COMMERCIAL AND FINANCIAL

Another Wave of the Bull Swell Struck Wheat Yesterday

CORN WAS STRONG BUT GENERALLY DULL

There Was Less Activity in Provisions than for the Two Preceding Days but the Market Was Remarkably Strong.

CHICAGO, April 5 .- Another wave of the buil swell in the wheat market sent the price up to 643ge for May and 663ge for July, as aginst 63c and 64%c respectively at the close of the market yesterday. The local crowd started with the "sure thing" of "coppering" a builish statement given out by P. D. Armour for publication. Crop news was on tap to suit any and all tastes. Some of the shrewdest and heaviest local speculators sold wheat short at the opening and tried to buy back later. Corn and oats caught on to the wheat boom. Provisions were strong but not very active.

Wheat after the close of yesterday's session and until the opening of today's session could scarcely be restrained. On the "curb" May was wanted at from 6314c up to 6374c by such brokers as had imperative buying orders from country customers. When the market opened this morning it was known there had been a break of ic per cental in there had been a break of le per cental in the price of wheat at San Francisco yester-day, which was ascribed to indications of rain on the Pacific coast. That brought out liberal offerings at the start here, but there was plenty of buying orders at the same time and the first transactions were irregular and from 63½c to 63½c, compared with 62½c to 63c at the close of yesterday's session. There was a heavy business done in the first hour. Millions were wanted and there were millions for sale. The price during that time wobbled between from 62% to 63%; with heavy offerings and takings. The in-fluence of the reported prospect of rain in fluence of the reported prospect of rain in California kept increasing, however, and the market turned quite heavy. Some of the big local speculators plied the buyers with short wheat. There was a gradual decline in the course of the afternoon to 62% for May. July started with some trade at 65c and one as high as 65%, but there was much more for sale at 65c than could be disposed of. While May was dragging at about 62%c, July sold at 64c. Chicago receipts were 86 cars, against 433 a year way with the sale of the s ago. Minneapolis reported 208 cars and Duluth 71 cars, against 245 and 44 cars re-spectively last year. The local crowd, who had worked all forenoon for a break, found out that wheat was not plentiful under 621gc. Pardridge commenced to buy at that price and a general stampede of the shorts caused the price to shoot up again to 634c for May and to 65c for July. Not until fifteen minutes of the end did the bullish sentiment which underlay the market get full play but in that short time was expended the pent up energy of a day of patient waiting for an opportunity. May was sent up with a skip to 6414c and July to 6614c, with 6414c and 66c respectively, trading prices at the

Corn was dull, but in the main strong, e estimated receipts for tomorrow being for only 150 cars was one reason assigned for a rise of about ½c, which occurred about 12:30 o'clock. May opened at 37%c, as against 37%c at the close yesterday. There was some selling early, which knocked ½c off the opening figures, but when wheat firmed up near the end of the session, 38½c was reached. The great bulge with which wheat wound up caused a panic to strike the shorts in corn, and in a few minutes May had mounted to 38%c, and July 39%c to 39%c, which were the trading prices at the

There was only a small business transacted in oats.

There was iess activity in provisions than for the two preceding days, but the market was remarkably firm and the shorts con-tinued to take the limited offerings at the higher prices asked today. Compared with last night, May pork is 12½e higher, May lard 5c higher and May ribs 12½e higher. Estimated receipts for tomorrow: Wheat,

New York Markets.

New York Markets.

NEW YORK, April 5.—The great short scare of the year occurred this afternoon in the wheat market, when within an hour prices shot up 2c a bushet, bringing to 66%c, the highest point it has touched since early in February. Wheat had been nervous all the forenoon, and shorts were easily alarmed over crop damage stories, which came in thick and fast, particularly from Kansas, but heavy long selling at midday broke prices %c to %c, and seemed to take all the backbone out of the bulls. This encouraged all the bears to sell short, so when the boom came a little inter there was the wildest scramble to cover that the market has witnessed in a good many months. The business footed 12,300,000 bu. NEW YORK, April 5.—FLOUR.-Receipts, 24,209 bbis; exports, 23,800 bbis; sales, 20,000 pkgs, There was a good demand for the better grades of winter and spring at full asking prices for winter and spring at full asking the de-

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis de ligher as compared with last nights closing, and, with a steady market during the fore part of the day, a large amount of trading was done. Later the market became more active with more disposition on the part of shorts to cover their contracts, and prices advanced with considerable rapidity at times and closed Psc higher for May and July wheat than the close of yesterday. Considerable trading was done between this market and some others where spreads had been made at a previous date, when Chicago was several cents higher than the Minneapolis market. Many of these spreads were held until the Minneapolis market advanced to a price equal to Chicago, and today the spread began to widen, with Chicago the nigher, and there was a disposition on the part of spreaders to sell their Minneapolis wheat and buy in their Chicago sales; all of which had a tendency to put up the Chicago market as compared with this, with the same tendency to depress it here.

