

IN THE INTERESTS OF OMAHA

Commercial Club and Board of Trade May Combine Their Forces.

ACTION MAY BE TAKEN TOMORROW

Full Text of the Resolutions Which Will Be Presented as the Terms of the Union—Step that Has Been Contemplated for Some Time.

Mr. W. A. L. Gibben's presidency of both the Commercial club and the Board of Trade has for several months hinted at a consummation which efforts will now be made to bring about without further delay. The plan is that the Commercial club shall absorb the membership of the Board of Trade. Yesterday a member of the latter body prepared a set of resolutions which will be presented to the Board of Trade at a meeting to be held tomorrow.

The resolutions authorize the payment from Board of Trade funds of \$5 quarterly for each and every member of the Board of Trade, to be paid into the coffers of the Commercial club—each member of the former to receive in return a certificate of membership in the Commercial club. This money aggregates quite a sum. It means \$1,000 quarterly to boost the finances of the Commercial club, the cash to be paid from the net income of the Board of Trade after all other expenses are paid.

The following is the text of the resolutions which will be presented:

Whereas, The Omaha Board of Trade is a corporate body created for specific work under the laws of the state of Nebraska, and

Whereas, The said specific work, as defined in article 21 of the articles of incorporation, read as follows:

"The object and purpose of said corporation shall be to promote the commercial, manufacturing and general interests of the city of Omaha, and establish commercial and financial exchanges therein, and it shall have and exercise such corporate powers as may be necessary and convenient to that end, including the power to acquire and hold such real estate as may be necessary to accomplish its corporate purposes;" and

Whereas, The revenues now being derived from the real estate possession of the board are sufficiently large to meet the interest on the bonded indebtedness (\$50,000), cost of maintaining insurance rates, salaries, etc., and leave a surplus; therefore, be it

Resolved, That the net income of the Board of Trade, after paying all necessary and legitimate expenses for interest, taxes, maintenance, salaries, etc., be disposed of as follows:

First, To more perfectly carry out the object of the corporation as set forth in article 21 of articles of incorporation, that the sum of five dollars (\$5) quarterly for each and every member of the Board of Trade in good standing be paid to the Commercial club of Omaha to aid said club in the work of upbuilding and developing Omaha's commercial and industrial interests through its organized bureaus and officers.

Second, Any surplus accruing after the aforesaid disbursements shall be placed in a sinking fund in some bank to be selected by the finance committee, for the purpose of paying off the bonded indebtedness; and be it further

Resolved, That this said quarterly disbursement and deposit shall be made commencing April 1 next, July 1, October 1, etc., and to continue the same each succeeding quarter as long as the Commercial club shall, in the judgment of the board of directors of the Board of Trade, continue to maintain its present high standard of organization and vigorous work; and be it further

Resolved, That this contribution of five dollars (\$5) per quarter aforesaid shall be conditional on each member of the Board of Trade in good standing receiving a certificate of membership from the Commercial club, entitling said member to all the privileges and advantages of said club, and to continue as long as said quarterly contribution as aforesaid shall be paid by the Board of Trade to the Commercial club.

This means a gift of \$5,000 for the year 1894 to the Commercial club. Membership certificates in the latter cost \$20. By paying for these quarterly, in \$5 installments, each of the 200 members of the Board of Trade become the full-fledged possessors of a piece of paper with gilt seal thereon and bearing the signatures of the officers of the Commercial club.

MAKING A COMPROMISE.

Only Hope for the Pontoon Bridge Over the Missouri at Sioux City.

Dixon, Dakota and Thurston county people, who have urged congress to pass the bill allowing the construction of a pontoon bridge across the Missouri river at Sioux City, will be interested in this letter from Senator Maudsloni:

UNITED STATES SENATE, WASHINGTON, March 2.—Your favor of recent date is received. The two bills in regard to the extension of time to the permanent bridge to be built at Sioux City, Ia., and chartering the pontoon bridge which now exists, passed the house of representatives without any one seeming to know very much about them. When they reached the senate, however, there was at once a great deal of disturbance, not only in the senate committee on commerce, but among senators on the floor.

The Iowa senators and a large number of eastern senators, who represent constituents who have loaned money to the permanent bridge company, object to the charter of the pontoon bridge for the reason that it is an abstraction to navigation, and that it secures their efforts to obtain money to finish the permanent bridge. So much disturbance has been raised over the matter that it will be impossible to pass the two bills as they come from the house. As an adjustment of the matter I have proposed that the two years extension of time be granted to the permanent bridge company, and that the existing pontoon bridge (which is likely to be removed at any time, not having been chartered by congress), be chartered by the bill to remain until the permanent bridge is completed and in operation.

The bill in this form can probably pass, but without such amendment it would fail. This compromise of the matter, and has been substantially agreed upon between Representative McKeljohn, Senator Allen and myself.

CHARLES F. MANDERSON.

FOUR MILE GOLD FIELDS.

Work on the Placer Ground in This Wyoming District Soon to Start.

DIXON, Wyo., March 3.—(Special to The Bee.)—Preparations are being made to commence work at the Four Mile gold placer mining district within the next two weeks. J. D. Hunt, representing the owners of what is known as the "burlap process" for saving fine gold is here at work on the boxes, and thinks that the process will save all the gold in this district. If such proves to be the case this will make one of the richest placer fields in the west, there being a scope of country thirty miles wide by forty or fifty miles long that carries gold in the sand.

from grass roots to bedrock, which in some instances is eighteen feet below the surface. One peculiarity of the gold found in the Four Mile district is, while some of it is very fine, it is not what is known as flake or flour gold, but when the colors are placed under a glass they show distinctly of a lumpy nature.

Frank A. Hinman, superintendent and resident manager for the Four Mile Placer Mining company, is busy getting material on the ground, and told the writer that if the weather continued warm they would be ready to commence work in a week's time.

The snow is disappearing very fast all over the placer grounds, and it is believed that the camp will be in active operations at least a month earlier than last year.

William Nelson, who has some extra good claims just above the Four Mile company's, took out lumber last week to build sluice boxes, and will take advantage of the melting snow in the district to commence work.

Columbian Guards Have Struck.

CHICAGO, March 10.—The World's fair grounds are guarded today by but eight men as the result of a strike of the remnant of the Columbian guard because a popular sergeant was dismissed and an unpopular officer kept in the service.

MONDAY MORNING

- Lubin's perfumes, 17c ounce.
- Florida water, 17c bottle.
- Machine oil, 5c bottle.

THESE THREE—It rarely ever falls to the lot of a merchant to make so many fortunate purchases as we have consummated in the past thirty days, and never have the people received so many bargains of rare value as they have during our great sales. But this, our last triple effort, is proving to be successful beyond our fondest anticipation. We had more people in our store and sold more goods yesterday—though our profit was not much—than at any time since the beginning of our great business. We must do the greatest business. Our store, our stock, our investment, demands it. But we again invite your attention to glance at some of the most wonderful bargains of this sale, which includes the Wellington dry goods stock, the Kellogg men's furnishing goods stock and the Vodrey & Bros. crockery stock, all bought at 50c on the dollar, and to be sold out at half value. These goods won't last after this week. These prices will certainly close them out. All fresh goods closed out by us being the best goods of the above 3 wholesale houses.

Cloaks—Advance Sale.
Beginning of the greatest advance sale of Cloaks ever known in new Spring Jackets and Capes. See these four leaders,
