CORN CLOSED LOWER AND WHEAT HIGHER

Opening Trades in Wheat Were at Frac tional Declines and After a Slight Rally Closed Near the Bottom for the Day.

CHICAGO, May 22.-Wheat returned its temporarily interrupted toboggan slide today and landed %e lower. Disappointing cables and heavy Baltic shipments, small exports, free selling and warmer weather all contributed to the weakness. Corn closed \$40 lower, oats %c higher and provisions slightly

Opening trades in wheat were at from the to %c decline, and after selling up from %c to 14c, sold with little reaction, rallied slightly, changed some and closed near the bottom. Operators were considerably disappointed at the tone of the cables, which falled to confirm the damage reports in France and Germany, also the heavy Baltic shipments, small exports and light cash demand. The trade was also more inclined to the belief that the late cold spell had done very little damage. The absence of any good outside buying was also a factor. Offerings were heavy the first few minutes after the opening and were quite readily absorbed. the market holding fairly steady, but later on, when the selling pressure got fairly under way, the market promptly responded to the pressure and became very weak, ral-lying slightly and closing firm.

In corn a fairly steady tone prevailed, prices fluctuating within from 1/2c to %c range. Opening trades showed fractional range. Opening trades showed tractional loves, and after selling down from ½c to ½c, rallied from ½c to ½c, worked back from ½c to ½c, ruled firmer, changed some and closed steady. The car lots were heavier than anticipated and were responsible for the early decline. The rally was attributable to the movement and the light estimates for tomorrow, but when wheat broke corn sym pathized and part of the rally was lost. In oats there was a liberal trade, the fea-ture being the small offerings. Early the feeling was easier, with sales at from 1/2c to

Ac decline. Later prices advanced %c and closed steady at from 1/2c to 1/4c better for the near and steady to 1/4c higher for the distant deliveries. The weakness in wheat and corn had little effect. Provisions ruled firm, steady to easy, and slightly lower in the absence of support The decline in wheat contributed to the easine's. With the continued weakness in wheat, liberal receipts of live hogs in the west and the absence of any active support the market eased off steadily and at the close was weak, with the final figures at about the inside prices of the day, and the

range very narrow all around. Compared with last night, July is 10c, July lard 121/2c and July ribs 5c lower. Vessel room was in fair demand and rate steady at 1%c for wheat and 1%c for corn to Buffalo, 10e for corn to Port Huron and 216e for corn to Kingston.

2½c for corn to Kingston.

BUTTER-The butter market has not shown much change this week. Commission houses are trying to keep the price of packing stock up to 7c in accordance with their quotations sent out at the close of last week. The packers, however, in a good many cases are offering only 696be. Choice emitty butter, 12715c.

EGGS-The receipts of eggs are large, but between the local retailers and the cold storage people the domaind is fair. The bulk of the sales are reported at 2c, with seconds at 754gSc.

LIVE FOULTRY—The receipts of chickons are increasing and the market is not quite so firm as it was a day or two ago. Old hens, 7c; old rooters, 195c, and young ones, 6c. The demand for other kinds of poultry is rather light, though a limited quantity is sainable. Ducks, 7gSc, hen turkeys, 6gPc, goblers, 8c; geese, 6c.

GAME—The season is so far advanced that game is no longer wanted.

VEAL—There is a good demand for choice year calves, and arrivals of such meet with very ready sale. Good, fat years, 1975c; thin or heavy, 3gSc.

PIGEONS—There is a demand for old pigeons, but young birds that are not strong on the wing are not wanted. Old birds, per dox, \$Libog-1.60.

VEGETABLES.

OLD BEANS—The market is firming up all over the country. Neither the demand nor sup-Local Produce Market.

VEGETABLES.

OLD BEANS—The market is firming up all over the country. Neither the démand nor supply is very heavy at this point. California handpicked havy, \$2.1592.25; western may, \$1.9092.00; common white beans, \$1.091.35.

ONIONS—New southern onions are quoted at \$1 per 104. Bermudas, \$2.75 per box. Top onions are plenty at 15935c on orders.

POTATOES—The market is weak owing to the shipments from the west, which filled the requirements of buyers for the time being. Utah and Colorado stock, 90c; Washington and Oregon, \$6,990c. ogene.

