Oats Were in Fair Demand and Offerings Were Only Small-Provisions Maintained an Undertone of Firmness Though Not Very Strong.

CHICAGO, March 26,-Wheat went up with a spurt today because of the freezing weather and snows since Saturday, and the result was a gain of %c for May. There was free selling at the advance, however, and after a nervous, unsettled session, May closed 16c from the top, but with a gain since Saturday of ic. Corn and oats werd a shade firmer in sympathy, and made a gain of about 16c each. Provisions ruled dull, but firm, at somewhat higher figures than Saturday's closing.

The severely cold weather told with considerable effect today upon the wheat market. All doubts about the condition of growing wheat was set at rest after the market opened. In fact, from the lively leaps that portion of it which was exposed in the trading pit took at the start, the operators declared it double-jointed. The effect of the prevailing cold weather did not affect all constitutions alike. Some of the shorts were rather inclined to make light of it and re-fused to be frightened into covering. Others, however, were thoroughly alarmed and bid from 58%c to 59c for May wheat, as compared with 57%c sellers at the close of the market on Saturday. It reacted to 58%c and rose sgain, reaching 59%c, all within the first hour. Trade during the time re-ferred to was active, with orders from out-side quarters in the south and southwest. where wheat was presumed to be most seriously frost damaged.

The actual extent of the injury done to

wheat, it was generally conceded, could not be defintely ascertained until future warm weather should reveal it. In addition to the frost scare the receipts were light. Chi-cago got 41 cars, Minneapolis 261 cars and Duluth 19 cars. The receipts on the corresponding days of last year at the same places were respectively 288, 248 and 68 cars. The visible supply showed a smaller decrease than the average of the previous guesses. The decrease was 1,096,000 bu., leaving 72, 316,000 bu. still in the visible supply. There was a decrease for the corresponding time that the amount on ocean passage for the week ending tomorrow would show an in-crease of 1,259,000 bu.; that and the impossibility of estimating how much, if any, damage had been done to wheat by the frost made the market rather incline to weakness in the last hour of the sessioin. May sold off to 58%c, but rested at 58%c to 58%c.

There was no life in corn except what was injected into it from the wheat pit. That was sufficient to add %c to Saturday's closing prices at the opening, but the advance could not be sustained. The price dropped off to about the previous trading day's closing price, but firmed up once more on the moderate estimated receipts for tomorrow and a decrease in the visible supply. May opened at 37½c, sold off to 37c bid and recovered again to 37½c, closing at 37½c to 37½c.

Oats were in fair demand and offerings were only small. This, with the firmness in wheat and corn, caused higher prices in oats. May started 1c up from the last quotation Saturday, sold at 31½c and then, influenced by the increase of 202,000 bu. shown in the visible supply of oats, declined to from 30%c to 30 %c, rallied again slightly, and when the session ended 30% was bid.

The provision market was quiet, but main-

tained an undertone of firmness, closing with 7½c gain over Saturday's closing price for May pork and lard and 5c higher for May ribs. Lard was influenced to some ex-tent by the premium of 20c sellers the month brought over the May delivery. Steady prices at the yards and the strength in the grain markets helped the prices. 32 cars; corn, 220 cars; oats, 168 cars; hogs,

COTTON MARKET.

Weekly New Orleans Statement as to the Product's Condition.

NEW ORLEANS, March 26.—Secretary Hester's cotton statement, issued this morning, shows a decrease in the movement of cotton into sight or the week of 2,538 bales over the seven days ending March 22 last year and a decrease compared with the same seven days in the year before last of 19,285 bales. For the first twenty-three days of March the movement has been 14,-125 bales more than last year and 11,243 bales less than the year before. This makes the increase in the amount of this cotton crop brought into sight for the 294 days of the season, from September 1 to March 23 inclusive, 794,079 bales over the same 294 days of last year, and the deficit, compared with the same time of year before last, 1,515,201 bales. The total brought into sight during the past seven days has been 83,126 bales, the same being corrected by deduction of 4,595 bales from Athens, Ga. stock against 61,860 bales last year, while the aggregates for the first thirteen days of March are 232,575 bales, against 217,849 bales and 344,518 bales. The total marketed from September 1 to date in 5,592,192 bales and 8,391,472 bales last year. From this time on last year the amount of cotton brought into sight was 768,090 bales, and the year before 733,997 bales; overland across the Mississippi, Ohio and Potomac rivers to northern mills and Canada, 857,296 bales, against 751,799 bales and 1,684,977 bales; interior stocks in excess of those held at the close of the commercial year, 290,041 bales, against 259,855 bales and 369,275 bales; southern mill takings, 522,516 bales, against 64,256 bales that year, making the total thus far for the season 47,627 bales, against 751,590 bales, against 1,486,161 bales and 47,627 bales, against 1,166,163 bales have been 67,790 bales and 80,275 bales, against 1,984,291 bales and takings thus for for the season have been 67,790 bales in last year. Wall Street Speculators Think the Seign lorage Bill Will Be Vetoed. NEW YORK, March 26 .- The very general impression which now prevails that the president will veto the seigniorage bill had the effect of strengthening the Wall street markets today and undoubtedly checked the bear mpulses of those operators who take the short side of the market on the slightest provocation. The decline in sterling exchange rates was also an element of strength in the speculative situation, inasmuch as it removed all likelihood of gold shipments for the present. At the opening of business on the Stock exchange a generally firm tone prevailed and the first prices made were in the main a small fraction higher than the closing figures of Saturday. Sugar, however, was an exception, opening % per cent lower and receding % per cent additional, doubtless the effect of the bearish view of the sugar market taken by H. O. Havemeyer in a published interview. But good buyers coming in at a lower level, Sugar quickly moved up, gained 15% per cent, the purchasing movement being assisted by the announcement from Philadelphia that the appeal of the government in its suit against the Sugar trust had been decided against the government. In the final dealings the stock lost 1/8 per cent. The general market was strong in tone in the early dealings, and up to noon the tendency of prices was upward, the volume of business being at the same time very light. In the general list a reaction took place after midday, which was merely fractional and of brief duration, and which was succeeded by another upward movement, in which Lake Shore was most prominent, selling up to 131, an advance on the last previous sale of 21/2 per cent. In the final sales a reaction of % per cent took pla close Richmond Terminal fore the close Richmond Terminal pre-ferred broke 2 per cent and the general list fell off a fraction, but in the final sales there was a partial recovery, and the market

