WHEAT OPENED WILD AND UNSETTLED

Outside News Was Bullish and Under Ordinary Circumstances the Market Should Have Advanced-Corn Was Somewhat Less Active.

CHICAGO, June 19 .- Liberal selling gave wheat a 1%c tumble today and July closed 11/2c lower than yesterday, despite a goodly supply of bullish news. July corn closed 14c lower, July oats 1/2c higher and provisions lower all around.

The opening of wheat was wild and unsettled, with first trades at from 1/4c to 1/4c decline, but sold off instantly at from 360 to Ic, and many selling orders could not be executed until a considerable decline had occurred. The price railled from 14c to 14c. eased off from 1/2c to 1/2c, advanced 1/3c, broke %c, changed some and closed near the bottom. There was free selling at the start by all classes of traders, the large commisssion houses all having seiling orders, and the elevator interests also disposed of large quantities, as did Pardrigge, who has not traded extensively of late. The market was largely "long" and not in shape for liquida-tion, and the decline was sudden and in jumps of from 1/16 to 1/16. Foreigns were said to have led the selling and New York opened weak and led in the decline as much as it did in the advance of yesterday. Out-side news was bullish, and under ordinary circumstances the market should have advanced. Cables were firmer, the first Liverpool advices quoting spot strong and 2d higher and futures from 1d to 1½d up. The Baltic shipments were much smaller and the Mark Lane Express was rather bullish and favorable to holders. Foreign advances did not speak of any damage abroad from snow or frost, a little damage being reported in Austria by the floods. The market was governed entirely by local influences. Corn was less active, within from %c to %c range. The market declined early on free offerings, but reacted on good demand

closing steady.

Oats were stronger on good buying. The range for July was %c.
Provisions were very dull and easy or liberal live hog receipts and the break in

OMAHA GENERAL MARKET.

Condition of Trade and Quotation on Staple and Fancy Produce.

The market as a whole did not show much change. Butter is about steady, eggs weaker and poultry dull.

during the cold weather the retail merchants of the city sell butterine for butter. If so Omaha does not appear to be the only violator of the does not appear to be the only violator of the law. It is said at Washington that the treasury officials are in almost daily receipts of information showing that the law of August 2, 1886, as to the sale of olcomargarine is being violated by dealers in all parts of the country. These violations consist principally in selling olcomargarine at retail in packages not properly marked and branded, and in offering it for sale after it had been removed from the original stamped packages. Steps are being taken by the officials to punish every violation of this act that they may discover. the officials to punish every violation of this act that they may discover.

BUTTER.—The butter market remains about steady at the decline quoted Monday. The price on packing stock on track in the country has been lowered from 10½c to 9679½c. Packing stock on this market is bringing 19c and the buyers appear to want it at that price. Choice country butter, 12614c; separator creamery, 156 16c; bricks, 16418c.

EGGS—The egg market was weaker yesterday. While some sales were reported early at 19c it was hard work to get over \$1½c for the best stock. A good many eggs claimed to be firsts were going at \$6c.

was hard work to get over bisc for the best stock. A good many eggs claimed to be firsts were going at 3c.

LIVE FOULTRY—There appears to be very little poultry of any kind coming to market, but thus far this week there has not been much demand. Spring chickens brought 122/14c per 1b., or 41.5042.50 per doz. Old hens, 54/604c; roosters, 3c. The demand for geese and ducks is very light, and what few are arriving are mostly birds that have been plucked, and in consequence not very desirable. There is quite a little inquiry for turkeys, and the few that are coming meet with very ready sale. Ducks, 54/7c; hen turkeys, and to see that he was a coming meet with very ready sale. Ducks, 54/7c; hen turkeys, cr; gooblers, 54/7c; geese, 54/7c.

VEAL—Receipts continue quite liberal and the market has not as yet recovered from the lower quotations of last week. Choice fat and small veals are quoted at 54/6c; coarse and large. CHESES—There is some very choice Wiscon. veals are quoted at 596c; coarse and large, 249c.
CHEESE—There is some very choice Wisconsin cheese on the market, Wisconsin, full cream, new make, 1961le; Nebraska and Iowa, full cream, 9610c; Nebraska and Iowa, part skim, 697c; Limburger, No. 1, 19c; brick, No. 1, 19c; Swiss, No. 1, 13214c.