CASHAGE—The supply has been very light specially of good shipping stock. The same ning has been true of markets like Chicago ad St. Leuis. Good shipping stock would be control.

ASPARAGUS-Good home grown stock, 35949c er doz. on orders. PIE PLANT—Home grown pie plant, 282½c on PIR PLANT—Home grown pic plant, 282½c on oders.

TOMATOES—Shipping stock of good color is scarce at \$3.75 per crate of six baskets.

GREEN VEGETABLES—Spinach, per bid., \$1.75 g\$2.00; radishes, per dox., 29g25c; lettuce, per dox., 30g35c; beets, per dox., 29g25c; lettuce, per dox., 30g35c; beets, per dox., 60c; watercress, per case, 16 loxes, \$1.25g1.75;

NEW BEANS—Wax beams, per bu, box, \$2.59g2.75; ½ bu, box, \$1.10g1.75; string, ½ bu, \$1.

PEAS—Green peas are commencing to arrive from Missouri. Good shipping stock, per ½ bu, box, \$1.00g1.15.

FRUITS.

STRAWHERRIES—The market was well supplied. There was a cur of Missouri berries by freight and alsuit 290 to 225 cases by express. The shipments of berries from Arkansas are practically over. There were a few Kansas berries in that were of very fair quality. Good shipping stock, on orders, \$2.

CHERRIES—The supply of cherries in this market is liberal, daily express shipments being received from California. The quality of the fruit averages good. Shipping stock, \$1.75 per box.

GOOSEBERRRIES—Green, per 24-g1, case, \$2.50g2.

box. GOOSEBERRIES-Green, per 24-qt. case, \$2.50@ 2.75. TROPICAL FRUITS.

Minneapolis Wheat Market. MINNEAPOLIS, May 22.—The wheat market pened higher this morning, with something of MINNEAPOLIS. May 22.—The wheat market opened higher this morning, with something of yesterday's excitement and advanced %c more, making about ic rise from the close of yesterday. By that time there was a disposition on the part of holders of wheat to close out a part at least of their holdings. This checked further advance and more selling followed by them, which was added to by shorts selling instead of buying more and the market rapidly declined and closed ½c lower than yesterday. May and July, ñi¾c: September, £5½c; on track, No. 1 hard, 61c; No. 1 northern, £5½c; No. 2 northern, 58c. Cash wheat closed nearly ¾c below the previous day. The cash sales were made mainly before the decline and brought about the same price as yesterday on the average. Lower cables this morning, with large shipments reported from the Ealtic and small exports from the Atlantic scaboard, were the leading causes of the day's decline. Reports, too, of the darnage re-zently done by frosts in the winter wheat country were less sensational, and in many cases the damage previously reported was denied by other parties from the same locality. If there had been any supporting orders here the decline would have been less, and there were no large lines selling out. The bulk of the wheat here is owned by parties who show no disposition to unload it.

The sales that were made were by parties who show no disposition to unload it.

The sales that were made were by parties who are not extensive holders, but there being a large number of these small holders, the aggregate of their sales brought about the large decline for the day. Wheat is marketing rather freely in the country and tends to lessen very much the reduction in interior elevator supplies. Receipts for the day were 116,280 bu; shipments, 22,320 bu.

ipts for the day were 116,280 bu.; shipments 22,322 bu.

The flour market was quiet, with sales reported about equal to the production for the day, which amounted to some 31,000 bbls. The flour market was quoted at \$3,507,30 for patents with a few sales made at \$3,55; bakers, \$2,95% 2,30. Shipments of flour were 23,30 bbls, slightly in excess of the production for the day.

St. Louis General Market. ST. LONDON, May 22—SUGAR—Cane, dull; little doling; centrifugal Java, 16c; Muscovado, fair refining, 12s.

STOCKS AND BONDS.

