An entry was made finding that at the time of the assignment of the investment company Kimball & Champ were indebted to the company in the sum of \$114,000, and a judgment for that amount was rendered against them with interest, which made the total judgment amount to more than \$125,000.

Plans to Revive the Chautauqua Assembly the Coming Season.

LOCAL MINISTERS ARE INTERESTED

Outline of the Scheme to Again Put Life Into this Popular Branch of Education-A Scheme for Reducing

The annual meeting of the Council Bluffs Ministerial association was held yesterday morning at the study of Rev. Stephen Phelps, D. D., in the First Presbyterian church. It was the time for electing officers for the ensuing year, and it was decided to make no changes from last year, Dr. Phelps being re-elected president and Rev. G. W. Snyder secretary.

the Expenses.

A project which has been on foot for some little time among the ministers was talked up, relative to the revival of the Chautauqua, which has been lying apparently dead as the proverbial door nail for the past three years. A committee, consisting of Dr. Phelps, Dr. Askin, Rev. T. F. Thickstun, Rev. G. W. Snyder and Rev. H. P. Dudley, was appointed to consider the advis-ability of the proposition, and a meeting is to be held this afternon, at which some ac ion may be taken.
The plan, as it is now talked of, does not

look toward the revival of the assembly upon quite so magnificent a scale as that which used to deplete the pocketbooks of the hautauqualtes with such monotonous regularity, and it is therefore claimed that the financial question will not cut quite such a figure now as it did then. It is stated that the use of the assembly grounds and ap-paratus has been offered free of charge. Primarity the assembly will be held for the benefit of the young people's societies of the various churches, and all the churches of southwestern Iowa and eastern Nebraska will be asked to come in and help make i success. The camping out system will b used, the same as in past years. Good speakers and musicians will be engaged, and a week or ten days of old-fashioned camp meeting will be enjoyed, with such attractions in other lines as will add to the en forment of both saint and sinner. The above is the plan proposed, in general terms. The details have not yet been arranged, and, in fact, the project has not been alive long enough yet to enable those who favor it to prophesy the outcome. There are multitudes of Council Bluffs people who would like to see the Chautaugua revived in some form of other. The financial side of the question is the one to be looked after mainly, and the ministers have hopes.

Dismissed on a Technicality.

Otto Rachwitz had a preliminary examination before Justice Vein yesterday afternoon on the charge of having been implicated in the burglary of Ben Mark's house at Manawa. Although circumstantial evidence was as strong as it could well be, the stolen goods being found in the possession of the accused, and his reputation was sorely against him, he was discharged by reason of technicality of the law. According to the construction of the law by the court, the statutes say that possession of the stolen property shall not be considered prima facts evidence of guilt of the crime of burg'ary unless it is immediately after the commis-sion of the crime. The stolen goods were found March 10 in Rachwitz' cave, but the house might have been burglarized at any time after February 2. As no one saw Rachwitz when in the act of burglarizing the house he could not be held, and he was discharged so far as this accusation was

The accused is not yet out of trouble, There is a charge of passing counterfeit money pending against him in the United States court, and this will be tried at the term of court which commences today. The evidence is almost conclusive in this case, and he seems likely to spend a term in the penitentiary. The dismissal of the charge of burglary, however, does not end the Marks case, for a charge of larceny will undoubtedly be filed against him, and he will be rearrested in case the United States fails to be substantiated.

Federal Court Cases.

Judge Woolson did not arrive in the city yesterday, as had been expected, but he will be here today and open the March term of federal court at 10 o'clock. Judge Shiras, who is usually here during the term, will be absent this time, so that Judge Woolson will have the entire responsibility of the long term on his shoulders. On the docket for the term are a number of important cases, in which heavy judgments are asked. R. O. Clapp sues the Chicago, Burlington & Quincy for \$50,000 damages for injuries, due, he claims, to a defective switch. He was an engineer and was injured near Afton. his train leaving the track and plunging down a steep embankment. Rosanna Beal asks judgment against the Union Pacific for the death of her son in a Colorado accident. H. P. Ladd wants \$25,000 from the Burlington for injuries while serv-ing the company as brakesman at Galesburg. Ill. G. W. Haggerty sues the Omaha & St. Louis rallway for injuries received while switching. A defective switch is alleged to be the cause. Mary Stocum is suing the Burlington rallway for \$19,000 for refusing her accommodations at a hotel in Red Oak operated by the company. The suit is brought under the civil rights act. Mr. and Mrs. John Swift sues the Chicago & North-western for \$10,000 for the death of their son in an accident. The above are only a part of the cases to be tried, but it can be

Canning's Deputies. There has been considerable speculation lately as to who were to be appointed to the position of deputies under Marshal Canning. The marshal himself has steadily refused to give out any information on the subject, and ill sorts of slates have been made and broken by his sympathetic but poorly informed friends. Now, however, the thing has simmered down until it is regarded as pretty well established that the three deputies will be F. P. Fowler, who has served for three years under ex-Marshal Templeton, E. C. Baldy and Frank Peterson, the Upper Broadway grocer. This slate is not official, but it is said to be correct, notwithstanding.

