COMPANY GOES TO THE SUPREME COURT

Transfer Switch Law to Ba Tested on Its Constitutionality Next.

RECORD ALL MADE UP FOR THE APPEAL

State Board of Transportation Adopts the Recommendations of the Secretaries and Orders the Switches Built at Schuyler and O'Nelll.

LINCOLN, April 9 .- (Special Telegram to The Bee.)-The State Board of Transportation this afternoon unanimously adopted the recommendations of the secretaries of the board in the cases in which the Union Pacific, the B. & M., the Elkhorn and the Pacific Short Line potitioned to be relieved from the construction of transfer switches at Schuyler and O'Nelll. The secretaries visited both points and made careful investigation of circumstances. The law requires the railroad companies to construct the switches unless they can prove to the State Board of Transportation that the construction of the same would be unnecessarily

In the cases at Schuyler and O'Neill the Secretaries of the board deny the requests of the roads to be permitted to escape the operations of the law. The matter will indoubtedly go to the supreme court, as it was generally understood that the law was no be tested as to its constitutionality. be tested as to its constitutionality. LINCOLN INCENDIARY DISCOVERED.

It is stated upon good authority that the authorities at University Place have discovered the identity of one of the parties who have been implicated in the incendiary fires which destroyed the Haish Manual Training school and nearly destroyed the main buildg on three occasions. Although no arrests we been made, it is stated that one of the have been made, it is stated that one of the parties is a student and the son of respecta-ble parenta. He has refused to divuige the names of his accomplices, and insists that the college buildings will yet be destroyed. The college authorities are persovering in their efforts to expose the conspiracy, but are saying nething at present.

IN THE COURTS. Judge Strode this morning entered up an order dissolving the various attachments against the property of David May, which had been levied upon on the ground that he had absconded from the city with intent to defraud his creditors and had no intention of coming back. May denied this, claiming his absence was but temporary, and caused by the illness of a relative. The court found that there was not sufficient testimony to hat there was not sufficient testimony to

Ricketts & Wilson, representing the Ricketts & Wilson, representing the Farmers and Merchants banks of Galva, Ill., today filed a precipe for an alias order of attachment or garnishment against J. D. Macfarland. The money the plaintiff is after is the surplus above the face value of \$20,000 worth of old gas stock purchased by Macfarland. In the latter's testimony the other day he stated that in January, 1893, before he was appointed receiver or had been importuned to accept the position, he learned importuned to accept the position, he learned through Louis Meyer that a bank of Cadiz, O., and one at Coldwater, Mich., each had \$10,000 worth of the old gas stock as security for notes not yet due. These notes curity for notes not yet due. These notes were purchased by Macfarland at their face value, as an investment, the margin of his stock being his profit. The Galva bank also had \$5,000 worth of the old stock, and offered it for sale on March 25, 1893. Louie Meyer there bid for Macfarland and himself, as he then announced, \$5,350. It is easy to figure out, therefore, that in the \$20,000 worth of stock bought by Macfarland there was a margin of \$1,400, and as Macfarland has never foreclosed on this stock this has never foreclosed on this stock this margin, if it now exists, is attachable. Arguments were submitted before Justice Spencer today by counsel in the case of the state against A. S. Jones for the killing of Jerry Peck at Martell February 28, and the court took the same under advisement until next Thursday.

FELL AND BROKE HIS NECK.

Fremont Man Steps Through an Elevator Shaft with Fatal Results. FREMONT, April 9 .- (Special Telegram the Rec.)-E. B. Berggreen, who feed and sale stable near the corner of D and Second streets, fell through the elevator shaft last night into the cellar and broke his neck. He had been in the upper story conversing with Dr. Chambers until it became dark, when they passed down the stairs into the lower story. Berggreen, who was familiar with the building, passed on ahead and called to Chambers to follow him. Almost immediately Chambers heard a fall and a groan, and realized that his companion had dropped through the shaft. Without stopping to ascertain the results, he imme diately notified Carleton, who was employed in the stable, and hastened to summon a

physician, who arrived only to note the last death struggle.

Berggreen had been in the city for several years. He was a native of Sweden, about 36 years of age, and unmarried. The fall was but about seven feet, but it is supposed that he struck on a keg that was standing where he fell.

A coroner's jury was summoned this morning, which returned a verdict according to the above facts. Berggreen had two brothers in the city who are making arrangements