closed firmer. The railway and miscellaneous market was strong throughout the day and most of issues dealt in show an advance on the day. The Post says: There can be no doubt that the general maintenance of remunerative railroad rates has served to offset much of the natural losses from trade depression Perhaps the most imminent of all dangers was that of competitive rate cutting, usually a sure accompaniment of insufficient business. Since misgivings in this direction have had no little influence, Wall street was right today in taking a very favorable view of last week's formal action of the trunk lines. The manager's endorsement of Mr. Depew's plan of pledged maintenance of rates, pro-viding for damages and exaction of heavy penalties for violation of the pledges, was a promise by no means assured be

Receipts of all kinds were only moderate

MONDAY, March 26.

today, but about up to the average for a Monday. It was expected that the firmness developed in the cattle market toward the close of last week would result in heavier supplies today. Disappointment in this respect and the receipt of rather bullish views from the east made buyers a trifle nervous and they at once proceeded to try to fill their orders at rather firmer prices. This, with active competition from speculative shippers, caused a slight bulge in prices and some of the more desirable fat, light and medium-weight steers, on which the competition was keenest, sold pretty close to a dime better than Saturday, while all grades, both heavy and light, showed substantial improvement as compared with prices pre-

vailing the latter part of last week. It was

a good, strong, active, healthy market

throughout and a big improvement over what

it has been recently. By noon practically everything had changed hands. As usual, only a small proportion of the offerings were cows-perhaps twenty loads, or about a fifth of the total receipts. The strength and activity developed during the latter half of last week were present today and buyers for local houses were not long in picking up what they could. Prices were generally a shade firmer, but hardly quot ably higher than last week. Only a few veal caives were offered, and they met with a ready sale at fully steady figures, and the same was true as to rough stock generally.

There was little new in the stocker and feeder trade. The demand was rather ac-tive, and a fair amount of business was transacted. Prices ruled strong, and more cattle would have found ready good many westerns, mostly hay fed, sold at from \$2.90 to \$3.25, and most of the fair t

good stock changed hands at from \$3 to \$3.20. Representative sales: DRESSED BEEF

HOGS-Receipts were not heavy today, but they were heavier than a week ago, and this fact, together with the indifferent tone to eastern advices caused an easier feeling and rading was not particularly active on the basis of prices steady to a nickel lower than Saturday. Owing to the smallness of the supply Cudahy made no effort to get any hogs and other houses had it all their own way, prices here being already too high for profitable operations by speculators or shippers for eastern houses. The best light and butcher weight hogs sold up to \$1.50 early, with fair to good loads, regardless of weight, largely at \$4.45 and \$4.47% and inferior stuff and odds and ends at \$4.40 and \$4.42%. The market seemed to weaken as the morning advanced and the close was very dull, with a few loads still in first hands. The popular price today was \$4.45, as against \$4.50 Saturday. CHICAGO LIVE STOCK.

There Was a Less Depressed Tone to the Market Yetterday.

CHICAGO, March 28. There was a less de pressed tone to the cattle market. Wille ther was no appearance of activity except the fo-creased interest for good to best steers, prices was no appearance of activity except the increased interest for good to best steers, prices were stronger than on the closing days of hist week. There was not the usual Moreiay's supply, barely 14,000 head arriving, and sellers did not find it necessary to carry over anything, provided they were willing to accept the ruling prices. Drossed beer and shipping steers were quoted at from \$2.50 to \$4.65, with sales principally at from \$2.50 to \$4.65, with sales principally at from \$2.50 to \$4.65, with sales principally at from \$2.50 to \$4.55. Trailing in cows and bulk was generally at from \$2.50 to \$4.25. Trailing in cows and bulk was generally at from \$2.50 to \$4.25. The latter averaged a shade higher than for Friday. There was only a little inquiry for stockers and deciens, and that came principally from speculators. The calf market was weak.

The hog market opened firm at Saturday's prices. A little later a weaker feeling obtained, but before the close prices again stiffened, the later sales being quite up to Saturday's best figures. The receipts—21,000 head—fre larger than for any day last week, but there did not seem to be any considerable oversupply, shippers and feeders buying with a good deal of freedom. They paid from \$4.50 to \$4.75 for choice. Sales at over \$4.79 were scattering, but there were many trades at that figure, and the bulk of the offerings sold above \$4.55. Weight cut but little difference with buyers.

Sales of sheep were at strong r prices. The

Those___ Pimples

Are tell-tale symptoms that your blood is not right-full of impurities, causing a sluggish and unsightly complexion. A few bottles of S. S. will remove all foreign and impure matter, cleanse the blood thoroughly and give a clear and rosy complexion. It is most effectual, and entirely harmless.

Chas. Heaton, 73 Laurel St., Phila., says:-"I have had for years a humor in my blood which made me dread to shave, as small boils or pimples would be cut thus causing shaving to be a great annoyance. After taking three bottles of my face is all clear and smooth as it should be—appetite splendid, sleep well and feel like running a foot race, all from the use of S. S. S.
