The funeral of Mrs. George C. Hansen will occur this afternoon at 3 o'clock from the residence, 816 South Sixth street.

The Ministerial association of the city meets on Monday at 10:30 a. m. in the study of the First Presbyterian church.

The residence of C. C. Cook, 804 First avenue, was entered by thieves Friday and

a lot of children's toys were stolen. The Lone Star and Council Bluffs base ball teams will cross bats this afternoon at the corner of Tenth street and Fourteenth avenue, for a purse of \$20.

The funeral of the 3-months-old child of Mr. and Mrs. George Miller will take place this afternoon at 2:30 o'clock from the residence, 916 Fourth street. Lyman T. Wright died at 10:30 o'clock last

night at his residence, 513 Franklin avenue, aged 74 years. The funeral will take place tomorrow afternoon at 2:30 o'clock.

The wearing apparel which was found by the police in the southern part of the city is thought to have been stolen from a Kansas City freight car which was broken into the other night. A game of base ball was played yesterday

afternoon between the Fifth Avenue club and that of Mac Gloughin. The score stood 14 to 6, in favor of the Fifth Avenue club. The players were boys, aged from 14 to 16. The marriage of Miss Jessie Colby to Mr. Frank Durkee will take place June 19 in this city. Miss Colby for the last two years has occupied the position of instructor in vocal music in the schools of Council

R. C. Payne is confined to his home or avenue B as the result of a paralytic stroke he suffered Friday night while at work in his store at the corner of Twenty-third street and Broadway.

Lyman T. Wright died Friday night at 10:30 o'clock at his home, 519 Franklin avenue, aged 74 years, after an illness of one week. The funeral will be held this after-noon at 2:30 o'clock.

A hail storm struck the city last evening shortly before 6 o'clock. It was most severe in the western part of the city, where hail stones were picked up some of them half as large as a man's fist.

Otto, the 5-months-old son of Mr. and Mrs. F. R. Bebensee, died at 9:30 o'clock yesterday morning at the residence in Hardin township. The funeral will take place Monday morning at 10 o'clock. The Northwestern employes have all been

going through the process of vaccination at the hands of the local physician of the com-pany during the past few days, in compliance with an order issued from the company's headquarters. There will be services every evening this

week at St. John's English Lutheran church in James' hall, 17 Pearl street. Revs. A. J. Turkle and Luther M. Kuhns of Omaha will assist the paster. Sheriff Hazen took possession of a piano

yesterday that was supposed to have been fraudulently secured, and sent it back to the man who claims it in Dubuque. It was on board a Milwaukee freight train, to be shipped to Arthur Poelka in San Fransicso. C. Klaze of Dubuque swore out the search

Council Bluffs assembly No. 5, American Railway union, will hold a special meeting Tuesday evening. Several new prembers will also the labor to the property of the labor to t be taken into the order. A full attendance is requested.

W. H. Montgomery, an old telegraph oper-W. H. Montgomery, an out delegrant op-ator, has been making a fat living during the last few days, collecting money with which to buy a wooden leg. What he col-lected he spent for tanglefoot. Yesterday he was released from the city jail, having paid a fine for drunkenness, but before the day was over he had secured another jag and is now in fail a second time.

T R Hughes who keeps a store next door to the Lower Main street shoemaker, whose place was robbed the other night, had left a lot of shirts and other us ful article: hanging under his awning. The thieves let him severely alone. He doesn't quite like to admit that his goods are not worth stealing, but prefers to attribute his good luck to the fact that the thief didn't know a good thing when he saw it.

A lively runaway stirred up some excitement yesterday afternoon on Pearl street A team with a buggy attached started near the Third street school and ran up the street, finally colliding witth a lamp post in front of the Grand hotel. Both horses were knocked down by the force of the collision and the wagon tongue was split squarely in two. The driver was thrown out, but only slightly bruised.

Numerous Tramps Causing the Inhabitants of the Suburbs Much Alarm.

