COMMERCIAL AND FINANCIAL

It Was a Wild Day in Wheat with Prices Fluotuating Frantically.

TRADING IN ALL CEREALS WAS HEAVY -

Cables Were a Little Mixed but Generally Higher - Around the Top Prices of the Day Much Long Wheat Came Out.

CHICAGO, June 8 .- It was a wild day in wheat, with prices rushing frantically up and down in long jumps, influenced on the one hand by higher cables and buying, and on the other by liberal selling. Trading was very heavy, and July closed with a gain of 2%c. Corn closed 1%c higher, oats 2%c higher, and provisions at a slight decline.

The wheat market opened with from 1 to 1%c advance and soon sold down from %c to Mc, rallied from 1%c to 1%c, eased off %c, then advanced 1%c, and closed strong. The cables were a little mixed, but generally higher, early public advices quoting spot firm and ½d higher, and futures up from 14d to %d. Outside business was heavy and and the market continues to broaden, New York being a heavy buyer. There was a rumor that the Missourl state reports showed a falling off in the condition of 12 points during May, and this caused a good deal of excitement, but later in the day was an-nounced at 79, against 87 last month, a decline of 8 points. Around the top prices of the day a great deal of long wheat came out, the Washington forecast of rain in Kansas and the northwest causing holders to unload. Wheat changed hands rapidly in large quantities, a feature of the trading being buying by Pardridge, who has been a prominent bear. The fluctuations were frequent and sharp.

There was a heavy trade in corn, fluctuations covering from 1% c to 1% c range. The market was strong on an urgent demand and scarcity of offerings.

Oats continued its sensational advance being very strong within 1%c limits. Unfavorable crop reports were the bull feature. Provisions were very dull and slightly lower on selling by packers. The advance in wheat kept the market steady. Com-pared with last night July pork is 2½c lower; July lard 5c lower, and July ribs unchanged.

Lake rates are steady at 1%c for corn and

1%c for oats to Buffalo. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. Wheat, No. 21 59% 57%634 60% 59%3% 62% 01 58% 59%6894 01%69% 50% 60% 62% June. Minneapolis Wheat Market.

The total sales of stocks today were 195,000 shares, including: American Sugar, 63,700; Bur-lington, 3,000; Chicago Gas, 30,400; Distilling, 7,999; General Electric, 13,000; Missouri Pacific, MINNEAPOLIS, June 8.-The local wheat mar-cet today was active and advancing. There appeared to be no heavy lines either bought or bought or ket today was active and advancing. There appeared to be no heavy lines effect bought or sold, but traders were actively engaged in chang-ing from one side to another, with an aggregate of large business. Prices at the opening were at an advance of 36c, and at that price there ap-peared to be a desire on the part of longs to realize. After the first rush buying again be-came steady, prices advanced gradually, con-tinuing with moderate fluctuations until near the close, when there was an advance of 36c from the opening and about 15c for the day. The cause back of the rise was the same that created the advance on preceding days-bad crop reports from the southwest and some sensationally bad re-ports, particularly from Kansiss. Cables infl-cated a close sympathy with the advance in this country, which still furth.: prompted the rise. The weather throughout f e northwest is dry, and the feeling was that if rains in the near future do not relieve the condition a further advance may be induced from the situa-tion. The receipts from farmers, which have been very liberal for the past week or two, are reducing largely, and are not now more than 50 per cent on the average of what they were one week ago. Considerable of the wheat that has been coming in has been reported as grain two years old, which would indicate that the bins are pretty well cleaned out of the last crop. Closing prices: June and July, 60%; Septem-ber, Sign@9%c. On track: No. 1 hurd, 62%c; No. 1 northern, 61%c; No. 2 northern, 60°. Re-cepts were 142.700 bu; shipments, 14.900. The miles were grinding from 140,000 to 145,000 bu, for the day. The flaur market was advanced by millers to correspond with the advance in prices of wheat. Fatents were quoted at \$2.4500.55, and bakers' at \$2.1007.245. The flour production for the twenty-four hours was estimated at 33.000 bits, ship-ments, 34.208 bbls. The demand for flour is in-creasing. were actively engaged in chang-6,000; Rock Island, 3,000; St. Paul, 19,800 New York Money Market. creasing.

OMAHA LIVE STOCK MARKET STOCKS AND BONDS.

