Empire William came, dined and departed and Prince Bismarck may once more pursue his course in peace.

If all other improvements are knocked in the head for the season the market house and auditorium should be given a fair chance to materialize.

Now let the supreme court buckle down to work and dispose of a few of those important constitutional cases that have been hanging fire for so many months.

There is only one way left for Congressman Bryan to retain his prestige with his Nebraska constituents. Let him induce a few of his faithful followers to burn him in effigy. Honors will then be easy.

What became of those predictions that President Cleveland was about to send the name of Justice Cullen of Brooklyn to the senate as the successor to the late Justice Blatchford? Rather wild guesses.

Boss McKane, just sentenced to six years in the penitentiary for violating the election laws, insists that he never did anything wrong to his knowledge. He would not be a finished criminal if his memory were not as elastic as his conscience.

If the tiger is to be choked by resolution of the police commission, don't make a farce of the business. There should be no favored gambling houses that get tips from police headquarters of intended raids.

Mrs. Cleveland has intimated that she is not in sympathy with the woman suffragists who have been in session at Washington. She has enough to occupy her attention with social and family duties.

Isn't this an inappropriate time to raise the salaries of employees working under the Board of Education? If the school board feels able to incur unnecessary expenses, there can not be much call for the increased tax levy which has demanded of the city council.

The meeting of the Improved Stock Breeders' association at this time will be representative of one of the important industries of the state and one capable of considerable expansion.

Some members of the Board of Health appear to think that the appropriation made for sanitary work is not intended to hold the expenditures of the board within its limits.

The Board of Police Commissioners has resolved that gambling is illegal and should be suppressed. The chief of police now asks what he is expected to do about it and the reply is "Wait another week."

David A. Wells ventures into print to deny that he has the appointment of postmaster at his home in Norwich, Conn., absolutely within his gift.

The various business men's organizations in this city should immediately take up the question of celebrating the twenty-fifth anniversary of the completion of the Union Pacific railroad, which occurs May 10 of this year.

Mr. Churchill volunteered to defend Sam Macloed against charges of negligence and incompetency as a matter of principle and then has Macloed present a claim for \$200 against the school board for his attorney fee.

NO HASTE TO DISMEMBER NEBRASKA.

The plan to dismember the state of Nebraska and to annex the northwestern portion of the state to Wyoming, which was launched upon the irrigation convention at Gering, is much easier proposed than perfected.

The proposition is substantially this: To separate the nine counties of Butler, Box Butte, Cheyenne, Dawes, Deuel, Kimball, Scott's Bluff, Sheridan and Sioux from Nebraska and hand them over to Wyoming on the specious plea that their interests as regards irrigation will be better subserved by such a procedure.

It is argued that the demands of this semi-arid portion of the state are not listened to with the desired attentiveness by the people who are blessed with homes in more favored districts, and that sympathy with the irrigation idea is lamentably wanting.

That once accomplished and legislation will rain down upon the sun-dried foothills a shower that will transform them into a garden of Eden.

The nine counties which constitute the panhandle extend over more than 14,500 square miles of land, or nearly a fifth of the entire area of Nebraska. To be sure, they are but sparsely populated and have a much smaller relative importance in estimating the resources of the state.

Under the constitution of Nebraska and its cumbersome, out-of-date methods, the state must select a man for attorney general who knows more about the prices and qualities of groceries, drugs, nails, dry goods and notions than he does of law.

THE HOME MARKET.

There are many people who talk as if all the trade of this country that is worth speaking of is with foreign nations; and yet the last fiscal year was only \$1,630,886,911, while the domestic trade, which engrosses all the people's money, was \$10,000,000,000.

PERSONAL AND OTHERWISE.

Mr. Lease now threatens to break into the ranks of Masonry. Confirmation of the reported compound fracture of the spine of winter is unavoidably delayed.

There are periods in the lives of coal dealers when the piratical weather flag produces a chill of joy. It is not the weather that is reported to have made a bad day of it, but the fact that the weather is so good.

BROWNING, KING & CO. The largest makers and sellers of fine clothes on earth. Your money's worth or your money back.

My Mamma told me To never get out of style, and I've been in it ever since. I didn't get this outfit at B. K. & Co's because their man insisted upon selling me clothes that fit, and when I got something picked out two sizes too long for me he wouldn't let me have it, because they never let anything go out of the store unless it fits perfectly. They are cutting and slashing the prices to beat all this month. That suit they sell for \$8.50 is a darling. I stood my tailor off for one like it not long ago and he's been trying to collect a bill for \$35 from me ever since. They cut like that all over the store. BROWNING, KING & CO., 11 S. W. Cor. 15th and Douglas Sts.
