Rates, 114c word first insertion, Ic a word hereafter. Nothing taken for less than 25c. NOTICE—CERTAIN IRRESPONSIBLE PARties, who are hauting the night soil, manure,
garbage and other filth, and who are dumping
the same in and about the city, to the great
danger of the health of its inhabitants and
contrary to the ordinances regulating these
matters, and who are charging exorbitant
prices for their work, have in many instances
represented that they are employes of mine.
In order to correct this impression and to prevent further fraud I desire to say that I am
operating on a contract with the city, with
my own teams, and further that all my wagon
boxes and tanks have my name printed on both
sides; "A. MacDonald, City Garbage Wagon."
All charges for work will be strictly in compliance with my contract, and no overcharge
or other irregularities will be permitted by
employes of mine. Complaints of any nature
should be made to me and they will be given
prompt attention.
Telephone 1887.

OREGON RICH IN GOLD VEINS

Lucky Strike at Ashland Proves Her Quarts Ledges Not Mere Surface Veins."

WILL BOOM MINING IN SOUTHESN OREGON

Jackson's Hole, Wyo, the Place for Home steaders and Placer Miners-Will Soon Be Reached by a Railroad-General Western News.

News of the expected strike in the Ashand mine has at last been made public. The edge has been cut by the long tunnel at a depth of about 575 feet from the surface. The fissure is a big one-at least thirty feet across between walls, and is carrying a good body of quartz-eight feet or more-where the tunnel cuts it.

The tunnel was begun last fall, says the Ashland Tidings, and has been steadily pushed with the aid of a Burleigh drill through stubborn rock most of the way. The length of the tunnel is nearly 600 feet. From the point where the tunnel cuts the ledge a drift is now being run along the hanging wall to the southward to reach the lines of the deepest shaft or winze from the upper levels. A drift of about 150 feet will reach that objective point, and there an uprise of 190 feet will reach the winze, make tion with the upper levels and drain the mine. The company has never put in a pump of any kind, and for two months past the water has been accumulating so as to gradually crowd out the miners and suspend work in the stopes. With the mine once drained, stoping will be immediately resumed, and the main work of the mine will be carried on through the new tunnel, which will do away with all lifting above that

The importance of this strike-to whole of southern Oregon as well as to the city of Ashland-cannot well be overestimated. It proves that the quartz ledges here are not mere surface veins. Only one other quartz mine in Oregon has been opened to so great a depth. Many "experts" and ambitious mining oracles have at times past thrown cold water upon prospecting in this state by the assertion that there was not a promising field for quartz mining in Ore-gon, because the veins were not "permanent" or deep fissures. How they first arrived at this vicious conclusion it is difficult to surmise, since there had never been any experimental test of the matter, but the as-sertion has been iterated and reiterated, at home and abroad, that there are no deep mines in Oregon and will be none. It has discouraged local prospectors and capitalists, and has frightened away outside capital. Now the Ashland mine steps to the front and calls a sharp halt in this defamation of Oregon's resources. The bugbear a few years ago was "spotted" ledges, "pockety" quartz and unreliable "stringers." The Ash-land mine dissolved that phantom by showing a good body of paying ore and a regular, well-defined ledge throughout the ex plorations above its 200-foot level. haven't heard so much "pockety" dep tion since the mill began turning out bullion from this mine. Now the mine shows a big fissure and a good ore body at the 600 foot level, and we may expect the knowing ones to cautiously admit that we may have some deep mines in Oregon. At least, there are two 600 feet deep that we know of, and everything indicates that the ledge runs as far down as any one will want to go to work a mine. The other mine referred to is also a southern Oregon mine, that of Kubli & Bolt, in the Galice creek district It has been worked for many years (form-erly owned by Green Bros.), and is still being worked, and the rich quartz from it is being crushed in an old fashioned arastra. It is a narrow vein of quartz, and has been opened to a depth of more than 600 feet from the

surface.
IS A LAND OF PROMISE. Jackson's hole is a good stock raising country, grass in abundance and the best kind at that. Moses Giltner has raised here a fine quality of oats. He also raised good potatoes, turnips, rutabagas, carrots, any kind of vegetables, writes a correspond-ent of the Laramie Boomerang.