There Was a Fairly Active and Strong

Market on 'Change. NEW YORK, June 8 .- There was a fairly active and strong market today on the Stock exchange, despite the fact that the tone of speculation was decidedly weak at the opening and rather easy at the close. Nor was it until after midday that the upward move-ment gained force, for the opening was heavy and lower, and the trading up to noon was without decided character. After 12 o'clock the temper of the speculation underwent a change, a good buying movement was inaugurated, and prices moved slightly upward. A leading factor was the advance in the grain market, and there were special

favorable influences affecting in stocks. In the late dealings the individual market weakened slightly on realizing sales and clused easier, with most of the active shares higher than at the close of yesterday. Sugar was a notable exception, cpening 1 per cent lower, at 105%, receding an additional ½ per cent, recovering % per cent, receding % per cent, recovering % per cent, receding % per cent, rallying 1% per cent, declining % to 1% per cent, and closing within 1/2 to 1/4 per cent, and closing within 1/4 per cent of the lowest for the day, at a decline of 1% per cent from yesterday.

Railway and miscellaneous bonds were fairly steady during the morning, but irregular in the afternoon, and closed unsettled.

Evening Post's London cablegram says The stock markets were idle today and dull. Americans had a disappointing set back. The grangers were weak. Fear is expressed here that the passage of the tariff bill will come too late to effect a material improve-ment in the American trade for the present year. Argentines were the only cheerful spot in today's market. The gold premium was down to 299. Silver was firm. It is be-lieved that much of China's purchases really go to India. Seventeen lakhs of special counsel drafts were sold today up to 13%d. The gold arrivals here show signs of slacken-

The rumored difficulties of a large ing. wheat operator here are untrue. The Evening Post says: Decidedly the most important financial incident today was the grain market's advance. This movement continued at a rapid pace today, the ad-vance over the recent low level having alof March, whose influence on railway securities was striking. It is altogether probable that the market for securities will for a time at least be governed by the course of grain. The influence of the recent declines

in commercial prices has been none the less

and of all these commercial movements the decline in wheat has been the foremost in-The following are the closing quotations on the leading stocks of the New York ex-

Receipts of All Sorts Continue in Excess of Last Week's Supply. CATTLE TRADE SURPRISES THE DEALERS Local Buyers Try to Take Off Something,

but the Close Comes Early at Steady Prices-Hogs Active and Firm Throughout.

FRIDAY, June 8. Receipts of all kinds were rather liberal today, 320 cars in all. The five days' receipts show an increase of nearly 2,000 cattle, 1,600 hogs and 2,600 sheep over supplies for the corresponding period last week.

More cattle were sold than have been here on any one day for nearly three weeks and the receipts included lots of good to choice beeves. Prices have gone up pretty rapidly this week, and the dressed beef men

looked on the liberal offerings today as a good opportunity to play even. They accordingly started out bidding considerably lower prices, but in the meantime speculative shippers and outside butchers were not idle, and although early sales were at steady to a shade easier prices, there was a reasonably

brisk movement, and when the most bearish buyers got ready to trade a good share of the desirable cattle had changed hands. Buying then became general, and as Chicago was reported stronger, late trading was brisk

and at full strong prices. The wind up was early and at the best figures of the day. Cows and mixed stock were in rather liberal supply today, and while good to choice stock was in fair demand and firm, the common and canning grades sold slowly and at low prices. The calf market was demoralized, dull and 75c to \$1.50 lower than ten days ago. Rough stock of all kinds

sold at about steady prices. A fair amount of business was transacted in stockers and feeders and on the basis of about steady prices. The supply was small and the demand limited. Most of the trading was at from \$2.75 to \$3.25. Good to choice feeders are quoted at \$3.10@3.40; fair to good at \$2.80@3.00, the commoner grades at from \$2.80 down. Representative sales: DRESSED BEEF.

Traders Did Not Get as Many Cattle Yesterday as Had Been Expected.

CHICAGO, June 8 .- Not as many cattle arrived today as had been expected. There were about 6,000 head, making the supply for the $e\mathbf{x}$ pired part of the week scarcely more than 1,000 end greater than for the same time last week Chough apparently not as urgent as for a few Though apparently not as urgent as for a few days of last week early sales were active and wellers were not required to give up any part of the advance they had earlier in the week. Good to best fed cattle gold quick at Thursday's quotations, and grain cattle were a little slow and lower. Sales were on a basis of from \$1,25to \$3 for inferior to extra. It was a very poor article that had to sell below \$2,25, and it took and lower, sales were on a bases of from \$1.25 to \$3 for inferior to extra. It was a very poor article that had to sell below \$2.25, and it took something very superior to bring more than \$4.55. The prevailing prices were from \$2.50 to \$3.50 for cows, hetfers and bulks, and from \$4.25 to \$4.75 for steers. Stockers and feeders received but little attention. The calf market was firm. The hog trade was quiet today, and prices were weak and unevenly lower. Heavy and mediam weights received the principal attention of the buyers, and sold within 5c per 109 lbs, of yester-day's prices, or on a basis of \$4.89 for prime. Light grades were dull at a reduction of from 5c to loc. Few of the latter sold above \$4.25. the ruling prices being from \$4.45 to \$4.50 for prime. Light grades were dull at a reduction of from 5c to loc. Few of the latter sold above \$4.55. the ruling prices being from \$4.45 to \$4.50 for \$4.50 to \$4.59. There was a better feeling toward the close than at the opening of business, but the morning's loss was not recovered. The sheep market was duil and unencouraging. The eatern and middle states are now turning off a good many sheep, and the demands upon the west are less than at other stages of the season. It follows, therefore, that unless there is a diminution in receipts prices must suffer. They have already suffered, being from \$5.5 to \$25 for than a during and spring lambs show cor-responding dedines, the best of the former hav-ing fallen to \$4.25, and \$5 being the best mark for spring lambs. Texas sheep are not yet ar-riving very freely. Those offered were generally rather common, and sold at prices ranging down-ward from \$3.55. Recelpts-Cattle, \$600 head; calves, 400 head; head; then \$4.55.

