they broke out the people and the firemen extinguished them. The walls began to crumble and fall and the great rush of fiames which followed started the houses burning again, and at the same time flames were seen burating from the roof of the Summerfield Methodist Episcopal church, a

short distance away.
Within half an hour the magnificent hotel was seen to have joined the tabernacle on the road to destruction, and no water could reach the fire there. The guests had lost no time in making their escape. They waited only to snatch up a few valuables, but wear-ing apparel and other effects had to be left

the greedy flames. WOMEN RESCUED BY FIREMEN. From the fifth floor of the house Mrs. Loomis, one of the guests, and her newly born babe, had to be carried down the fire bern babe, had to be carried down the fire escape to the street. A woman appeared at a window on the eighth floor, shrieking and waving her hands to the horror-stricken crowd below. She was brought down the fire escape in safety. The heat of the showers of sparks and embers had made the effection on extremely trying over for the showers of sparks and embers and mane the situation an extremely trying one for the firemen, and one man, George Cunningham, of engine company No. 1, had to be carried from his post when the heat was most in-tense, but he afterwards returned.

John Lafely of engine company No. 14 had an opileptic fit from heat, and was removed to the Homeomath's hoults!

to the Homespathic hospital.

After the flames had licked away the supports beneath nearly all the fire escapes on the north wall of the hotel, a large portion of the wall itself fell into the mass of debris with a roar like a distant canno This was quickly followed by the fall of a section about thirty feet in height on the Waverly avenue side of the hotel, and from that time to 8 p. m. huge masses of wall continued to fall. At last accounts two more firemen, Edward Sheridan and John Kelly of truck No. 10, had been prostrated. The loss to the church is not far short of \$500,000. Russell Sage, who has a mort-gage of \$125,000 on the church property and also the owner of the site on which it stood, is fully insured. Mr. Sage said this evening: "It is probable the people of Brooklyn will come forward with a big sub-scription. The insurance will cover the rest. If they want to rebuild, I will put no obstacles in their way. In other words, I will let the debt and interest stand over for an indefinite period, let them rebuild on the insurance money and what they can raise in subscriptions and in other ways. I have nothing but the deepest sympathy for the church and its people and above all I am imbued with the deepest affection and admiration for Dr. Talmage, who has been my close personal friend for many years. On his account, I will do all I can to help them."

can to help-them."

The frustees of the tabernacle met tonight and decided to rebuild the church, but not on the same site. The insurance, the receipts and the money realized from the sale of the present site would enable them to pay off all their debts. Then, according to the plan, they would raise \$200,000, and within a year would begin to build. About \$70,000, it is thought, would be sufficient to pay for a site, and a less expensive building will be erected.

Gasoline Still Explodes.

At 6 o'clock vesterday morning fire was discovered in the residence of Officer Sam Hoff, 1708 Jackson street. Mrs. Hoff was preparing breakfast when the gasoline stove exploded. The shock was so severe that it knocked the north end from the house. No one was hurt, but Mrs. Hoff was nearly frightened to death as a result of it.

The loss on contents will reach \$100 and on the building \$150. There was a small insurance on the contents, and the building, which is a one-a ory frame owned by George Joplin, has sufficient insurance to cover the

Father Corbett's Friends Offer No Resistance to the New Priest.

CHURCH DOOR WAS FOUND LOCKED

Corbett's Friends Would Neither Unlock it Nor Offer Any Resistance to the Entrance of Members of the Opposing Faction.

PALMYRA, Neb., May 13 .- (Special Telerram to The Bee.)-Father Smith, the newly appointed pastor of the Catholic church, came here yesterday and notified his par shioners that if they would put him peaceably in possession of the church he would hold services today. This morning a large number of Catholics went to the church and finding five of Father Corbett's adherents standing seemingly on guard pefore the front door, which was se curely locked, requested them to open the To this request they replied that they would offer no resistance, but that they would not open the door, as they had been instructed not to do so. Meanwhile the rear door had been forced open and the lock n the front door was sprung, and the con gregation passed in without further hin-drance. Father Smith, being notified that the church was ready, soon came and celebrated mass in the presence of a large congrega-tion. To a Bee representative Father Smith stated that he was about to take up his residence in Palmyra and that services would hereafter be held at the regular time. It was reported that Father Corbett was in the parsonage, but did not come to the church

## FREMONT NEWS NOTES.

Memorial Tablet to Rev. Isaac Ewing fleaton Dedicated.