We have only one school here at present, and it is not a district school, but is kept up among the families; but in the event of the county being settled more schools will be established and at the county's expense. Some people think Jackson's hole is a small country, but let me tell you right bore, from the lower end of Jackson's hole, near where the Mormon bishop, Mr. Wilson, lives, up to Mr. White's, the postmaster's, it is twelve miles, and from Mr. White's place up to where I live it is thirty-two miles, and my place is at the mouth of Jackson's lake. All this distance from Wil-son's to the lake is good, suitable land for homesteads, many streams running through

Some ask me how about fish? Well, with fish it is just as with game—plentiful. Every stream and lake is full of large trout and I have caught more in one hour's time than I would bargain to carry home. Elk, deer, both black and white tail; antelope in bands

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria

of 500, moose, mountain sheep and a few bruins. The geese which leave us in the fall of the year have now returned and we have good shooting at them. We have four different kinds of ducks and pheasant and se. Many awans are here, but their is not good; but some are killed for grouse.

their fine down. Most all of the male population are going trapping during the winter and spring, and while none of them make a fortune at trap ping, yet most of them make a couple dred dollars during the season, and it helps to buy supplies. People here live happily and every few months have a socia-

ble gathering and a hop.

The government is building a road from Lewis lake, in Yellowstone park, to Jackson lake. Also some talk that the B. & M. railroad will commence building through here to get travel to Yellowstone National park and go out over Fall River pass into

Many inquiries are labout mining and about placer ground and I believe several hundred men will arrive to work placer ground. We have many thousand acres f placer ground that will go from \$1 to \$2 ber cubic yard and with the new invented machine to save all fine gold any man should be able to make money

ANOTHER MINING FRAUD.

J. S. Harmon, a Cleveland (Ohio) capital-ist, who is in the city, came west for the purpose of investigating some mining properties in which he and several other gentlemen of the same city have invested in Arizona, and which they fear are not what they have been represented to be, says the San Francisco Call. Mr. Harmon's health is not good, and he sought this coast in order to recuperate before entering upon his investigations "The properties in which we are interested," said he, "is the Columbia Gold Mining and Milling company, which organized under the laws of Arizona with a capitalization of \$500,000. The prospectus of the company contains the following statements: 'The mines owned by the company are the Morning Star, Alice and Great Western, which have been consolidated under one management and are ecated in Highlands Mining district, Colum bia City, Pina county, Arizona, in the very heart and center of the richest gold-produc-ing section of Arizona. The consolidation gives the company 4,500 feet of ore of the richest and largest gold-producing veins. which are true fissures in granite and slate, and are permanent, from six to twelve feet wide, producing free milling ore. The average value of ore is \$36 per ton, and the estimated value of free milling ore in sight i \$5,000,000. The prospectus contained a re-port on the mines signed by Andrew Denman, who was vouched for as a man of veracity by the editor of the St. Louis Chrisian Advocate," continued Mr. Harmon "The depreciation in value of the stock during the present financial depression, until it could not be disposed of at any price led to our sending one of the stockholders out a few weeks ago with an experienced chemist and assayer, and in their report they said that the property was absolutely worthless. A careful examination was made, and samples taken from several different places in the shaft failed to show any indication of ore. I have no doubt as to the accuracy of the report made, and believe that it is simply another one of those great frauds which keep constantly coming to the surface in the min-ing regions, but I thought I would come out

nyself and look over the ground for my own satisfaction.' LOOKING FOR A BOOM. As the snow disappears from the foothills around La Plata City, prospectors are rapidly

going in. Some immense gold strikes have been made in the last two or three days, says the Denver News, but owing to the desire of the lucky ones to have their claims properly surveyed and recorded, to guard against litigation, they refuse to give locations or the extent of their strikes. It is, however, a positive fact that ore running \$1 to the pound has been found there, and in quantities that will make fortunes for the owners. It is expected that the coming sumowners. It is expected that the coming summer will see several stamp mills in operation in La Plata City. The city itself sits on valuable placer ground, the dirt running 6 to 10 cents to the pan. Old timers in the mining industry predict a boom for La Plata second to none in the state. Prospecting is greatly retarded at present by the large amount of snow that still covers the hills. OLD MINE DISCOVERED.

