Jennie Richardson was given fifteen days in the county jail yesterday for the larceny of \$4 from a man named Smith. Pat Sulli-van and Thomas Mulligan were sent up for ten days on the streets for vagrancy.

A party was given at Chambers' hall last evening by a number of young men of the city to their lady friends. The Trogadero orchestra of Chicago had been engaged for the occasion, and furnished beautiful music. A large number were in attendance, and the iffair was quite a relief to the Council Bluffs helles, whose Lenten scruples were beginning to wear upon them.

An entertainment was given last evening by Miss Stella Stanton at the Odd Fellows under the auspices of the Rebekah lodge. Miss Stanton is a very pretty and talented young lady, and her program of recitations was enthusiastically received. The last part of the program consisted of exercises in artistic posing, which were very gracefully done. The Baptist orchestra ndered some fine selections during the evening.

Some of the clerks of registration seem to have forgotten to return the registration books to the city clerk, and A. T. Whittle-sey, who was employed by the school board to make out the lists for use at the polls next Monday, is having a good deal of trou-ble as the result. The books from the Second precinct of the Second ward and the First precinct of the Sixth are missing. Articles of incorporation were filed yester-day by the Midland Correspondence School of Pedagogues. The place of business is to be in this city, and the object is to give instruction to students which will fit them becoming intelligent and successful hers. Citizens' Convention Held Under the Auspices McAtee Will Contest Gorham's Claim to the of the Local Populists.

The "citizens' convention" at the court iouse to nominate candidates for the school board was not a glittering success, either in point of attendance or in amount of work done. Less than forty were present, and many of those were there simply len met at the council chamber yesterday as interested spectators. The rest were afternoon for the purpose of making the offipopulists. John Ahles made a speech t populats. John Anles made a speech to open things up, in which he hotly roasted the democrats for foisting upon the public a so-called "nonpartisan" ticket, composed of one republican and one democrat. He also ies were present, among them being J. J. roasted everybody in general for the abuses Shea, who represented S. T. McAtee, demosaid existed in school board matwhich he

Hutchin When on, the chairman of the committee on reso lutions, read a set of resolutions, which in substance protested against mere show and neaningless parade, such as building new buildings, and particularly an \$80, 00 High school, when the buildings now i xistence will accommodate 5,000 pupils while there are less than 3,000 enrolled in the schools. It declared that teachers should be chosen for their ability, and not on account of personal friendships, and ad ocated a reduction of salaries whereve uch a thing was possible. It denounce he organization known as "High School as likely to result in the formation Cadets. of a military despotism. It denounced th

rintendent for changing books frequently in the interest of the book trust. It adve cated the idea of the board carrying its own insurance, and said that in the event of the High school building being sold, the questio ould be submitted to the voters to decide upon the price. This set of resolutions was adopted and

the candidates who should be chosen were pledged to cary out the resolution to the letter. But after the candidates had been pledged, the convention found itself in the rather embarrassing position of not being able to find any candidates to run. One after another was named, but either person-ally or by his friends refused to run. Much time was taken up in hagging over one thing or another, and the convention finally adjourned until Saturday evening in the hope that by that time Providence would provide

a lamb or two for the sacrifice. Domestic scap outlasts cheap scap.

Will Try to Defeat the Compromise Measure in the Senate by Londing the Bill with Obnoxious Amendments.

DES MOINES, March S .- (Special Telegram to The Bee.)-In the senate the Carpenter local option bill was taken up as a special order at the morning session. Senator Funk, chairman of the committee on the suppression of intemperance led the debate. He said, among other things, that the republican party in convention assembled last August, had deliberately decided to abandon state wide prohibition, and that every republican senator, no matter what

might be his personal views, was bound by the party declaration on this question. The pending bill, in his judgment, embodied the expressed will of the party in question. The and should receive the loyal support of every republican senator who believed in keeping faith with the people. The bill was taken up in the afternoon session by sections Senator Groneweg moved to substitute the democratic caucus bill, but no vote was taken on this proposition. On motion of Senator Ellis, the number of inhabitants in city authorized to take advantage of this law without the sanction of the county, was

reduced from 7,000 to 5,000. The prohibitionists led by Finn and Rowen

savagely attacked the bill and sought t till it by loading it down with amendments. The senator from Taylor moved to add a provision requiring signatures of all women over 21 in order to call an election also to authorize women to vote on the propo sition when submitted. Both were los a vote of 15 to 18. Those voting to Both were lost by eat the bill in this manner were Andrews. The demo-crats sat silently in their seats and declined new schedule was the best possible from the company's standpoint, and explaining fully o vote. Amendments were added confinthe proposed changes. The men were no satisfied and retired for consultation. After the consultation Grand Chief Arthur recoming sales to the hours between 6 a. m. and 10 p. m. and refusing permits to any party convicted of violating the present law, all proposed by friends of the measure. Ninemended the acceptance of the new schedule, stating that it was better than that of any teen of the twenty-four sections were gond other northwestern road. He expressed the over in this manner and Senstor Brower opinion that the gave notice that he would move the preaccept. night it seems his advice has been accepted and the men will offer no further opposition. In an interview this afternoon on the vious question tomorrow, but it is not be lieved that a vote can be reached tomorrow In the house the session was consumed by democrats speaking in favor of substiquestion of strikes, Mr. Arthur said that his organization had for six years been pay-

tuting the Robinson local option measure for the pending mulct bill. Mr. Robinson defended the measure at length, followed by Taylor of Davis and Snake of Cedar, all claiming that local option was the true solution of the question. A vote on substituting this bill will be reached tomorrow. A bill was introduced by Rowen in th

genate providing for the summary suspension from office of all officials who failed to enforce the prohibitory law.

Costs should be as-sessed as in other cases. The judgment for fine and costs shall be a lien against all the property of the defendant in the county not exempt from execution. Execution on any such judgment shall be issued as in similar cases. Appeals to the supreme court may be taken and shall be tried as in other cases. The rules of practice and the statutes in force at the time applying to other like actions and proceedings shall be applicable in proceedings under this article o far as they are not in conflict with the foregoing provisions.

DISTURBED BY THE TAX-LEVY,

Shall the tax levy for the coming bien-nial period be increased or not, is the question that will be settled by the house in a few days. The anti-monopoly legislatures of 1888 and 1890, after paying off nearly \$750,000 of debts by the exercise of rigid economy, were enabled to strike off the half mill extra state levy that was made to create a sinking fund to meet the extraordinary expenses, arising from the erection of the new capitol building. The ta The tax levy was not reduced without a strong pro test on the part of special interests that asked for liberal appropriations, which, though defeated at the time, have so in-creased their demands for new public buildings and other expenditures of an extra-ordinary nature that an increase in the rate of assessment to 2½ mills must either follow or all improvements in this direction must stop short. The house committee on ways and means decided against an in-crease, but the lobby insisted on forcing the issue on the floor of the house.

The revised revenue bill now pending in both houses has drawn the fire of the largest and most determined lobby ever assembled here. The clause doubling the taxes of all slack fire insurance companies organized under the laws of this state and taxing mutual life insurance companies, appear to be very objectionable to these interests. The railroads are strongly opposed to having their gross earnings made a factor in fixing their assessments, fearing it would result in largely increasing their taxes in this state. As these are the main features of the bill, it is almost certain that they will be able to sidetrack the measure either in the house or senate. Two sessions will be held daily in both houses, commencing with next Monday, and an effort made to reach final adjournment at an early day.
