COMMERCIAL AND FINANCIAL

Wheat Was Strong and Retained an Advance of One-Half Cent.

FAIR BUSINESS IN THE CORN MARKET

Price Current Summary Regarded as a Little Bullish-Corn Weakened with the Late Decline in Whe at at and Closed Steady.

CHICAGO, May 24.-Wheat elimbed 11/4c today and retained 14c advance at the close. Frost rumors at home and reports of crop damage abroad, with buying by shorts, were the bull features. Realizing and strike riots caused a drop from the top figures. Corn closed 1/4c lower, oats 1/4c higher and provisions at a slight advance.

Wheat opened at a slight decline, but soon sold up with a slight reaction of 16c, eased off from 1/2c to 1/3c and rallied again slightly at the close. Operators evidently went home "short," and the market acted as if very much oversold. Bad erop reports were numerous, and the principal sellers on yesterday's break were the chief buyers today. A feature was the buying for St. Louis and southwestern account, many large "short" lines being covered. A good many outside buying orders were in and there was very little for sale until 1c advance had been scored, when the early buyers realized and prices receded some. The strength in continental cables was a "bullish" factor, as also were caties was a reutish factor, as also were
advices from the outside, damage reports
being quite numerous. The strike riots aided
in the late decline, but more buying followed
and the market closed steady.
In corn there was a fair business, and the

market was quite active at times. Opening trades were at from 1/2c to 1/4c loss, but soon rades were at from 3c to 3c loss, but soon sold up 3c, reacted about 3c, ruled steady, changing some and closed as stated. The temper of the local crowd was inclined to be "bullish." The Price Current's summary was a little "bullish," and wheat stronger, both of which helped the price, but the mar-ket weakened with the late decline in wheat losing its early advance.
Outs were active and firmer. Good buying

for July early carried prices up %c, while the other months advanced from %c to 14c. Good selling on the advance coupled with the decline in wheat created weakness, and prices receded to the opening figures, and the close was quiet.

Some strength was developed early in pro-

visions on higher prices for live hogs at the yards and the advance in wheat. More business was transacted than on any one day for a month past on some covering by "shorts" and fair buying by the local operators, the packers selling. There was tem porary weakness later on, the market declining to a moderate extent for pork and then reacting on renewed support. Shortly before the close of the session pork again sold off to a moderate extent and closed easy, with lard and ribs steady. Compared with last night July pork is 21/2c higher. July lard 21/2c higher and July ribs un-Freights were steady at 11/4c for corn and

114c for oats to Buffalo and 214c for corn to

STOCKS AND BONDS.

Improvement in Speculative Values Made Wednesday Was Lost Yesterday. NEW YORK, May 24.-The improvement

in speculative values made yesterday was in a great measure lost today, and the stock market was unsettled and to some extent feverish. There was little left of that confidence in the immediate future and in the betterment of the situation as regards the great railway properties which was so prominent a feaure of yesterday's speculation. One favorable indication was the slightly easier tone of the sterling exchange market, which led to a belief that the gold exports on Saturday would be less than had been anticipated, and would exceed \$2,900,000, but this was not much, if any, of a factor in the stock market. The things which did affect the shares speculation were the publication of railroad reports showing continued decreased earnings, the announcement that the coal strike was still far from ended, the apparent uncertainty as to the prospects of the tariff bill and the fact that railroad managers in session at Chicago had not arrived at any basis of settlement on the

It was a day on which the bear sentiment was uppermost, and the shorts took advantage of the pervading gloom to hammer the market in the hope of bringing out long stock. Evidences were not wanting of liquidation in some of the leading properties, notably Sugar, in which some Washington accounts was closed out Burlington & Quincy was also sold by Boston houses and St. Paul by Chicago. In the morning London was in the market for St. Paul, Louis-ville & Nashville and in small amounts of New York Central, and later in the day sold both New York Central and St. Paul. The market opened firm at a fractional advance on yesterday's quotations, Reading, which was 14 per cent lower, being the only excep-tion. For fully three-quarters of an hour the trend of prices was upward, except for Sugar, which, after the opening rise, reacted a fraction, but quickly rallied and established a higher level, Missouri Pacific being also prominent in the advance. Before 11 o'clock Sugar had lost the entire gain, carrying the rest of the market down a fraction, includ-ing New York Central. The speculation was heavy until near noon, when a fractional recovery took place in the general list and a rise of 2 per cent in American Tobacco, the greater part of which was subsequently lost. Soon after midday the buying movement spent its force, and the market again took a downward course, the declining tendency continuing until near 2 o'clock, when another recovery of a fraction occurred, promptly followed by a reaction.

