

COMMONWEALERS IN COURT

Judge Dundy's First Experience in Dealing with Train Stealers.

TRIAL OF THE MEN TAKEN AT PAXTON

Seven Members of the Army Fined Guilty and Three Demanded a Hearing—Testimony All Taken—Others Will Be Tried at Sidney.

The ten commonwealers arrested at Paxton last Thursday for interfering with a Union Pacific train were placed on trial in federal court yesterday.

They are a motley crew and none of them look like workmen. Among them are three tough looking negroes and when they were brought into the court room some one remarked that a vigorous application of a hose and scrubbing brush would make them more presentable.

The were arraigned on two charges—one for taking unlawful possession of a box car and resisting the order of the court in taking such possession and the other for conspiring to capture a train and interfering and obstructing its progress.

United States District Attorney Sawyer took charge of the cases and the judge ordered that all the men be arraigned together.

Mr. Sawyer read the lengthy communications and T. J. Murray, Frank Hammond, William Wilcox, Tony White, Frank Wilson, Herbert Champe and W. Crouch pleaded guilty to both charges.

Fred Payne, John Ellington and F. D. Smith pleaded not guilty and demanded immediate trial.

WILL COMPLAIN AGAINST ALL

During the interval of getting the court machinery into motion the district attorney that there were 240 other members of the same army under arrest at Fort Sidney, and he declared his intention to prosecute them all against all of them, as the court would soon be ready to try them.

The judge has about made up his mind that he will try all these men that go there and try all these men that it would be to bring them here, and then that would be just what the commonwealers want.

Wisconsin Wealers Insist on Riding and Carry Their Point.

MILWAUKEE, June 19.—General "Jumbo" Caldwell's Commonweal army captured a fast stock train on the Chicago, Milwaukee & St. Paul at La Crosse at midnight and came through to Milwaukee.

The army numbered 150, but forty were left at La Crosse and the remainder of the army proceeded to Milwaukee.

At Denver, June 19.—Twenty deputy United States marshals have been sent to Lamar, Colo., where General Vinetti's California Industrialists seized a freight train.

The train consisted of a passenger car and a freight car. The commonwealers refused to leave the cars.

VIENNA, June 19.—The rains have begun to fall again in the northeast and the situation in the flooded districts is worse than at any time since the trouble commenced.

The dam erected by the soldiers to prevent further flooding of the Karwin district has been carried away by the immense weight of water impounded behind it.

Democratic Free Silver Convention Not Likely to Be a Dull Affair.

RADICALS SHARPENING CRON KNIVES

Propose to Have Fresh Fruit and No Dried Apples on the String—What is Likely to Be Done—"Clique" Talk.

It is dead open and shut that there will be lots of fun at the coming free silver conference.

All of the democratic organizations are split on the all-absorbing question. Even the Samosets failed to agree at the meeting Monday evening.

"Oh, that's what's the matter with you fellows, is it?" asked the only democrat who attended the conference of political trimmers.

What the conference will do in the way of denouncing something that is not to be foretold. Rumor has it that an effort will be made to prevent the carrying out of the original radical intentions of the parties.

According to several of the silver leaders, it is quite probable that the Chicago platform will be endorsed, for they hold that it is properly interpreted by Bryan and that it is the only platform that will win.

CHADRON'S CYCLONE

John F. Tenzer Instantly Killed and Many Others Have Narrow Escapes.

BROKE FROM AN ALMOST CLOUDLESS SKY

Not a Twister, but the Most Terrible Wind in the City's History.

MUCH PROPERTY DESTROYED BY STORM

Twenty Buildings Partially Unroofed or Otherwise Much Damaged.

SOME REMARKABLE FEATURES NOTICED

Within a Few Minutes After the Tornado Had Passed All Was Clear as a Summer Day—Devastation on All Sides.

CHADRON, Neb., June 19.—(Special Telegram to the Bee.)—At 2:30 this afternoon, with an almost cloudless sky, a terrific wind storm broke upon the city, resulting in much damage to property and at least one fatality.

The storm seemed to be a cyclone, a cyclone or tornado, it was the most severe wind ever heard of in this section. It was impossible to see across the street on account of flying dirt and gravel, white signs, boxes, chicken coops and gates, as well as roofs of many buildings, were flying around as if made of paper.

