Walters Will Be Chief. Local politicians and some other people are

Interesting themselves in finding out who the council will appoint to the position of chie? of the fire department, street commissioner, poll tax collector and other minor places. It is given out cold that the next chief of the fire department will be C. D. Walters who distinguished himself in that position under the old Vaughan regime. It is said that he has pledged to his support Aldermer Spetman, Grahl, Rishton and one other demo crat whom they refuse to name. His only opponent, they say, is Chief Nicholson, who has Aldermen Keller and White pledged and a big pull on one or two other mem-bers. For street commissioner they have picked out Henry Knepher, and it is said that he will have the united support of ah the democratic members. For pell tax collector A. J. McLaren has been decided upon and will receive the vote of the democrata unless some other man with a stronger pull bobs up and demands to be fixed.

The chief public interest will be attached

to the fire department, and it is quite pos-sible that a popular effort will be made to smash the democratic slate already made. Marshal Templeton, who was unquestionably the best chief the department has ever had is in the field, and he will be backed by a popular demand upon the council to elect him to the position.

Police Force Given an Opportunity to Practice on a Flying Target.

His Latest Experience with Constable Jackson Affords Amusement to a Large

Crowd-Everybody in Danger but

the Fleeing Prisoner.

BOB LIMERICK ESCAPES MANY BULLETS

If there is any distinction in being shot at frequently and shot at with the intention of doing great bodily injury or anything else that might happens to result from the collision of a man and a bullet, then Bob Limerick is entitled to be called a distinguished man. In his numerous efforts to avoid arrest he has given a number of the members of the police force an opportunity to use him as a flying target, but always without any results, until Officer Murphy amputated a ittle finger at 100 paces while Limerick was disappearing in a cornfield in the direction

of Manawa a few days ago. Yesterday he concluded to give the county enstables a chance to try their guns on him. E. W. Jackson was the man he picked out to do the shooting, and the opportunity was given when Jackson was returning to the county jail after taking him up to Justice Field's court to testify in the case of Kerns and Harris, who were suposed to be implicated with him in the recent atenpt to rob Mrs. Fields in her husband's

Jackson had placed Limerick in his buggy, and when near the corner of First avenue Limerick threw his feet over the wheels and jumped out. Jo Jackson abandoned his horse and started after him. For several blocks it was a hot race, with all the chances in favor of Limerick. After calling upon him to halt several times Jackson began to shoot and 38-callber bullets were singing merry unes around the flying man. He seemed to ike it, for instead of breaking straight away e ran around in a big circle, with Jackson n the center. The shooting attracted a big growd, but no one wanted to get in the immediate vicinity of Limerick for fear they might come into contact with one of the enstable's bullets. Near the Crystal mills ing a fair chance to get away when he ran into the arms of C. S. Colby, late populist candidate for marshal, and was held until the constable came up. An examination failed to reveal the marks of any of the bullets on Limerick's body and he was taken back to the county jail instead of the under taker's office, as hundreds of people con fidently expected he would be.

Judge McGee Will Pass Upon the Transient Business Ordinance. Judge McGee heard the evidence yesterday norning in the case of the city against A. Bartlett, the gentleman from Des Moines who opened a temporary book store here and was arrested for his alleged failure to comply with all of the ordinances intended for the regulation of such traffic and the protection of local merchants. The evidence on the part of the city showed that Mr. Bart-lett had fitted up a room at 536 Broadway and had put in a stock of books, and was selling them during the evening at auction and at private sale through the day; that

the fixtures of the room were of a temporary

character and that the general appearance of

the store gave evidence of the transient na-

ture of the business. City Attorney Hazelton conducted the prosecution and Flickinger Bros. looked after the defenze. Bartlett himself was the only witness examined by the defense. the only witness examined by the defense. His statement of the facts was that he came here from Des Moines hunting for a location, that he liked the appearance of the town and thought he could sell some books here. The first thing he did was to go to the city clerk and inquire about the license. He asked the clerk for an auctioneer's license, and received and paid for a decement that entitled him to defor a document that entitled him to do business until July 1. He testified that he asked the clerk if there was any other license required and was told that this was all. Upon the strength of this he rented a room and ordered his goods to be shipped from Des Moines. The cargo comprised over eight tons. Immediately after opening he was served with notice that his license had been revoked for the reason that it was obtained under false pretenses should have taken out a transient license. He testified that he had

dealer's license. He testified that he had rented the store by the month, but could not tell how long he would remain in busi-The arguments were made to the court at the afternoon session. The city attorney argued that the ordinance was constitutional and a necessary protection of local merchants; that it did not interfere with state statutes or the interstate commerce law, for it specifically named transient and nonresident loalers. The attorneys for the defense claimed that the evidence failed to show that Bartlett was a transient dealer and that the partiett was a transient dealer and that the transient ordinance was illegal, for the reason that it proposed unequal taxation, \$40 a year for one man and \$400 for another; that taxes could only be legally assessed for police and municipal purposes, when the

rdinance made each merchant pay his pro rata portion. Judge McGee took the case under advise-nent, and it is supposed will render his decision this morning.

