As the result of the mulct liquor law the druggists of this city are making preparations to obey the state pharmacy law as they never have before. The pharmacy law provides that all druggists must have permits from the clerk of the district court be-fore they can run, and that they must keep an account of all intoxicating liquors they sell. Heretofore they have done pretty much as they please, and only three or four of them ever took the pains to get a permit or keep the account. The delinquents were notified the other day that if they did not wish to be classed among the saloon keepers and to be compelled to plank down their \$600 a year to the state and county they must entrench themselves behind the phar-macy law. THE DAILY BEE. NEWS FROM COUNCIL BLUFFS

OFFICE - - NO. 12 PEARL STREET | City Council Holds a Meeting of Much Importance in Many Aspects.

WORK FOR THE WORKLESS IS AT HAND

Extensive Improvement on Oakland Avenue Ordered Started as Soon as Possible and Other Enterprises Set on Foot by the Councilmen.

An important meeting of the city council was held last evening, with the mayor and all the aldermen present. The space outside the railing reserved for the public was full to overflowing, for the most part by honryhanded sons of toil, who came to see what steps the council might take toward providing work for those of their number who are out employment. And before they went home they had occasion several times to testify to their approval of what was said and done by hearty cheers. A number of important items of business were brought up

for consideration. Lucius Wells stated that he was present as the representative of all the property owners on Oakland avenue but two, to ask that the avenue be sewered and repayed. He stated that the avenue is now almost impassable and the paying is likely to be washed out and ruined entirely by the first heavy rain. He reads a petition embodying the request and bearing the signatures of the properry owners, and, on motion of Alderman Rishton, it was granted, and the work or-

dered begun as soon as possible. L. H. Kent of Omaha appeared before the curcil as the representative of the Council Bluffs & Lake Manawa Electric Railway company and asked for the passage of an ordinance granting a right of way to construct an electric railway between Council Bluffs and the lake. The course of the railway, as outlined in the ordinance, was south on Sixth street from Ninth avenue to Twenty-sixth avenue, east to Bancroft street, and south to the city limits. The railway was to be completed as far as the city limits by July 4, 1895, and the fare for the entire length of the road should be not to

E. Howell stated that it was the intention of the company to complete the lin as far as Sixteenth avenue and Sixth street this season, and stop there until ar-rangements could be made with the railway

companies for crossing their tracks.

The ordinance was read twice and then The ordinance was read twice and then allowed to go over according to the rules.

A committee of the Union Labor club was present with a petition similar to the one rejected by the council in 1892, asking that North Twentieth street be provided with a curb of artificial stone and paved with brick the council of the provided with the curb of artificial stone and paved with brick the council of the provided with the curb of artificial stone and paved with brick the curb of artificial stone and paved with brick the curb of the curb from Broadway to Avenue G. It was signed by A. Metzger, Ben Marks and John W. Paul. George E. R. T. Hunter and L. Bruns made speeches in behalf of the petition, which was then referred to the com-

mittee of the whole.

A communication was read from the park commissioners, in which it was stated that the work now being done on Fairmount park rould necessitate the removal of 3,000 yards of earth, and it was suggested that the city use it to fill the streets around Cochran park. The commissioners would load the wagons and pay 6 cents per yard for the removal of the earth if the city would do the

Alderman Keller thought the grading of only half of the street would put it into such a condition that accidents would be likely to happen, for which the city would be liable

for damages.

Alderman Spetman suggested that 3,000 yards would make at most only a temporary grade and would not make any very notice-able difference in the two sides of the street. The matter was finally referred to the com-mittee of the whole, who it was arranged should meet the park commissioners this morning early and look over the ground to-

Resolutions were adopted requiring the Burlington Railway company to plank its tracks on Tenth avenue, between Main and Sixth streets, the Rock Island and the Bur-lington at the intersection of Sixteenth avenue and Sixth street, and all companies on Sixteenth and Seventeenth streets.

A resolution was passed requiring the pound master to report to the council each month all money received by him. H. P. Niles put in a bill for \$24 for a dos which the pound master had refused to re turn to him after he had bought a dog tag.

Referred to the judiciary committee.