During the summer of 1881 a miner named Kennedy, prospecting on the Needle intains. discovered a he brought down several sacks of very rich ore. Nobody had been able to locate his ore. Nobody had been an overhead, so secret were his movements, says the Durango Southwest. Heavy snows forced him to leave the property, and he forced him to leave the property, and he spent a portion of the winter in Silverton, took sick and died, without giving any person a clue as to the location of the property. J. N. Livengood spent months every year searching every gulch and peak, and was rewarded last week by finding the property. The assays from the ore taken out, which is brittle and ruby silver, give a color of 20 000 courses to the ton. The location of 20 000 courses to the ton. value of 20,000 ounces to the ton. The location of Kennedy's mine was never recorded. Mr. Livengood has named the property the Golden Needle. He will pro-ceed to add further development and make some shipments at an early data

ome shipments at an early date. INDIAN SCHOOL APPROPRIATIONS. The subcommittee of the house commit tee on Indian affairs has prepared the In-dian appropriation bill and submitted it in the shape in which it will probably be in-troduced. The salaries of all Indian agents in Minnesota, North and South Dakota are

maintained as at present. The other north-western appropriations are: Schools for Mississippi Chippewas, \$4,000; other Chippewas in Minnesota, under treaty, \$22,666; Fort Berthold Chippewas, under treaty, \$80,000; total appropriation, under treaties, for Sioux, \$1,400,000. This includes \$75,000 for day and industrial schools, and also \$8,000 for blacksmith at Forest City. Yankton Sioux, under treaty, \$50,000. For the support of White Earth Chippewas (including salary of physician of \$1,200). \$10,000; also a general appropriation for Chippewas in Minnesota of \$90,000; also for relief and civilization of Chippewas, including allowances for cattle and farming implements, \$50,000. Turtle Mountain Chippewas, \$13,000. Poncas, in South Dakota and Indian territory, \$15,000. Devils Lake

Sloux, \$6,000. Irrigation in Crow Creek and other reservations, \$30,000.

The report cuts off \$1,000 from the salary of Captain Pratt, superintendent of the Carlisie Indian school, who has been receiv-ing this amount in addition to his army pay. It also reduces the allowance for incidental expenses to \$2,500 in South Dakota and \$1,000 in North Dakota. Appropriations for northwestern schools for Indian children are: St. John's university and St. Benedict's academy, Stearns county, \$15,000; St. Paul's school, Clontarf, \$15,000; Flandreau school (150 pupils), \$28,550, including \$500 for matron; Fort Totten (240 pupils), \$43,-500; Fort Pierre (150 pupils), \$29,750; Pipe-

stone (60 pupils), \$13,220. BOOZE WAR IN ALASKA. News of the "whisky war" in Alaska was brought down on the steamer City of Topeka, just arrived. The agitation of the past few nonths culminated in the recent seizure by he customs officials of 500 gallons of smug-

gled whisky. At the end of the last fiscal year, June 30, 1893, the government ceased seiling beer stamps in Alaska, says the Scattle Post-Intelligencer, thereby causing the shutting up of the brewery of John Gray at Juneau. Under the law liquors can be sold by drug-gists on physicians' prescriptions and licenses are only to be granted to reputable drugg s s.
As a matter of fact prescriptions have been given for ten gallons of whisky, which the druggists sold to men who carried on saloons, although it is against the law to sell drinks. In this way there was quite a trade in the stuff, which is admitted under special permit by customs officers when consigned licensed druggists. But the druggists also secured large shipments of beer, and when this was put on the market it caused Gray, whose brewery had been closed by the gov-ernment, to make complaint. He forwarded his complaint to the department that the drug stores were selling beer, but he had been refused the privilege of manufactur-

the druggists by the ears, and as warfare had been opened against them they re-taliated by informing the customs officials of the landing of some whisky in the night. The officers procured a search warrant and found 500 gallons of British Columbia whisky in the residence of Frank Berry, a saloonkeeper. Berry was arrested and is now held in \$3,500 bonds.

