for all the residents of the Lincoln half world who will accept then and the ladies expect to raise funds to assis them in carrying out the work. The mayor's crusade will not be inaugurated until Marc and before that date arrives the Christian women of Lincoln expect to have complete all their arrangements for caring for the un-fortunates, who will otherwise be driven into the street or to other cities STATE MORTGAGE RECORD. The reports from the various counties on the farm mortgages filed and released during the year have been compiled by the state the year have been complete by the made abor commissioner and a comparison made with the records of 1892. The showing is a most flattering one. In 1893 there were Inbor a most flattering one. In 1893 there were 23,915 mortgages filed, amounting to \$23, 474,707.56, against 25,780, amounting to \$24, 779.344.47 in 1892. The number of mort-gages satisfied during 1893 was 22,693, amounting to \$16,851,142.70, against 26,970, amounting to \$20,037,064.03 in 1892. Considering the hard times the showing is regarded as remarkable by competent authorities. FAMILY ROW IN COURT.

the sentiment of the people here and in the neighborhood of the two families has taken a decided change in favor of Argabright since Friday night. His father, who is quite wellto-do, is taking an active part in the defense of his son and will see to it that he does not lack for counsel in this matter. The pre-liminary hearing has been set for Saturday, at the request of Argabright, to enable him be represented by the attorney of his olce. Mr. Smeltzer was quite well-to-do. and his family will also employ eminent counsel to assist the prosecution and the trial promises to be a very stubborn fight. The district court meets March 12 and it is now thought that both sides will want a trial

HASTINGS, Feb. 12 .- (Special Telegram to The Bee.)-The Hastings Irrigation Canal and Power company this evening submitted a proposition to the city council asking for an election upon the question of issuing bonds in the sum of \$75,000 to the company. The company agrees to build a canal from the Platte river to Hastings, erect power houses etc. for the generation and distribution of 1,500 horse power, and to furnish the city power for operating water works, elec tric lighting and all other purposes at 50 per cent of the present cost. Work on the canal is to begin within thirty days after the bonds are voted.

The fee book of the sheriff of the county seems to have been doctored by some de-signing person adding about \$220 to his debit ac count with Dodge county. He can not account for it in any other way than that some political enemy has taken this course to throw him into discredit with the people. The forgeries are neatly done and were only discovered by comparing his accounts with the court docket in the office of the district clerk.

The committees appointed to take preliminary action on building a Grand Army hall met today and prepared a report for the meeting of the league on Thursday night The unanimous sentiment was to build a hall two stories in height, the upper for lodge and the lower for entertainment and social purposes. It was the sentiment of the committee to proceed without unnecessary delay to procure the ground and raise the neces-sary money, much of which has been already

LOOKING FOR A BETTER MAN. ohnson of Indiana is Not Running Har-

rison for President.

WASHINGTON, Feb. 12 .- The speech o Representative Johnson of Indiana on the Hawaiian question, in which he justified the course of President Harrison's policy toward Hawaii, has led to the report that Mr. John son voiced the views of Mr. Harrison, Bat the Indiana congressman disavows any such inspiration and his friends have learned that he is not among those who speak for Mr. Harrison or who consider it settled that the ex-president should again be a candidate for the presidency. "It is too early," said Mr. Johnson,

determine on political candidates. I have always been an earnest supporter of Mr Harrison. He is an able man and gave th country an excellent administration. But there are other able men in the party whos availability should be considered. The can didate must be able to draw toward him the people and the leaders of the party. There is a question as to Mr. Harrison's ability to do this, for, however capable he is, he lacks those peculiar traits which attach men to him and solidify all elements. It is rather early, therefore, to name Mr. Harrison as the Indiana candidate for the nomination. have no coubt a good man will be found as the party nominee

### BENHAM OFFICIALLY THANKED.

His Action at Rio Endorsed by the Hou

Committee on Naval Affairs. WASHINGTON, Feb. 12 .- Admiral Benham's course in Brazil has been fully approved by the house committee on naval affairs in the report of a resolution introduced by Representative Money of Mississippi of the foreign affairs committee. The

resolution was: resolution was: Resolved. That the house of representa tives of the United States of America re-gards with pleasure and satisfaction the prompt and energetic action of Rear Admiral Benham on the 27th ult. in the har-bor of Rio de Janeiro, in the performance of his duty to protect Americans and the commerce of the United States.