In spite of that depression, however, there was a strong disposition to buy here all day, and the demand was greater at all times than offers to sell, creating the advance. There was more or less of news which tended to impress traders with the soverity of the late winter wheat damage, but this had no particular effect, as shorts had gone in to cover themselves, and it was solver buying more than anything cless that tended to create the advance. It was noted, too, that there was more investment buying than for a considerable time. Reports from the country indicated about the usual movement there as the weather was good. It was also said that farmers were prepared to put in their seed, even in North Dakota, where they have had reven who have much ground to sow say that in two or three days, with the present kind of weather, they would begin put ting in seed very feedy.

Rice Market.

A radical change seems to have come over the face of the market in domestic sorts, and the volume of business during the past week has fully made up for that lost during the one just prior. The encouragement felt is plainly reflected in the suffering of prices, and full grades are an eighth to a quarter advanced. Further advances are thought probable, as a rine a points are still relatively lower than the south. Advices from the south note free movement along the Atlantic coast, these markets being fractionally lower than Leuisiana, hence, enabled to emmand trade which for some time past had been going difficer. In New Orleans the demand is at a nominal standstill, the movement of insignificant proportions. Most of the mills have closed down, but as the stocks of cleaned are ample a general tone of depression prevails and those who will can buy on better terms than heretofore. Foreign sorts are commanding enlarged attention, not only in the east and along the northern ther of states, but also to many points south. Being of new crop they have the "bloom of youth," hence more attractive than the raddy styles which seem at present to constitute the chief offerings of the south.

New York Dry Goods Market.

New York Dry Goods Market.

NEW YORK, April 5.—The close of the day reflects much better sales than were promised at the opening. Besides a very good movement of goods on former sales, the order demand and personal selections tok up a good quantity. Dress goods and ribbons in large demand and no stock. Lace insertions of ectu and butter shades very scarce and equally desirable. Kid fabries in steady demand for moderate to good qualities. Ginghams quiet, All kinds of woven and printed ginghams in moderate demand for immediate and autumnal wants. Brown and bleached cottons in fair request. Cambric muslins doing better. Print cloths firm at 2 13-16c for sixty-four squares, with fairly good sales of narrow and wide odd goods. The tone of the general market is better.

STOCKS AND BONDS.

Bears Tackle the Market at Many Points but Are Promptly Repulsed. NEW YORK, April 5 .- There was a strong undertone to the stock market all day which seemed to puzzle the professional sellers. At intervals bear raids were made, which met with such a ready absorption of the stocks offered for sale as to quickly check the ardor of the shorts. As the day advanced without the discovery of any particular weak spots in the market there was considerable covering done, which materially assisted in the appreciation of values, which ranged from 1/4 to 21/4 per cent in the active list, while Interior Conduit rose 33/4 per cent and Edison Electric, with which it is allied per cent. Sugar led in the advances with one of the most active stocks in the transactions. The grangers were among the most firmly held stocks on the list, but except in the case of St. Paul were not largely traded in. At the close they showed advances of 1 per cent for the Northwestern, 2¼ for Northwestern common, ¾ for Rock Island, Chicago, Burlington & Quincy and ½ for St. Paul. Missouri Pacific was attacked by the bears in the early dealing, yielding 1/2 per cent. The decline brought in good buyers, who sent prices up 1½ per cent, with a final reaction of ½ per cent. Distilling broke 1% per cent during the first few minutes of business on the report that a decision unfavorable to the company would be rendered in the quo warranto proceedings On good buying later a recovery of 1% per cent was followed in the late afternoon by a reaction of % per cent and a final raily of % per cent. Denver & Rio Grande lost 1 per cent and nearly all the other shares traded in recorded gains. The market closed gen-erally firm. The railway and miscellaneous

bond market was firm in the early dealings,

but after midday became easier. In the late dealings, however, a better tone prevailed

The Post says: It was not uninteresting

and the close was quite firm.

to observe that the buying of these stocks in quantity did not begin until the wheat market's advance; had been resumed. Yet the 1-cent drop in wheat during the early hours ought, on the simple "crop damage" theory, to have encouraged buying of these stocks. A few more such markets instanced will show that the forces underlying the present market are somewhat more extensive than the room fraders' theory has dis cerned. Taken as n whole, the day's market, despite some irregularity, showed decided

On the London Market.

