Benate Makes Fair Headway Disposing of this Section of the Bill.

ORE VOTED DOWN

Quicksilver Striken from the Free List and Made Dutiable at Seven Cents Per Pound-Long List of Unimportant Items Passed.

WASHINGTON, June 19 .- At the opening of the senate today Mr. Voorhees reported from the finance committee a resolution authorizing the translation and publication of the proceedings of the recent Berlin silver conference. The proceedings of the conference, Mr. Voorbees said, had been in this country less than eighteen hours. The resolution was adopted.

Some routine business was transacted, and several unobjectionable bills were passed by unanimous consent, including a bill to ratify an agreement with the Yankton tribe of Sioux Indians in South Dakota. Mr. Allen's resolution directing the secretary of the treasury to inform the senate as to the number of persons engaged in protected industries in the United States whose wages are, or may be claimed, to be affected by the tariff legislation, encountered opposition on the republican side, as it had on several previous days. Mr. Allen said that it was not strange to him that those who claimed that every person in the United States was affected for weal or woe by protection should oppose the passage of a resolution that would rmine how much falsity there was in that claim. The resolution went over and the tariff bill was taken up.

At the request of Mr. Lodge, the senate went back to paragraph 225, fixing the duty on matting and mats made of cocoa fibre or rattan at 20 per cent. He (fiered an amendment to restore the McKinley rate (12 cents per square yard on matting and 8 cents a square foot on mats, equivalent to 71 and 42 per cent, respectively.) The amendment was lost; 25 to 39.

At this point several modifications pro-posed by republican senators to different paragraphs of the bill were proposed and ac-cepted by Mr. Jones on behalf of the finance committee and the democratic side of the

Upon the suggestion of Mr. Sherman the duty on ink and ink powders was increased to 25 per cent to make it conform to the rate on pigments. At the request of Mr. Allison the finance committee agreed to strike out from paragraph 190 the reciprocity provision on admitting buckwheat, corn, corn meal, oats, rye, rye flour, wheat and wheat flour free of duty from such such countries as impose no import duty on such products from the United States.

The finance committee also agree to Mr.

Allison's request to place eggs on the duti-able list at 3 cents per dozen.

An amendment was agreed to, grading the duty on lithographic prints from 27 to 45 cents per pound, according to the thickness. Mr. Jones offered an amendment to increase the duty on hair pencils, brushes and feather dusters from 30 per cent to 35 per cent, and to add at the end of the paragraph "bristles, bunched or prepared in any manner, 71/2 cents ad valorem.

This was agree to as was another amend-ment offered by him changing the classification of gloves so as to make ladies' and children's gloves of sheep origin, with exterior grain surface removed, not over seventeen inches in length, dutiable at the rate of \$1.75 per dozen pairs; over seventeen inches, \$2.75 per dozen pairs.

TACKLED THE FREE LIST. The free list was then taken up. Ambroid was added to the free list. Salts of ammonia made dutiable in the senate bill were stricken from the free list. The finance committee amendment permitting the free entry of cattie, sheep or other domestic animals and their increase which have strayed across the boundary or been driven across for pastur-

age, was agreed to. Mr. Jones explained the provision was intended only to apply to Mexican borders where it is sometimes imposible to prevent animals from straying across the border and where it was sometimes absolutely necessary in time of drouth to drive stock across the Rio Grande for pasturage.

Apples, green, dried, etc., heretofore placed on the dutiable list, were stricken from the free list. . The committee amendment striking from the free list beef, mutton and pork, which have

been placed on the dutiable list at 20 per ent was agreed to. Mr. Peffer moved also to strike out "bacon and hams." The effect of the amendment would be to make bacon and hams dutiable at 20 per cent. The amendment was agreed

to without objection.

The Jones amendment adding manilla twine to the paragraph placing binding twine on the free list was agreed to. Bone char-coal, heretofore transferred to the dutiable

list, was stricken from the free list. Borax was stricken from the free list. The Jones amendment to paragraph 417 was adopted, the effect being to strike from the free list sweat leathers, bindings, bands and tips when cut to lengths for trimming felt or wool hats. Clay or earths un-wrought or unmanufactured, not specially provided for, were stricken from the free list. In the coal paragraph "bituminous coal and shale and coal slack, or culm"

was stricken from the free list.