The committee reported today as follow The committee reported today as follows: This resolution carries with it no privi-leges, as does a vote of thanks, but it is a recognition which the committee thinks de-serving by Admiral Benham, whose action was approved of by foreign commanders in the harbor of Rio at the time and also by the leaders of the foreign press. The Amer-ican people admire decision and firmness in the discharge of such duty as devolved upon Admiral Benham and the committee feels quite sure that the American public will support the reported resputcion.

### Bland's New Silver Scheme.

WASHINGTON, Feb. 12 .- A new turn was given today to the silver discussion in the house by Mr. Bland's announcement that he would move at a later day to amend the pending bill, so that silver certificates would he issued only as fast as silver dollars were coined, with the added authority to the retary of the treasury to issue the certifiin advance of the coinage if he so de-This change is designed to overcome one of the main objections of Secretary Car-lisie to the bill. This objection is shared by many members of the house to such an extent that the passage of the seignlorage bill was in doubt. The change now proposed by Mr. Bland obviates the objections, so that

# Minister Thompson's Dispatch.

WASHINGTON, Feb. 12 .- A dispatch has been received at the State department from Minister Thompson at Rio de Janeiro con cerning the engagement between government and insurgent forces at Nictheroy on Satur-day. The insurgents succeeded in taking it, but were driven back to their ships by the government forces. Da Gama was wounded in the breast and arms, but it is not known how seriously.

Almost the entire Senagambian population of Lincoln gathered in Justice Gould's court this afternoon to listen to the recital of the tribulations of the Sharpenstein family The occasion for the highly colored affair grows out of the somewhat sensationa lopement of Constable Mallory with Miss Tillie Sharpenstein. The girl, who had always borne a good reputation in Lincoln, was induced to accompany Mallory when the latter left his wife and creditors and removed himself to Duluth. A few weeks later the colored Lotharia deserted his com-panion, leaving her to find her way back to Lincoln the best way she could. A weel ago last evening as the giff and her mother were returning from church they were as sailed by a number of neighbors, who roundly abused the girl for her escapade The Sharpenstein family took the matter to the justice courts, and, as a result, Mrs. E Barnett, Mrs. Mallory and Mrs. Lizzie Hardy were arrested and charged with having uttered and used vile and indecent language in the presence of Mrs. Annie Sharpenstein.

RECOVERING FROM THE BLIZZARD. Lincoln is today recovering from the effects of the blinding storm of snow and wind which raged all day yesterday. The Street Railway company was most seriously affected. Heroic efforts were made all day yesterday to keep the lines open, but the success was indifferent. A large force of shovelers was put to work at 9 o'clock last night and at 6 o'clock this morning some

of the principal lines were in pretty fair shape. The lines to College View, Lincoln Normal, Cotner, Hawtherne and West Lin-coln are still closed, but it is believed that cars will be making regular trips by morning. The South Seventeenth street line the penitentiary line and the one to University Place have been running during the greater part of the day, 150 men being em aloved by the company to assist the snow plows in clearing the tracks. The railroad trains have all been late, the Rock Island's train from Omaha, due here at 8:20, not ar-

subscribed. It is proposed to make it a home for the patriotic societies of the city, Tecumsch Brevitics.

### North Platte Religious Services.

NORTH PLATTE, Feb. 12 .- (Special to The Bee.)-During the past three weeks North Platte has experienced a genuine religious shaking up. Union revival services conducted by Rev. A. J. Nathan, have been prolific of much good, but from the "seat of the scornful" considerable gnashing of teeth has been heard. The words and methods of the evangelist have been freely criticised, verbally and through the medium of the local press, but the good work has verse comments. More than 200 person have been converted. The services war been energetically carried on despite ad wer concluded yesterday evening. From From here beat wishes of the Christian people of North