HAY—There were no fresh receipts of hay yesterday, but there was considerable held over from Monday, the rain preventing its sale on the day of arrival. The market had a little weaker tone, but quotations remain practically unchanged. Upland hay, \$8.50; midland, \$8; lowiand, \$7.50; rye straw, \$4. Demand fair; supply fair. Color makes the price on hay. Light bales sell the best. Only top grades bring top prices.

At the fruit auction held yesterday morning the offerings were rather light, there being only 449 crates of apricots and 411 boxes of penches. The attendance was as large as usual, and as the demand was good everything was soon disposed of. The apricots sold low, the supply on the market being large. Peaches were also lower than at the list sale.

There will be an auction every day this week, with the exception of Saturday, when, nothing is announced to arrive so far. On Wednesday there will be a sale of 1.81 boxes of cherries; Thursday, apples, peaches, apricots, plums and cherries, Friday, apples, apricots, peaches, plums and a few cherries.

The receipts of berries of all kinds were light and very few were slipped out. There is a liberal supply of California fruits, sufficient to fill all orders. The tendency of the fruit market is lower as supplies of fruit become larger.

STRAWHERRHES—There were no fresh receipts of strawberries, but there were a few on the market is lower as supplies of fruit become larger.

Florida fruit men are already talking about the coming orange crop in that state. In and around Orange City it is said that the orange trees are now putting on their second bloom, which is, in many cases, larger than the first. It is reported that the orange crop of Rock-ledge will hardly be more than one-fourth as large as it was last year, on account of the drouth, and that year the crop was a small one. The Lakeland orange groves are looking much better since the summer rains set in, a good many putting on their June bloom, and it is now shought the crop will be larger than was at first supposed.

BANANAS—As usual, when berries are on the market the demand for bunanas is not very henvy. Choice stock, \$2.062.50.

Action of New York Bankers Inspires Confidence Among Speculators.

NEW YORK, June 19.-The action taken by the New York City banks this afternoon in deciding to furnish gold for export as it may be needed, without recourse to the United States treasury, will undoubtedly have a beneficial effect upon the Stock ex-change markets. It will, however, be largely change markets. It will, however, be largely a sentimental influence, for the fact is, the gold export business has about reached an end, and any further drain upon the treasury, had the banks continued to hoard specie, would necessarily have been light. It is probable today's action was based upon the conclusion that the banks could not be called. conclusion that the banks would not be called

upon for gold to any large amount. But perhaps the most potent reason for this re-versal of policy is the fear the country at large would look with disfavor upon the spectacle of the heaping up of an unnecessary large gold reserve in the metropolitas banks while the United States treasury sur-plus was being depleted and had reached an unusually low point. But whatever the mo-tive, the decision of the banks to supply gold needed for the immediate future will undoubtedly have the effect of inspiring conindoubtedly have the effect of inspiring confidence in speculative values, and is likely to be reflected in an increase of activity on the Stock exchange. There is need of something to put life if the share market. Yesterday was dull, today was dell, and the trading heavier. The market opened quiet and fairly stendy, but Union Pacific was % per cent and Sugar % per cent lower. In the early dealings a better tone prevailed, Sugar selling up % per cent. Chicago Gas % per ing up % per cent, Chicago Gas % per cent, and some other shares a smaller frac-

The improvement was not, however, lasting, and under a slight pressure to sell, prices took a downward turn. Northern Pacific preferred declined 1½ per cent, and Oregon Short Line and other shares 404 per cent An attack was made on Union Pacific by the long stock, and they were partly successful, for the shares broke from 12½ at the close yesterday to 9%, with only a raily of % per cent at the close, making a loss of 2% per cent on the day. Rumors were put in circulation that there would be a heavy stock assessment under the reorganization plan and that the United States government would force the payment of its debt. Very little was done in the general list between 11 and 12:30 o'clock, and values changed slightly during that period, but as the afternoon adduring that period, but as the afternoon advanced the speculation became depressed. Distilling receded 1½ per cent; Erie, 1½ per cent; Pullman, 1 per cent, and the rest of the list a fraction. About 2 o'clock a still further decline was reached of 1½ per cent in United States cordage, and from ½ per cent down in other shares. A slight rally followed on the covering of short contracts and the market closed steady. The bond market was steady in the morning, but became heavy in the afternoon and closed came heavy in the afternoon and closed weak.