FREMONT, May 13 .- (Special to The Bee. The dedicatory service of the memorial tablet to the memory of the late Rev. Isaac Ewing Heaton at the Congregational church drew a large congregation this morning and was very impressive. The addresses of Messrs. C. H. Barnard, Harlow Goff and George L. Loomis were appropriate and pathetic, as were also letters received from Revs. Albert L. Sherrill of Omaha, H. Brought of Lincoln, G. S. Berry and Albert G. Scong. The two latter were former pastors of the First Congregational church in this city. The remarks of Rev. Buss, as well as his hymns, written for the oc-casion, were further evidence of his acknowledged ability and scholarship. The singing by the choir, which is one of the best in Nebraska, was also effective. The tablet is a slab of white marble in the form of a shield, with the following inscription:

"Memorial tablet, erected to the memory of Rev. Ewing Heaton, who founded this church, August 2, 1857, and departed this life on September 10, 1893, aged 84 years." Deceased was the first settler with his family in Fremont and was for many years pastor of the First Congregational church and was respected by all and dearly loved by his more intimate friends and associates The survey is completed and assignments apportioned for the Reynold's ditch, which extends five and one-half miles north of

this city, running east and west and dis-charging into the Elkhorn. Rev. N. B. Rairdon, D.D., of Omaha occupled the pulpit of the Baptist church in Fremont today, while the pastor, H. W. Fate preaches in Blair. Rev. Dr. Dohnts of Omaha held service

# REDUCING RECORD INDERTEDNESS.

First National Bank of Hastings Releases Lot of Old Mortgages.

HASTINGS, Neb., May 13 .- (Special to The Bee.)-The Adams County Teachers association met in Hastings yesterday with a large attendance of the pedagogues. The day sessions were held in the High school building and were devoted to papers and discussions on educational topics. In the even-ing Prof. W. E. Andrews lectured to the association in the Methodist church.

The First National bank has lately reeared nearly 500 chattel mortgages, dated from 1884 to 1890, and aggregating \$218,400. A large part of this indebtedness is barred by the statute of limitations, and probably all has been met, but the releases were not made of record. The county clerk has lately secured the release of about 800 of antiquated mortgages, thus bringing the indebtedness record of the county nearer

the true amount.

The pupils of the public schools will give a reception to the patrons of the schools on Wednesday evening, the 16th, in the High school building. W. A. Pielstick, a local checker player of

ome reputation, is now playing a series of four games with Whitehead of York, who is acknowledged to be the state champion. The moves are sent by mail.

# SHOT BY UNKNOWN PARTIES.

Louis Badke of Lincoln Gets a Bullet in His Jaw While Looking at the Weather. LINCOLN, May 13 .- (Special Telegram to The Bee.)-Louis Badke, living at 413 B street, was shot and seriously wounded by unknown parties shortly after 7 o'clock this He was standing on the sidewalk near his residence, when suddenly a shot was fired from the residence of a colored man named Johnson. As soon as the shot was fired three colored men ran from the house. The bullet entered Badke's left check and is lodged in that side of his head.

His wound is serious, but not necessarily fatal. Death of a Prominent Mason BEATRICE, Neb., May 13 .- (Special Telegram to The Bee.)-Lee P. Gillette, one of the most widely known men in the state, especially in Masonic circles, died at his home in this city at 6 o'clock this evening, after several months sickness, his allment being Brights disease. Mr. Giliette was past deputy grand master and at the time of his death held the honorable and responsible position of grand custodien of the grand ledge. He was also high priest of the Livingston Royal Arch chapter of this city. No definite arrangements have been made for the funeral, but the services will be in charge

Plan to Increase the Circulating Medium. WASHINGTON, May 13.-Representativo Patterson of Tennessee has introduced in the house a bill providing, among other things, for short term 3 per cent bonds redeemable in coin, the proceeds to be used for maintaining a parity between gold and silver; for abolishing the tax on the circulating notes of state banks; making the tax on national bank notes one-fourth of I per cent;

allowing national banks to issue circulation equal to the par value of bonds deposited with the treasury, and to coin into standard dollars \$55,156,537 out of the silver buillon now in the treasury, purchased under the Sherman act. The coinage is to become a part of the general cash in the treasury.