The matter of putting in a sewer on Oakland avenue was referred The Postal Telegraph company asked for the right to erect its poles in certain alleys The matter was referred to the city attorney to draw up an amendment to the franchise. James Patterson's resignation as trustee of the free public library was accepted and the

Judge Thornell expects to wind up work this week and Judge Lewis will hold his first term here, commencing next Monday Yesterday the case of the city against Mc-Cadden was tried and submitted. Mc-Cadden was manager of a circus that exhibited here and was arrested for not paying the full license imposed by the city ordinances, a special arrangement having been made with the mayor, in accordance what was at that time the custom. Cadden was discharged, but the case was taken up from police court on an appeal for the purpose of testing the validity of the ordinance. There seems to be some doubt as to whether the city has a right to an appeal. At all events the ordinance has been changed so that the mayor now has the

right to do what he has always been doing The cases of the city against Beirworth and Collier, who had been fined for fighting, were dismissed, cases involving the same illegally. issues having been commenced in another court with the state as plaintiff. The case of the city against Hermis, in which Hermis is appealing from a sentence for creating disturbance on a motor train, is set for a

INDUSTRIAL MASS CONVENTION. Iowa Independents Issue a Call to Nominate

a Congressional Candidate. DES MOINES, June 4.-(Special Telegram to The Bee.)-A call has been issued for an ndependent industrial mass convention to nominate a candidate for congress who will represent this district. It is already signed by over 3,000 voters of the district. It will be held in this city June 21. The call, among other things, demands: "The unrestricted coinage of gold and silver at the ratio of 16 to 1. That all the money shall be issued by the general government, without the intervention of banks of issue, and shall be full legal tender for all debts, punlic and private. A graduated income tax. Against the oppression of railroad employes by federal judiciary and against any further issue of interest-bearing bonds. The nominee shall further pledge himself that if elected he will not enter into any party caucus opposed to these principles, but will in the organization of the house co-operate only with those who openly advocate the above principles. He must further pledge that should the election of the president of the United States fall to the house in 1896 he will in no event vote for any candidate who is not publicly known to be in favor of principles herein set forth. He must also use all his influence and power against all forms of monopoly and special privilege whatsoever."

All who endorse the above declarations and plan of action are cordially invited to attend the convention and take part in the proceedings without regard to former political affiliations. It is said that similar conventions are to be held in every district in the state. other things, demands: "The unrestricted

Charged with the Murder of William Holtat Plattsmouth.

WITNESSED JAMES HOUSTON'S DEATH

C. S. Wray Says He Was Not Killed by a Train, as Was Supposed, but Was Beaten to Death by James Digelin.

LINCOLN, June 4 .- (Special to The Bee.) -P. H. Suddith of Waverly name to Lincoln today and surrendered himself on the charge of murder. His action was the result of a proceedings commenced before Justice Mc Candless Saturday evening, when Matt Gering of Plattsmouth appeared with a number of witnesses to the shooting affair at Plattsmouth which resulted in the death of William Holt. One of the witnesses was Mike Ryan, the man who was with Holt at the time the latter was killed. It will be remembered that Suddith had been sworn in as deputy marshal. When the fracas occurred Suddith commanded Ryan to halt and at the same time fired several shots to emphasize his command. At first it was believed that Suddith would simply be charged with as sault with intent to kill, but after consultation with the attorneys it was decided to make a complaint against Suddith charging him with being an accessory to the murder of Holt. A warrant was issued for his arrest. Constable Bartram did not go to Waverly to arrest Suddith until this forenoon. When the constable arrived at Waverly he learned that Suddith had come to Lincoln for the purpose of giving himself up. Suddith appeared before Justice Meup. Suddith appeared before Justice Mc-Candless at noon and will have a hearing

PERHAPS IT WAS MURDER. Some newly discovered evidence in the Houston-Grau case lends the probability of murder to a case which already has a number of interesting features. James Houston was found dead on the railroad tracks near Lincoln on the morning of March 30, 1889. His widow sued a saloon keeper named Grau for \$5,000 damages for selling her husband liquor upon which he became intoxicated and thus lost his life by going to sleep on the tracks. The jury recently decided in favor of Mrs. Houston, and after a motion for a new trial Saturday evening a man named C. S. Wray called upon G. M. Lam-bertson, one of the attorneys in the case, and told him that he was with Houston the evening before he was found dead. claimed that Houston had not been killed by the cars, but that he had been killed by coupling pin in the hands of one James Dignell and his body placed on the tracks in order that all traces of the crime might be removed by mutilation. This theory was advanced after the discovery of Houston's body, but it never received credence,

SHOT TO KILL HIS ENEMY. George Bradeen, the well known West Lincoln character, has been on trial before Justice McCandless all day on the charge of shooting one John Hagerty with intent to kill. The shooting took place Saturday night. Hagerty holds the appointment of town marshal from the old Board of Village Trustees. Considerable strife has resulted from the relations of the old and the new village trustees and Hagerly's authority is disputed. Bradeen runs a questionable re-sort in the village and runs it about as he pleases. Saturday night Hagerty came to his place and told him he would have to shut up the house. Bradeen resented any official interference, and warm words en-sued, during which Bradeen drew a revolver and fired three shots at Hzgerty, none of them taking effect. At the trial Bradeen claimed that Hzgerty made a motion as if he intended to draw a gun, This is denied.