rather common, and sold at preves raiging down ward from \$3.55.
Receipts-Cattle, 6,000 head; calves, 400 head;
hogs, 29,000 head; sheep, 7,000 head.
The Evening Journal reports: CATTLE-Receipts, 6,000 head; market steady; prime to extra native steers, \$4.80@5.10; me-dium, \$4.25@4.59; others, \$3.56@4.20; Texans, \$1.55
@4.20.
HOGS - Receipts, 29,000 head; bulk sold 5c lower; market closed a trifle better; rough heavy, \$4.55@4.59; packers and mixed, \$4.00@4.75; prime heavy and buchers', \$4.70@4.80; assorted lights, \$4.50@4.90.

DUN'S AND BRADSTREET'S 200 4 85 100 4 55 80 4 65 Clearing House Payments Have Not Docreased as Much as Anticipated. UNFAVORABLE REPORTS SEND WHEAT UP

> Owing to the Coal Strike the Production of Iroo is Smaller Than at Any Time for Years-Failures Decrease in

> Number and Importance. NEW YORK, June 8 .- R. G. Dun's weekly review of trade says: The outlook for business seems a little better on the whole though the improvement is not great. Moreover, it is impossible to distinguish between mere replacement of orders cancelled for want of fuel or other causes, and the new business for which works are anxiously looking. It is somewhat encouraging that the decrease in payments through the clearing house is but 24.3 per cent for the first week of June, 27.2 at New York, but only 19.4 elsewhere. The decrease, in comparison with 1892, is about 30 per cent. Railroad tonnage is larger than a year ago in live stock and moderate in cereals, but clearly smaller in coal and iron products and in other manufactured foods westbound. Speculation in products has turned toward higher prices, and wheat has risen 5 cents, with an

official state report of injury in Kansas, which is highly flavored, even for farmers' alliances. The actual receipts at western ports have been 1,147,092 bushels, against 2,348,391 last year, and the Atlantic exports are only 914,395 bushels, against 2,253,955 last year. Corn rose 214 cents, partly in mere sympathy, but principally with more substantial accounts of injury, the western

receipts having been 2,865,459 bushels, against 3,545,291 hast year. Pork products were unchanged, and cotton is steady, with slender receipts, in spite of the decline in exports and visible stocks here and in Europe, amounting to 2,375,441 bales, against 2,774,697 last year, more than enough to supply the world's requirements for four months. According to the estimate of the Financial Chronicle the acreage this year increases 569,000, or 3.7 per cent, indicating a larger crop with favorable weather. With only 2,937 coke ovens working and With only 2,937 coke ovens working and 14,576 idle, with the Cambria discharging half its force and seven out of nine of the Carnegie furnaces at Bessemer out of blast, the production of iron and steel is smaller than at any time for years. While it is believed deferred work will cause heavy production after the strike is terminated th demand for products is at present much below general expectations, even in the east. Other industries have been less affected, but many of the mills even in New England have

been closed for lack of fuel. The sales of wool in the past five weeks have been 16,949,498 pounds at three chief mar-kets, against 12,975,000 pounds last year and 26,796,150 in the same weeks of 1892. Manufacturers are greatly embarrassed by scantiness of orders, and it is apprehended that quantities of goods made abroad in expecta-tion of a reduction in duties by this time may be forced upon this market.

ing concerns.

The returns of failures are still encouragowell. ing, 216 in the United States for the week against 322 last year, and forty in Canada, against twenty-seven last year. The liabilities in all failures reported in the month of May were \$13,305,357, about \$5,420,000 at the east, \$4,500,000 at the south and \$3,400,000 at the west. Of the aggregates \$5,165,025 was of manufacturing and \$6,683,499 of trad-Wichita AS BRADSTREET SEES (T.