### DIGGING IRRIGATING DITCHES

Work Now Under Way Will Water One

Hundred and Fifty Thousand Acres. NORTH PLATTE, May 13 .- (Special to The Bee.)-Lincoln county is just now reaching out after a fair division of surface water. The irrigation sentiment is rising to en thusiasm. President L. A. Fort of the State Irrigation association is indefatigable in pushing the work of organization. He believes in water and has given practical demonstration of his belief in the organiza-tion of eighteen local irrigation associations during the last thirty days. He claims that the next convention of the state association will be attended by from 1,200 to 1,500 farmers, which will be the largest convention ever held in the state. For the purpose of ecuring general interest in the work of the association a large amount of irrigation literature is being prepared, which will be listributed by July.
In this county ditches aggregating nearly

nearly 150 miles in length are already in process of construction. In the northwest-ern part of the county John Bratt & Co. are tapping Birdwood creek for forty miles of irrigation, twenty miles of ditch work on each side of that stream having been commenced. Another canal twenty miles long will be completed by the same company to irrigate land along the North Platte in the western part of the county.
M. C. Keith is extending a canal along

the North Platte, commencing north of this place and ending at Maxwell, fifteen miles Hershey & Paxton have twelve miles of waterway under construction, which will fur-nish water to a fine body of land between

the North and South Platte rivers, extending from Sutherland to Nichols. West of Sutherland and partly in Keith county, Messrs. Conway, Hunter & Nellson are building a ditch twenty miles in length. Cody & Dillon are just putting the finish-ing touches on a ditch nine miles long, ex-tending from Nichols along the North Platte to this place. This ditch will furnish water to the Dillon acres and to Colonel Cody's pro-

osed Quaker settlement.
A ditch six miles long is being constructed posite Maxwell by the Jewette Ditch company, and one of the same length, opposite this city, is the work of John Evarts. It is estimated that these ditches, when completed, will furnish an ample supply of water for the irrigation of 100,000 acres of

Lincoln county land.

Several other canals are contemplated.
Farmers south of the river have organized for the construction of a ditch forty miles in length on the co-operative plan. With the certifinty of plenty of water, as-sured by the never-failing flow of the North Platte, it is evident that Lincoln county is on the up curve of a permanent prosperity.

## DODGE COUNTY'S ASSESSMENT.

Money that Does Not Appear on the Assessor's Books.

FREMONT, Neb., May 13 .- (Special to The Bee.)-Among the large transactions in real estate Otto Wagenan of Denver, formerly of this city, transferred all his real estate in Dodge county to Sutton of Arlington. Consideration, \$12,960. Promoters of the Fremont ditch enterprise

are busy raising money for the permanent survey, and with hope of speedy success. The sentiment prevails that by the ditch the city may emerge into another bright era of prosperity. According to the published statements of the Fremont national banks there is on de-

posit \$871,519.34, but a consultation with the asssessor develops the fact that less than 1 per cent of it has found its way into his records. The savings banks show up \$60,-900, making nearly a round \$1,000,000 that absolutely shirks all responsibility and all duty in the interests of the city and state. But another fact is developed by the assess-ment rolls, and that is that every poor man's cow, or pony, or furniture, or homelooms up in great shape on the rec-

## HASTINGS ARMY ATTENDS CHURCH. Expect to Leave for St, Joseph on Foot in

the Morning. HASTINGS, Neb., May 13 .- (Special Telegram to The Bee.)-The Gannon Bennett regiment of the Industrial army is still encamped in the small grove east of Hastings, although the chief of police ordered the men to leave by noon yesterday. This morning about fifty of the men attended church services at the First Congregational church in response to an invitation by the pastor. In the afternoon the pastor of the Baptist church conducted religious exercises in a small tent in the camp grounds. The men listening to the "sky pilot" very attentively. Comorrow the army expects to leave for St. Joseph, along the Grand Island road, on foot if necessary, in wagons if obtainable.