In the early part of the last half hour a sharp up turn was made, in which the Cordage shares and Tobacco preferred were the most prominent. Some shares did not participate in this advance and recorded losses of a fraction. Sugar was very erratic in its movements all day, opening at 103%, receding to 102% advancing to 104%, then, after numerous intermediate fluctuations breaking to 100. closing % per cent above the lowest point touched, at a decline of 2% per cent on the day. The preferred stock rose % per cent and declined 1% per cent.

The Evening Post says: So far as a market advance is founded on general and vague belief in favorable future developments, it is bound to be precarious. This maxim was tested fairly enough today, when Wall street awake rather suddenly to the fact that the passage of the tariff bill, the settlement of

the coal strike and the adjustment of west ern freight rates were quite as much in the air, despite professional assurances, as they were at Monday's opening. The result was a very irregular movement, with many stocks however, closing lower and a 4-point break

On the London Market.

NEW YORK, May 24.—The Evening Post's London cablegram says; Today's bank return was the strongest on record, In bullion it gained during the week f1,142,600, of which f677,gainer during the week 11,182,000, of which 151.1, 600 were imported, 1204,000 coming from Brazil, 146,000 from China, 129,000 from Bombay, 1236,-600 from Australia, 112,000 from Egypt and 1543,000 in bars and United States coin; the remainder was from home circulation. The total buillon held is 134,357,000. It is estimated the figures will soon touch 149,000,000. The stock market was quiet and cheerful today, but Americans closed under the best. New York Central was weak and also Atchison shares on the growing rumor of an assessment of \$10 a Central was weak and also Atchison shares, on the growing rumor of an assessment of \$10 a share. A circular tonight from the London committee of bondholders gives the same esti-mate. It is expected that the A and B bonds will be made into incomes, losing the right to foreclose, but the trustees appointed will pro-tect their interests.

Receipts for Four Days Show a Small Increase Over Last Week.

CATTLE CONDITIONS RATHER IMPROVED

Sellers Have Slightly the Best of the Day and the Close is Firm-Hogs Open

Weak, Recover and Close Strong at the Top. mit.

THURSDAY, May 24. So far this week, compared with last, recelpts show an increase of 700 cattle, 4,300

hogs and 2,200 sheep. The supply of cattle was comparatively light, about the same as on last Thursday, and the general character of the offerings was about the same as it has been for two or three days past. Sellers found conditions somewhat more favorable and the market was in very fair shape. There was not much of a shipping demand, there never is en Thursday, but favorable reports from the east and the limited offerings improved the demand from the dressed beef men and trade ruled active, with prices steady to a shade firmer all around. Good fat light steers were the readlest sellers, but common light stuff was slow, on account of the slack inquiry for feeders. Heavy cattle sold fully as well as on yesterday, and the general market was lively and firm, the supply changing hands in very good season.

Cows and mixed stock sold freely and at

and strong. Veal calves were in brisk request at stronger prices, but heavy stock and yearlings ruled dull. The market for rough stock was tolerably active and gen erally unchanged. In stockers and feeders business was fairly brisk at the recent decline, although yard traders did most of the buying, the country demand being still very slack. Sales were at from \$2.55 to \$3.45 for common to very good stock, with most of the trading at from \$2.75 to \$3.25. Representative sales

fully steady prices. There were only five or six loads on sale and the demand was active