Securities Were Again Active Yesterday but Speculation Was Unsettled. NEW YORK, May 22 .- The stock market was again active today, but the speculation was unsettled in tone, and as a result of the day's transactions prices are about equally divided between advances and declines. At the opening the market was firm, the dealing being principally in the industrials. Chicago Gas and Sugar held the most strength. Union Pacific, which declined % per cent, and Louisville & Nashville, which receded 1/2 per cent, were the only exceptions to the upward tendency until about 10:30, when Sugar, which had advanced 1% per cent, gave signs of weaken-ing, and on heavy sales declined 1% per cent. The depression in those shares caused a selling movement in the general list, resulting in a fractional decline therein. There was a rally before 11 o'clock, led by To-bacco, which made a gain of 1% per cent, Sugar advancing 1% per cent, but finally reacted % per cent, and the rest of the market again took a downward turn, Cotton Oil leading this time, with a loss of 1 per cent. The decline was checked by the receipt of buying orders, which again moved prices upward. Sugar advanced 3% per cent to 100. The whole market continued strong until about 1 o'clock, when General Electric fell off 1% per cent and the rest of the mar-ket a fraction. This was followed by an improvement, but during the late afternoon the market was very irregular. Sugar broke 2½ per cent and rallied 1% per cent, and more active shares fluctuated within narrow limits. In the final dealings gener ally a better tone prevailed and the market closed strong. The bond market was easier in tone during the early dealings, became irregular during the afternoon and closed

The Evening Post says: The advance in prices on the Stock exchange today was not of any particular reassuring character. It was the outcome largely of renewed manipu-lation, and in the industrial stocks—which led the movement—had the filmsiest basis possible. Sugar certificates, for today, were relieved from the recent pressure. One particular block offered for inside liquidation went up 2 points on the offhand remark of a single senator that the tariff bill would pass the senate as it stands. The following are the closing quotations on the leading stocks of the New York ex-

NEW YORK, May 22.—The Evening Post's cablegram says: The announcement of a new India sterling loan of 65,000,000 was the only feature of today's market. It is already quoted at over 2 premium. The loan is to be principally applied to redeeming existing India treasury bills. Americans closed better all around after flatness. Louisville and St. Paul led the recovery. A United States gold loan is expected, but no negotiations for it have been begun. South Americans were depressed by a further rise in the Argentine gold premium to 306.

Wool Market.

no quotable change.

ST. LOUIS, May 22.-WOOL-Barely steady;

Receipts for the Two Days Show Ahead of Last Week's Supplies.

QUALITY GOVERNS THE CATTLE PRICES

Liberal Offerings | Dive Dealers a Chance to Choose to Some Extent-Hogs Open Brisk and Close Strong at a Nickel's Loss.

-The two days' receipts show an increase in all kinds of stock has compared with supplies for the first two days of last week. In cattle and sheep it has been slight, but

255 240

there have been nearly 3,000 more hogs. There were lots of cattle here and the quality was good. The supply was heavier than it has been for five weeks, and all buyers, but especially the dressed beef men, started in to fill their orders at a sharp decline from Monday's prices. Light supplies east and steady to strong markets there had a reassuring influence on sellers, and as eastern butchers and speculative shippers commenced taking hold freely the movement became livelier, and although Cudahy was the only one of the dressed beef men to make much of a hustle, sellers were not compelled to give their cattle away by any means. Good, handy beeves and right choice heavy cattle sold very nearly as well as on Monday, but on most other grades shaded prices were the rule. In some cases cattle sold a nickel lower, in others salesmen had to take off a dime. It all depended on quality, the supply being heavy, and the better grades sold first, while the common grades were more or less neglected. Taking the heavy run in consideration, it was a very good market all around, and practically everything sold and in very good

With all the big cattle supplies there were less than a dozen loads of cows in the yards. The market was fairly active and generally steady all around. Calves sold a shade easier on account of ample

soid a snade easier on account of ample receipts, but the market for rough stock of all kinds was brisk and strong. Yard traders bought most of the stock and feeding cattle at steady to a shade lower prices. The continued dry weather has hurt the pastures some and not many country buyers are looking for supplies. Good to choice feeders are quoted at from \$3.20 to \$3.65, fair to good at from \$3 to \$3.15, and the commoner grades at from \$3 down. Representative sales: DRESSED BEEF.

and heifers sold as high as from \$3.90 to \$4. There was a fair inquiry for stockers and feed-is on the basis of former quotations.