Seven wagons have been promised so far. Decatur Waiting for the Central. DECATUR, Neb., May 12 .- (Special to The Bee.)-The people of this vicinity feel confident that the Illinois Central railroad will either cross the Missouri river at this point or at least come to the river in the near future. Over 3,000 ties are piled up at Onawa, and will either be used for repairing the road bed or extending the line. There is a large tract of territory that will be materially affected as soon as railroad facilities are secured.

with its summer sky filled with fleecy clouds and refreshing breezes, and another tremendous crowd turned out to sea the closing contest between Omaha and Peorla. It was a harvest for the Rourke family and in a measure made up for the short

crop of the two previous days. In the very first inning they got out their wagon tongues, and driving Mr. Beam into a fence corner, they fairly hammered the life

And they kept right on through the whole game, and although there was some shirk-ing and considerable ragged play, they put up their only errorless game, and yet only won by the narrow margin of two runs. The Peorias fought like tigers, and had their game been anything like Omaha's in the perfection of field work, they would cer-

tainly have made it three straight. But it was away off from it, as the last column in the subjoined table will show.

In the seventh they made a great rally a the bat and hit Sammy McMackin so hard and often that he felt that nothing would save him but prayer. A little timely smashing by Rourks, Fear and Moran, however, pulled the game out, and the great crowd left the park with hearts swelling with ex-ultation and pride,

This afternoon we will have another delegation from Illinois at hand, the Quincys, and Papa Bill says it shall be three straight. Here is the score of yesterday's contest: OMAHA.

Omaha will have a crack at the tail-enders this afternoon. But the fact that Quincy is at the foot of the list doesn't argue against the team, for it has been in hard luck all season. It has won two games from Des Moines, and comes here desperate, seeking for vengeance. Therefore Omaha will have to play her prettiest, and a good game will be the result. The teams: Position. maha. ## ENTICED TO THE PARK.

Music and a Hot Sunday Send Thousands to the Pleasure Ground.

The first open air concert of the season was given at Hanscom park yesterday afternoon and several thousand people found the cool shade of the resort a grateful relief from the dusty streets and crowded tenements of the city. The rich stretches of velvety green sward were arrayed in the soft fresh color born of April showers and May sunshine. The trees were beautiful in their spring attire and foliage and grass blades and springing flowers seemed to vie with each other in wearing their brightest sheen to welcome the familiar faces they had not seen through all the winter months. The bits of clouds that floated slowly be

tween earth and sky only seemed to em-phasize the radiation of the scorching sun and the shade seemed cool and grateful to the multitude of heated men and women who stretched themselves cut on the benches or sought a more comfortable, if not dignified position lying at full length on the yielding

Early in the afternoon the park was alive with people. Hundreds of children played along the gravel walks, apparently uncontrolled, except by a dozen or so of white-capped nurse girls, who betook themselves to the deepest shade in sight and complacently exchanged confidences while their small charges wandered according to their As the afternoon own childish desires. passed every street car brought its quota of prespiring humanity to swell the crowd that wandered along the walks and lolled in the shade of the freshly budded trees. Many of them were laboring people, who found in the cool resort a happy relief from six days of ceaseless spirit wearing toil. It was their one luxury that was free, and they threw themselves on the hospitable turf and gazed up into the wavering foliage as though they welcomed it as an old friend that they had

ot seen for many months. The new pavilion received its share of attention. It occupies the same ground that the old one covered, but the verandas are broader and the addition of the second story gives it double the capacity of the former building. The first story is built of stucco and here the people may sit and rest with-out being assailed by the importunities of the hired men who distribute ice cream and similar condiments in the second story. The interior is finished in California redwood and is well supplied with electric lights, which give the building an attractive appearance in the evening. Upstairs the caterer holds sway and the upper veranda is filled with tables, where the thirsty may sit at east and be regaled according to their

pocketbooks. The musical program was furnished yes-terday by the Seventh Ward Military band, Their first number, a march by Toenniges, was not particularly marked, but the light, alry strains from one of Donizetti's operas. which followed, were received with some evidence of approbation. A medley of selec-tions, alternately tender and inspiring, evoked numerous handclappings from various groups, and then the heavier strains of Mozart's "Agnes Dei" and a selection from "Tannhauser" were rendered with commendable success. The remainder of the program consisted of a mixture of well chosen selections from various composers, concluding with a national air by Wiegand.

Harrison Sounds the Political Waters. NEW YORK, May 13.-General Harriso ntends to leave for Indianapolis tomorrow evening. During his stay he has met nearly evering. During his stay he has met hearly every republican leader of note in the east and is presumed to have formed a pretty accurate idea of his chances for a nomina-tion in 1896. That he is a candidate none of his intimate friends deny. General Har-rison's friends say he is confident of hearty support from New Yorkers who supported him in 1892.