John F. Tenzer, a lumber man on Egan street, ran out of his office as the wind behind him in his yard started to go to pieces. He ran across the street, and as he was passing a blacksmith shop one of the heavy doors of the front was suddenly torn from its hinges and struck him on the head, crushing his skull. Although he lived for fifteen minutes it was clear from the first he could not survive. His face was mangled to such an extent that it was necessary to have a jolly Mr. Tenzer was a highly respected business man, having resided here for the past five years. He was a single man. His relatives in Ohio had been notified.

Mrs. Elbert Mead had a miraculous escape. She was out driving and the entire rig was blown on top of a picket fence, splintering the buggy and knocking the horse senseless. Beyond a severe bruise she escaped unhurt.

Robert Hood's lumber yard, Colonel Gardner's dwelling, W. R. Smith's livery barn, J. P. Cook's warehouse, J. F. Tenzer's lumber yard and "Tug" Wilson's dwelling suffered the greatest damage, although at least twenty other buildings were partially unroofed or otherwise damaged. One barn was turned around without injuring a horse which was inside in the least. All of the windows in the west side of the court house were broken, while almost every fourth house in the city had its chimneys, outbuildings and fences blown away. Several people were slightly injured by flying objects.

The storm centered in a local eye, headed northeast and starting about five miles from the city, where several farm houses were wrecked. No other town seems to have been in its path. It was followed by a slight shower, accompanied by a light hail, when the sun again came out and the remainder of the day was perfectly clear.

CLOUDBURST IN KANSAS.

Bridges Washed Away and Serious Damage Done to Property.

WICHITA, June 19.—A heavy storm visited this county last evening. The streets in this city were flooded and in many cases the sidewalks were obstructed by falling timbers and shade trees. The worst part of the storm centered in Mulvane, twenty miles south. The cloudburst flooded the entire country and grain fields were under water, which soon flooded culverts and drains and so covered the Santa Fe railroad tracks.

The town of Mulvane was under water to a depth of a eight or ten feet and many houses were floated away. Foundations, boats improvised from wagon beds and rafts made of lumber were launched and the work of rescue begun. Probably twenty families were taken out of Mulvane, where there was no casualties, but the property loss is heavy. One big wagon bridge was carried out completely and bumped up against a second bridge, which was broken. The water subsided rapidly.

OSAGE CITY, Kan., June 19.—A terrific storm raged here last night. Glass was reported to have fallen to 29.5 in Wichita and much damage done to small buildings west of here. The hail damaged the corn badly and almost ruined wheat. Wheat was not in the stack.

ELLSWORTH, Kan., June 19.—A cloudburst, accompanied by hail and high wind, struck this place last night. The wind was from the west and was from two to four feet deep, filling cellars and undermining buildings, and a great deal of damage was done. No reports have yet reached us from outlying districts, but the damage to crops must have been great.

WINDS WORSE THAN WATER.

Pennsylvania Towns Suffer from a Tornado's Onset.

LOCK HAVEN, Pa., June 19.—A cloudburst broke over Penn valley last night, deluging the land and washing away entire fields of growing grain. The damage is worse than that inflicted by the recent flood. The downpour was accompanied by a severe electric storm which killed William and Eddie Loz and Charles Hunter, who took refuge under a tree, were struck by lightning. Eddie Loz and Hunter are fatally injured. William Loz will recover.

Fatal Storm at Walnut.

DES MOINES, June 19.—A cloudburst at Walnut this evening swept away two buildings and delayed the Rock Island trains an hour. Roy Goddard, aged 22, living seven miles west of Calander, was instantly killed by lightning. A boy at Moorland was fatally injured by the falling of a corn crib in which he sought shelter. Heavy rains accompanied the wind.

Cyclone in South Dakota.

FERRIS, S. D., June 19.—A cyclone passed over the outer edge of this city this evening, blowing over several buildings and doing other minor damage. Fortunately no human beings were seriously injured. Here and in the country beyond there was a great deal of damage to farm property, crops being ruined in a strip several miles wide, and long rows are down in the path of the storm and full particulars will be obtained.

Fatal Iowa Cyclone.

FORT DODGE, Ia., June 19.—(Special Telegram to the Bee.)—A cyclone passed over Calendar this afternoon. Roy Goddard was killed and another man fatally injured. Great damage was done to buildings. The storm was not a rotary one, but had terrible force. The air was as hot as from a furnace.