On the London Market.

NEW YORK, April 5.—The Post's London cable says: The bank reserve decreased 1588,000, although 183,000 in gold were imported for the week, 1102,000 coming in from Egypt, 127,000 from Portugal, 132,000 from Australia and 122,000 were bought. Public deposits were down 11,386,000, the government having disbursed for contracts, etc. Other securities decreased 11,815,000, owing to repayments from the market. The fall of silver to 23-15d hail a depressing effect upon all the markets. The recent buying of the metal for China was largely speculative, but no further severe decline was expected. Consols were again over nar on the cheapness of maney. Americans were dull all day on realizations and weak holders. They were better at the close, Sixty-five thousand in gold was bought, 75,000 came in from Egypt and 12,000 from Spain.

Bank of England Statement.

Bank of England Statement.

The rate of discount probables at 2 per cent.

Hank of Fonce Statement.

PARIS, April 5.—The weekly statement of the Bank of France, issued today, shows the following changes as compared with the previous account; Notes in circulation, increase during the week, 62,250,000f; treasiny accounts current, decrease, 54,250,000f; gold in hand, decrease, 1.255,000f; bills discounted, secrease, 76,200,000f; silver in hand, increase, 1.505,000f.

Minor Court Matters. Judge Ambrose, who is now in Burt county holding the regular term of court,

county holding the regular term of court, has written to the clerk that he will return Friday night and that during Saturday he will be upon the bench in room No. 3 for the purpose of disposing of ex parte matters and hearing motions.

In the case of the state against A. H. Noland the jury returned a verdict yesterday finding the defendant guilty of grand larceny. Noland is the man who stole a bicycle from E. T. Yates. He is also the man who escaped from betective Haze while that officer was taking a nap.

Elizabeth Kuhlman has sued the Capital Fire Insurance company in an action to Fire Insurance company in an action to recover \$500, and the Home Insurance company of Omaha in an action to recover the sum of \$1,000, alleging that the com-panies had policies on her house which burned last May.

Nicaraguan Troops Ordered to Bluefields. TEGUCIGALPA, Honduras, April 5 .- A part of the Nicaraguan troops here have been ordered to march immediately toward OMAHA LIVE STOCK MARKETS

Receipts of Cattle and Hogs Still Lighter than During Last Week.

FAT STEERS TURN UPWARD SHARPLY

Sellers Ask and Receive Fully Fifteen Cents Higher-Cows and Under Grades Strong-Hogs Open Higher and Close Strong.

THURSDAY, April 5. Receipts of all kinds continue light. So far this week, compared with last, they show a decrease of 1,500 cattle and nearly 600 hogs, while there has been an increase of about 1,800 sheep,

There were some 500 fewer cattle re ceived than on last Thursday, while in view of the recent sharp advance in prices dealers naturally looked for a more liberal supply. Sellers found conditions very much to their liking, and asked and obtained very considerably higher prices. The favorable tone to eastern advices infused new life and courage into speculative buyers and buyers for eastern butchers were also early in the saddle. Local houses could not afford to see all the cattle go to outsiders, and their buyers were not far behind the others. The result was about the liveliest market of the year and one that was very satisfactory, looked at from the seller's standpoint. As has been the case all week, prices were a triffe uneven. There were isolated cases where cattle brought very little more than Wednesday, while in a few instances sales showed pretty close to a 20a advance. On an average prices ruled 10c to 15c higher, and by the middle of the forenoon trade was over, the market clos-

Cows sold stronger in sympathy with steers. The supply was rather limited, and while good fat stock sold in many cases 5c to 10c higher, most of the stuff simply went at good strong prices. There was a very respectable showing of calves, and prices averaged up fully steady. The sup-ply of rough stock was comparatively lim-ited, and sellers had no difficulty in getting a little better prices.

Business in stockers and feeders was

rather full. Regular dealers all have liberal supplies on their hands, and as they find the country demand somewhat re-stricted they are but indifferent and often bearish buyers of the fresh receipts. There was quite a little improvement in the trade today, compared with what it has been and good stuff was in better request. to choice feeders are quoted at \$3.00@3.35 fair to good at \$2.75@3.00, and lighter, com moner grades at from \$2.75 down. Repre-DRESSED BEEF.