# READY FOR THE BETTING

Candidates for the Brooklyn Wind Up Preparatory Work at Gravesend.

CLIFFORD IS THE PUBLIC FAVORITE

He Carries Top Weight, with Sir Walter, Banquet and Dr. Rice Below Him-Lowlander Won't Train-Pointers on the Field.

NEW YORK, May 13 .- Today at the Gravesend track the candidates for the Brooklyn handicap, to be run Tuesday, got their final preparations. The track was as fast as lightning. One of the best moves of the day was that of the great sprinter, Dr. Hasbrouck, who covered five furlones in 1:01th with ease. It is also practically settled that the starters will not number more than fifteen, and that the chances are decidedly in favor of as many as that appearing at the post. The list of starters, with weights and jockeys, is as follows:

appearing at the post. The list of starters, with weights and jockeys, is as follows;

Clifford (4), 122, Martin.

Sir Walter (4), 129, Dogget.

Ajax (4), 118, Garrison.

Banquet (7), 118, Simms.

Sport (4), 114, Thompson.

Diablo (8), 114, Sloune.

Bassetlaw (4), 112, Hamilton.

Dr. Rice (4), 112, Taral.

Comanche (4), 110, McDermott.

Biltzen (5), 105, H. Jones.

Copyright (5), 106, Bergen.

Henry of Navarre (3), 109, A. Clayton.

Herald (4), 100, Swash.

Marshall (4), 100, Griffin.

It is said that the owners of Clifford are prepared to back their horse heavily at the last minute, which will send him to the post an even stronger favorite with the public than he is at present. There is no doubt that the colt has been well backed in the winter books, but almost all the money has been laid by the public and the friends of the owners. The trainers, as a rule, are not praising the horse highly, and almost to a man they declare that he will not win. One of their arguments is that a favorite rarely does win, and another is that western reputations have not yet been justified when the horses have raced in the east. However, Clifford will carry the greater part of the money and will be probably as heavily backed a favorite as any in recent years. He was out on the track today and cantered around slowly twice, his work having been done on Saturday. At that time he covered the mile and a quarter in 2:11½, the best he has done since his arrival at Gravesend. He looks fit to run for his life, but has much to overcome to win from the good lot he is going to meet.

PICK OF THE STABLE BOYS.

PICK OF THE STABLE BOYS. Sir Walter is the favorite among the trainers, and his work thus far has been excellent. His best move was made on Friday, when he covered the handleap distance in 2:10½ on a track which is at least two seconds slower than that at Gravesend. Alax was out for a canter today, his work having been done on Saturday, when he

Ajax was out for a canter today, his work having been done on Saturday, when he was sent à mile and a quarter in 2:12%. He will have Garrison on his back. This morning the jockey was down to 116 pounds, two pounds less than the weight allotted to Ajax.

The sensational move today was made by Banquet. He started in company with Don Alonzo, and the latter led to the last quarter, when Banquet came away and beat him out in 2:19 flat by three lengths. He had something left when he finished. The chief trouble with Banquet in former years has been that he would not run in company where he was jostled and that he had to have a clear way to win. He has apparently changed in this respect, for now he does not seem to mind jostling. Sport has not worked well at Gravesend, and his best performances have been at Shepshead Bay, where on Saturday he covered the distance in 2:10 flat with at least 120 pounds up. He has always been an early horse, and last spring he seemed to be almost unbeatable. If he takes kindly to the Gravesend track when he gets in company it is believed that he will take a good deal of beating. Bassetlaw went very handily today in 2:12½.

Dr. Pica did his best work on Wednesday. HE'LL MAKE THEM TROUBLE.

Dr. Rice did his best work on Wednesday tt Sheepshead, when he went the distance in 2:00%, and today he was sent along at about 2:12, being well wound up. about 2:12, being well wound up.

A week ago Saturday he ran the distance in the phenomenal time of 2:08%. He was tried again on Saturday, and showed 2:09%, but he was as dry as a bone when he pulled up. Leonwell covered a mile and an eighth today in the good

time of 1:55%, but he could go no further and was quite lame. He will probably not St. Leonards is not only wrong in his wind, but his legs are troubling him again, and he will not go, while Loantaka will not start.

