CHARGES AND COUNTER CHARGES MADE

Senator Chandler of New Hampshire Precipitates the Row.

TARIFF MATTERS RESPONSIBLE FOR IT

Mills and McPherson's Relation to the Finance Committee Helps the Row Along—Senator White of California on the Hawaiian Question.

WASHINGTON, Feb. 21.—The tariff question came up in quite an unexpected way in the senate today and for two hours it held the floor, to the exclusion of all other business. The matter was indirectly alluded to by Senator Voorhees, who arose to a question of privilege to deny a newspaper statement indicating that the democratic members of the finance committee were submitting to the president declarations in matters relating to the tariff bill. After this denial by Senator Voorhees Senator Chandler of New Hampshire precipitated the discussion of the day by an inquiry as to the part that Senator Mills is performing in the consideration of the bill in committee, and whether he is still acting as the proxy of Senator McPherson since the latter's return to the senate.

ENDED ON HAWAII

At 2:50, after the discussion had taken a wide range and several senators on both sides had taken part, Senator White of California took the floor to speak on the Hawaiian question. Mr. White's speech was a criticism of the conduct of Minister Stevens and claimed that upon undisputed record ample proof was found that he had been guilty of a gross violation of the law. He declared that he should not be made, because the provisional government had not been able to execute its engagements. He referred to the circumstances that he once pretended that Dole would be maintained as the president of the Hawaiian republic. He commented severely upon the conduct of President Harrison in attempting to procure the ratification of this treaty with such haste and without the usual formalities. He stated that he had been in Honolulu, Hawaii, during the Hawaiian revolution, and that he had seen the Hawaiian flag and the Hawaiian people. He stated that he had seen the Hawaiian flag and the Hawaiian people. He stated that he had seen the Hawaiian flag and the Hawaiian people.

MORGAN ON HAWAII

His Report Endorsed by the Republicans of the Foreign Affairs Committee. WASHINGTON, Feb. 21.—Senator Morgan submitted the report he has been preparing on Hawaii to the full committee on foreign relations today and it was adopted by a majority vote. The four republican members voted for it and the four democrats voted against it. These four democrats will prepare a minority report next Monday morning. The republican members of the committee do not fully concur in the report prepared by Mr. Morgan, which, though it does not criticize Mr. Stevens, leans toward annexation and generally favors the policy of the late administration. Neither does it criticize in an vigorous terms the republicans who are in the present administration, though it is drawn in such language that the republicans can subscribe to it, even if it does not go quite as far as desired. It is much more in line with what they first anticipated. All the testimony will be submitted with the report next Monday.

Will Take Another Trip

WASHINGTON, Feb. 21.—It is understood to be quite probable that President Cleveland will leave the city the last of this week for a short outing. The sounds of North Carolina, where there is good gunning and fishing, is said to be his destination.

ARMACAO FORTS RESTORED

Government Fortifications Are Again in Shape for Defense.

QUICK WORK ON BRAZILIAN BATTERIES

Alexandrine d'Alencar Commanding the Rebel Navy While da Gama is Sick and de Mello Absent—Insurgents Still Gain in the South.

(Special Brazilian Dispatch—Copyrighted, 1894, by the Associated Press.)

RIO DE JANEIRO, Feb. 21.—The Armacao batteries which were destroyed by the rebels during the battle of February 9 when the government lost, now appears, over 700 men, have been restored. The insurgents, whose loss was only about 300, were not driven off until they had burned the arsenal and captured eighteen guns.

During the continued disability of Admiral da Gama Alexandrine d'Alencar has been in command while awaiting the return of Admiral de Mello, who is still said to have reached here on board the Republic.

The rebel force is now said to have been reduced to 500 men and a number of these are more or less severely wounded. It is not believed to be possible for the rebels to undertake any further operations on land until the fleet is strongly reinforced.

