Traders Were Anxious to Sell.

OPENING TRADES IN WHEAT WERE HIGHER

But the Selling Pressure Became Greater, Influenced by the Reports of Harvesting in the South and Oklahoma -Stocks and Bonds.

CHICAGO, June 13 .- Crop reports were more favorable, traders were anxious to sell and wheat closed 1%c lower today. Corn closed %c lower, July oats %c higher and provisions lower all around.

Opening trades in wheat showed from 1/4c to %c advance, but soon sold down from %c to ic, railled from %c to %c, eased off 1%c, thanged some and closed easy. The feeling was weaker with the exception of the strength at the opening. There was free realizing by the larger professional traders and by commission houses who were "long," the buying being principally for eastern account, New York taking good sized quantities of September. The firm opening was due to the %c to %c advance in first cables, but the selling pressure became greater, influenced some by the reports of harvesting in the south and Oklahoma, the results at the latter place being reported as good. There were also advices from the northwest of scattering show-ers and this was also something of a factor. The official crop bulletins were not so bullish as generally expected, and this tended to in-crease the offerings. The volume of trading

was large.
Corn was nervous within a %c to %c pange. The weakness was due to bearish crop reports, selling and the action of wheat.
Oats were easy and active on free realiz-

g. The range for July was Mc. Provisions were higher at the start on higher prices for live hogs, but weakened on selling by packers and the action of wheat. Compared with last night July pork is 10c lower, July lard 5c lower and July ribs 5c Vessel rates lower at from 1%c to 1%c for

wheat and 1%c for corn to Buffalo, and 2%c for corn to Kingston. The leading futures ranged as follows:

Minneapolis Wheat Market. Minneapolis Wheat Market.

MINNEAPOLIS, June 13.—Receipts of wheat from the interior continue to be full although a large part of them are taken from interior elevators. The remainder comes from the grain marketings by farmers. The latter, it is understood, are cuite light, and will not cover more than half the shipments from the country to the terminal points. The market opened strong today, news was variable, some even quite beardsh, and sales turned the market down. Before the class a decline of 1½c had been male in cash wheat and the old crop futures, while for September there was 1½c decline. No large lines of wheat were sold out here and although trading was moderately active it was mainly in the way of small orders charged to one another, with some spreading between this and other markets.

FRUITS.

FRUITS.

A half car of California cherries and a car of California peaches and apricots are expected in today, Thursday. Two sales are announced for the day, one at 9 a. m. and one at 2 p. m. As soon as the California fruit becomes more plentiful it is expected that there will be auction sales nearly every day.

It will be noted that good strawberries are becoming very scarce and higher. Raspberries are becoming very scarce and higher. Raspberries are becoming very scarce commencing to arrive.

STRAWHERRIES—There were about fifty cases of strawberries, in which was about the same as the receipts of the day before. Among the arrivals were some 15-qt. cases of Michigan berries. A large proportion of the offerings were FRUITS. same as the receipts of the day before. Among the arrivals were some 16-qt. cases of Michigan berries. A large proportion of the offerings were in bad shape, and sold all the way from 42.50 to 44.25. Anything that would do to ship out on orders would be worth the latter price, at least. CHERRIES—For a few days past California cherries have been scarce, and it has been a difficult matter to fill orders. The latter half of the week, however, it is expected that they will be plenty again. Good shipping stock, 15.50a 1.60 per box. Iowa, Nebraska and Missouri cherries are plentiful at \$1.25 per ½ bu, basket.

APRICOTS—The supply on the market is quite liberal, and there are more billed to arrive yet this week. Prices are decidedly lower than they were at the commencement of the week. Per box, \$1.7562.00.

GOOSEBERRIES—The market is well supplied. Good stock, green, on orders, \$2.50 per 24-qt. case. BLACKBERRIES—The supply is still light, there being only about ten or a dozen cases in. Shipping stock would be worth about \$4.

STOCKS AND BONDS. Share Speculation Was on a Smaller Scale than for the Past Week. NEW YORK, June 13 .- The share specu-

lation was on a smaller scale today than for the past few days, but while the transactions were limited the tone of the market was decidedly firm. London was not in the market to any great extent, but some few lots of St. Paul, Atchison, Missouri Pacific and Louisville & Nashville were taken for the foreign account. The principal buying was by the local short interest, which seemed to think there was danger in leaving their lines uncovered in view of the undertone of strength displayed by the active list under the bear attacks of the past few days. There was very little in the way of news to affect bu; corn, 4,000 bb;; wheat, 15,00 bb;; wheat, 15,00 bb;; corn, 4,000 bb;; oats, none.

