WASHINGTON, April 3.—The general public did not seem to have as much interest in the senate today as yesterday and the attendance did not indicate the second day of the tariff debate was to excite as much interest as the first. A bill was reported from the senate finance committee directing the parting and refining of bullion to be carried on at the United States assay office at Montana and was placed on the calendar.

Senator Mitchell of Oregon introduced a resolution, which was agreed to, directing the secretary of the interior to transmit to the senate a list of all public lands located in old sections in Oregon and Washington.

Mr. Pettigrew of South Dakota introduced a resolution, which was agreed to, directing the secretary of agriculture to reply within three days to the resolution passed about three weeks ago for statistics as to the wheat production.

The resolution offered a short time ago by Senator Peffer, directing the finance committee to prepare a bill for the repeal of all laws which give the secretary of the treasury power to issue interest bearing bonds, was laid before the senate.

Senator Sherman moved that it be referred to the committee on finance, as it was a very important proposition.

Mr. Stewart proposed the reference of the resolution to the finance committee and urged immediate action.

The resolution went over until tomorrow, in order to allow the committee to report.

Senator Merzhan to give effect to the decision of the Paris tribunal on the Bering sea question. The bill was passed.

Senator Harris after transacting the routine business, asked that the tariff bill be considered.

At 2 o'clock the tariff bill came up, and Senator Allison addressed the senate.