by the counsel for the Carnegle company that upon these admitted facts no right to exact penalties existed, but in the opinion of the department and of the president the company was responsible for the acts of its employes, and although the armor furnished is believed to be better than any yet fur-nished to the ships of other countries, the government imposed penalties as an indication of its intention that contractors must, in the future, fuifill completely the very high standard laid down in their agreements. The contract made in 1890 seemed to give the right to penalties on these facts when it stated that, as the object of the contract will be the production of first class armor plates, the contractor must furnish and maintain the most improved modern plant for such work, which must be conducted according to the best methods. He is to use every endeavor and incur all expense necessary to produce the most resisting and en-during plate, and he is to regard the tests herein set forth merely as limits of quality which he is bound to excel, as much as practicable, by the use of all means which

"The department deems it proper to state that throughout the whole of its trans-action nothing occurred to show that any officer of the navy had been guilty of con-niving at any of these irregularities. Neither is there anything whatever to show that any director of the company had any knowledge of the transactions herein set forth. The department has redoubled its vigilance at all points, and wherever night work is being done for the government inspector are required to be on duty night and day.

AFLOAT ON DRIFTING ICE.

Seal Hunters Carried out to Sea on a Floe.

ST. JOHNS, N. F., March 26 .- Fresh Water bay, outside St. Johns harbor, on Saturday filled with ice, among which plenty of seals were seen. Men from all parts of the coast went off to hunt them and met with fair success throughout the day. In the evening the wind changed to westerly and drove the ice off again. Most of the men who went out were on the ice field when the wind changed, but the greater number of them succeeded in reaching land before the ice moved off. Forty or fifty of them, however, were carried out into

Much apprehension was felt in their behalf and measures were taken for their safety. Lights were burned and men were sent for steamers to go to their assistance. It took some hours to reach the city and the first steamer only started at 8 o'clock Sunday morning. Another followed four hours later.

During the night changes in the position

of the ice caused by currents drove some of it close to the headlands, and most of the men got ashore by swimming, though eight nearly died from the cold. They re-ported that a party of nine persons were far off and all energies were devoted to rescuing these men. At last a party was sighted from the outer cove and a boat put off to their rescue.

In this party there were six men, all of whom had been frostbitten severely. A little distance from them the rescuing boat's crew sighted three more people, of whom two were dead from the cold. The third, the father of the other two, was living, and may survive his injuries.

The two brothers frozen to death were named John and William Parsons, the former 20 and the latter 18 years of age.

the Gold Cure KANSAS CITY, March 26 .- Two more Delaware Indians arrived here today to take the liquor cure. They are named John Yellowjacket and Joe Walker, and are from the Indian Territory reservation. They say that the four cured Indians that were discharged from here last week were examined by the council of their tribe and the council forthwith ordered all intemperate Indians on the reservation sent on in installments for similar treatment. Yellowjacket and Walker are the first of the batch. They say that in case any of the drunkards refuse to take the treatment when ordered their rations are to be cut off.

BILL PASSES BY A LARGE MAJORITY

Provides that the Face of the Policy Must Be Paid Unless Absolute Frand Can Be Shown by the Company Interested.

DES MOINES, March 26,-(Special Telegram to The Bec.)-The Wyckeff valued policy insurance bill consumed a large share of the attention of the house. Representatives Saberson, Myerley, Milliman and Sawyer opposed the bill as having a strong tendency to increase incendiary fires and consequently insurance risks. The bill was ably defended by Wyckoff, Gurley and Byers, and passed, 61 to 10. Those voting no were: Cornwall, McCann, McQuinn, Milliman, Root, Saberson, Sawyer, Smith, Trewin and Speaker Stone. The bill, as amended and passed, reads: "Section 1-When any building on which

there is a policy of insurance against loss or damage by fire, lightning, tornado er wind storm shall be damaged by fire, lightning, tornadoes or wind storms to as to make such nsurers Hable on said policy, the loss or damage shall be estimated and adjusted upor the basis of valuation of the insured property as contained in such policy of insurance and such estimated value shall be conslusive as against the insurers except as to proof of fraudulent representations by the insured. "See. 2. If any such insured property shall be so damaged as to render the in urers thereof liable therefor and the shall be total, the insurer shall be held to pay the full amount for which the same was insured, as stated in the policy, and in any suit at law or in equity involving the ques-tion of said insurers' liability, it shall not be competent to prove that the actual value of the property so insured was less than the amount so named in such policy of insurance, provided that this act shall not apply to any policy of insurance issued prior to the date at which it takes effect." The house passed the senate bill giving pottlers the right to adopt trade marks and prohibiting the using or sale by other parties of kegs, bottles or cases so protected.

The Soldiers' and Sailors' monument will probably be located directly west and adjoining the state capitol grounds, the commission having made this recommendation.

MURDERED BY A LUSTFUL BRUTE.