Nearly All Past Unfavorable Business Conditions Continue to Be Feit. NEW YORK, June 8 .- Bradstreet's tomor-Nearly all the unfavorable business conditions of the past three weeks continue to exercise an influence. The few exceptions where improvement is noted are of espe-

11

Financial circles were undoubtedly encour-aged by the defeat of the proposition to per-mit state bank note issues. The vote against the measure was unexpectedly large and the feeling in such quarters is that a consider-able advance has been made toward the settlement of the currency and banking laws on conservative lines. As a speculative factor, however, this matter was subordi-nated to the adoption by the senate of the amended sugar schedule of the tariff bill. The conclusion drawn by the street is that this action indicates the speedy passage by the senate of the entire bill and the conse-quent release of business from the uncer-tainty of which the state of pending tariff

It is noticeable, however, that Sugar stock, hough the supposed beneficiary of the action, did not 'boom' on the news. Washington speculative buying was conspicuous in the novement which carried the price up to 68%, but realizing followed and stock sold as low an 104% on Friday, the fluctuations being confined to narrow limits. Intima-tions not only that there would be further delay on the tariff in the senate by those who oppose the sugar schedule, but that the latter provision would be the subject of disreement between the house and senate o have had a restraining effect on spe on, for the company's regular divid cula dividends' passed unnoticed, and the manipulation prewents traces of a desire to prevent any advance in the stock.

MANCHESTER, June E .- Cloth and yarns, firm, though little doing. 80 4 55

able weather and by further restrictions of the purchasing power of thousands of wage earners, but also by further industrial trouble, or by shrinkage in production. Business failures do not increase materially, the total being 407, compared with 183 last week, 293 in the same week a year ago (when the commercial and financial disturbance was beginning to make itself felt), and 163 in the same week two years ago. The seesaw of prices at present tips into opposite direction this week, most strikingly in cercals, oats having advanced 51/2 cents, wheat 35%, and corn 17%; potatoes are 20 cents higher, bar iron and pig iron are up sharply at St. Louis and live stock at Kansas City. Lard is fractionally higher. Con-spicuous in the increases in prices of staples reported are leather and wool, due to neavy receipts. Coffee is off 1/8 cent. At larger eastern centers there is no improve-

though interior merchants tributary to that market have not begun to buy in advance

of actual needs, and on the other hand the

spread of the coal strike is checking busi-

to an accumulation in the United

and Canada of \$9,000,000 bushels of wheat,

only 85,000 bushels less than on June 1 a

year ago, and twice or three times as much as was so held in June in several preceding

favorable from week to week within a

month. The number of business failures in the Dominion this week is thirty-seven,

against thirty-six last week, thirty-six in the same week a year ago, and thirty-four

BRADSTREET'S FINANCIAL REVIEW.

Trade Principally Confined to the Profes.

sional klement and Short Interests.

NEW YORK, June 8 .- Bradstreet's Finan-

cial Review tomorrow will say: Speculative

activity has been on a slightly increased

scale. Narrow conditions have, however,

continued to surround the market and the

want of any general interest in railroad and

this week has presented evidences of activity

on the part of some of the larger speculators.

The extensive short interest has furnished material for a fair improvement, based upon

the adoption of the sugar schedule in the senate, on the rejection of the measure re-pealing the 10 per cent tax on state bank

structuations, and on the advance in the price of wheat. In this movement Sugar hung

back and the lead was taken by the railway

stocks, which scored an advance in the face of continued unfavorable earnings and re-

ports of damage from storms, as well as serious interruption to traffic from the ef-

purely speculative, or to have originated in part on this side of the ocean. The fact that foreign exchange holds steady at the gold export point, and that this week \$6,150,-000 in gold was shipped to Europe is con-

of wheat.

cially local importance. Trade at many cen-

ters has been interfered with by unfavor-

PITTSBURG, Pa., June 8.-National Transit certificates opened at 83%; closed at 90; highest, 90; lowest, 83%; no sales. We could not improve the quality if we ment in general business. New England cotton mills continue to produce in excess paid double the price. DeWitt's Witc Hazel Salve is the best salve that experienof the demands. can produce, or money can buy. There is little that is far reaching attend-

ing evidences of improvement reported from the west. At Louisville there is more de-A Political Experience. mand for groceries, and the leaf tobacco market is quiet but active, a good business being reported. There is more doing among jobbers in hardware at Chicago, al-

States

A candidate for office was so sorely beset by undesirable visitors that after much patient suffering he gave orders to the patient suffering he gave orders to the servants to deny admittance to all callers save his personal friends. How well the order was carried out, says Harper's Drawer, he soon had evidence. The bell rang, and the maid, upon opening the front door, was confronted by a body of "dele-gates" from a "willing" constituency, when the candidate overheard the following col-locute: ness there. Available wheat in the United States, Canada and afloat decreased more than 10,000,000 bushels last month, against an average decrease in the months of May