NEW SCHEME FOR IRRIGATION.

Enormous Water Wheel Er eted on the Loup to Overcome the Drouth. ST. PAUL, Neb., June 4,-(Special to The Bee.)-The long prevalling drouth has again brought the question of irrigation into prominence here, but how to solve the question is what puzzles the farmers. Mr. M. Anderson, a wholesale grower of this town. who owns about 260 acres of fine land a mile lately suggested a plan that seems to be a success. He has had erected a large re-volving wheel about thirty feet in diameter something like the Ferris wheel, only that in place of passenger cars it is supplied with large tin buckets. The force of the river current revolves the wheel, the buckets fill up and on the wheel going its round each bucket on reaching the top empties its con-tents of water into a sluice, which then through a ditch, leads the water into a large basin, and from there it is distributed through small ditches over Mr. Anderson's farm. As a trial he is now irrigating fifteen acres, but is able through the same process to irrigate fifty acres of the finest land to be Mr. Anderson says the expense of the wheel, erecting sluices, ditches basin has been less than \$500 and that he is satisfied already this summer to reap his reward. The acres now under irrigation are planted into garden vegetables, and are doing ward. finely, and next year Anderson intends to conduct his irrigation on a far more extended plan. Thousands of people are co.n-ing to see Anderson's water wheel, and many of similar construction will appear along the Loup.

WAS A MISEIT MARRIAGE. She Was Old and Large and He Was Young

and Slender and Loved Her Daughter. NEWARK, N. J., June 4.-Somothing of a sensation has been caused by the announcement that Mrs. Walter Bosch, formerly Mrs. Alfred Lister, would begin divorce proceedings against her husband, who is 25 years old. The charge will be based on the alleged intimacy of the husband with the daughter of the plaintiff, Mrs. Emma Sanford. Mrs. Bosch is 70 years old, and after her first husband either fell or jumped overboard from a vessel bound for the West In-dies in 1890 she married Mr. Bosch, who had been her husband's secretary. The mar-riage took place in 1892. Mrs. Lister says she married Bosch because he knew all the details of her husband's business, which was extremely complicated. She weighs over 200 pounds, while Bosch is small, stender and of light weight. Last week Mrs. Bosch left her home and went to live with a married daughter a few blocks distant. Bosch has gone to his parents in East Orange. Mrs. Sanford and her husband separated after a short married life. After the separation she applied to her mother for shelter. She had a small child in her arms. Mrs. Bosch refused to give her assistance. Bosch asserted his authority, would not let the young woman be turned away and Mrs. Sanford remained

in the house. Where she is now no one ap-pears to know. Her child is in her husband's home. Mr. Sanford will apply for a divorce DeWitt's Witch Hazel Salve cures ulcers. DeWitt's Witch Hazel Salve cures piles.

A despairing man who had applied to us soon after wrote: "Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born today. Why did'nt you tell me when I first wrote that I would find it this way?'

The Convincing Experience of an Omaha Lady as Related by Herself.

Mrs. W. J. Trick lives with her husband and family at 2721 Hamilton street. Her husband has been for a long time an employe of the Postal Cable company. Mrs. Trick is a most estimable and cultured lady, and her words will be taken as absolute truth by all who know her She says?

MRS. J. W. TRICK, 2721 HAMILTON ST.

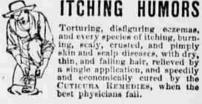

"For a good many years I felt that my throat and lungs were weak and falling and I was always taking cold. My throat was sore and aching and the trouble slowly went down to my lungs. Pains and soreness through the chest steadily increased with a painful, hollow-sounding cough. Along with these symptoms my appetite failed and I became weak and very thinnin fact. I was rapidly developing all the symptoms of tubercular disease. My lurath was short and my heart beat wildly upon symptoms of tubercular disease. My breath was short and my heart beat wildly upon a little exertion. To sum it all up, there was very little strength or hope left when Dr. Shepard began my case. But his patient, careful treatment has built me up in strength and health until I am in excil at condition. My health is substantially restored—a result as unlooked for as it is welcome.

It is welcome.

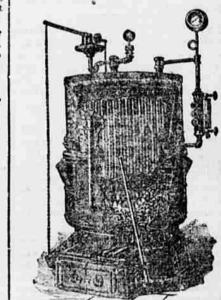

The superior testimony offered by Drs. Copeland and Shepard and the good standing in the community of those who gave it induced me to apply to them for treatment. My experience convinces me that the treatment of these physicians is just what it is claimed to be scientific and curative and having made the most satisfactory progress and improvement I feel perfectly willing to speak publicly in its favor."