George Ashworth Shoots Mrs. Wilbur Mason, Who Resented His Advances. DES MOINES, March 26 .- (Special Tele

gram to The Bee.)-A murder was committed in Warren county today, three miles northwest of Summerset. George Ashworth, aged about 21 years, shot Mrs. Wilbur Mason. The woman was about 30 years old and the mother of four children Particulars of the tragedy are meager. Ashworth had been working for Mason and at the noon hour made improper advances to Mrs. Mason. She resisted and he shot her. After receiving the wounds Mrs. Mason grabbed her baby and ran about a quarter of a mile to a neighbor's. Physicians were sent for, but their services were of no avail. The last seen of Ashworth was near Lynn Grove on the Madison county line. A large number of citizens are in pursuit of him and if caught he will probably be lynched. Mr. Mason was absent at Indianala. Mr. Mason was absent at Indianola. Given Control of Her Husband's Remains.

SIOUX CITY, March 26 .- (Special to The Bee.)-The long delayed decision in the case of Livingston against Livingston, involving the question of custody of the remains of the late W. H. Livingston, was finally handed down by Judge Ladd last week. It will be remembered by the readers of The Bee that when Mr. Livingston died last June a controversy was raised over the possession of his body by the action of his divorced wife in securing an injunction against his widow to prevent the latter from taking charge of the remains. The present decision sustains in every respect the position assumed by the widow, Mrs. Rose E. Livingston. It gives effect to the last request of the deceased, as was established by the overwhelming weight of undisputed testimony. At the time the original trouble occurred The Bee was imposed upon by an irresponsible party with an account of the second Mrs. Livingston, which did that lady a grave injustice. She was formerly a Miss Grady, who for some time held a responsible position in one of the leading dry goods stores of Omaha, and always moved in good society, both there and in Sloux City. She married Mr. Livingston after his first wife had secured a divorce, and the trouble over her late husband's remains is ascribed to the ill feeling of his former wife.

Ramsey's Attorneys Withdraw. CEDAR RAPIDS, Ia., March 26 .- (Special Telegram to The Bee.)-The April term of the Linn county district court convened at Marion today. The docket is a very large one, and many important cases are on the locket. The one which will attract the most attention is that of D. G. Ramsey, grand chief of the Order of Railway Telegraphers, who is under indictment for aiding and abet ting wire cutting on the Burlington, Codar Rapids & Northern during the telegraphers' strike a year ago. Quite a sensation was created today when Colonel Charles A. Clark had the court withdraw the appearance of himself and G. W. Burnham of Vinton as counsel for Mr. Ramsey. Professor Cobb Lets in a Little Light Upon Such Cases by Giving His Own Experience.

Catarrhal disease is no respecter of persons. It comes alike to all classes and conditions. Today Professor Charles S. Cobb illustrates, by his personal statement, the symptoms found in many people who follow intellectual pursuits. Professor Cobb is principal of the public school at Shelby, Iowa, and holds a high place among the educators of that state. He says:

PRINCIPAL C. S. COBB, SHELBY, IOWA. "After being under Dr. Shepard's excel-lent treatment a short time I find myself entirely free from a loathesome catarrh. Alentirely free from a loathcome catarrh. Although my case was not one of the worst, yet I was troubled for ten years and the evil effects upon my work as a teacher were very painful and annoying. I suffered with severe pains over the eyes and through the temples, frequent nose-bleed and hard, lumpy secretions in the nose, especially at night. The eye-sight was somewhat affected also, being noticeable when I had before me exacting or prolonged work.

"In a general way, as well as locally, I am restored. I now do the same work with case that used to worry and exhaust me. There is an absolute freedom from all pain. My nervous system has been built up so that a marked increase in physical and mental energy are the sure results of Dr. Shepard's work. The cure has been a true blessing to me."

## THE ALOE & PENFOLD CO. MECCA COMPOUND.

TheSovereign Remedy for

Instantly relieves all pain and heals without scarring. Endorsed by the medical faculty and multitudes of people whose sufferings it has relieved. ple whose sufferings it has relieved.

COUNCIL RLUFFS, In., Aug. 25, 1891.—The
Foster Mfg. Co.; Gentiemen—1 am happy to testify to the wonderful magic effect of your Mecca
Compound in burns. I was burned, as you know,
by an explosion of a plumber's gasoline furnace
on the morning of July 2, 1891. The entire surface of my back, arms and back of lower limbs
was as badly burned that large portions of bilstered skin came off with the removal of my
clothing. The pain that followed is indescribable. I could not have endured it twenty-four
hours and lived. The shock was so great that I
went almost into spassus, but in two hours after
the application of your Mecca Compound I was
almost entirely releved from pain and in nineteen days after the accident was back at my
work.
I can also further state that there will not be teen unys are:
work.
I can also further state that there will not be
a scar left from that terrible burn, and all is
due to your Mecca Compound. It should be kept
in every home, workshop or place of business
for immediate use in case of an accident. I feel
that I cannot say too much for your wonderful
remedy, Yours very respectfully,
II. O. MEAD.
