THERE WAS A CONSIDERABLE TRADE

Corn Was Active and Stronger Within a Three-Fourths Cent Range - Dry Weather Cansed Much of the Strength.

CHICAGO, June 12 .- The market news today was generally bullish and wheat finished 1%c higher. Corn closed %c higher, oats Sic higher and provisions at an advance all

around. There was a large trade, fluctuations being frequent within the range of from % to Sec. Opening trades were at from 1% to 2cadvance, and after selling down %c, ad-%c, declined %c, rallied vanced Sc. changed some and closed near the top. Dry weather talk and higher cables were responsible for the strong opening and created an active demand. Private advices from Berlin and Hamburg reported bad weather and raining incessantly. A good many dry weather reports continued to come in from the west and northwest and added a good deal of strength to the market. On the other hand the state reports of Kentucky and Michigan were quite favorable. The Kansas weekly weather bulletin also reported a well distributed rainfall, and the Baltic shipments were much larger. The partial settlement of the coal strike, however, looked upon as a bullish factor, caused the declines to quickly re-

cover Corn was stronger and active within %c Dry weather and the bulge in wheat range. caused the strength.

caused the strength. Oats were active and higher on the dry weather and the strength in wheat and corn. The range for July was 7sc. The bulge in grain and fair buying awakened the provision market and prices advanced with few reactions. Trading was more liberal than far a considerable time more liberal than for a considerable time past. Compared with last night July pork is 35c higher, July lard 10c higher and July ribs 2256c higher.

Lake rates steady at 1%c for corn to Buffalo.

tock was strengthened by a report that the company had sold its bonds at figures near the current quotation on the exchange. Bur-lington & Quincy opened at an advance of 1/2 per cent and then on selling orders, be leved to be mainly for the Boston account, broke 1% per cent, closing at a recovery of per cent. The raid was made in the hope bringing out some long stock, but did not meet with any measure of success. In the late dealings the market was dull and steady to firm, some few shares showing

and miscellaneous bond market was firm to strong all day for the leading issues. The Evening Post says: Some brokers who sold stocks yesterday on whatever "ar-gument" they could extract from the situation bought back their stocks today, there by restoring the majority of quotations to vesterday's level. The ostensible surposes of these purchases was the reported coal strike settlement. To prove how unresponsive

market prices have been to this and other recent developments, it is only necessary to turn back a month in the record of the stock lists. The general price level stands today almost exactly where it was on May following are the closing quotations

Union Pacific, when shown the dispatch from Chicago regarding the proposed boy-cott of the Lake Erie & Western line, which persisted in quoting a round trip rate of \$24.75 between Minneapolis and Den-ver for the meeting of the League of Re-publican Clubs, said that so far as the Union Pacific was concerned it was in no-wise connected with the making of the rate. "We sent out on May 28 notices to all lines that our rates would be the same as Western Passenger association rates, and the Gulf was also informed that side trips would not be allowed except at tariff rates. After the summer excursion agreement was made the Union Pacific pulled into line and is living rigidly up to the agreement. If the Erie is still quoting the rate alleged it will simply have to pay the Union Pacific which the Erie might use in conjunction. "Of course, while contracts were made with various organizations, the agreement of things was instituted. There may be several law suits growing out of this turn affairs have taken, but there is one thing in advertising certain side trips. We main-tan that our connections, and, for that matter, all other lines, had ample poblec of unes of the arreement long before any tickets were sold. Should lickets, how-ever, have been sold the roads will have to make good their promises, that's all there is to it. So far as the Union Pacific is concerned, it stands squarely on the agreement, and any road quoting rates other than those agreed upon will have to settle at the captain's office."