News from the Nietheroy is expected hourly, and concerning the rest of President Peixoto's fleet there are two stories in circulation. According to one, the torpedo fleet is in bad shape and there is little or no chance of a naval battle being fought. The second story has it that the torpedo fleet is moving in the south in order to join the Nietheroy and that news of an important nature will shortly be heard.

Reports from the south still seem to show gains for the rebels.

American prestige, owing to the determined action of Admiral Benham, is now very high in Brazil. Admiral da Gama has issued a circular saying that the Republic and the Marcell Diaz engaged the government warships Bahia and Ipaia off Santa Catharina and that the Bahia and the Diaz were sunk and Ipaia captured. The Trident alone escaped. The Republic was only slightly disabled. Nobody here believes the story.

An attempt was made on the night of the 14th by secret partisans of Admiral de Mello to blow up the headquarters of the American journal, Tempo, in this city, with dynamite. The attempt was unsuccessful.

RAN THE BATTERIES.

The rebel cruiser Aquidaban left the bay at 4 o'clock this morning in order to join the rebel warship Republica, having on board, according to report, Admiral de Mello, and which was then said to be off the entrance to the bay. The Aquidaban got under way during the darkness and at a speed of eight knots she steamed through the channel toward the harbor's entrance, and as if no such thing as torpedoes and submarine mines were in existence.

On hearing the forts at the entrance of the bay by the rebel warships, the Aquidaban and the garrisons of the posts called to arms. A hot fire was soon directed upon her, but the Aquidaban steamed steadily ahead and succeeded in passing the forts.

The Aquidaban was struck several times. The forts kept firing at the Aquidaban until she was out of range, but it is not believed that any serious damage was inflicted upon her. At a distance of four miles from the Aquidaban her consort, the Republica, and both vessels steamed on a southerly direction.

It is reported that the rebel warships have gone in search of the Nietheroy and that the latter is not very far off. It is also reported that an American warship and one or more foreign vessels, including the Aquidaban and Republica, in order to witness the engagement between these vessels and the Nietheroy, are bound for Santos. According to another story she is off Santos.

Heavy Fire from the Forts Prevent the Republic from Entering Rio Bay.

The instrument used was a bomb made of gas pipe, sections of which were bound together in the superstructure of the bridge twenty-five feet from the spot of the explosion. The bridge is not badly damaged, although the concussion smashed windows and broke open doors of neighboring houses, and tore down telephone and electric lines. Many people in the vicinity at first thought it was an earthquake, and rushed from their homes panicking, and not realizing that it was election night.

The foreign consuls have lodged with the government protests against this action.

VETERANS RUSH BUSINESS

Much Routine Work Done at the Grand Army Encampment.

OLD TIME CAMP FIRE IN THE EVENING

Commander Church Delivers an Interesting Address to His Comrades—Nebraska Politicians Conspicuous by Their Absence—Walt Seeley Was Lonesome.

LINCOLN, Feb. 21.—(Special Telegram to The Bee.)—The seventeenth annual encampment of the Nebraska department of the Grand Army of the Republic assembled at Representative Hall shortly before noon today with but a fair attendance of delegates. Today's proceedings were entirely of a routine nature and nothing of public interest developed. One or two temporary committees were appointed and then the reports of the officers were received and referred.

Commander A. H. Church, in delivering the annual address, welcomed the veterans to Lincoln. Alluding to the inroads of time in their ranks, he said: "As the years roll on we drift farther and farther from the scenes of the great struggle for national existence and human liberty in which we were engaged and the ties of comradeship, welded in the heat of battle, become stronger and stronger and, being more lasting than our earthly pilgrimage, entitle us to comradeship in the grand army above. With the gathered years have gone many of the material features of the late rebellion. Gone, may be said to have been the grand old days of the great struggle. Time, the great healer, and nature, the sweet restorer, are laboring hard in hand to effect the traces of conflict and hostilities which we were engaged in the heat of battle, become stronger and stronger and, being more lasting than our earthly pilgrimage, entitle us to comradeship in the grand army above.
