COMMERCIAL AND FINANCIAL

Wheat Was Heavy at the Lowest Price Ever Recorded in May.

YET MUCH BUSINESS WAS TRANSACTED

Corn Weak All Day, Oats Easy and Provisions Dull, All Influenced by the Wheat Market - Stocks and Bonds.

CHICAGO, May 15.-Wheat was very heavy today at the lowest price ever known in the month of May and closed 14c lower. The feature of today's trading was heavy liquidations of the longs, weak cables, fine weather and an increase on passage aiding in the decline. The other markets were affected by the weakness in wheat, July corn closing %c lower, July oats %c lower and provisions lower all around.

In wheat a large business was transacted, Opening trades showed from %c to %c loss, and gradually the market sold down %c to 1%c, railled %c, changed some, and closed as stated. Liquidation by tired longs was the chief feature of the day. The early influences were bearish, the chief of which were weak cables, the increase on passage and the fine weather. Prices gave way rapidly, local traders being rather aggressive and confident of lower prices, and increased the offerings as the session advanced. A prominent operator, supposed to be short heavily, gave the market good support after the first decline, as also did a large concern with elevator interests. This buying stayed the downward tendency for a time, but later on fresh lines came out after the price worked down, making new low records in all deliveries. The increase of the world's visible supply of 4,460,000 bu, caused the prices to react, and was about the only bullish feature presented all day. The close was but ½c from the bottom.

Corn was weak all day. The downward course of wheat, together with the fine weather, were the principal weakening influences, and considerable long came out on the break, which increased the depression. Opening trades showed ½c loss, and after selling up ½c gradually worked down %c, rallied ½c to ½c, changed some, and closed ½c from the bottom.

Outs was easy on selling and in sympathy with wheat. June was sold freely and closed ½c lower. July closed ¼c from the bottom.

Provisions were dull and weak in sympathy with the grain markets. Offerings vanced. A prominent operator, supposed to

bottom.

Provisions were dull and weak in sympathy with the grain markets. Offerings were free and the market broke to a moderate extent. Compared with last night, July pork is 27½c, July lard 12½c and July ribs 12½c lower.

Estimated receipts for tomorrow: Wheat, 47 cars; corn, 175 cars; oats, 160 cars; hogs, 21,000 head.

The leading futures ranged as follows:

Minnespolis Wheat Market. Minnespolis Wheat Market.

MINDEAPOLIS May 15.—Wheat was lower today, mainly entered by sympathy with lower prices at other places. Crop reports were good from at access with the exception of places in the acception of places in the acception of these sand from and mithin the last work the sand from and in and within the last work the parties were if too but and shipments to the parties were grading at the rare of algorithms for its inventy four hours, which have been a secretary of licent stocks of hear power to be to the property of the property of the parties of the

greater decrease than 50.000 hm. for each twenty-four hours from new until September I, when the new crop will be fit to use, there would still remain some 4,000,000 bu, of old wheat in this city to go into the new crop year. Sales of cash wheat today were 1,60% lower than yesterday: May closed at 50%c July, 50% flows; for No. 1 northern and 50%c for No. 2. Flour was quiet; patents, \$2.00, and bakers', \$2.00%2.30; shipments, 20,214 bbls.

STOCKS AND BONDS.

Mr. Gould's Projected Trip to Europe Caused a Raid on Missouri Pacific.

NEW YORK, May 15.—After an extremely full opening, enlivened only by a decline by a point or so in American Sugar Refining stock. the share list developed weakness and prices de-clined in the entire list. The knowledge that Mr. Gould is about to leave for Europe was utilized by the bears to make a sharp raid on Missouri Pacific, and the stock broke from 29% to 26% on sales of only 11.602 shares. The break in this stock, however, was sufficient to start selling in other parts of the list and a decline of from ½ to 1½ per cent ensued. Sugar fell off 1½ per cent, to 100%; Atchison 1% per fell off 1½ per cent, to 100%; Atchison 1% per cent, to 10%; Northwestern 1½ per cent, to 108; Hock Island 1 per cent, to 68%; Union Pacific % per cent, to 17; Lead % per cent, to 35%; and St. Paul % per cent, to 60%. Atchison was unfavorably affected on the report that the stock-

and St. Paul 5, per cent, to 60%. Atchison was unfavorably affected on the report that the stockholders would be assessed \$2) per share under the reorganization, instead of \$10, as at first proposed. The engagement of \$50,900 in gold by Von Hoffman & Co. for shipment to Europe, and the talk of heavy exports by Saturday's steamers led to free selling by the room traders. The troubles at the west also had a depressing effect, although, according to the statements of officials of leading lines, the troubles will be speedily adjusted. The market closed quiet at a fractional recovery.

