

STAND OFF FOR THE ROADS

One Railroad Wins a Big Tax Case While Another Loses.

DAKOTA WAREHOUSE LAW IS LEGAL

United States Supreme Court Hands Down Several Important Opinions—Court Almost Evenly Divided on One Railroad Tax Case.

WASHINGTON, May 14.—The case of the Mobile & Ohio railroad and the Farmers Loan and Trust company against the state of Tennessee and several counties thereof was decided by the supreme court today. Justice Jackson delivered the opinion. The question involved the right of the legislature to amend the charter of the company, which exempted the capital stock forever from taxation, except the road and fixtures for twenty-five years, and provided that there should be no taxation which would reduce the dividends below 8 per cent. On the other hand the state constitution provides that all property shall be taxed according to its value and taxation be equal throughout the state. In February, 1891, suits were brought against the company for the collection of a tax from 1885 to 1889, inclusive.

The opinion held that the case hinges on the 8 per cent clause of the charter referred to. The manifest intention was to interest persons in the railroad by giving it unusual advantages. Justice Jackson held that the state had the power to amend the charter and exemption taxation when it granted charters. Corporate charters were merely contracts between the state and the corporation. Therefore, the state was not bound by the state constitution, the decision being in favor of the railroad corporation. Chief Justice Fuller dissented from this opinion, opposing the doctrine against a right of the state to amend its charter.

WARSHAW MUST PAY THE TAX

The case of Ashley against Ryan, secretary of the state of Ohio, was decided in an opinion delivered by Justice White. It involved a question of taxation of the stock of a corporation. Under the law of Ohio the stock of corporations is taxed one-tenth of 1 per cent. Several branches of the law have been in litigation had been consolidated. The officers filed articles of consolidated incorporation in the office of the secretary of state for the \$100, which would have been the tax on the Ohio branches of the corporation, but the secretary compelled the payment of \$52,000. A tax on all branches of the consolidated corporation. This the company contended was a state tax on corporations outside of the state. The court held that the corporation was to be consolidated corporation created within the will of the state; that the railroad in preferring the articles of incorporation and tax on the corporation, it assumed the jurisdiction of the law, and sustained the state court's decision.

DAKOTA ELEVATOR LAW SUSTAINED

The law of North Dakota declaring that owners of grain elevators should be liable for houses and imposing rates of charges and penalties for overcharges was passed upon by the court. The plaintiffs had offered grain, and, being refused, obtained a mandamus compelling Brass, the elevator owner and plaintiff in error, to pay the rates fixed by the state rates. Justice Shiras delivered the opinion, sustaining the North Dakota courts. Justice Brewer dissented, contending that the law was unconstitutional. The law in question was held to be a valid exercise of the power of the state to regulate the business of grain elevators. The law was held to be a valid exercise of the power of the state to regulate the business of grain elevators.

PENNY WISE ECONOMY

Cutting Off Appropriations for Food for the Indians May Cause Trouble. WASHINGTON, May 14.—The tendency toward economy in appropriations has been so great that grave fear is expressed by those who are familiar with the Indians and the Indian service the result may be trouble and a crippling of the service, unless the Indian appropriation bill is amended before it passes. Representative Wilson of Washington has been investigating the subject, and he is endeavoring to get the appropriation bill amended so that the Indian service go to the bone. The cut on the Apache Indians, from \$125,000 to \$90,000, will necessitate a reduction next year of \$35,000 in the Indian appropriation. The cut on the Apache Indians, from \$125,000 to \$90,000, will necessitate a reduction next year of \$35,000 in the Indian appropriation.