Local Produce Market.

There is very little change in the market, prices for the most part remaining steady. Shippers will note the large receipts of veal calves.

BUTTER—The receipts of butter continue light and the market is firm, and the demarket at the same where to the operations of speculators. Packing stock is quoted in this market at 10f305c. It is had there. Creanery butter is firmer, and holders are defined in this market at the same time is firm. The strength shown by eastern market has stimped for bricks.

EGGS—The receipts of exgs continue libertal and the market at the same time is firm. The strength shown by eastern markets has stimplated for bricks, the property of the deviced. Good old hens can hardly be quoted above the continued of the continue was very little in the way of news to affect the selling. The dealings were very light outside of Sugar, St. Paul, Chicago Gas and Burlington, the only other stock in which the transactions reached over 5,000 shares the transactions reached over 5,000 shares being Missouri Pacific. It was expected an attack would be made on Sugar at the opening with the dividend off, and the bear traders did make a demonstration against the stock, sending the price down % per cent, but the buil clique in the shares were on hand to take all the offerings and when the pressure to sell eased off they took advantage of the occasion to move quotations up 2% per cent, recovering within % per cent of the dividend. The gain was well maintained until the late dealings, when a reaction of % per cent took place, followed by a rally of % per cent and by a final break of a similar fraction, the last sales being at an advance of ½ per cent on the day. 1% per cent, being an advance of ¼ per cent on yesterday. Purchases of Sugar were based on Mr. Havemeyer's testimony yesterday before the senate committee to the effect that the profits of the last three years aggregated \$35,000,000. St. Paul and Burlington were actively dealt in and were in good buying demand on reports of improved prospects of increased earnings. Burlington rose 1% per cent and closed within ½ per cent of the best prices; St. Paul sold up ½ per cent and lost ½ per cent in the final sales. Northwestern and Rock Island were in light request, the former closing unchanged and the

tained to the close. It is believed here the Atchison scheme of reorganization will be on the line already indicated, involving a \$1:
assessment on the stock and the conversion
of A bonds into incomes. A large influx
of sold is due at the end of this week from
Australia and India. The council drafts were

sent to 13 1-32d.

Cattle Trade Reagts Unfavorably in Sympathy with Chicago Dealings.

SALES FROM STEADY TO A DIME LOWER

Weakness Follows a Falling Off in Eastern Demand-Hogs Continue to Advance

in Spite of Heavy Receipts-Sheep Lower.

WEDNESDAY, June 13. The cattle trade took a slight down turn today in sympathy with the trade at eastern markets, and while prices were not so much lower on best dry lot cattle, the tone of the trade was quite unsatisfactory. The ordinary run of beef and shipping steers sold anywhere from steady at the opening to a dime lower toward the close, according to the quality of the offerings.

There was no special change in the market on good cows and heifers, while the common grades are going at bottom figures. Then grassy stock of all kinds is selling

very poorly at present.

The market on stock cattle, and especially on light, thin stockers, received the hardest setback of any, prices on the latter being quoted from 20c to 30c lower than last week, while good feeders were slow sale at prices from 10c to 15c lower than a few days ago. Representative sales:

There Was a Good Run of Cattle Yesterday

-Hogs Were Strong. CHICAGO, June 13.-There was a good run of cattle today, estimated at 15,000 head. This makes a total since Saturday of about 41,000 head, or 11,000 head more than for the same time last week. These are heavy receipts for head, or 11,000 head more than for the same time last week. These are heavy receipts for this time of year and was a greater strain than the market for common to good grades could successfully withstand. That class slid down loc and was slow at the decline. Many green native cattle are now arriving, and as Texas is beginning to unload very freely (there were 200 head of the latter here today) the situation in common to fair cattle looks very weak. There were not too many choice dry fest steers for the demand and were promptly turned over at about steady prices. The present range of questions is from \$2.25 to \$5. Sales were largely at from \$1.25 for steers and at from \$2.25 to \$3.5 for steers and at from \$2.25 to \$3.5 for steers and at from \$2.25 to \$3.5 for cows, helfers and bulls. Texas grass cattle sold slowly at from 15c to 25c off from last week's prices.

