AFFAIRS AT SOUTH OMAHA. Annual Blooded Horse Sale—What the Antis are bringing.

The annual sale of blooded horses at the stock yards began under most favorable auspices insofar as horses and buyers were concerned, but the weather was so disagreeable that the sales had to be conducted under cover.

Horse men are here from all parts of the country and the large barn is filled with specially raised of every description. One string of horses owned by W. A. Paxton, Jr., of Omaha sold as follows:

All the doors and windows were securely fastened, and how the individual effected an entrance in what is bothering Mr. Kohl and the police. In addition to the money the thief took 500 cigars and a quantity of liquor.

BLOWING A BIG BLIZZARD

Nebraska Pioneers Startled by the Fierceness of the Weather.

STORM SWEEPING DOWN FROM THE WEST

Snow Six Feet Deep Reported from Colorado and Wyoming, with Enough in Northwestern Nebraska to Lay Out All Railroad Trains.

A blizzard is raging in the northwest and is playing havoc with the moving of trains on the Burlington system, the telegrams received at headquarters indicating that from Seneca, Neb., to Sheridan, Wyo., a storm of unusually large proportions was raging.

At Gillette and Sheridan it is reported the cuts are jammed with the "beautiful" to such an extent that all trains have to halt at division points.

From Spearfish, S. D., comes the report that quite four feet of snow has fallen there in the last twenty-four hours and the thermometer registers about 12 degrees above, with prospects of considerably colder weather before the Burlington system, the telegrams received from points all over the Burlington system it is learned that light snows and rains are prevailing and the thermometer running down.

The Union Pacific has not been so hard hit as the Burlington, although telegrams announce that quite six feet of snow has fallen in the last forty-eight hours west of Pine Bluffs, the blizzard extending from Lexington westward.

So general has been the fall of snow between North Platte and Cheyenne that the rotary plows were ordered out and the work of clearing the tracks has been commenced. The snow has not yet cleared, the indications being that they will be considerably later before the tract is entirely opened for traffic.

DENVER, March 21.—The snow storm which visited Colorado last night continues today accompanied by light winds. The temperature has fallen from 10 to 25 degrees through the west but it is not much below freezing point.

The storm is general throughout the state, Wyoming, western Kansas and Nebraska, eastern Utah and a portion of New Mexico. Stock will not suffer unless it turns much colder than it is now.

Railway traffic is interrupted. NEWCASTLE, Wyo., March 21.—(Special Telegram to the Bee.)—The worst storm of the winter is raging throughout northern Wyoming. Trains are blocked. Stock will suffer greatly.

FORT ROBINSON, Neb., March 21.—(Special Telegram to the Bee.)—The snow storm of yesterday continues with the same high wind, which has changed to a steady high wind, which is drifting badly. The train due here from Casper, Wyo., last night at 7:45 has not yet arrived.

It left Douglas, Wyo., at 11 o'clock yesterday. The train going from Chadron, Neb., will probably not reach here before afternoon.

CHADRON, Neb., March 21.—(Special Telegram to the Bee.)—The worst storm of the winter is raging throughout northern Wyoming. Trains are blocked. Stock will suffer greatly.

HANS ALBERT AND UNION MUSICIANS

OMAHA, March 21.—To the Editor of the Bee: Kindly allow me space to reply to the card of Mr. Hans Albert, published in last evening's Bee.

Our reasons for not allowing members of our union to take part in his orchestral society concert can be seen from the following extract of a letter sent by me, as secretary of the Musicians Protective union, to him, notifying him of the action taken.

"At the meeting of the board of directors, on March 12, I was instructed to notify you that unless all male members of your orchestral society eligible to membership in this union become members, permission will not be granted to union members to perform in said society.

One reason is that several members in your orchestra, in engagements with musicians that are working in direct opposition to the union."

The members referred to are amateurs, having regular employment at trades and professions, who take engagements at balls and parties at below living wages, thereby bringing competent men who make their living at music out of employment. His threat to employ no union musician speaks for itself.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used.

The many who live better than others and enjoy life more, with less worry and trouble, are those who are using Syrup of Figs.

It is the best of all purgatives, and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on the package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Edmund Clarence Steadman said recently that the World's fair had filled the people who saw it with a noble discontent of their own unlovely homes.

In scores of cases this discontent has ripened into a determination that the home shall be made beautiful by new and artistic furniture, with such later additions of pictures, bric-a-brac, and objects de vertu as the limits of purse and possible misgivings as to one's correct artistic judgment will permit.

Fully alive to the opportunity now presented, the furniture manufacturers of this country, emboldened by rich lessons of rare fair, and conscious of an assured demand, have stepped at once from the everyday conventional mediocrity to the very front rank of original artistic work.

Designers have caught the enthusiasm for pure classic art, and a new period is surely approaching—a period which will be marked by as strong a refinement of popular taste as occurred in England in 1789, when the brothers Adam brought back from Italy their Pompadour style. The style is here, and it is here to stay.

One may speak of this new school without any of the future tense. It is not a prediction of a possibility. The style is here. An hour's walk through our warehouses will tell the story better than any words.

JUST AT THIS SEASON.

The Most Attractive and the Most Decent Out of All The Year.

THIS IS THE MOST DANGEROUS SEASON OF THE YEAR. It may be pleasant, may often seem attractive, but back of all the pleasant atmosphere there is danger! This danger comes in some form of sickness.

About any sickness starts with a cold or a chill caused by the sluggish action of the system. That is why so many people just now complain of tired feelings, pains in the muscles and bones, loss of appetite, spring fever and similar troubles.

The following is good advice from a prominent medical journal: "Pneumonia and other dangerous complaints, which result from a neglected cold, can always be avoided if a timely remedy is taken. When chilly sensations are felt they should be stopped immediately, or serious consequences will follow. There is only one way known to the world of avoiding a cold or chill, and that is to use a good, pure, strong stimulant. Nothing ordinary will do. It must be something sure in its action and scientifically prepared. For this reason nothing has ever equaled Dury's Pure Malt Whisky, which is acknowledged today by physicians and scientific men to be the only pure medicinal whisky on the market."

This valuable advice may be profitably followed by many people who are suffering today from the early effects of cold, chill, or possibly grip in its advanced stages. Dury's Pure Malt is always reliable and does not gripe in its advanced stages. Permit any dealer to substitute something which is claimed to be "just as good," or "about the same thing." Nothing else has possibly compared with that which has proven itself by years of use to be the best and purest in the world.
