REV. CRANE'S ASSAULT ON OMAHA.

A man who cannot see anything good in a community is too good to live in that community. Omaha does not seem to suit Rev. Frank Crane. He never utters anything but vituperation and promiscuous calumny about this city, its officials, newspapers, merchants and workmen.

Crane's sympathy shown by Omaha people, and especially Omaha workmen, for Killy's Industrialists was reprehensible, because in his opinion the movement will usher in a reign of terror in America and because Omaha did not offer Killy and his men food and shelter for an indefinite period.

HE'S AN OBJECT OF CONTEMPT

Press of the State Still Expressing Its Opinion of Judge Scott.

DIGNITY OF THE BENCH LOWERED

No Justice in the Action Taken, Which Was an Outrage Upon the Freedom of the Press—Something of a Boomerang.

Orl Quiz: E. Rosewater of The Bee, and likewise one of the reporters, were arraigned by Judge Scott of the district court on a charge of contempt of court.

Wisner Chronicle: Judge Scott pretended that he found it a distasteful duty to punish Rosewater for contempt in order to maintain the dignity of the bench and cost it more respect among all who love fair play than anything which The Bee has said or could say.

Hastings Nebraska: From the information at hand it is hard to determine whether the contempt comes in. Judging from reports it would seem that the judge had arrogated to himself the power to use the criminal law through the arrest of a citizen into jail for an imaginary personal wrong.

Bertrand Herald: The despotic Judge Scott of Omaha has been fined and sentenced to jail for contempt of court.

St. Joseph (Mo.) Herald: Talk often wins a verdict, but it did not in a recent case at Omaha. There Editor Rosewater clearly distanced Judge Scott in the matter of talk.

Cleveland Plain Dealer: Judge Scott of the district court has been fined and sentenced to jail by Judge Scott of the criminal court because he presumed to criticize some of the acts of the bench.

Without entering into the merits of the case, it would seem that the judge had exceeded his authority in his treatment of Editor Rosewater.

Minneapolis Tribune: Judge Scott of Omaha has been fined and sentenced to jail for contempt of court.

Norfolk Journal: The trial of Editor Rosewater of The Bee for contempt of court by Judge Scott of the district court is something more than a mere personal matter between the men named.

Albion Argus: Editor Rosewater, editor of The Bee, has been fined and sentenced to jail for contempt of court.

Superior Journal: There has been a personal quarrel on some time between Rosewater of The Bee and Judge Scott of the district court of Douglas county.

Atsley Chronicle: The action of Judge Scott of Omaha, in sentencing Mr. E. Rosewater of The Bee to pay a fine of \$500 and serve a term of thirty days in jail, is an outrage against American citizenship and American freedom.

Lincoln Courier: A careful perusal of the proceedings in Judge Scott's court in Omaha in the case wherein E. Rosewater was charged with contempt, impels us to believe that Judge Scott has done much to lower the element on the bench.

The government of the United States granted the Union Pacific Railway company millions of acres of land and more for the purpose of building up the road.

The only female treasurer of a municipality in Kansas is Mrs. E. Rosewater, who is a daughter in the sum of \$1,000, which has probably been expended in back hair.

The Kansas woman in office. New York Tribune. The only female treasurer of a municipality in Kansas is Mrs. E. Rosewater, who is a daughter in the sum of \$1,000, which has probably been expended in back hair.

The Union Pacific Settlement. Denver Republican. The government of the United States granted the Union Pacific Railway company millions of acres of land and more for the purpose of building up the road.

Bishop Bonanza and the Civil Courts. Chicago Herald. It has long been the rule of the Roman Catholic church in this country to maintain the status quo in all matters relating to the property and interests of the church.

The American Interest in Samoa. The State department will at an early day send to congress, agreeably to a request of the senate, all the correspondence relating to the Samoan islands.

The woman suffragists in New York. The campaign of the woman suffragists in New York is in its final stages.

Those suddenly discovered herds of wild buffalo that are turning up in all parts of the west would certainly be surprised if by chance they should happen to run into one another and join their forces.

Governor Jackson seems to have gotten to the point where he will have to admit that his military face at Council Bluffs was not exactly "all right."

What does the school board propose to do about making some of the larger school grounds presentable and attractive this year? It has the opportunity to add materially to the good appearance of the city and to the comfort and convenience of the people who live in the vicinity of those grounds.

That was a significant remark of a Chicago mine owner, who intimated that his father might break away from the combination and pay the striking miners the price for their labor they demanded.

During all this heated controversy the real arguments for and against woman suffrage seem to have been almost completely overlooked.

It is a very interesting and important question whether or not women will be granted the right to vote.

The matter will doubtless be seriously debated when raised in the constitutional convention.

Should that convention determine to strike out the word "male" from the suffrage qualifications in its revision or to submit a separate constitutional amendment embodying the same point, the real issues will be brought before the people.

THE EFFECT OF THE COAL STRIKE.

The great strike of the bituminous coal miners, which is now extended to all the principal mining districts of the country, is producing the expected effect upon other industries and increasing the army of the unemployed.

The annual consumption of bituminous coal in the United States is not far from 115,000,000 tons, or over 9,000,000 tons monthly.

The operation of railroad trains with federal troops will never become popular in the United States.

The ultra-radical press of Chicago is boasting that the men who compose the Commonwealth army raising in that city are so weak from hunger that they will not be able to commence their proposed march to Washington.

THE BILL AND THE BALL.

From Wilson bill and income tax. We gladly turn awhile to watch our base ball players slide to bases in fine style.