The railway and miscellaneous bonds market was easy and the tendency downward.

The Evening Post says: The sharp decline in wheat and the uncertain reports of rate-cutting were the really significant factors in today's financial news. Until the day was pretty well advanced neither of these influences affected market prices. Toward the close of business, however, the market yielded under a moderate bear pressure and the close, though dult, was weak. The day's declines were very evenly distributed, Atchison and Missouri Pacific suffering the most decided losses, the former on the not-at-all-probable report that the expected reorganization plan will carry a heavy share-holders assessment. To news of this kind, pleasant or not, holders of stock of bankrupt roads may as well compose their minds.

The total sales of stocks today were 128,204 shares, including: Atchison, 9,400; American Sugar, 25,400; Burlington, 5,000; Chicago Gas, 8,200; Distilling and Cattlefeeding, 3,600; American Sugar, 25,400; Long Island Transfer company, 2,100; Missouri Pacific, 11,700; National Lead, 2,100; New York & New England, 3,000; General Electric, 4,000; Long Island Transfer company, 2,100; Missouri Pacific, 11,700; National Lead, 2,100; Missouri Pacific, 11,700; National Lead, 2,100; New York & New England, 3,000; General Electric, 4,000; Long Island Transfer company, 2,100; Missouri Pacific, 11,700; National Lead, 2,100; Missouri Pacific, 11,700; National

OMAHA LIVE STOCK MARKETS

Good Run of Cattle and Hogs, but No Sheep Were Offered.

GOOD DEMAND KEEPS FAT CATTLE FIRM

Some Sales Were at Prices a Shade Higher

Than Monday's-Hogs Firm Up and Sell Steady, Closing Rather Strong.

TUESDAY, May 15. There was a good, liberal run of both cattle and hogs today, but, as on Monday, there were no sheep offered.

The fat cattle market was active and firm. Receipts were rather liberal and the quality was good. All classes of buyers exhibited a fair degree of activity, and sellers experienced no difficulty in finding purchasers. Handy light fat cattle were in good request from all sources, and prices ruled a shade higher in most cases, while the heavier grades were in in-different request, unless good. Choice 1,161lb. steers sold up to \$4, and that figure was also the limit paid for very good 1,481-lb. cattle. Rough, heavy steers were hard to cattle. Hough, heavy steers were hard to move at any price. Some 1,283-ib, fed western steers sold for \$1.67, while only fair 884-ib, steers brought \$3.75. Under such circumstances there is little incentive to feeders to finish their cattle. Heavy steers are going out of style and fat pony cattle are becoming more popular every day. In general it was a good, firm, active market, and the forenoon's trading practically exhausted the supply.

Possibly 6 per cent of the offerings today were cows and mixed lots. The market presented no new features. Good stuff was in active demand and strong, while common and canning grades ruled slow and weak. Sales were at from \$1.25 to \$3.75, with nearly everything at all useful selling at \$3 or better. Calves at from \$2.50 to \$4.75 were unchanged, and bulls and stags at from \$1.90 to \$3.25 were quotably firm.

There was, perhaps, a trifle more life to the stocker and feeder trade. Country buyers were more numerous and speculators found more encouragement te do business. Prices were no better, but the feeling on all sides was more healthy. Sales

tors found more encouragement to do business. Prices were no better, but the feeling on all sides was more healthy. Sales were largely at from \$3.20 to \$3.65, includated to the feeling of the sales were largely at from \$3.50 to \$3.55, includated to the feeders are quoted at \$3.55. Good to choice feeders are quoted at \$3.20 (3.70; fair to good at \$3.00(3.3.15) and the commoner grades at from \$3 down. Representative sales:

HGGS — Receipts were tolerably liberal, 1,500 more than on last Tuesday and an increase for the two days as compared with last week of about 2,000 hogs. The quality as a rule was very good. Local packers all started in rather bearish, but slightly better reports from the east and a good shipping and speculative demand soon induced a firmer feeling, and most of the trading was on the basis of very nearly steady prices. Business was moderately active throughout, and the close was strong. The popular price for fair to good stuff of all weights was \$4.85, while lots of the good to choice loads brought \$4.87\frac{1}{2}\$ and \$4.90. Poor light and mixed stuff went at around \$4.80 and \$4.82\frac{1}{2}\$. The big bulk of the trading, however, was at \$4.85 and \$4.90, as on Monday. On Tuesday last the hogs sold largely at \$4.90 and \$4.95. Representative

CHICAGO LIVE STOCK MARKET.