Tapping the Seal Company's Profits

General Olney has rendered an opinion in which he holds the settlement made by Secretary Windom and Foster with the North American Commercial company, by which the government for the years 1890, 1891 and 1892 reduced the rental for the seal company to the rental per skin, that was originally agreed upon, was illegal and therefore is not binding upon the present secretary. This reduced rental and tax was accepted by the seal company and was not permitted to take the full number of skins ordinarily specified in the lease with the seal company. The secretary has made a formal demand upon the company for the full amount of rent and per skin tax for the year 1893 and has referred it to the attorney general for such action as he may deem advisable in the matter of collecting from the company the full amount of the rental for the year 1893. The whole amount claimed to be due the government is about \$320,000, of which \$182,000 is an account of the 1893 catch.

Curious Prehistoric Instruments

WASHINGTON, May 14.—The National museum has secured an extensive series of minute chipped stone implements from India, which were collected in the caves and rock shelters in the southern and northern western hills and in grave mounds. So far no one has been able to determine the purpose of the small instruments and no satisfactory theory has been advanced to account for their existence. They are of numerous forms and much work has evidently been spent in making them. The subject has been brought to the attention of the scientific world by an illustrated paper prepared by Curator Wilson of the Department of Prehistoric Anthropology for the session in the annual report of the national museum.

Hasty Education Enough to Hurt Him

WASHINGTON, May 14.—Supervisor of Indian Schools Moas has sent to the bureau of Indian Affairs a denial of the statement that "Apache Kid," the noted outlaw, was an educated Indian, which has been used as an argument against educating the red men. While at San Carlos Supervisor Moas inquired about this and learned that the outlaw never was in school a day. He was a government scout and in that position learned to speak some English.

Inspecting Armor Plate

WASHINGTON, May 14.—Captain Sampson, chief of ordnance, Prof. Alger and Lieutenant Kerman, composing the board designated by Secretary Herbert to investigate the charges relative to frauds at armor plate, left Washington today for Bethlehem, Pa. They will there witness an acceptance test of armor plate for the recognition of Homestead to resume their inquiries, with the expectation of returning to Washington by the end of the week.

PUTTING ON THE PATCHES

Democratic Cobblers Mending Political Holes in the Tariff Bill.

SUGAR TALK ROILS THE DEMOCRATS

Senators Platt and Allison Taunt Them With Favoring the Sugar Trust in Preparing the Sugar Schedule—Two Pension Bills Passed.

WASHINGTON, May 14.—The seventh week of the tariff debate in the senate began at 11 o'clock today with a fair attendance on the floor. Vice President Stevenson, who was in New York Saturday, called the senate to order. Two bills, one to pension the widow of Rear Admiral Donald MacNeil Fairfax at the rate of \$100, and the other to increase the pension of the widow of Major General Doubleday to \$100 were reported and placed on the calendar. Under the agreement made last week an hour was devoted to the consideration of bills on the calendar. The Aldrich amendment to substitute five tenths for four tenths. The Aldrich amendment was tabled.

Mr. Platt's observation on the Sugar trust ruffled some of the other members, so he understood, to vote for a prohibitive duty on refined sugar. Surely democratic duty required that they should swallow the words and opinions of years. Mr. Platt's observation on the Sugar trust ruffled some of the other members, so he understood, to vote for a prohibitive duty on refined sugar. Surely democratic duty required that they should swallow the words and opinions of years.

SUGAR TRUST UNDERSTANDS IT

"Oh!" said Mr. Platt, "there is not a speculator, a stock jobber or a man in the time is rapidly coming when every farmer on this floor who demands a sugar schedule who does not understand what it means for the trust. This schedule gives the trust now does with molasses and refined sugar fluctuating as high as 50 per cent." Mr. Allison said the ad valorem provision in the bill, in view of the great difference between the value of raw and refined sugar, certainly would afford a protection of 3-10 of a cent before the differential of 1/2 of a cent was reached.

