### Furnishing Goods.

REFRIGERATORS .- THE AUTOMATIC, the finest refrigerator ever placed before the public, an entirely new system. In this refrigerator there can be no overflow, and it is impossible for anything to be spoiled by condensation or sweating. Sweating is caused by the ice being placed above the provisions, the warm vapor or odor from the food naturally rise to the top and coming in contact with the ice-cold bottom of the ice chamber they are there condensed and form a slimy deposit which frequently drops back upon the food below, contaminating it with the combinations of odors of everything placed in the refrigerator. In the Automatic this is impossible. If you want a refrigerator examine the Automatic and we will guarantee after you have seen it you will buy no other.