Remembered His Duty. An old horse, formerly a member of the fire department, gave a great exhibition yesterday of his ability to still run with the machine. When an alarm of fire was sounded he was standing hitched to a light delivery wagon, used in peddling coal oil and gasoline by Barton Bros. When the hose carts re-sponded, one of them, headed by Chiel Nicholson's wagon, passed near him. The old spirit setzed him and away he went taking his position in the procession immediately behind the chief. The oil cans were dancing like corks and jumping out of the wagon at both ends, but the old horse

reckoned not on the consequences of distributing the stuff in the vicinity of a fire. There was no chance of stopping him and Chief Nicholson concluded that the safest plan was to lead him away from the fire. He turned up High street and the old horse followed him with the greatest enthusiasm. Near the top of the hill at St. Peter's church the chief turned his buggy in toward the curb on the left hand side as if to stop. The driverless horse made a sweeping turn on the opposite side, and seemed to be looking for the hydrant that he thought ought to be

for the hydrant that he thought ought to be there. The turn sent the remainder of the cans tumbling out of the wagon ento the pavement. The racket frightened him into temporarily forgetting his duty, and he finished up his freak with a first class run-away, that left but little of the wagon and Barn Door Advertising.

How many have ever thought what unsightliness this gives to our city Isn't it time that Council Bluffs lifts her self above such tolerance of barn door spectaculars? If there is no ordinance against such custom the writer would suggest that one be passed, and with a provise that the patrolmen arrest any one caugh at such vandalism. Fire in the Heart of Chicago Stops the Play at the Schiller.

CHICAGO, March 16 .- Fire broke out in the four-story building, 48 to 54 Dearborn street, late last night and in fifteen minates had ignited the adjoining building, the old Atheneum, doing damage to the building and contents of about \$70,000. E. Vallens & Co., tobacconists, are the principal losers, their loss being \$50,000, partly insured. The wind carried the fire to the rear of the Schiller theater building, doing damage estimated at \$10,000. The curtain had not gone up for the last act when the uditorium became filled with smoke. The auditorium became filled with smoke. The audience started for the street in some-what of a panic, but Manager Pricer stepped to the footlights and succeeded in quieting the fears of the people. The audience was then quietly dismissed, as the dense smoke made it impossible to proceed with the performance.

MECCA COMPOUND. The Sovereign Ranaly for Burns.

Instantly relieves all pain and heals without scarring. Endorsed by the medical faculty and multitudes of people whose sufferings it has relieved.

Two children, grandchildren of Mrs. I. Skinkle, residing on Second avenue, Council Bluffs, were badly scalded with hot water. The family physician had them both dressed with Mecca Compound, and as soon as it was applied they ceased crying, and the youngest, a babe of 15 months, soon after fell into a peaceful sleep. Mrs. Skinkle says although both were badly burned, yet after the application of the compound they suffered but little, ate well, slept sound, and in three weeks time were entirely healed, with scarce a mark remaining. I am an old nurse of many years experience, but I never saw any thing to compare with Mecca Compound for burns, nor in fact for cuts and surface wounds of any kind. One bad case of a cut becoming poisoned and putrid was permanently cured by a few applications of Mecca Compound, while Carbolle Salve, Indian Salve, and one of my own make seemingly had no effect in a three weeks trial, but was constantly growing worse. I could tell of many wonderful cures effected by Mecca Compound.

GET STRONG---'TIS SPRING.

Paine's Celery Compound the Remedy That Makes People Well.

Marcheis, in fact, the first month in the January stands first in the calendar only

or convenience of business. Now is the time to get well!

Through the long winter most men and vomen do not taste fresh air nor drink in sunlight oftener than once a week or once fortnight. It is no wonder so many hard-working men and women approach spring with a feeling of

weakness and debility and a languor of mind

they cannot shake off without the assistance

of a blood purifier and a true food for the nerves and brain.
Beyond a doubt the best spring medicine s Paine's celery compound. When its use liseases loosen their hold in the spring. These are the favorable months for attacking rheamatism, lumbago, nervous diseases and weakness of the digestive organs—and

Paine's celery compound cures them where everything else fails. The most eminent professor, and a man of tremendous experience, Prof. Edward E. Phelps, M. D., LL. D., discovered the formula for Paine's celery compound in the famous laboratory connected with the Dart-mouth medical school. It is the remarkable outcome of the century's study of blood and nerves, and their close dependence upon each

other for health.

But remember the time-worn text: "Spring comes but once a year." Take advantage of the favorable season. Get well and strong and free from the allments that come from oor blood and worn-out nerves. Changes in the blood and nervous tissues take place very rapidly at this time. In March and April the blood is most capable of throwing ff its impurities.

Purify the blood and invigorate the ner

Hard times and overwork are best met with Paine's celery compound. Indigestion yields to a reasonable care in taking Paine's celery compound. Liver and kidney troubles will not persist when only pure blood flows through these important organs. The cure of diseases of the stomach and nerves by Paine's celery compound starts at the very cause of the trouble; thin, watery blood, and jangled, shaky nerves.

Thousands of overworked business men

and hosts of plain, hard-working people are today strong and happy whose lives were full of wretchedness and weakness before trying Paine's celery compound. Disorders of the liver, stomach and kid-neys can now be thoroughly driven out of the system by Paine's celery compound, the remedy that makes people well.

At the first indication of nervous weakness and a "run down" condition of the sys-tem, tone up the stemach with Paine's celery compound, regulate the nervous system Try it and be convinced.

Try it and be convinced.

One of the best known young men of Holyoke, Mass., Mr. J. E. Moyett, whose likeness is given above, writes frankly:

"I have taken Paine's celery compound and found it to be the best medicine that I have ever taken. I felt weak and run down and could not eat anything in the morning, also had a vomiting spell every morning after getting up. I took part of two bottles of Paine's celery compound and feel better than I have for a year. I can cheerfully recommend it to any one. My wife is taking it now for weakness and nervousness, and it helps her very much. The druggist where we trade tells my wife that Paine's celery

compound outsells any other medicine that That is the story from one end of the country to the other; because Paine's celery