33 cows...... 798 2 30 40 steers.... 1049 3 15 HOGS-There was a let up in receipts toflay, although compared with a week ago there was a slight increase, and the four days' receipts are 3,500 heavier than for the same period last week. The general quality of the receipts was hardly as good as on the three preceding days. Although reports from the east were generally favorable, the ample receipts had a tendency to make buyers indifferent and the market was slow in opening, and early sales were largely at around \$4.60, with quite a few of the commoner loads at \$4.50 and \$4.55, and choice long and trading became more active

stock bringing \$4.621/2 and \$4.65. Good ship ping orders improved the situation before with \$4.65 the popular price, and some of the best heavy and butcher weight loads selling at \$4.67\% and \$4.70. The close was active and strong at the high point of the day, the middle of the forenoon finding the pens empty. Trading was largely at \$4.60 and \$4.65 today, or on an average a dime higher than Wednesday, when \$4.50 and \$4.56 bought the bulk of the offerings, and not more than a nickel lower than a week ago the bulk of the hogs selling on last Thursday at from \$4.65 to \$4.70. Represen-Sh. Pr. 80 \$4 62\6 320 4 62\6 80 4 62\6

SHEEP — Receipts were again tolerably liberal and trade was slow. Sellers were asking stronger prices on account of stronger markets east. Buyers did not want supplies bad enough to pay more than stendy figures. The market was quotably unngures. The market was quotably un-changed. Fair to good natives are quotable at \$3.50@4.50; fair to good westerns, \$3.20@ 4.35; common and stock sheep, \$2.50@3.25; good to choice 40 to 100-lb. lambs at \$3.50@

CHICAGO LIVE STOCK MARKET.

Small Receipts Stimulated Both Buyers and

Seilers in Cattle.
CHICAGO, May 24.—The run of cattle was light for a Thursday, amounting to about 12.000 head, as against 17,000 head a week ago. The effect upon both buyers and sellers was stimu-lating. The former bought with more show o confidence and the latter were encouraged to ask better prices. Buying began early and with sufficient energy to give the market an unward inclination. Very soon after the opening all desirable dressed beef and shipping steers were selling freely at 10c advance on yesterday's prices, and on better grades of cews and helfers showed a gain of from 5c to 10c. The advance did not extend to poor, common sorts, though they were firm. Canners are buying sparingly just now in anticipation of lower prices by and by when grass cattle become more plentiful. Trading in steers was at a narrow range. Few lots said below \$3.75, and a still smaller number above \$4.10, Cows and helfers were duoted all the way from \$1.50 to \$4, with most of the business at from \$2.50 to \$3.55. The reneral market closed firm with everything a.66.

The heg trade developed a good degree at the start, and was very brisk a little later in the morning. The first sales did not indicate much change in prices. For the bulk the market grew stronger every minute and before 10 cto 15c. There were many sales at \$4.50, a few at \$4.55 and one at \$4.57.2. Thet bulk of the heavy and medium weights changed hands at from \$4.55 and one at \$4.57.2. The think of the heavy and medium weights changed hands at from \$4.55 and one at \$4.57.2. The think of the heavy and medium weights changed hands at from \$4.55 and one at \$4.57.2. The think of the continued light arrivals—light, as compared with any prices for averages of less than 200 lbs. The close was strong.

The sheep market again ruled firm, by reason of the continued light arrivals—light, as compared with any previous week of this year. About 7,000 head arrived, making \$7,000 since Saturday, as against \$4.500 a week ago. For the expired part of this month 124,000 head have been received, or \$2,000 head less than for the same time last May. There was a good domaind and firm market at from \$2.50 to \$5. for year-lings and at from \$4.00 head calves, 200 head; theory \$2.000 head; sheep, at \$1.500 head; calves, 200 head; there \$1.500 head; calves, 200 head; inclination. Very soon after the opening all de-strable dressed beef and shipping steers were Receipts: Cattle, 13,900 head; calves, 200 head;

Local Produce Market.

Local Produce Market.

BUTTER—The market on packing stock is firmer, and buyers were offering as high as 74% five per fb. Other grades remain about steady. Good country, 126/14c; separator creamery, solid packed, 176/18c.

