It won't be the fault of the railroads and their employees if the Kelly army does not come to actual want and privation before it gets out of Iowa.

When one war dies out another takes its place. If we can't have war in Brazil or Nicaragua, we can have war in ocean steamer passenger rates.

The New York Herald is discussing that burning question of the day, "Shall we know each other in heaven?" Better submit it to a vote of the people.

Senator Quay's tariff speech proved so exasperating that he literally talked himself sick. The result upon the auditors who listened to him probably differed in degree rather than in kind.

The park commission deserves great credit for having succeeded in arranging the program for music in the parks this season without precipitating a conflict between the various musical organizations of the city.

Lightning struck the capitol at Albany one day last week, but fortunately left the legislators uninjured. Electricity has enough to do in the Empire state to dispatch the criminals who are sentenced to the executioner's chair.

Senator Gray wants the senate to adopt a rule proscribing the reading of set speeches in that body. He would have the senators memorize what they wish to say.

European governments are becoming cautious as May day approaches. The May day demonstrations of the workmen this year give promise of being more than usually extensive and impressive by reason of the unsatisfactory industrial conditions that exist almost all the world over.

The bill making having a misdemeanor that was introduced into the New Jersey legislature has been killed by a decisive vote. It is doubtless just as well that it is dead.

There ought to be some legislation to prevent the levying of alms upon the rolling stock of street railways while in actual use by the public.

The deaconism of the nomination of James D. Yeomans of Iowa to be interstate commerce commissioner places the commission once more in possession of a full membership. The importance and power of the commission has so declined in the public estimation that a change in its personnel will not attract the attention that it would when the commission was first established.

Mr. Yeomans has had an extensive railroad experience, part of it, however, having been in the service of the railroads. The merits of his selection for the place will have to be determined from the record he will make in his new official capacity.

There died in Washington a few days ago an old man who for forty years had been appealing to congress to give him justice. He had a claim of great value, and more than one congress had decided that it was a just claim, but defeat after defeat followed the efforts of the indefatigable claimant to have it allowed.

There is a common impression that wheat is lower now than at any former time in our history, but this is a mistake, though it is lower than at any other time in more than forty years.

The low price of wheat and the unfavorable prospect of any advance in the price are matters of interest not only to the wheat growers, but to everybody in connection with the question of returning prosperity.

It is not surprising, after all, that women should be holding up trains, even in Omaha.

OLNEY'S UNION PACIFIC OCTOPUS.

Attorney General Olney has submitted to congress a plan for reorganizing the Union Pacific railway system. Mr. Olney's plan contemplates the creation of a railroad octopus that will embrace over 8,000 miles of railroad covered by three blanket mortgages aggregating over \$250,000,000, to be guaranteed, interest and principal, by the United States of America.

Now, there is the government to gain anything by Mr. Olney's scheme of reorganization, and why should the United States do what no syndicate or combination of capitalists of Europe or America would ever undertake, and which the capitalists, foreign and domestic, who now own the bulk of all these cats-and-dogs, called bonds, issued under the Dillon, Gould and Adams regime, have not dared to assume?

Would not every dollar of this enormous sum have to be drawn in the shape of tolls from the patrons of the road? Does the Olney octopus scheme contain a military provision by which any part of the debt shall come out of the pockets of the stockholders?

Mr. Olney's octopus is not to be merely an extension of the bonded debt of the Union Pacific system at 2 per cent for 100 years. The first mortgage is given the preference under his scheme and \$7,500,000 of it are to be paid off out of the money in the United States treasury.

The worst feature of the octopus scheme, however, is the legalization of existing issues of stock, which are enormously inflated. Now the bonded debt of the Union Pacific system under the Olney octopus bill reaches \$31,000 per mile.

The value of a young man to his employer depends largely upon the confidence inspired by him that he is satisfied to do what is assigned him. The dissatisfied employe can do justice neither to himself nor his employer and it is probably to the interest of the latter to let him have his cherished change. The "rolling stone" is always less desirable to him than those of his employees who are steadfast and firm.

have been greatly benefited if the government had acted justly and honestly toward them, but they, too, passed away appealing in vain to be given what fairly belonged to them, and it is hardly to be hoped now that any of these claims will ever be settled.

It is a humiliating fact that this national policy of dishonesty is as well known abroad as it is to our own people. It is said that in France, in Germany, in Italy, in Spain, in Russia, in the United States, and in the islands of the Pacific, the American policy crop out now and then, and the statement is not incredible that odium abroad in our national dishonesty has operated to our financial disadvantage.

THE ROLLING STONE IN BUSINESS. It being a young man should, so far as it is possible, secure the position which he thinks he can fill most acceptably to himself and his employer and then stick to it.

Change for the mere sake of change from one business to another, from one employer to another, from one city to another, is calculated to destroy any advantages that may be gained.

It is not surprising, after all, that women should be holding up trains, even in Omaha.

The Monstrous Doctrine of Scott's Decision Denounced as the Most Infamous and Eminent Ever Promulgated from the Bench.

BROWNING, KING & CO. The largest makers and sellers of fine clothes on earth. Your money's worth or your money back. It will soon be hot. Then if you haven't bought that Spring Suit you'll wish you had. The best styles always go first. There are lots of them on the street today, and they are the nobbiest there are, too. We don't claim to be absolutely perfect, but as near perfection as is ever attained in this world; so near are our Spring suits to it this year. The back end of our store is jammed full of new spring style hats—hats just like hatters sell—at a dollar a hat less than hatters charge. But we are showing the finest line of spring suits for men and boys ever brought to this city. They range in price from \$10 up. BROWNING, KING & CO., S. W. Cor. Fifteenth and Douglas Streets.