POLICE REPEATEDLY APPEALED TO FOR AID

Other Towns in the Western Part of Iowa Suffering from the Same Cause-Forty Society Beauties Give a Minstrel Show.

People living in the northern part of the city are complaining on account of the large number of tramps that infest their neighborhood. The whole city is alive with them now, large numbers being ordered out of town every day by the police. The Northwestern yards and round house have been a favorite camping ground for them. As soon as they are ordered out of the yards they strike off in a northerly direction, and for the past two or three days they have been camping around Big Lake. The people who live there profess to be afraid to stir out of their homes day or night and have implored

the police for more protection.

Other towns in this vicinity seem to be suffering in like manner. Sheriff Campbell of Mills county sent word to the police that on Thursday several stores in Glenwood were broken into by professional burglars and about \$1,000 worth of silks, boots, shoes and the like were taken. The same night a store at Henderson in the same county was entered and about \$250 worth of property

ST. PAUL'S GUILD IN CORK.

Forty Society Girls Give a Minstrel Performance at Dohany's.

'Ebony Warblers,' heretofore known as St. Paul's guild, gave a minstrel performance at Dobany's opera house last Friday evening. The novel spectacle of forty society beauties, who had temporarily forsaken the rouge box for the stove polish, was tremendously interesting to the public, and when the curtain rose the forty darkies on the stage and something like 1,000 spectators in the parquet and balcony, viewed each other with mutual interest. Miss May Davenport ocupied her share of the center of the stage and took the part of the interlocutor, showing all the ignorance and curiosity which an interlocutor must have In order to give the end women a chance to perpetrate their jokes.

Mesdames Cummings and Mullis manipulated the bones, and Mrs. Bower and Miss Grace Deming thrummed the tambourines. To these four is due the credit for the success of a large portion of the entertainment, for they had spent many sleepless nights in col-lecting a store of witticisms whose whiskers should not be gray, and their labors had been crowned with success. While a chest-nut could now and then be heard drop on nut could now and then be heard drop on the platform, for the most part their "gags" were new and good. The hits which they gave almost every one of any local prom-inence were highly enjoyed by every one, with the possible exception of three or four society youths, who had rented a box and come armed with a telescope, a greased pig and other things, which were calculated to disturb the screnity of the brunettes before them. To them it was a most funcreal affair, and one of the best parts of the entertainment was the mortification which hung about that box in great chunks.

Two of the other boxes contained a party of eight young men, who had made special preparations to be there. They were full dress suits, scarlet necktles, and plate glass diamonds that might have been used for paper weights during business hours. The complexions and general bearing of these young men indicated that they might be the proprietors of prosperous crap joints or that they might have made their millions that they might have made their millions as porters on board a Pullman sleeper. But it it was a mistake. They were Hon. Thomas Bowman, T. E. Casady, E. A. Troutman, F. T. Seybert, E. A. Wickham, Perry Badollet, F. H. Evans and L. Zurmuehiln, jr. Their entrance threw a shadow over the audience, and many thought it would rain. But it merely thundered.

Council Bluffs. Will Have New Quarters.

C. A. Atkins, manager for the Nebraska Telephone company, has the promise of new quarters and a brand new multiple switchboard. The latter is now being constructed in Chicago by the Western Electric company. C. E. Yost, president of the Nebraska Telephone company, has decided that Council Bluffs is deserving of better telephone service. In order to furnish this it will be necessary to have larger and better quarters. The Baldwin block has been selected, and work will begin at once getting the rooms on the fifth floor ready for the new switchboard, which will probably be delivered by May 15. It will be first-class, finished in mahogany and will have the very latest improvements. There will necessarily be many such in the way of new cables and poles. When all complete Mr. Yost says the improvements will cost about \$10,000. Mr. Atkins says he believes that with the new office and system he will have 500 subscribers before May 1, 1895.