In spite of the hot weather and continued large receipts there was strength in the hog market. It started in above yesterday's quotations and remained there, late sales, quality considered, being quite as good as those made at the opening of business. The best heavy hoggs sold up to \$5. and as high as \$4.90 was paid for assorted light. Both light and heavy grades were if active demand, and excepting the few lots held by speculators nothing was caried over. Sales were principally at from \$4.50 to \$4.95 for medium and heavy and at from \$4.70 to \$4.50 for light. Poor lots were closed out at from \$4.50 to \$4.50. And as high as \$4.90 was paid for malmost the lowest price ever known, sales were from \$3.50 to \$4.50, and culls sold anywhere from \$3.50 to \$4.50, and culls sold anywhere from \$3.50 to \$4.50, and culls sold anywhere from \$3.50 to \$4.50, while poor stuff could not be moved at all. Quotations ranged from \$1 to \$1.25 for rubbish to from \$1.50 to \$4.50 to \$4.50 while poor stuff could not be moved at all. Quotations ranged from \$1 to \$1.25 for rubbish to from \$1.50 to \$4.50 t this time of year and was a greater strain than

WILL HAVE NO COAL FAMINE

Mines that Supply Omaha Are Now in Operation Again.

STRINGENCY WAS LITTLE FELT HERE

Consumers Had Prepared for a Shortage in Supply, but Would Have Been Hampered if the Strike Had Lasted a Little Longer.

Now that the coal miners' strike is apparently nearing an end, the consumers of steam coal who have been watching their supplies gradually disappearing can breathe easy once more. As Omaha had ample warning of the coming scarcity of coal the dealers and large consumers were able to lay in stocks for the future, and in consequence this city has not surfered any material inconvenience from the strikes. The difficulty between the mine owners and their employes lasted so much longer than any one had anticipated that these surplus stocks have been pretty well these surplus stocks have been pretty well cleaned up. It is claimed that in another week some of Omaha's largest consumers of steam coal would have been seriously inconvenienced. For some time back the mines in Iowa, Missouri and Kansas, from which Omaha obtains her supplies, have been shut down entirely. Yesterday the mines in Iowa, which supply a good deal of the coal used at this point, were able to resume operations. The general market on this class of coal has not been advanced any at this point, though some special kinds have been marked up some.

There is still considerable bituminous coal of domestic sizes in the hands of dealers, and the supply has at no time run so low as to cause any advance in prices. The demand for this class of coal is naturally very light at this season of the year.

urally very light at this season of the year.

In the east anthracite was substituted to a considerable extent for soft coal, and the demand was stimulated to such an extent as to bring about an advance in the market. At the present time the wholesale price on Pennsylvania anthracite is \$8.70 per ton at Omaha, which is an advance of 25 cents per ton from the low point before the strike. Still, the market is lower now than it was a year ago, owing to the lower rates made by eastern transportation companies. From present prospects consumers will be able to buy their coal the coming winter at a less price than was paid last winter.

NO MORE OVERHEAD WIRES. St. Louis Subway Commission Reports

Against the Nulsance. ST. LOUIS, June 13 .- The St. Louis subway commission has completed its labors and the chairman is now preparing to report on the two ordinances arranged for submission to the municipal assembly at its next meeting. The ordinance prepared its next meeting. The ordinance prepared by the commission which will be recommended for passage declares that the safety of the lives and property of the citizens require that the network of wires now strung overhead in the streets of the city should be placed under ground. It provides for the construction of subways, authorizing the city to become lessee thereof, operate the same and sublet ducts. As provided in the ordinance, all the overhead wires in the district bounded by Cass avenue, the levee and Twenty-second street will be placed unand Twenty-second street will be placed un-der ground.

Murdered and Robbed in Oklahoma. GUTHRIE, Okl., June 13 .- Two brothers named Raymond, residing at Albany, N. Y. came to this country in search of a brother who came west in 1883. Last Wednesday, eighteen miles east of Arbecka, in the Seminole nation, the dead bodies of two well dressed young men were found. They had been murdered and robbed. It is believed they are the Raymond brothers. Two days Deputy United States Marshal Bradford discovered a man named Chich, twelve miles north of Arbecka. He had been mur-dered exactly the same way. The murders are supposed to have been committed by bands of thieves.