EGGS—The receipts of eggs are averaging about the same as a week ago, and the market is steady at 9c. There is an effort being made by some houses to force the market up 1/2c, but in view of the liberal supply of stock, both on the market and in the country, there does not appear to be much chance of success.

LIVE POULTRY—The receipts of old fowls were heavier and commission houses were forced to carry a good many over. The market in consequence was weaker. Commission men were asking 5½ and sometimes 7c for old hens, but the dressers would offer only 6c and were quoting the price at Kansas City, 5½c, to help pound down the market. Old roosters, 52/4c; young ones, 5c. The demand for other kinds of poultry is rather light, though a limited quantity is salable. Ducks, 727/2c; hen turkeys, 8c; gobblers, 6c; geens, 6c.

GAME—There is no game coming and none wanted at this senson.

VEAL—The receipts of veal were large and dealers found it hard work to clear their houses, though the demand was good. Good fat veals were quoted at 6½67c, with sales largely at 81g.

were quoted at 6½%7c, with sales largely at 6½%7c.

PIGEONS—There is a demand for old pigeons, but young birds that are not strong on the wing are not wanted. Old birds, per doz., \$1.50@1.60.

VEGETABLES.

OLD BEANS—The market is firming up all over the country. Neither the demand nor supply is very heavy at this point. California hand-picked navy. \$2.16@2.25; western navy. \$1.50@2.00; common white beans, \$1.60@1.85.

CINIONS—New southern onions are quoted at \$4 per bbl. Hermudas, \$2.75 per box. Top onions are plenty at 16.20% on orders.

POTATO-12S—The market is weak owing to the shipments from the west, which filled the requirements of buyers for the time being. Utah and Colorado stock, 50c; Washington and Oregon. \$2.500c.

CARBAGE—The supply has been very light, especially of good shipping stock. The same thing has been true of markets like Chicago and St. Louis. Good shipping stock would be worth 5c.

AND ARAGUS—Good home grown stock, 3540c. ASPARAGUS-Good home grown stock, 254140c PIE PLANT-Home grown ple plant, 262% on PHS PLANT—Home grown pie plant, 232-25 on ToMATOES—Shipping stock of good color is scarce at 13.75 per crate of six baskels.
GREEN VEGETABLES—Spinach, per bbl., 11.75 g42-61, radishes, per doz., 7242-26; isetuce, per doz. 30435c; cocumbers, 11.54(11.5); paraley, per doz., 30435c; beets, per doz., 26c; watercress, per case, 15 boxes, 11.50411.5; paraley, per doz., NEW BEANS—Wax beans, per but, box, 42.504; 275; § but, box, 41.9612.5; string, ½ but, 11. PEAS—Green peas are commencing to arrive from Kansas and Missouri, Good supplies stock, per ½-ba, box, 11.0051.15.

CAULIFLOWER—The market is fairly well supplied with good stock. On orders, 13.25 per doz.

FRUITS.

doz.

STRAWBERRIES—There were fully 250 to 200 cases of berries on the market. The offerings were mostly all from Missuri and of good quality. Good shipping stock brought \$3.25 per case. CHERRIES—Some of the California cherries received on the market were very fine. Some of the boxes weighed as high as 14 ibs., and the fruit was large and of excellent color. Choice shipping stock, \$1.75 per box.

GOOSEBERRIES—Green, per 24-qt. case, \$2.506 2.75.

York Dry Goods Market. NEW YORK May 24.—There was less done than yesterslay, yet in sounding the market many inquiries were made, followed by offers at the prices of two weeks ago that were declined. Compared with a year ago, stocks of all descriptions of cetton goods are very much smaller, and many buyers are besonging impressed with this fact, yet no alvance in prices appears possible at present. A little later a change may be developed. Frinting cloths in demand at 2 1-lik for 64 squarest and declined with sales on contracts at 2 3-22c.

AFFAIRS AT SOUTH OMAHA.