MILKERS AND SPRINGERS.

milker ... COLORADO CATTLE. HOGS-The general market was 10c higher and the close 10c to 15c higher than Wednesday. Supplies were very moderate, provi-sions were strong, castern markets better, Armour and Squire and a horde of specula-

tors still hunting hogs and compelling local packers to keep up with the procession or quit. The market was slow to open, but most of the early trading was at \$4.65 and \$4.70, or fully a dime higher than Wednes-day. As the morning advanced the keen competition and free buying caused a further stiffening of values and the later trading was largely at \$4.70 and \$4.75, or 10c and trading 15c higher and the market closed active and strong at these figures, with the pens empty by 10 o'clock. Considerably over half of the ogs sold in the \$4.70 notch, with as many sales above as bel w that figure. On yester day the hogs sold mostly at \$4.55 and \$4.60, while the bulk of the trading a week ago today was at \$4.60 and \$4.65. Representative sales:

PIGS AND ROUGE. SHEEP-There were no fresh receipts of sheep and nothing here to make a market. All local houses are after supplies and prices

are quotably strong for all grades. good natives are quotable at \$3.00@4.25; fair to good westerns, \$2.75@4.00; common and stock sheep, \$2.25@3.00; good to choice 40 to 100-15, lambs at \$3.25@4.50.

Receipts and Disposition of Stock. Official receipts and disposition of stock as shown by the books of the Union Stock Yards company for the twenty-four hours ending at 5 o clock p. m. April 5, 1894: HECEICIS.

CHICAGO LIVE STOCK. Cattle Were Not Less Active than on

Wednesday.
CHICAGO, April 5.—The cattle market was not less active than on Wednesday and was every bit as strong. Further decrease in the confidence among operators generally, and prices lbs. The bulk of the steers here today sold at better than \$3.50, and the best qualities are now quoted around \$4.75. There has been less advance in butchers and canners stock than in steers, but all descriptions have made a substantial gain. Although the week started in with about the largest receipts of the year so far, the total fer the last four days is only about 2.700 head more than for the same time last week. That the present boom will let loose thousands head more than for the same time last week. That the present been will let loose thousands of cattle that have been held back for just such a turn in the market cannot be doubted, and a reaction therefore is almost inevitable. The demand is still running to light and medium weights, there being only a limited inquiry for cattle weighing over 1,400 lbs. The general market closed weak.

It did not take sellers long to add 19c to the price of lags. The animals were badly wanted by both shippers and packers, and as the supply of stale and firesh receipts combined did not exceed 22,800 head, the pens were soon swept clean. There were a number of sales at \$5, and it was a poor lot, indeed, that could not be worked off at better than \$4.89, but the bulk were weighted with a range of from \$4.85, to \$4.75, were the extremes for merchantable lots. The quality continues to average good for the time of the year. Indeed, there may almost be said to be no poor hogs. Averages of from 18 to 250 lbs. make up the bulk of the current receipts.

The demand for sheep and lambs was not quite as sharp as on the proceeding lays of this week, but it developed enough vitality to enable sellers to hold the advance already established. There were buyers for everything, on a basis of from \$3.50 to \$5.40 for poor to choice sheep and

from \$1.75 to \$5.55 for poor to extra fambs. Extra

from \$1.75 to \$2.55 for post to extra lambs. Fatra shorp were quoted as high to \$5.55.

Receipts: Cattie, 8.990 heart catters, 305 heart; logs, 15.900 heart; surper, 12.990 heart.

Dewitt's Witch Hazel salve cures piles

Locomotive Crew Injured. CHEYENNE, Wyo., April 5 .- (Sp cial Tolegram to The Bee.)-Engineer O'Neill and Fireman Maguire were sent out with a light engine to help the Denver Pacific train into town this afternoon. When two miles out and running very fast the drive wheel broke loose and the driving rod freed, threshed about, tearing off the cab and knocking out both the engineer and fireman. The former escaped uninjured, but the fireman had both legs broken and was otherwise terribly in-

finement, robs it of its Pain, Horror and Risk to Life of both

mother and child, as thousands who have used it testify. "I used two bottles of 'MOTHERS' FRIEND' with MARVELOUS RESULTS, and wish every woman who has to pass through the ordeal of child-birth to know if they use 'MOTHERS' FRIEND' for a few weeks it will rob confinement of pain and suffering and insure safety to life of mother and child-Mrs. Sam Hamilton, Eureka Springs, Ark.

Book to Mothers mailed free containing voluntary testimonials. Sent by express, charges prepaid on receipt of price, \$150 per bottle.
