The interior of the hall was tastefully decorated with the national colors of America and Ireland, and the shield and harp hung together all over the room.

ON THE PLATFORM

The platform was occupied by local and visiting priests, local and national officers and members of the Hibernian order and city officials.

J. A. Kilroy of Lincoln, Neb., was chairman of the meeting and after the crowd had been seated he welcomed the delegates and visitors in a cordial manner.

He would not talk much about the order of Hibernians, except to say that it was an Irish society born of the emigration of the Irish people to this country.

He said that the mission was not yet fulfilled, but the vitality of the organization. They would continue to work for home rule for their native country.

The body of miners referred to marched upon the colliery carrying weapons of various descriptions, though heavy sticks predominated. Upon arriving at the colliery it was found that the buildings and pit entrances were guarded by a strong detachment of gendarmes.

The gendarmes were reinforced and no further trouble is anticipated at that particular point.

SHORT ON COAL AND WATER

General Sanders' Army Compelled to Go Into Camp for the Night.

WARRANTS SWORN OUT BY WHOLESALER

Missouri Pacific Officers Start West with an Army of Deputies to Arrest the Commonwealers Who Captured Their Train.

PUEBLO, Colo., May 9.—General Sanders' Cripple Creek Industrials are still traveling east on the Missouri Pacific train which they captured last night.

The train was rather neatly effected. While an engine of the Denver & Rio Grande road was taking coal from the Kewanee before the engine, it was suddenly surrounded by fifteen of the men under General Sanders.

They took the engine and ran it down to the Missouri Pacific yards where there were six coal cars that had been left there a short time before.

The whole band boarded these cars, and attaching the Rio Grande engine, started for the east at a lively gait. Four miles out they met an engine which was coming in for the purpose of taking out a passenger train.

Since the Cripple Creek army arrived, the engine men have been kept busy with the object of ditching the Industrials' train and it was expected that if they did not stop before reaching the obstruction, a collision would result.

Derby, when notified by wire that the train was again in motion, ordered four engines, which had been awaiting development at Arlington, twenty miles from here, to go east rapidly as possible.

Another locomotive was ordered to be ditched near Haswell, which is beyond Arlington. The Missouri Pacific is in a hurry to get the train to the west.

The tank at Ordway, ten miles beyond Oney, has been emptied and water for the locomotives is being secured from wells. A little anxiety was felt when it was learned that the track around the engine was completed.