Company of the National Industrial Army to Be Organized-Other News. The laboring men held full sway in South Omaha last night. Two companies, A and B, of the National Industrial army, came down from Omaha with the expectation of attending an open meeting of the city Central Labor union. There was some misunderstanding about this proposition, however, as the doors to the room where the union met were barred. It was a secret meeting, and the visitors adjourned to the vacant lot north of the postoffice building,

At the Central Labor union meeting about fifty new members signed the roll. The two Industrial companies from Omaha were under the command of Mr. Holliday and Mr. Nedry. They came on the motor to I street, where they left the cars and marched down Twenty-fourth street to the place where the open air meeting was held. Attorney D. F. Bayless of this city mounted a dry goods box and introduced Editor Tichener of the Omaha News. Mr. Tichener talked for half an hour, describing the hard lines of General Coxey and the other Industrial men who are now either in jail, in Washington or on their way. He urged the South Omaha laboring men to organize themselves into companies for the protection of their fellow men. He then tackled the money question, and entertained his audience of 300 people for some time on

this subject.
Captain Nedry and several others spoke briefly.

The work of organizing a company in the Magic City will be commenced at once as a result of the meeting last night.

Memorial Resolutions.

A great many friends took advantage of the privilege of viewing for the last time yesterday the remains of Mrs. Mary B. Slabaugh. Encased in a beautiful metallic Shabaugh. Encased in a beautiful metallic casket in the front parlor of the family home on Twenty-third street, the remains were surrounded by sympathizing neighbors and acquaintances from 10 until 12 o'clock. The casket was completely buried in flowers. The ladies of the Degree of Honor and the King's Daughters attended in a body. The mourning party left at 4 body. The mourning party left at o'clock for Randolph, O., where the funera

services will be conducted.

The Kings Daughters met at the home of Mrs. L. Householder and passed the follow ing resolutions on the death of their vice president, Mrs. Dr. Slabaugh: As the mighty King and all wise Father has called home this one of the loveliest and most loving of His daughters, we, the members of the Magic City Circle of Kings Daughters, desire to pay a sorrowful tribute to the memory of our sister and friend, Mary B. Slabaugh; therefore, it is

Resolved, That we feel and know that a future, nobler grander, has for her but just begun. That she has exchanged the silver cross for the golden crown, that she has put off the badge of purple, a royal color, but one inseparably associated with the suffering and humiliation of our King, for that robe of sootless white that only angels wear.

Resolved, That we tender our sincere and heartfelt sympathy to her bereaved husband and little daughter, so early deprived of a mother's love and care, to her sorrowing mother and fond sister. Resolved, That a copy of these resolutions be sent to the family and published in the

daily papers. McKinley League Organized. The republicans of South Omaha organized a club Wednesday night which will be known

as the McKinley league. The attendance was large and the old-time enthusiasm prevailed. It has been some time since the republicans of this city have been organized and worked as a club, but from now on the league proposes to take an active part in political mat ters. Mr. A. H. Murdock was chosen presi dent of the league, O. E. Bruce and Dave Anderson vice presidents, Patrick Sheehy secretary and Bert Wilcox treasurer. Speeches were made by a number of members and the following were elected as delegates to the state league convention in Lincoln on June 12; Messrs. J. H. Van Dusen, T. F. Elliott, J. B. Erion, E. O. Mayfield, Alex Schlegel, Henry Murphy, Bruce McCulloch and Ivor Thomas The executive committee of the McKinley league is composed of Messrs. E. O. May-field, P. S. McAuley, James Austin, Patrick

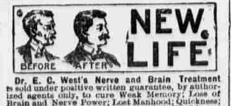

Trainor and Daniel McGucken. Another Hibernian Division. Division No. 8, Ancient Order of Hiberni ans, was organized at Young Men's Institute hall Wednesday night with a membership of twenty-five. The officers are: W. M. Ryan, president; W. H. Queenan, vice president; Joseph McKeenan, recording secretary, and John Larkins, treasurer.

BUILT OF STEEL BEAMS

FINEAPPLES-Choice, per doz., \$2; sman. Paxton & Vierling's New Workshop Going Up on the "Chicago Plan."