THE DAKOTAS.

Word has come to Edgement that there are 60,000 head of sheep on their way from northern Wyoming and Montana. They will be placed on the range southeast of town.

This removal of so many sheep is caused by the trouble existing between the sheep men

and cattle men. In the United States court William C. Estes, who worked the workingmen for their dollars by advertising to secure them work for \$1, was sentenced to six months in fall and to pay a fine of \$200. He has a wife and three children in needy circumstances. He says he made no money by the achieme.

The new city council of Watertown in-ingurated their term by a sweeping reduction of salaries all along the line. duced the treasurer's salary to \$100 per year, the city clerk's to \$175, the city attorney's to \$200 and the city marshal's to \$50 per month. They also passed a resolution donating their own salaries for the

next two years. The stock rangers of the Rosebud reserva tion and the ceded lands north of White river report very small losses in cattle durriver report very small losses in eattle dur-ing the blizzard. Stock has come in in the best of shape. A great many feeders will be brought in from Minnesots and Wisconsin as soon as grass starts. The sheep have one well. The heavy snows give promise of good hay. As soon as the roundup comnces vigorous measures will be taken to bunt out the rustlers.

COLORADO.

Goose Creek camp reports some additional finds of great promise. Colorado Springs is full of tourists return-ng from California and the Midwinter fair.

A lot of 100,000 young trout will be turned

oose in the streams about Durango this season. Four hundred carloads of fat cattle and theep will be shipped out of Larimer county

this spring. Prospecting for coal at Akron continue with the result of finding several small seams and good prospects.

Alfalfa has sold as high as \$12 a ton in Grand Junction this spring, and the farmers propese to plant more forage crops. A gold strike on the north fork of the Big

Thompson, twenty-five miles west of Love-land, is exciting the people of that region. The Livingston mine and mill, Boulder county, is said to be clearing 50 per cent of value of the ore handled in its cyanide

The Waupuca copper mine near Riverside is showing up wonderfully well. The tunnel is now 310 feet with a 70-foot shaft at its extreme end.

A new bridge is being built across the Arkansas at Rocky Ford to accommodate the travel from Ordway and Olney to the water-

melon center. A very important and promising gold strike is reported at the head of Nolan creek, twelve miles east of Silver Cliff. Forty men are said to be there at work.

Prominent Leadville men are contemplating an extension of the Silver Cord tunnel entirely through the hills to Big Evans gulch. About \$100,000 will be invested. Prof. Benjamin Sadtler, formerly of the School of Mines, is at Balfour. He pronounces the reil wire gold in the Ella C mine as being the same as some found in Cripple Creek and says its color is due

to its being covered with a film of tellurium. The Mayflower in Hayden guich, Granite The Maylower in Hayden guice, Granite district, sent out a carload last week which yielded \$250 per ton in gold. This week the Magenta commenced shipments, it having four or five carloads of \$100 ore on hand. The Snowdrop also promises to be a good ship-

A Dubois dispatch says that E. J. Bowers has discovered the richest free gold lode that has yet been found in the Goose creek dis-The specimen he brought in was covered with free gold. The district is fast fill-ing up with prospectors. New wagon roads are building to make the camp more accessi-

P. J. Stroun, a prominent cattle grower of Montrose county, says that all cattle in the Paradox valley pulled through the winter in fair shape, while in the Uncompangre valley and other sections of Montrose county feed-ing was generally a necessity, but the cattle owners were fixed for it and had plenty of hay, straw and alfalfa on hand to carry them The country adjacent to the town of Pal-

isade, in the Upper Grand valley, says the Grand Junction Star-Times, is coming to the front as a fruit region. Many sales of small tracts have been made this spring, and in every instance the purchaser has set about preparing the ground and ordering the trees start in the leading industry of

Grand valley. WYOMING.