AMENDMENTS WHILE YOU WAIT

At the conclusion of Mr. Allison's remarks the Jones amendment, fixing the duty on alum at 4-10 of a cent was agreed to without division, as was the next Jones amendment fixing the duty on carbons of ammoniac at 20 per cent, muriate of ammoniac at 10 per cent and sulphate of ammoniac at 20 per cent. The next finance committee amendment was a duty on bone char suitable for decolorizing sugar at 20 per cent, was also agreed to. Mr. Jones offered an amendment to place a duty of 1 cent per pound on crude borax and 20 per cent on refined borax from 20 per cent to 2 cents. The amendment was agreed to. Mr. Jones offered an amendment to transfer the duty on borax from the free list to the dutiable list at 10 per cent ad valorem. This was also agreed to.

CRANK DISTURBS THE HOUSE

Representative Compton of Maryland Requests to Accept a Softer Snag. WASHINGTON, May 14.—The speaker laid before the house today the resignation of Hon. Barnes Compton of the Fifth Maryland district, to take effect tomorrow. Mr. Compton leaves congress to accept the office of the naval officer of the port of Baltimore. The house bill authorizing the Braddock & Homestead Bridge company to bridge the Monongahela river at Homestead, Pa., was passed. District of Columbia business was then taken up, but the even tenor of the proceedings were interrupted by a burly negro in the center of the gallery arising in his place and shouting: "Mr. Speaker of the House of Representatives, the instant the house was in confusion and all eyes were turned upon the new orator in the gallery. The speaker, who had just been speaking, directed the doorkeeper to remove the man. He was of powerful physique, however, and the doorkeeper was unable to cast him for some time, the negro endeavoring to deliver his alleged divinely inspired message to the effect that the Lord had commanded him to come to the speaker of the house and order him to pass the Coxy bill. Other portions of his message referred to the capitol, the white house and the treasury, but the exact purport was lost in the confusion. The interloper was finally ejected, and when the confusion which he had created had subsided business was resumed.

ONE'S BILL INTRODUCED IN THE HOUSE

WASHINGTON, May 14.—Representative Powers of Vermont has introduced the bill agreed on by counsel for the reorganization committee of the Union Pacific railroad for the readjustment of the debt of that company to the United States. The provisions of the bill have already been given.

Want Another National Holiday

WASHINGTON, May 14.—Senator Squire today presented petitions from several Grand Army of the Republic posts of Washington state praying for the recognition of Lincoln's birthday as a national holiday.

Heirs Get Their Money

WASHINGTON, May 14.—The court of claims today gave judgment for \$123,625 in favor of the executor of the estate of Donald

SCIENCE HAS DONE IT

How Food is Artificially Digested Before Being Eaten.

A WONDERFUL PROCESS

It is Revolutionizing Modern Living and Certain to Advance the Condition of the Nations.

But a short time ago some eminent scientists made a great discovery. They discovered that fats and oils didn't fatten this people. Everything seems simple after some one else has found it out. If we had thought we would have remembered that for ages doctors have forbidden starch foods to people who wanted to get thin. It follows they ought to recommend starch foods to people who want to get fat. Nobody knows why they didn't do so. But they are learning. More are recommending it every day. They are beginning to believe in Paskola, because Paskola is a starch food.

It has long been known that starch food is the most natural food for man. Of the four chief chemical divisions of human food, viz: starches, fats, albumens and salts, starch is the most important, fats the least important. If we had only starch we could do without fats and oils. We would die if we tried to do without starch foods.

Many people are dying today because their digestive organs cannot digest starch food. They can't get starch, but they can't digest it. They keep thin. They keep getting thinner. There is but one hope for them: Paskola. One reason that Paskola will help them is because it is pure starch food. Another reason is because it is a predigested food. Nothing but starch food will ever make you fat, strong and hearty. Meat or albuminous food merely repairs waste tissues. If it were predigested, it would not make you fat.

Pat food cannot be predigested, but even if it could, it would not make you fat. Paskola is a starch food, predigested food, combined with natural vegetable ferments which aid the digestion of other food. Paskola is the only starch food which will make a confirmed thin person fat. Paskola creates an appetite for other foods and helps your stomach to digest them. It also tones up and gives strength to the feeble stomach. Thin sick people have a very general and decided aversion to fats and oils. That ought to be sufficient proof to us that fat is not what they need to make them well. The thinnest and sickest people like Paskola.