A proviso was added to the paragraph placing eggs of birds, fish and insects or the free list, so as to exclude the eggs of game birds, the importation of which was prohibited, except for scientific specimens graph 485 were withdrawn, leaving Chinese matting on the free list. Dates and pine-apples were stricken from the free list; cocoanuts, Brazil nuts, cream nuts, palm nuts and palm nut kernels were left on the free list. Dressed furs suitable for use on trimmed hats were added to the free list. ONLY FOUR FOR FREE IRON ORE.

yeas and nays were demanded by Mr. Hill when Mr. Jones offered the amend-ment to strike iron ore from the free list. It was carried—53 to 4, Messrs. Hill. Allen, Peffer and Kyle voting in the negative. Lard was stricken from the free list. Molasses testing not above 40 degrees the polariscope was added to the free list. Olives were stricken from the free list and was added to the free list. crude and unmanufactured opium. cent and over of morphia, was placed on the free list.

The committee amendments placing stained or painted window glass imported for the use of religious, educational or scien-tific societies on the free list was agreed to. The reciprocity provision added by the finance committee to paragraph 515, placing agricultural implements on the free list, was agreed to, as well as the provisions added to 596, excluding theatrical scenery, proper-ties and apparal from admission free of duty, except where they were to be exported within six months, bond to be furnished for the payment of duty in case they remain in

is country longer. Mr. Lodge moved to strike quicksilver from the free list and restore the duty of 10 cents per pound. Mr. Perkins said over \$30,000,000 were invested in quicksliver mines. The amendment was adopted by 23 to 20. Quicksliver was placed on the dutiable list at 7 cents per pound on motion of Mr. Perkins without division. Mr. Peffer offered an amendment to strike

salt from the free list and make it dutiable at 5 cents per 100 pounds. At this point the senate went into executive session and a few

Patents Expired by Limitation.

WASHINGTON, June 19 .- An aggregate of 284 patenta expired by limitation today. Among the inventions were: Organ pipes, Carl Fogelberg, Boston; hydraulic elevators, Karl Flotcher, Boston, assignor; hydraulic engines, J. Coates, Erie, Pa.; ore separators, Joseph Richards, Battle Mountain, Nev.: machines for making and pressing brick, J. K. Caldwell, Philadelphia; engraving ma-chines, Charles N. Field, Providence, R. I.; printing presses, William A. Harris, Covington, Ga.; type distributing machines, Dexter Roynolds, Albany, N. Y., and processes of uniting Bessemer metal and increasing its tensile strength, E. T. Day, Jersey City.

Live Stock Men in Conference. WASHINGTON, June 19 .- A convention of representatives of the Live Stock Sanitary Board of the several states began at the Agricultural department today. Prof. Stock-

bridge, a member of the Massachusetts Live Stock society, presided, and A. M. Brownies of the Binois Live Stock commission acted as secretary. T. J. Turner, state veterinarian of Missouri, read a paper on the necessity for uniform legislation is the different states for the prevention of the spread of the cattle disease, and Charles P. Lyman of Massachusetts and Dr. Robert Ward of Dr. Robert Ward of Baltimore discussed the paper. A committee consisting of Mesara Turner. Stalker and Lyman was appointed to consider plans for the formation of a permanent national organisation. The meeting then adjourned until tomorrow.

AMASSA TOLITY BEEN WYDERSTON ATTER ATTER

ORDWAY JOHNSON STILL WAVES.

Old Friend of Don Maratta and Merritt Day in Circulation in Virginia. WASHINGTON, June 19 .- (Special Tele-

gram to The Bee.)-L J. Johnson, formerly

of Aberdeen, S. D., and known throughout

the big territory as "Ordway" Johnson, at one time chairman of the democratic central committee, was in Washington recently. Mr. Johnson is now proprietor of 6,000 acres of land in Virginia, not far from the battlefields of the Wilderness, Spottsylvania and Chancellursville, and says he is getting gold out of the quartz in big paying quantities, and that one of these days he will go back Dakota rich enough to reward all his political friends and make political enemies weary. Mr. Johnson always had a large assortment of the latter. He says that he has a ten stamp mill at work, and is handling better ore than has ever yet been produced by the Homestake Mining company. He also says that for \$1.25 per day he employs miners who do as good work as the men who receive \$5 per day in the Black Hills. Mr. Johnson says that he is so busily engaged in accumulating wealth that he does not owadays pay much attention to politics, but he judges from the little information which he obtains when he comes to Wash-ington that Grover Cleveland is the grandhoodoo with which any party ever went

o the grave. Senator Allen today offered an amend-ment to the Indian appropriation bill, mak-ing an appropriation of \$7,250 for Ely Moore and Daniel Woodson, which is due them for heir services as superintendents of sales of