ITS FRAME WORK IS ALREADY FINISHED

Laying of the Brick in the Outside Walls Was Begun Yesterday-Chance for an Omaha Man-Opening the Fruit Auction.

Omaha can now boast of being the first

city west of Chicago to construct a building on the comparatively new method which

has made it possible to put up structures

of fourteen or more stories in height. This building is being erected by the Paxton & Vierling from works on their property at Seventeenth street and the railroad tracks and will be occupied by them. The old method of building consisted in the construction of heavy outside walls of sufficlent strength to carry the weight of the building, aided, of course, by interior supports. The great progress made in recent years in the manufacture of steel and iron has made it possible to change this method entirely, doing away with the massive outside walls, which in high buildings were very expensive, besides taking up a good deal of valuable space.

As a representative of the latest methods of construction, and the only one of the kind in Omaha, a description of this building may be of general interest. The building in question covers \$5x100 feet of ground and is five stories in height above the high basement. Starting with a solid foundation of brick, the iron and steel framework has been erected to the full height of the five stories without the sign of an outside supporting wall. Around the outside and through the center of the building there are heavy castiron columns securely belted end on end and running from the foundation to the top of the building. Connecting these upright supports and securely fastened to them are heavy steel girders. These in their turn are crossed by the steel floor beams, which are riveted in place. Every part of the great framework is so secured by bolts and rivest that it is impossible for it to move from its place. The strength of this method of construction has been proven by the heavy winds of the past two weeks, which have blown against the unfinished framework wilhout any appreciable effect. The weight which every piece of iron or steel will have to carry is figured with exactness and made proportionately strong.

The work of laying up the outside brick walls was commenced yesterlary, and it is in this connection that much of the interest centers. Although five stories in height, the walls was commenced yesterlary, and it is in this connection that much of the interest centers. Although five stories in height, the walls was commenced perfect, which walls was commenced that first, and work down, as to start with the first floor and go up. The walls rest. The walls between each floor and neclose that first, and work down, as to start with the first floor and go up. The walls enclosing any one story could be removed without disturbing the walls either above or below.

The liter entirely, doing away with the massive out-side walls, which in high buildings were

The first floor will be occupied by the company for a machine shop; the second floor as a finishing room for light castings and ornamental work; the third floor for a wood working and pattern room, and the two upper floors for the storage of patterns. This will be the only fire proof building used for this purpose in the country, and will give Omaha a larger and more complete plant of the kind than even Chicago can show. Thicago can show.

It might be added that the general pub-It might be added that the general public does not realize how much cheaper fireproof buildings can be constructed than was the case a few years ago, and builders predict that when this is more fully realized there will be fewer fire traps constructed. Some idea of the decline in the cost of building may be gained from the fact that steel beams costing \$38 per ten in Omaha at the present time were worth \$72 per ten two and a half years ago.

Fruit Anction. This afternoon the Omaha Fruit Auction

company will hold their first sale at their rooms, 912-914 Jones street. The offerings

for the first sale will be limited to a car

of cherries, that being the only kind of California summer fruit on the market at this season.

The auction method of disposing of fruit is of rather recent growth, but it has found such favor in the eyes of the California growers and shippers that the fruit men of the city decided to introduce it here. Instead of the receiver of a car of frut running about from house to house trying to dispose of his fruit, it will be taken to the auction house, where all buyers can assemble, inspect the fruit and bid on it in open auction. The different wholescale houses that have orders for fruit from country merchants and the brokers who have orders from jobbers in other cities can buy enough to fill their orders.

In cities where this method has been tried it has worked very satisfactorily both for the local buyers and sellers and for the California shippers. Omaha is already recognized as one of the best fruit markets in the west and it is predicted by those in the business that this move will still further improve the market. Preight rates are such that Omaha can reach all points east in Iowa as far as the Mississippi river and Jobbers here are figuring that they can handle the trade in that state without any doubt. They not only have the advantage over Chicago in point of rates, but they can deliver fruit at the Mississippi river a day in advance of Chicago, thus insuring its arrival at the point of destination in better condition. 'alifornia summer fruit on the marke