Receipts of hogs today were estimated at 13.000 head. That small supply was soon out of sellers' hands, there being a fair demand for both shipping and packing. Prices were strong to 5c higher. The bulk brought from \$4.75 to \$4.85, and the best lots found buyers at from \$4.87½ to \$4.90. There was a merger proportion of good hogs than for some days past, several lots of notably good heavy weights being among the offerings. Since Saturday less than \$4.000 head have been received, of which about one-half went to shippers. The market closed steady. The sheep and lamb markets were higher. Continued light arrivals enabled sellers to add from 19c to 15c per 190 lbs. to values. There was a good demand at from \$2 to \$4.50 for poor to choice sheep and at from \$2 to \$4.50 for poor to extra yearlings. A 4ot of fine Wisconsins brought the latter figure. Spring lambs were quieted at from \$4 to \$5.75.

Receipts: Cattle, 2,500 head; calves, 1,500 head; hogs, 13,900 head; sheep, 7,500 head.

The Evening Journal reports:

CATTLE—Receipts, 2,500 head; market steady; prime to extra native steers, \$4,159,4,00; medium, \$3,9564,00; others, \$3,7564,455; Texans, \$2,9963,40.

HOGS-Dealers' expectations of liberal receipts this week were apparently warranted Today's run was the heaviest since April 12 when 9,962 head were received. The quality as a rule was very fair. Light receipts and a strong market in Chicago helped to sustain values here, but the average of prices paid was fully a nickel lower than Monday. There was a moderate inquiry for shipping and speculative account, but local packers were the heaviest buyers, and there was competition enough to make a fairly active mar-ket, notwithstanding the lower range of values. Poor light mixed stuff sold down to \$4.50, and a few of the choice butcher weight loads sold up to \$4.55. The bulk of the fair to good hogs of all weights, however, sold at \$4.55 to \$4.60, with the long string at

OPINION OF SENATOR MANDERSON'S BILL

They Do Not Want the Tax on the Article

Further Reduced.

faver or any proposed legislation lending to

help it into consumption could not well

escape their condemnation. At the last

session of the legislature the butter men of

the state united and made a strong effort to

have measures passed that would put a still

greater obstacle in the way of butterine.

Some were in favor of a law compelling the

coloring in pink of all butterine offered for

sale in the state, as is done in some east rn

states. Such a law amounts practically to

prohibition, as no one would think of using

pink butter. The Nebraska legislature,

however, failed to take any action in the

matter, and all the protection that the

fealers in this state have is the national law Imposing a tax of 2 cents per pound on

Before the national law governing the sale

of imitation butter went into effect butterine

was sold in the markets of the country as butter. The fraud was even carried so far

as the putting up of irregularly shap d rolls in exact imitation of the rolls of butter made

by farmers. One dealer in Omaha sold be-

tween the 1st of October and December 60,000 pounds of butterine in this market at a

profit of 5 cents per pound. There was a strong popular prejudice against bufterine,

and the only way that it could be sold to consumers was to represent it as butter. The profits in the business were so large

that there was every inducement to carry on the deception. Peddlers used to disguise themselves as farmers and sell butterine

rom house to house in the cities, represent-

ng it as pure butter made on their farms

hese imitation farmers with buttering

noticed one day that the butter on his table

had rather a familiar app arance, and he

asked his wife where it came from, and was informed that an honest old farmer had been supplying her for several weeks. The

honest old farmer turned out to be one of her husband's butterine peddlers. It was

claimed at the time that some genuine farmers practiced the deception. They would buy butterine and take it home and

work it in with the butter of their own make and sell it to the retail dealers at butter

SUFFERING PUBLIC PROTESTED.

The dairymen of the country started the

agitation and were backed up by the con-sumers, who did not like the idea of eating

imitation butter, and the present law plac-ing a tax of 2 cents per pound on butterine

and oleomargarine was pushed through con-

gress. The law also provided among other regulations that all packages of buttering

sold by retailers should be stamped with the word buttering or oleomargaring.

imitation butter was placed in a position where it had to sell on its merits or not at all. The fact, however, that the price of butterine was so much lower than butter in-duced boarding houses and hotels to buy it

very largely, and the consumption was heav-

ery largely, and the consumption was near ven when the law was vigorously enforced During the past two years the consump

tion of butterine has increased very rapidly in this city, at least, and butter men claim

that it has been due to defects in the present United States law. It is openly asserted

that some retail merchants are in the habit of selling butterine for butter, but in a way that would make a conviction impossible. A customer may ask for butter and the retail

dealer can show him butter and he can also

show him butt rine, and it is not the dealer's

very likely to do, as it is the cheaper and

has a good taste and appearance. He does not tell him that it is butterine and hence does not break the law in that respect, and

when he delivers the butter to the pur

At the same time the color of his ink and paper are so nearly the same that no one would notice the stamping.