One thing about the new system which will meet with the hearty approval of all who use the telephone is that "Central" will do all the ringing after the subscriber gives the first short ring. Any ring after the first will be taken as a signal from the subscriber for disconnection, and he will be disconnected whether he wants to or not. He will have no trouble, however, in calling up central again and getting another connection Under the present system a great deal of inconvenience has been caused the public by the inability of the girls at the central office to tell whether the subscriber was ringing for central or for the man at the other end of the line, and it must be confessed that they usually appeared to give them-selves the benefit of the doubt. Now all rings are intended for central, and there will consequently be no reason for the delay that has heretofore been such a drawback to the constant use of the telephone.

Furnace Work. Mr. W. J. Lauterwasser, well known to be one of the best furnace men in this section, has engaged with P. C. DeVol. He and John Scott will work together, and it goes with-out saying that whatever they do will be perfectly done. Now is a good time to look up the furnace question.

R. O. Graham Explains. COUNCIL BLUFFS, Ia., April 27 .- To the Editor of The Bee: Your headlines to the dispatch from Atlantic April 26, "Woodmen Advance Agent Weakens-Graham of Council Bluffs Says Kelly, Baker and Spead Are Sharpers," do me and also the Woodmen of the World an injustice. I said nothing of the kind. I did say, "They were sharp, shrewd men." In fact, the entire dispatch in regard to what is attributed to me is distorted with the intention of putting a different meaning to what I really did say. The reason why I came home was because my business demanded it and not because I was becoming "disgusted." I have only very little more to say in regard to this matter, and that is that if the Rock Island and wishes to retain the friendship of the business men and shippers throughout this section of the country it had better call General Superintendent Dunlap in and let some one else attend to the business of the oad, for if one-tenth of what I have heard is true his only object is to incite Kelly's men to do some unlawful act that there may be an excuse to arrest and imprisor or to call upon the militia of the state, prinarily to protect their property, but in reality to create a riot. Now, only one thing more. Why does General Superintendent Dunlap travel with an armed body of men from station to station without having them egularly commissioned and sworn as peace officers? Very respectfully yours, R. O. GRAHAM.

Death is an unbidden visitor. Will be call tomorrow, next week, next month, or next year? ask yourself. If so, have I made uch provision for those depending on me as ought? The Pankers Life association of Des Moines affords such protection that you can go to bed every night feeling perfectly secure. It is thoroughly trustworthy, yet on ecount of its income from reserve (\$1,244,-240.63) the cheapest in cost. W. O. WIRT, Agent.

Struck by a Train. A young German was found yesterday noon by the officials of the Chicago, Milwaukee & St. Paul railway lying by the side of the track senseless. The side of his head was terribly mangled and covered with blood, and he presented a ghastly appearance. It was thought at first that he was dead, but an examination showed that the pulse was still beating. The body was picked up and carried in the patrol wagon to the Woman's Christian association hospital, and, three hours after being put in one of the beds there, he was just beginning to move his limbs, but was still unconscious. His physicians stated that his chances for recovery were very slender. Nothing was found on his person by which he could be positively identified, although it is thought that his

name is Raph, and that he lives on the farm of George F. Wright, east of the city. Up to a late hour last evening all at-empts to identify the unfortunate man positively had failed, but it is thought that something will be found out about him today. He had not recovered consciousness, and so was unable to furnish any information himself as to either his identity or the cause of his injuries. His physician stated last evening that he did not consider his injuries dangerous, although it might take him a long time to get well. All wool ingrains from 55c to 75c yard. Baker's Man Again.

There is another prospect of capturing the man Smith, who assaulted Constable Baker last New Year's day, if the city officials are correct in their guesses. They were telegraphed yesterday by the authorities in Missouri Valley to be on the lookout for the man who shot the marshal there in the morning. The description they gave fits Smith, Blakely, Rook, or whatever name he may be going by now. It will be remembered that the county officials had a theory that this man was mixed up in a couple of train robberlas on the Morey. train robberies on the Kansas City road near St. Joseph last winter.