Rock Springs, Wyo., is about to creet a \$10,000 city hall. The coal output of the state last year was .429,300 short tons; value, \$3,291,000.

About 1,000,000 young trout now in the state fish hatchery will be distributed next menth. Water is already very low in the Chey-enne reservoir and they are hoping for a

snow storm to give them a supply. A plat of 2,000 acres of the choicest agricultural land has been located on the Fort Fetterman reservation, near Douglas, by J. M. Alexander, James A. and David S. Brock-way, Williard Virden, G. W. Dickton, Mrs.

M. Foggett and Miss M. E. Brockway. An irrigating canal will be built from the Platte. Residents of Central and northern Frenont county have sent a petition to Wash ing asking that an additional company of troops be stationed at Fort Washakie. It is said that the Shoshones and Arapahoes are becoming restless because of the strict rules enforced by Captain Ray of the agency.

OREGON. Baker City has the required bonus about subscribed for a flouring mill.

Railroad ties were shipped from Elgin in March to the number of 53,000. The proposed drill corps for the coming encampment at Roseburg will be composed of over sixty young ladies. As soon as practicable the coming sum

mer another party of scientific men will come from the east for the purpose of more theroughly prospecting the wonderful richness of the John Day fossil beds. Twenty-four carloads of rich Jackson soil was taken from the railroad right-of-way south of Woodville to enrich the flower gardens which the Southern Pacific proposes

to plant at the depot at Grant's Pass The Coos Bay Railroad company is having its horses brought in from the valley and is preparing to begin the work of extending the road through to Roseburg. The engineers are expected to begin work at

Mrs. S. E. Ish of Jacksonville has given a contract for the construction of a granary 24x30 feet, with a capacity of 6,000 bushels. She is said to raise more grain and hay than any other one person in southern

Oregon The Grand Ronde Lumber company prom-ises to replace the washed-out bridge above Perry with a very strong structure, with three piers, and put in the finest dam in the state, so that future floods will rage against it in vain.

George W. Harper, agent at Umatilla Indian reservation, reports that the leasing of the lands belonging to the Indians on the reserve is going on finely. There is a good demand for the lands, and a large portion of that which is subject to cultivation is bargained for.

The John Day is on another rampage, seing three feet higher than a month ago, when it broke the record for twelve years back. Much damage has been done all along the river, washing away fences, hay, etc. Pease & McAllister, sheepmen, lost about 100 tons of hay, Many narrow escapes from drowning are reported. According to the Astorian, the logging

According to the Astern auch poor condition business was never in such poor condition as at present. It is reported that fir logs as at present, the purchased at \$4. W. F. in plenty can be purchased at \$4. W. F. McGregor has just returned from a trip to different points, including Gray's river, Deep river, Crooked creek, Seal river and Skipanon creek, and purchased a quantity of spruce loge at very low rates.

We could not improve the quality if we said double the price. DeWitt's Witch paid double the price. DeWitt's Witch Hazel Salve is the best salve that experience can produce, or that money can buy.

Notice of five lines or less under this head, fifty cents; each additional line, ten cents.

SHERMAN-Eddle, aged 1 year, son of Mrs. F. I. Sherman, Will be brought to Omaha at 10 a. m. tomorrow for burial.

GROSSMAN-Edward T., only son of Dr. and Mrs. Paul Grossman, aged 21 years, 2 months, 2 days, Funeral will be held from residence, N. W. corner Seventeenth and Lougias streets, at 2 p. m., Friday, April 29. Friends are invited to be present. Internet at Prospect Hill. terment at Prospect Hill.