Butter men claim that if it were not fo

butterine there would be a good market for butter. At the present time butter made by the farmers of Nebraska is bringing only

6@6% cents per pound on track. This i the price obtained for it by the country mer

chants who buy it from the farmers, so that the man who makes the butter hardly gets enough to pay for taking it to market. Even

at these prices the local demand for butter is light, and a large proportion of it has to

DO NOT LIKE THE BILL.

The butter business being in this condi

tion, dealers do not look favorably upon that

feature of Senator Manderson's bill reducing

the tax on butterine, which would give that article a still further advantage over genuine

butter. They do approve of the provision compelling both wholesalers and retailers to sell in the original packages only. Here is

what a few of the wholesale butter dealers of Omaha have to say on the subject: Charles Kirschbraun, of the Kirschbraun-

Haskell Produc: Company-I am not in favor of reducing the tax on imitation butter, but

would prefer to see it raised, if anything, se

as to limit the sale of it as much as possible. Then I would like to have it put up in one

pound packages only, and each package stamped with a revenue stamp, so that the

retailer could not deceive the consumer, as is done at present in nine cases out of ten. Not to exaggerate, I should say that there

is as much butterine as butter consumed in Omaha, and that fully two-thirds of the peo-ple using butterine believe it to be butter.

If it were not for butterine Omaha and the other cities of Nebraska would consume all

a letter from a farmer engaged in butter making that advised the reduction of the tax

on butterine. In the winter season butter cannot begin to compete with the imitation article even with a tax of 2 cents a round

in force. To reduce this tax would still further depress the business.

James A. Clark, of James A. Clark & Co.

I think the butter producers and dealers o

Nebraska ought to get up a remonstrance and let Senator Manderson know where he is at. The tax on butterine ought to be increased, or else taken off altogether, and every one be allowed to make it. The senator's idea of compelling the sale of but-terior in original mackages is all right. At

terine in original packages is all right.

the present time ninety-nine pounds out of every 100 sold in Omaha are sold for butter.

It is hard work to detect the fraud, but the fact is there is no one trying to detect it. W.E. Riddell—If congress will make a law.

that cannot be evaded, compelling the sale of butterine as butterine and do away with

the deceiving of consumers, that will be all that any one can reasonably ask for. The manufacturers have a right to make butterine so long as it is not sold for butter. It is claimed by the manufacturers that butterine is better than butter; if so, let them

sell it for what it is on its merits and the butter men will not hesitate to meet them in fair competition. I would not care what the

tax was if Senator Manderson would only give us a law that would prevent the stuft from being sold as butter. B. H. Whitney, of Whitney & Co.—The feature of Senator Manderson's bill limiting

the sale of butterine to original packages is a good idea. However, I am not in favor of reducing the tax on butterine, as the

manufacturers are better able to stand it than are the farmers to suffer a still further

reduction in the price of butter. Butter has dropped down so low that there is no encouragement for farmers to make good butter any more. As soon as cool weather comes in the fall butterine shuts off fully one-half of the demand for butter in this contraction.

city. Every fall the number of retail mer-chants who take out a license to sell but-terine increases. As an example of how it

works, a retail merchant who had been buy-ing butter to the amount of \$150 to \$200 per

the good butter that is made in the state. A. C. Riddell, of Riddell & Co.—I do not believe that Senator Manderson ever received

dealer in this city, who supplied many of

imitation butter.

mouth took out a license has fall to sell butterine, and after that his butter trade did not amount to anything. He said: "Why, I used to be glad to make the cents per pound on butter but I am now buying butterine at 12½ cents per pound and selling it at 20%22 cents." Butterine could easily pay a tax of 5 cents per pound and still have all the advantage over butter in the matter of price, as it costs so little to manufacture it. There is no doubt but that a large portion of the people of Omaha who think they are using butter are in reality consuming butterine. Advantages in Teads Which the Imitation