Offerings of Cattle Actually Not Sufficient 'to Fill Orders. CHICAGO, May 15.-There was a very small supply of cattle here today. The offerings were not sufficient to fill the few orders in hand. There was enough competition to impart firmness to the market. Receipts at western points yesterday and today were comparatively light, indicating mederate supplies for temorrow and Thursday. That probability gave prices a slight upward tendency. There were no extra steers on sale and trailing was generally at \$1.30 to \$4.15, and at \$2.50 to \$3.50 for cows and heifers.

The demand for hogs was anything but brisk, but the meager proportions of the supply made it easy for sellers to close out at moderate prices; indeed, the average was a trifle higher than for that date. The best of the heavy hogs brought \$5.20 and there were sales of light as high as \$5.15. Between shippers and packers the supply was soon absorbed and the market maintained a firm tone to the end. Heavy hogs continue to sell to better advantage than the light weights, sales showing a difference of 5c to 10c per 100 lbs.

There was a strong market for sheep and lambs. It was so because of the light supply, fresh receipts scarcely reaching 6.000 head, and the total for the last two days being only about 18,000 head, or \$5.00 head less than for the same time last week. There was a fair demand at \$1.75 to \$5.50 for poor to choice clipped. The market for yearlings was also stronger and from the same cause. The range of quotations was \$3.50 to \$5. Spring lambs were satable at \$4.50 to \$5. Spring lambs were satable at \$4.50 to \$6. Spring lambs were satable of \$4.60 per 100 lbs. The demand is now confined to shorn sheep, the warm weather making wooled sheep almost unsafable.

On the London Warket

NEW YORK, May 15.—The Evening Post's
London cablegram says: There was a semiholiday tone to the market today. It was
irregular on American stocks, with the rise
of 5 points in the Argentine gold premium, to 201.
The only satisfactory explanation of the state
of affairs in Argentina has been received, but
the advance in the gold premium is mainly due
to speculation at Busenos Ayres in exchange.
The Argentine government has probably been
premature in resuming gold payments on the
Rothschild scheme. Filver was 28-9-161. India
is buying, but the tone is rather weak. In gold
and United States cold 4236 were purchased by
the bank.

RAIN WOULD COME IN HANDY

Sun and South Wind Threaten the Hope of the Husbandmen.

WATER WOULD HELP NEBRASKA CROPS

Just a Little Drouth in All but the Northeastern Section of the State-Chinch Bugs Out Early and at .. Work.

The Nebraska weather crop bulletin for the week ending May 14 has been issued by Captain G. E. Hunt, the observer at Omaha, as follows:

Owing to the continued drouth in the southwestern portion of the state and the appearance of cut worms and bugs in some localities the reports this week are not altogether so favorable as the preceding two weeks, and while it is hardly probable that any serious damage has thus far resulted from drouth seasonable rains would prove of great benefit in all portions of the state, except the northeastern section, where they have had all the moisture needed. Wheat and other small grain, as a rule, are doing well; pastures are excellent and fruit prospects were never better. Many oat fields are being plowed up and replanted in corn, thus largely increasing the acreage of that most important of Nebraska crops. The bulk of the corn crop has been planted and much of it is already up to a good stand and is being worked. The season is well advanced and upon the whole the prospects are better than the average in this state.

The following are remarks by correspond-

SOUTHEAST SECTION. Butler County-Corn planting nealy fin-shed. Rain of 9th general throughout county; pastures doing well.

Cass County—Some fields of small grain show effect of deficient rainfall. Rain of 9th was beneficial to all crops.
Clay County—Drought continues; wheat dying in the fields; oats and some hay suf-

fering for rain; rye heading out seven to ten inches from the ground. Fillmore County—Splendld growing weather the past week. Corn all planted. Some winter wheat has been damaged by continued

Gage County-Rain during week has been beneficial to all crops. First planting of corn up and large enough to plow. Warm weather favorable for growing crops.

Hamilton County-Very little change from prevailing enditions of last week. Light rain of 9th not sufficient to very materially benefit growing crops.

Jefferson County—Week favorable to crop development; 95 per cent of corn planted.