# FAST TIME ON WHEELS.

Oniaha Cyclists Giving the Low Records Some Very Close Rubs. Several of Omaha's athletic wheelmen are industriously preparing for the meet at Denver, and hope to be "in the money" on several of the races. If the time they are making in practice is any criterion Omaha will have worthy representatives at the national gathering. Russell Condon, who holds the state championship, will start in several of the open events at Denver. He did a flying half at Council Bluffs yesterday, paced by a triplet, in 9:55 4-5. Louis Flecher, Herman Muentefering and Harry Mulhall rode the triplet. They made the first quarter in 9:25 4-5, the record, while the time for the half is within four-fifths of the record made by Dirnberger at Birmingham, Ala., last fall, paced by a horse. This, by the way, was disallowed by the racing board on account of the pacing by a horse. Condon, on May 26, will start at the fair grounds against all state records. He is in fine trim, and promises fairly to set the Nebraska time marks lower. Omaha will have worthy representatives at

Barry Will Meet Gorman. CHICAGO, May 13.-Jimmy Barry's con-test with Jimmy Gorman, before the New Orleans Olympic club on May 31, is now a fixture. Barry will at once begin hard training near the scene of the battle. The contest is to be to a finish for a \$1,000.

Haven't Caught the Taylors Yet. BROOKFIELD, Mo., May 14.-2:30 a.m. Up to this hour the force of men searching the Taylor brothers, who murdered the Meeks family, have been unable to lo cate them, and there are no new develop-ments in the case. The bloodhounds which have been used in the chase struck the trail two or three times, but lost it again on the banks of creeks, where the murderers had crossed. Fully 500 men are out on the trail.

AMUSEMENTS.

"The Black Hussar," Milloecker's tuneful opera, was finely given yesterday by the athoun Opera company at the Fifteenth Street theater, although the outdoor attractions detracted largely from the attendance at the afternoon performance, but the house was well filled last night, and the opera was well filled last night, and the opera made a decided hit. The libretto is tamely unwrought and doesn't arrive anywhere. The events stand still, as they did in Bill Nye's 'Cadh,' and let the incidents go round them, but for all this the music is upon a high plane, and many of the numbers are known wherever music has any sort of a foothoid. The opera doesn't hammer the patter business into you, thank goodness, and leaves little margin for calisthenics, although it gives scope for bits of clowning, which are not allowed to pass by unnoticed by the comedians. There are large, swinging, justful, concerted numbers, that sway you by their momentum, and the finales, particularly that of the second act, has finished many a farce comedy production. The third act, which has been left particularly destitute of music except for the principals, has been considerably brightcosed by a solo for contraito, a right pretty wooden shoe dance, and a very intricate Hussur march to Sousa's popular composition.

wooden shoe dance, and a very intricate Hussar march to Sousa's popular composition.

The opera, which was done on this side the water in 1882 or 1882 by John McCaull's company, then composed of Lilly Post, Marie Jansen, Mme. Cottrelly, DeWolf Hopper and others, is most acceptably rendered by the present company, including Helen Lamont, Julia Calboun, George Lyding, Douslas Flint, Sylvester Cornish, with a chorus of forty well selected, youthful voices. Helen Lamont, who made her first appearance yesterday on the comic opera boards, is an artist of fine ability. With but one rehearsal she went on last night and made a most artistic success of a part which requires not only lyric ability, but dramatic art as well. Miss Lamont has a strong, clear voice, particularly well developed in the upper and middle registers, and she has in addition a most charming presence, a very necessary adjunct in these degenerate days of the theater, when voice is made the adjunct of feature and form. Although showing a trifle newness to the part, her long acquaintance with the stage permitted this clever woman to so cover her work that she won a most merited reception. Mrs. Calboun was guite in her element as Resetta, caroling through the mazes of the veneered story with delightful credit to herself as well as to those assisting in front. George Lyding, a tenor new to the comic opera stage in the west, has a very pleasing voice, resonant and very tuneful, and with his dashing presence in the costume of the Black Hussars looked the solider to perfection. Mr. Lyding should, however, avoid forcing his speaking voice, his speeches being delivered now and then with a vehemence that detracted considerable from the purpose intended. Douglas Flint is splendidly cast as the magistrate Hackenback, who was only excelled in brain power and intuition by the "Little Corporal," around whose campaign in Russia the opera is written. O. B. Thayer as Piff Kow made much of a rather thankless part, although it admits of considerable humor. Miss Sylvester altogether the performance worthy of much praise