They like other starch food, too. They probably eat a good deal of starch food. The reason that it is only well people's stomachs that can stand it. Well people don't need food that will make them fat. They are generally fat already. If they were not fat, they would be well. It is just the people who need food that will make them fat whose stomachs can't stand fat food. We can't fight nature. Thin sick people have a very general and decided aversion to fats and oils. That ought to be sufficient proof to us that fat is not what they need to make them well. The thinnest and sickest people like Paskola.

WESTERN PENSIONERS

List of Veterans Recently Remembered by the General Government

WASHINGTON, May 14.—Special to The Bee.—Pensioners granted a special issue of May 2, were: Nebraska: Original—William Bohken, Tolmear, Oton; Anthony W. Townsend, George W. Tolmear, Original widows, etc.—Catherine Whitaker, Columbus, Platt; Iowa: Original—John A. Fulton, Ellora, Harlin; John N. J. Fry, Rockford, Floyd; Additional—James H. Beal, Centerville, App. Additional—John A. Fulton, Ellora, Harlin; Des Moines; William Clark, Iowa; Missouri: August Ulrich, Keokuk, Lee; Original—John A. Fulton, Ellora, Harlin; Larson, Linn; Emilie DeBorje, Columbus, Marion; Colorado: Original—Perry Sullivan, Denver, Arapahoe; Mexican war widows—Eliza B. Cook, Oakes, Dickey; Montana: Original—James Cook, Livingston, Park.

New Nebraska Postmasters

WASHINGTON, May 14.—Special Telegram to The Bee.—Postmasters have been appointed as follows: Nebraska—Canton, Box Butte county, B. G. A. Dickinson, vice S. H. Wright, resigned; South Platte, Minnehaha Falls, River county, Sophia A. Cash, vice J. M. Brady, resigned; Iowa—Turin, Monona county, H. T. Reese, vice W. E. Roberts, resigned; Nebraska—Lincoln, Lincoln county, J. M. Brady, resigned; Nebraska—Lincoln, Lincoln county, J. M. Brady, resigned.

AMUSEMENTS

"The Three Guardsmen" was the opening bill last evening at Boyd's, with Alexander Salvini in the role of D'Artagnan, a young Gascon who risks his life for the honor of his queen. Henry is there who has not read Dumas' famous story of the lives and adventures of the men who made up Louis XIII's body guard when Cardinal Richelieu ruled France with an iron hand, and the matter what life is there who has not been touched with deep affection over the love of D'Artagnan shows, through his devoted exterior, what a noble and selfless man he is. He is a young man of great spirit, particularly women who needed his good strong arm in their defense. Henry is there who has not read Dumas' famous story of the lives and adventures of the men who made up Louis XIII's body guard when Cardinal Richelieu ruled France with an iron hand, and the matter what life is there who has not been touched with deep affection over the love of D'Artagnan shows, through his devoted exterior, what a noble and selfless man he is. He is a young man of great spirit, particularly women who needed his good strong arm in their defense.

LOCAL BRIEVES

The regular monthly meeting of the Board of Trade was not held last night, for the usual reason—no quorum. Colonel Patrick's tallyho coach became tangled up in a runaway on Dodge street last night. Prof. Gagnah caught the horses and prevented a smash up. A consignment of packages of tea for Parton & Gallagher was received at the custom house yesterday; also two cases of plum trees for A. Olanah. The Board of Public Works has granted permits for the removal of the old buildings at Seventeenth street and Capitol avenue to make room for the workers on the new federal building. Children playing with matches set fire to an outside staircase of the frame flat at 423 South Eighteenth street yesterday. An alarm was sent in, but the fire department was not needed. No loss.