Prospects for all crops except oats very flat-

tering. Johnson County—The dry weather for several days previous to the 9th was very damaging to pasturage. Corn has germanated earlier than usual and the stand is excellent. Lancaster County-Showers on the 9th beneficial to crops. Small grain suffering for rain. Fruit prospects very good. Nemaha County—Rain of Wednesday in-sures a stand of clover. Apples setting well. Nuckoils County—Corn planting nearly fin-

ished and some up. Wheat never looked bet-ter and grass is coming forward very fast. Otoe County—Rain of 9th beneficial to all crops, leaving ground in good condition.
Pawnee County—Rain of the past week greatly improved all crops. Corn planting almost done. Some corn fields to replant on account of cut worms. Polk County—Week favorable for crops. The rain of Wednesday soon dried up by

high winds. Corn planting mostly done and much is up well. Big crop of cherries expected. Wheat at a standstill, but oats im proving.

Richardson County—Good rains on Wednesday. Corn planting nearly done. Saline County-The weather in portions of the county has been favorable, in other

parts too dry, so that unless rain comes soon many oat fields will be plowed up for corn. Wheat needs rain. Corn mostly planted. Fruit prospects good. Pastures beginning to need rain. Saunders County—High winds and lack f rain in some sections are retarding growth. In other sections the weather has been favorable. Corn planting about fin-ished. Some corn is being cultivated. Seward County-Apples promise well

good growing week, but rain is needed. Wheat looks fairly well, but oats are not doing well. Thayer County-Rain is needed. Wheat full of chinch bugs. Nearly all early oats plowed up for corn. Corn planting nearly

York County-A dry, windy week. Corn planting about finished. Rain needed badly. NORTHEAST SECTION. Antelope County-About two-thirds of a large acreage of corn is planted. The early Burt County—Very favorable weather for corn planting, which is nearly all done. Small grains doing well. planted corn is up nicely.

County—Corn planting well ad-Good showers and favorable weather for all crops.
Colfax County—Favorable weather for corn planting. Ground in good order and everybody busy at it. Early sown oats have been replanted or plowed up for corn in some

Cuming County-Fruit good. Corn all planted, in splendid condition. Ground will soon need rain. Dixon County-Good week for vegetation. Corn planting well along.

Dodge County—Good weather for corn planting, which is well along. The early planted corn sprouting well. Small grains doing well, but needing rain. Potatoes look

Holt County-High winds have injured small grain. Local showers have been beneficial in some parts of the county, in other parts rain is needed badly. Corn planting pretty well along. Fruit looks

Knox County-The high winds have been hard on vegetation. The light rain was welcome, but crops were not suffering.

Pierce County—Crop conditions excellent, corn coming up nicely. High winds

done some damage. Platte County-Windy and dry, but weather on the whole favorable for rapid growth, and in some sections rain abundant Wheat and other small grains lack thrift. Grass doing well.
Stanton County-Corn planting all done. Some is up and looking well. Good showers Wednesday. Pastures in good condition. Washington County-Weather favorable.

Corn planting well along.

Boyd County—Growing crops are looking fine. Corn planting well advanced. Some is up and looking well. Some is yet to be CENTRAL SECTION.

Dawson County-Corn planting still in progress; a large acreage will be put in; Colorado beetles very plentiful. Custer County-More rain badly needed. Crops growing slow. Corn planting well advanced. Fruit looking well.

Greeley County-Favorable week for small grain, but too cold for corn; excellent rain on Wednesday. Some farmers finished planting, others just commenced. Howard County—Very dry and windy; small grain will be short even if it rains at once; should we not have rains soon small grain will not make anything. Valley County—Small grain still looking well, but needs rain; corn coming up; far-mers generally ahead of their work.

Sherman County—Light local showers have improved crops; corn planing in full progress, and some of it reported up.
Wheeler County—Small grain suffered some from drouth. Rain of the 9th badly needed. Corn planting well along. Frontier County-Warm and dry. Spring wheat is suffering, grass coming slowly. Corn planting by listing is being done. Showers on Tuesday.

Furnas County—No rain during week; corn coming up; prospect for oats very poor; small grains suffering for rain; gardens

looking well; small fruits will be abundant. Gosper County—High winds and dry weather is damaging small grain; corn nearly all planted and coming up rapidly; withou rain soon small grain will not make half a crop.
Harlan County-Week has been warm and

windy, with no rain. Small grain on a stand and some rye heading out short. Top of ground very dry, but plenty of moisture under to keep corn for some time yet. Early corn up and looking well. Early potatoes up and bugs after them. Apples promise well. Hitchcock County-Prospect for small

PRESENTS TO ALL PURCHASERS.

