McAtee Appears to Have the Lead in the Treasurership Contest.

CLAIMS OF FRAUD ARE BEING MADE

Gorham's Attorneys Refuse to Take Any Part in the Second Recount of the Ballots—Judge McGehee Taking Extra Precaution with the Ballots.

For the first time the attorneys for J. A. Gorham, republican candidate for city treasurer in the last city election, came out yesterday, and, without beating around the bush, declared that there had been a fraud committed by some one on the other side.

As already mentioned in these columns, Gorham's attorneys objected to a second recount of the ballots on the ground that they had not been kept carefully since the first recount and there was a strong probability, therefore, that the ballots had been tampered with.

The justice declared yesterday morning that this claim was not well founded and commenced another recount, whereupon Gorham and his attorneys gave notice that they would not have anything to do with what they termed such a high-handed outrage, and left the court room for the day.

After a ballot had been discovered which had not been entered with the names of the judges," said C. G. Saunders, one of Gorham's attorneys, yesterday, "Mr. Shea asked that the ballots be gone over again, and here, also, there was a ballot suddenly discovered other mistakes. In the second precinct of the Second ward a ballot was found among those counted for Gorham and she left the court room for the day.

NOT READY FOR ACTION.

Committees Still Discussing the Unemployed Situation.

Another meeting took place at the council chamber last evening between the council and the citizens' committee which is trying to get employment for the laboring men. But little was accomplished beyond deciding to take more time for consideration before doing anything. The matter of paving East Pierce street came up to be talked about, but the committee objected. They did not want the street paved until the sewer had been down a year at least, in order that the period for settling might be over. He afterward admitted that he did not care about the sewer being put down at all.

After the committee had left the council chamber it continued its work. The council also discussed, but to this plan J. C. De Haven of the committee objected. He did not want the street paved until the sewer had been down a year at least, in order that the period for settling might be over. He afterward admitted that he did not care about the sewer being put down at all.