COPELAND AND SHEPARD'S PLAN FOR CHRONIC INVALIDS

MARSHAL OF MISSOURI VALLEY KILLED Thoughtful Physicians Pronounce It Not Only a Great Economic Success, But a Great Practical Humanity -- Cure of Chronic Maladies on a

The Copeland and Shepard system is symly a measure of enlightened economy applied to the benefits of enlightened medicine. It is intended as an accommodation to both sides of society, to rich and poor alike.

to both sides of society, to rich and poor alike.

A great many of their professional brethren are constantly referring to their system as a "great practical humanity." But it isn't on account of the low fee merely. What is excellent and admirable in the Copeiand and Shepard quarter-fee system is that it represents the improved treatment of chronic maladies, a treatment that is, in the nature of things, as applicable to the infirmities of the rich as to the infirmities of the rich as to the infirmities of the account of course there are aristocratic idlots who won't eat sugar because common beenle can

Of course there are aristocratic idiots who won't eat sugar because common people can afford it; rich imbectles who would refuse to have gas in their palaces because it is used in the poorhouse, and who would refuse to ride in cable cars because they accommodate mechanics, and who would refuse to take the newspapers because they only cost a penny and are read by Kelly's army.

only cost a penny and arc read by Kelly's army.

As a rule, however, rich people do not disdain to buy or enjoy any excellent or indispensable thing just because the price is trifling. The sensible German king drinks lager beer that sells at 3 cents a glass, and the sensible English queen drinks hydrant water that don't cost anything, and all the polite sovereigns will look on ruinbows and listen to nightingales, though they are chojoyed even by trainps and papers.

The wealthy classes of Omaha avail themselves of the matchless system of disease treatment offered by Drs. Copeland and Shepard in spite of the fact that that system is "a great practical humanity" and "a great economic accommodation," on the same principle that common sense millionaires take the daily papers because they are the best means of information and ride in the motor cars because they are the hundlest and fastest carriages.

Parties who may desire to test the excellence of the Copeland and Shepard treatment for any obtonic infirmity are welcome to a trial treatment without charge on applying in parson. ing. Grand Island or Fremont, Neb., and Johnson's home is supposed to be Rock Island, Ill. Both are desperate characters, while Henderson is an ex-switchman and does not bear a savory reputation, having been idle for six months and more.

The plunder stolen from Lyon's store was found concealed in and about the Henderson residence, so that no doubt exists that the searching party were on the right track. Being armed with the search warrant, the officers of course had a right to enter the house, and the resistence offered by the men when they knew this fact shows their

desperate character.
Whitney was about 35 years old and unmarried, living with his mother and sister, who are prostrated with grief. The entire community is wrought up, and if opportunity offered would no doubt do violence to the perpetrators of the violent act.

Lynching has been talked strong this afteroon notwithstanding the removal of Henderson to the county jail at Logan, but it is likely that calm counsels will prevail. Whitney's popularity as an officer extended through all classes of citizens except the

extreme tough element.

A report came in from a searching party at 3 o'clock p. m. that several farmers north of town about six miles have seen an armed man corresponding somewhat to Davis' de-scription, and that he had drawn and threatened to use his gun if not permitted to pass The farmers are aroused and out on his trail. A large reinforcement left here within half an hour, and will search till dark. There is a fence north of here ten or twelve miles to which this man is doubtless

The Abbe L. Michel has been experimentng on Mr. Precce's lines in telephoning without wires. He has established a private telephone, using the ground only for the conduction of sound. He based his operations on the idea that the surface soil and the deep soil are separated by a layer of greater resistance, which acts as an insulator, and may, therefore, be taken as the going and returning wires of the circuit. He has connected his telephones to the surface, by a metal plate and the subsoil by a deep will be such station, and he finds that with Thousand Miles a Day.