Close at 6:30 evenings, except Monday and Saturday.

grain is very poor. Corn planting is not half done, being delayed by condition of ground.

Grass starting slowly. Hot and dry week.

Kearney County—Corn planting about finished. Early planting coming up. Some fields of rye are being put in corn. Chinch bugs reported in some fields of wheat.

Everything suffering from drouth.

Red Willow County—Crop conditions favorable in northern portion of county but unfavorable and critical in the southern por-tion. Wheat and oats are backward in southern portion. All crops in good condi-tion in northern portion. Corn coming up nicely. Pastures are two weeks earlier than last year. Difficult to say at present time what winter wheat will amount to. WESTERN SECTION.

Cheyenne County-Winter wheat spartial failure; fail rye in good shape; spring small grain in excellent condition owing to recent rains; a very large crop of corn is now being

Lincoln County-Sunshine and rain very favorable for crops which are looking well; corn and spring wheat growing nicely; light hail on the 8th did no damage. Scott's Bluff County—Alfalfa sowing conlinues; grass fine; corn and garden planting

Thomas County-Good growing weather first part of week; hot southwest winds during last few days damaged early gardens

NORTHWEST SECTION. Cherry County - Corn planting nearly finished; grain doing well, but more rain

Keya Paha County-We are needing rain very much; small late sown grain have made good growth; early sown is stooling some and will not average over half a crop at best; ice formed here on the 10th; corn planting well under way; some farmers have

finished planting.

Rock County—High dry winds rapidly dry out what little moisture there is. Heavy rain needed to give the ground a good soak-

SIOUX FALLS, S. D., May 14.-(Special

to The Bee.)—The outlook for enormous crops this year is very flattering. The season opened early, and the farmers lost no time in getting their seed in the ground. As a result of their industry, wheat is now As a result of their industry, wheat is now out of the ground, thick, of good color and vigorous; oats are mostly up and in good condition; corn is nearly all planted, and a farmer in the city yesterday reported that he had some corn up; flax seeding is now occupying the attention of the farmer, and pasture lands show a greater growth of grass than for many years at this time of the season. The acreage of wheat is probably not increased any over last year, and possibly not as large, while the acreage of oats, corn and flax will be much larger than last year.

Local Produce Market.

Local Produce Market.

RUTTER—Grass butter is becoming much more plenty than it was a few days ago. There is pienty of good creamery butter. Separator c eamery, 176;18c; extra fancy country, 126;16c; choice country, 126;14c; packing stock, 6c.

EGGS—The market has not shown much change for some time. The general price for the best stock appears to be 9c. Seconds are being sold at 8c or even lower.

for some time. The general price for the best stock appears to be 9c. Seconds are being sold at 8c or even lower.

LIVE FOULTRY—The market on chickens is firm owing to the scarcity; old hens, 8c; old roosters, 195c; and young ones, 68fc. The demand for other kinds of poultry is rather light, though a limited quantity is salable. Ducks, 786c; hen turkeys, 85fsc; golblers, 8c; geese, 8c.

GAME—The season is so far advanced that game is no longer wanted.

VEAL—The receipts of veal are very moderate and prices steady. Good, fat Veals, 8½47c; thin or heavy, 3g8c.

PIGEONS—There is a demand for old pigeons, but young birds that are not strong on the wing are not wanted. Old birds, per doz., \$1.256f.59.

OLD HEANS—The market is firming up all over the country. Neither the demand nor supply is very heavy at this point. California handpicked navy, \$2.1062.25; western navy, \$1.2062.25; common white beans, \$1.00g1.85.

ONIONS—Old onions are a thing of the past. New southern onlons are quoted at \$4.50 per box.

POTATOES—The supply is coming mostly from Utah and Colorado, which stock is quoted at \$9.671.59 per box. There are new southern potatoes in the market, which are quoted at \$4.50 per bil.

CAIHAGE—Alabama cabbage, per crate, \$2.50; choice Louislana, \$2.50. CABHAGE-Alabama cabbage, per crate, \$2.50;

hoice Louisiana, 43. CELLERY-None in the market. ASPARAGUS-Good home grown stock is bundant at 25650c per dos. on orders. PIE PLANT-Home grown p'e plant is plenty PIE PLANT—Home grown per plant is plenty at 2c on orders.

TOMATCES—Florida stock of good color is marce at 3.75 per crate of six bankels.
