Miners and Operators Show Little Disposition to Compromise.

SIXES

BUSINESS ENOUGH FOR A MONTH Neither Side Has Much Hopes that the Conference Will End with Any Practical Results-Universal Scale

is Not Practicable.

CLEVELAND, May 15 .- The consensus of pinion among miners and operators today before the conference met was that the meeting would result in naught. The conference convened at 2 o'clock in Case hall. The scale committee of miners met in Bank street hall at 10 o'clock and the operators assembled in conference at the Weddell house at 11 o'clock. The Illinois operators and a part of the Pittsburg district are not represented in the conference, so that whatever terms, if any, may be agreed upon must be ratified by the absentees before they become effective. Therefore a contingent clause will be the only thing that will provent the conference being an utter failure. The miners appear to be firmly united for the mutual interest of all. Secretary Mc-Bride says their motto is and will continue to be "One for All and All for One." If one

section goes to work all will go to work and under no other conditions can the unions be operated. What is the concern of one is the concern of all. The men feel that right and justice are on their side and that defeat can come only as the result of treachery to them selves.

The scale committee in its report has endeavored to adjust differences in rates for mining in a manner to work no injustice to the mines of one section as compared with another. The demand is for the wages paid before the reductions were made last fall and winter. In a general way the scale and winter. In a general way the scale provides for the following rates: Ohio, 70 to S5 cents; Pennsylvania, 66 to 75 cents; in-diana, 70 to 75 cents; central Pennsylvania, 50 cents; Illinois, 50 to 85 cents; Maryland, 50 cents, and West Virginia about the same, of the miners at work in that state decide to join the movement. Of course, Ohio, Penn-sylvania, Indiana and Illinois are the im-portant states. Reductions have been made in all except Illinois, but if the miners in that state had desired to work after May 1 they would have been compelied to accept a they would have been compelled to accept a 20 per cent reduction. The nearer the hour for the opening of

the meeting approached the greater the complications appeared, and, as one promithe meeting apploaches and, as one promi-nent Pennslyvania operator put it, "they have already brought up subjects sufficient to keep the conference in session a month." The corridors at the Weddell house were thronged with coal operators during the entire day until the conference was called to order. Innumerable caucuses and dis-cussions were held, while the air was filied with rumors of every conceivable kind. Two important meetings were held during the morning and at noon the members were still in session. They were composed of Pennslyvania operators, some represent-ing the river men exclusively, and others were termed "the river and rail" operators. What agreement they may reach is still problematical. One of the many rumors that circulated about the Weddell house during the morning was that John Mc-Bride had held a conference with the river men on the subject of a compromise. Unmen on the subject of a compromise. Un-doubtedly some such conference was had, but the result, if result there be, was kept sealed within the breasts of the members.

members. The principal tople of interest during the morning was the probable attitude of the Pennslyvania operators. Mr. Alexander H. Dempster of Pittsburg, who for many years has been president of the big con-ferences between operators and miners, and who is regarded as one of the clearest headed and best posted men in the assem-blage, was interviewed on this subject by a representative of the Associated press. Mr. Dempster will not be the president of this convention, however, and that fact is itself significant of the situation. "Will the Pennsylvania men go into the "Will the Pennsylvania men go into th convention?" Mr. Dempster was asked. "Yes." "How long will they stay?" "I can't say."

What is the attitude of the Pennsylvania

time. They do not propose to allow Nevada miners or Ohio miners or anybody else to fix a wage schedule for themselves, for they

do not believe it can be done." A rumor that coal had fallen 50 cents a ton in Chicago today and boats were bring-

ing coal down the lakes caused quite a stil among the operators at the Weddell. One

West Virginia operator for the Moundsville district declared that it would be up \$1 be-fore it fell \$1, however.

One curious thing about the gathering at the Weddell was the fact that all the Pitts-

burg and Illinois men who had fought against Cleveland as the place for the con-ference now compose a majority of those in attendance, while the West Virginia people, who, it is said, McBride most desires to bring into line, are the men who are making all the money out of the situation

superior numbers. They make our mining scale about 10 cents higher than they pay, which, considering their coal brings 10 cents SEVENS which, considering their coal brings 10 cents more in a market that they reach as cheaply as we do, has the effect of freezing us out. It is a scheme that the block operators do not propose to be drawn into. We will let the eastern states settle with their men and we will fix our scale so as to do justice to ourselves. If this is impossible, we will close our mines until it is possible. Not a representative of the operators of the block coal field attended the convention."

EMPLOYERS MAKE NO OFJECTION. Decision of Iowa Miners to Strike Only Af-

fects Consumers. DES MOINES, May 15 .- (Special Tele-

gram to The Bee.)-The decision of the Polk county coal miners to join in the general strike caused alarm all over the city. Coal operators do not seem to mind it so much as large consumers, such as the electric light works, brick yards and various mills. One operator said today that he was in favor of standing firm and giving the miners the same medicine they are trying to force upon same medicine they are trying to force upon their employers. There does not appear to be any disposition on the part of the oper-ators to yield. They say they are not in fit; that this matter must be regulated by the miners themselve, as it is now a general strike over the state. They say they can better afford to let their mines stand idle during the slack months than hirs men at the big wages demanded when there is no market for coal. The miners are getting their committee organization in shape for a determined stay out until the prices de-manded-\$1 in winter and 90 cents in sum-mer months—are conceded. mer months-are conceded.

What Mr. Williams terms "the mistakes of Mormonism" can neither directly nor indirectly be traced to "the usurpations of Brigham Young." That great man led the church in perfect accord with the example, instructions and prophecies of Joseph the Seer, doctrinally and geographically. The statement that "there is as wide a difference between the respective churches as there is between Protestantism and Mormonism" is substantially correct. While we are the same empire and temple building people we were in the days of Joseph the Seer the reorganized church presents no striking practical contrast with any of the ordinary sects of christendom. The effort to show the world that a dis-tinction exists between the two churches seems superfluous. Of all the opposition we have met from the sects of christen-dom, that springing from the leaders of the reorganized church has been the most malignant and unscrupulous. One of them in a public speech in Chicago villified the women of Utah in a manner utterly un-becoming the dignity of a Christian minis-ter or gentleman. It was at least re-ported so in the press. Another in a speech in Council Bluffs several years ago boasted of having labored assiduously to pring about the result achieved in the passage of the Edmunds-Tucker bill, whereh our church property was confis-cated, a measure which statesmen of all parties now agree was hasty and ill ad-vised. This ought to disabuse the public mind of any suspicions of friendliness on their part toward the people of Utah. As a rule I have been kindly treated by the laity of the reorganized church. I de-sire closing sentiment of Mr. Williams I heartily reciprocate. In his laudable efforts to reciprocate. In his laudable in ecolaring sentiment of Mr. Williams I heartily reciprocate.