Delaware and Indian trust lands from May 29 to August 5, 1857. Senator Manderson recently received a letter from H. W. Brown of Lilac asking that the time of departure of mails over the route from Paxton by Lilac to Lena be changed. The senator referred the communication to he postmaster general, and was today notified that the department has sent a blank to the postmaster at Paxton upon which to commend a suitable schedule, upon re ipt of which the desired change will be

ANTI-OPTION BILL DISCUSSED.

Several Speeches Delivered and the Bill Went Over Without Action.

WASHINGTON, June 19 .- The bill to amend the act for the relief of the civilized Chippewa Indians in the state of Minnesota passed the house today. The bill provides that the pine lands of the White Earth and Red Lake reservations and other reservations, when the Indians upon it have been allotted lands in severalty, should be surveyed, examined and appraised to the amount of at least 100,000 acres, after which they shall be offered for sale.

The house bill authorizing the Pittsburg & Mansfield Railroad company to construct bridge across the Monongahela river at itsburg was passed.

There was also passed a house bill to donate certain lands belonging to an aban-doned military reservation to the city of Newport, Ky., for a public park.

The house went into committee of the whole to consider the anti-option bill, and Mr. Coombs of New York spoke in opposition

the measure. Mr. Sibley of Pennsylvania followed in defense of the bill and Mr. Aldrich spoke against it. At the conclusion of Mr. Aldrich's remarks there remained but an hour of 5 o'clock, and members were averse to splitting their speeches up in two install-ments, but at length Mr. Fletcher of Min-nesota consented to fill in the interval, and presented several letters from dealers in grain protesting against the bill. At 4:55 the house adjourned.

CENSURE WITHOUT PENALTY.

Accident to the Columbia Laid on the Commander's Shoulders.

WASHINGTON, June 19.-Secretary Herbert has written a letter to Captain George W. Summer, commanding the Columbia, in regard to the grounding of that vessel, in which he says: The department regrets that it is com-

pelled to fully concur in the opinion of the court of inquiry, that it was the duty of the ommanding officer to have been on the bridge when the vessel was sing Bulkhead shoals, and that bridge Was. also his duty to caused the speed of the vessel to be reduced at that time. The speed over the bar where the injury is found to have occurred ought to have been slower, and especially when the fact is considered that with the water she carried in her double bottom at the time there was very small margin of safety.

"In view, however, of the recommenda-tion of the court that no further proceedings be had, the matter will be regarded as closed with your acknowledgment of the re-ceipt of this communication. Very respect-fully, H. A. HERBERT, Secretary of the Navy.

RETURNED IN GOOD HEALTH.

Cleveland Back at the White House and Buckling Down to Work.

WASHINGTON, June 19.-President Cleveland has returned to Washington very much improved by his outing on the salt water. The lighthouse tender Maple, which has been his home for the past four days, left Annapolis, where she touched for coal, late yesterday afternoon, and, steaming leisurely around Point Lookout and into the Potomac river, arrived at the wharf here about 7:30 o'clock this morning. From the wharf the president was driven to the white There the president breakfasted, the repast having been prepared for him, and started in to work. benefited very much from his trip, most of his time being spent on deck exposed to the ocean winds. It was stated by Mr. Thurber that the president had had no recurrence of his complaint and now felt perfectly re-stored to his usual health.

Rallways in Mexico.

WASHINGTON, June 19.-The report of the statistician of the Department of Agriculture for the month of June contains an interesting chapter on Mexican railways. The number of miles of road is set down at 7,297. The bonded indebtedness of the Mexican Central and the Mexican National railways alone, without taking into consideration any of the others, is given by the British consul general at the capital city to be larger than the foreign debt of the republic.

National Soldiers' Home Manag rs. WASHINGTON. June 19 .- The house committee on military affairs has reported favorably a bill naming Charles M. Anderson of Greenville, O., Sidney Cox of Herrington, Kan., and A. L. Pearson of Pittsburg, Pa., to succeed General A. J. Barnett, Major E. N. Morrell and E. L. Pearson as members of the board of managers of the National Home for Disabled Volunteer Soldiers. The

nominces are all union veterans. Will Re No Delay in the House WASHINGTON, June 19 .- The tariff lead-

ers of the house are preparing to handle the tariff bill very expeditiously when it returns to them from the senate, which they expect will be within the next ten days. If needs be a series of special rules will be intro-duced to close up the debate on the various schedules, and then a final rule to wind up

Gold Getting Very Low. WASHINGTON, June 19 .- The cash balance in the treasury at the close of business today was \$114,021,047, of which \$68,-423,623 is gold reserve. Engagements for export already made, however, will reduce this reserve to \$66,923,423. This is within a small amount of the lowest point reached previous to the last bond issue.

Interference in the Affairs of that

Parish and His Hishop Car-

ries the Day.

NEBRASKA CITY, June 19 .- (Special

rendered the decision in the Corbett -

tered in the docket, the judge retaining the

copy of the decision to make a few correc-

"The court finds upon the evilence that

the defendant wrongfully usurps the rights

of parish priest in the mission of Falmyra

and that he forcibly and violently denies

plaintiff the use and enjoyment of the same

that the plaintiff holds the fee to the

realty and property of said parish and has

that the defendant is a wrong-door insofar

as he denies plaintiff and his appointee

Joseph A. Smith, the use of the same, and

said injunction is made perpetual to the extent of forbidding defendant from viter

ing the church property of said mission for the purpose of interfering with plain iff's control over the same."

As soon as the decision had been read lorbett's attorney excepted and was given

orty days to file exceptions upon giving a

bond for \$500. The suit brought by Bishop Benacum to

restrain Father Corbett from drawing money from the Palmyra bank belonging to the

church, but deposited to Corbett's credit, came up this afternoon and the result is a grain of comfort to Father Corbett. Cor-

bett's attorney stated that the money had been collected to pay a church debt and was

deposited to the credit of Father Corbett as priest in charge of the parish, as other money

had been. He had not used a cent of it and did not intend to. The money was there.

The bishop could have it whenever he asked

Judge Chapman at once made the injunc-

tion restraining Corbett from drawing the

money permanent and assessing the costs

to the bishop.

Speaking of the judge's decision in the

first injunction case Father Corbett said: "!

was prepared for it. Truth will prevail in the end. The case will be appealed to the

of the plaintiff, been postponed until Friday.

MUTINIED Captain Wilcox of the British Bark Invernce

Placed in Irons. CONFINED WHILE HIS WIFE WAS DYING

Second Mate and Carpenter the Only Ones of the Crew Who Were Loyal to the Captain-Crew Says the Captain Was a Tyrant.

SAN FRANCISCO, June 19 .- The British bark Inveruce, Captain Wilcox, arrived today, sixty days from Newcastle, N. S. W. with a most remarkable story of mutiny and crims. Just before the vessel left Newcastle a man calling himself Dr. Armitage applied for passage for himself and wife to San Francisco. Captain Wilcox gladly took them on board, as his own wife needed the services of a physician. About two weeks at sea Mrs. Wilcox gave birth to a child, and Armitage officiated as surgeon. He used in struments in such a manner that the child died, and the captain, seeing that he was un skilled, ordered him away from his wife Armitage appealed to the crew, telling them that hie captain was killing his wife. The crew, led by the mate, mutinied, and the captain, after being drugged, was locked up He managed to get out just in time to se his wife die. Several times he was confined by the crew, but he managed to break out. Ar-mitage's real name is Eustage Alexander He is said to have deserted his wife in Syd ney and fied to Newcastle with another woman, where they boarded the Inveruce The bark, crew and passengers are now if the custody of the port warden, and the police made arrests this afternoon. CAPTAIN WILCOX'S STORY.

Captain Wilcox gave the following accoun captain wilcox gave the following account of the troubles on board his ship: "While the ship was lying at Newcastle, N. S. W., my wife suggested that she come to San Francisco on the Mariposa and I could join her on my arrival. I accordingly wrote to my brother in Tacoma, and he was to come meet her. Before sailing time, however Armitage came to me with a letter of in-troduction from agents of the ship and I agreed to take him and his wife, whom he described as a 'trained nurse.' After we got out a few weeks I found that the first mate during the time he was on watch was talking to Mrs. Armitage, and when he was off watch he spent most of his time in her cabin. This was going on when Armitage would be asleep on deck. I spoke to the mate, telling him that when he was off watch he could do as he pleased, but when he was on duty he must attend to his work and do what he was paid for. Then the trouble began. The mate and Armitage got the crew to side with them, and the only men I could depend upon were the second mate and carpenter. Things got so that I had to put some of the men in irons. Affairs were in this uncomfortable shape when my wife was taken sick on Friday, the 8th inst. She was not very bad, but grew worse up to Saturday afternoon. On Sunday mornup to Saturday afternoon. On Sunday morning I sent for Armitage again at the wishes of my wife. He came, and said he would operate on her. When I saw him handle the instruments I knew he was no doctor. My wife was then under chloroform, and I could do nothing. Then he began to butcher her, and finally he gave it up and said there was no hope. I was almost fainting, so one of them gave me a small glass of brandy. Whether it was drugged or not I don't know, but I do know that after drinking it I was a raving maniac. ing it I was a raving maniac. CAPTAIN IN IRONS.

When I came to myself I was in irons, "When I came to myself I was in irons, cooped up in the forecastle. This was on Monday, the 11th inst. In the afternoon they brought the body of the dead baby to the door and held it up at the grating for me to look at. A few hours later they dropped it overboard. All this time my wife was dying and they would not let me out. With the aid of the carpenter I managed to break tail and made a rush for the aged to break jail and made a rush for the cabin where my wife lay. They jumped on me, acting on the mate's orders, and I was put in a straight jacket. I worked out of the straight jacket and with the aid of the second mate got out again. This tin men caught me and the mate jumped on me and again I was ironed. On the morn-ing of last Saturday they came to me and said that if I would forgive them and prom-ise to make no report against them they would let me out. I agreed and at 10 a.m. they set me at liberty. I at once went to my poor wife. What they had done to her while l was away I don't know, but when I reached her she was unconscious. At 6:30 Saturday night she died. The men have got up all sorts of stories, but what I tell you is the

sorts of stories, but what I can you plain and unvarnished truth."

The sailors, headed by the first mate, have drawn up a series of charges against the captain, which they say they will lay before the British consul. They say that he drank to excess during the voyage and abused them on various occasions. Second Mate Jones is equally positive, however, that there is not one word of truth in the charges. The autopsy at the morgue this afternoon upon the body of Mrs. Wilcox showed that peritonitis caused death. The oroner will have a microscopical examination made to ascertain the extent of the malpractice and an inquest if decided upon will be held Thursday afternoon. Alexander, or Armitage, as he now claims himself, was never a doctor, but worked in a cigar store in Melbourne. He and the woman with him are under surveillance of the police pending the result of the inquest.

Take a boat ride on Courtland lake. INDIAN BARBARITY.

Horrible Customs Accompanying the Sun Dauce of a Montana Tribe. MINNEAPOLIS, June 19 .- A special to the Journal from Havre, Mont., says: The Cree sun dance has just been concluded here after going on for three days. Every sheriff in the state had been instructed to prevent the dance at any hazard, but there was no interference here. Three braves were hung up by thongs thrust into slits in their breasts slashed by Little Eggs, the chief. They fainted before the ordeal was over. One oung buck had slits cut in his shoulders and to the inserted thongs were tied four buffalo skulls, which he dragged after him. pieces of flesh were cut from his arms to be kept as tokens.

FATAL BOILER EXPLOSION. Two Men Killed and Eight Narrowly

Escape the Same Fate. PLEASANT, Pa., June 19 .- The boiler of Bilger Bros.' saw mill exploded, killing Nelson Bilger, one of the proprietors, and fatally scalding Herbert Bilger. Eight workmen got away just in time to avoid sharing the fate of the Bilgers. The mill was blown to pieces.

See La Rose Bros. at Courtland beach. Marriage Licenses. The following marriage licenses were is-

sued yesterday: Name and Address. Scott Van Etten, Houston, Tex. Bertie W. Mallette, Omaha.... Thomas F. Noonan, Omaha... Mamie E. Murphy, Omaha.... Swindled a Grocer.

Sam Friden, a groceryman at Twentiet? and Nicholas streets, reported to the police yesterday that a stranger came into his place and bought \$2 worth of groceries and tendered in payment a check for \$8.50. The change was given and he departed. When the check was taken to the bank it proved to be worthless. The police are looking for the stranger.

Birth at Courtland Beach. The youngsters are being much amused by the zoological collection at Courtland each. It is being added to daily. The collection was enlarged yesterday by the ap-pearance of a beautiful little fawn. This is the first animal to be born in the beach zoological collection, and affords much amusement for all.