OMAHA LIVE STOCK MARKET

Another Day of Light Receipts Finds Trade Decidedly Unsettled.

LOCAL SLAUGHTERERS NEGLECT CATTLE

Offerings Nearly All Taken by Outside Buyers at Prices but Little Better Than Monday-Hogs Open Strong, Sell Active and Close Weak.

TUESDAY, June 19. Receipts so far this week, compared with

supplies for the first two days of last week,

show a falling off of 2,800 cattle, 1,800 hogs

The run of cattle was not much over half

and 800 sheep.

as heavy as on last Tuesday, but the quality as a rule was very fair. There was not a particularly bullish tone to eastern advices, but the demand for shipping and speculative account was good, while only one of the local dressed beef men, Cudahy, was a free buyer. There were too few cattle here Monday to make a market, and in consequence comparisons all differ. Some of the better grades, on which competition was best, sold 10c to 15c better than Saturday, and for the average of dry lot steers prices averaged pretty close to a dime higher. There were a few bunches of half fat and grassy stock on sale at prices not a whit better than pre-valled at the close of last week. The in-difference of local slaughterers in the face of the light receipts created a very weak feeling, and the general market closed up dull, with the advance about all lost.

The limited offerings of cow stuff included a few very choice loads. These sold at good strong prices, but the ordinary run of butchers' and canners' stock was slow and weak. Calves were in good suppty, slack demand and lower, and the market for rough stock was generally unchanged.

In stockers and feeders trade was lively and prices generally about a dime higher than the close of last week. General rains throughout the country brought a liberal number of country buyers and many more cattle would have found ready purchasers at the advance. A fair number of cattle changed hands as it was, and largely at from \$2.80 to \$3.30. Good to choice feeders are quotable at from \$3 to \$3.50, fair to good at \$2.65 to \$2.90 and common to poor at from \$2.50 down. Representative sales:

There was a further stiffening of values under the influence of continued favorable reports from the east, and good local and outside buying orders. On the early market, with everybody buying, prices ruled from 5c to 10c higher than Monday, fair to choice heavy and butcher weight grades selling at from \$4.70 to \$4.80, with good to poor light and light mixed stuff at from \$4.75 down to \$4.50. Early trading was tolerably active, but the market rather weakened as the morning advanced, and closed weak, very little better than Mon-day. Several loads were still unsold at the close. The bulk of the sales were at \$4.70 and \$4.75, as against \$4.60 to \$4.70 Monday and \$4.60 to \$4.65 on last Tuesday. Repre-

CHICAGO LIVE STOCK. At Monday's Advance the Cattle Market

Was Quiet and Steady. CHICAGO, June 19.-At yesterday's advance he cattle market was quiet and steady. A few cattle were wanted by exporters and the eastern trade, and there was a fair demand for local cattle were wanted by exporters and the easiern trade, and there was a fair demand for local account, so sellers had no trouble in disposing of their holdings. Choice dry lot cattle were rather firm, very few of that description being offered. The severe decline yesterday in the London market will tend to check the advance in choice grades, but there is little danger of any serious break. Sales were on a basis of from \$1 to \$5 per 100 pounds, according to quality. There were few sales below \$2, and there was nothing here good enough to bring the outside quotations. The prices at which most of the steers changed hands were from \$3.75 to \$4.75 and from \$2 to \$3 took the builk of the cows and buils. Sales of Texas cattle were largely at from \$2 to \$2.50 for cows and buils, and at from \$2.70 to \$3.50 for steers.

The hog market was active and strong for a brief time in the morning and was quiet and weak further along. The range of quotations was from \$4.50 to \$5. Not much trading was done below \$4.75 and only a small percentage of the offerings brought more than \$4.95. Light weights zold principally at from \$4.70 to \$4.80 and from \$4.75 to \$4.85 bought the builk of heavy hors. Nothing remained in first bands done below 34.75 and only a small percentage of the offerings brought more than 34.95. Light weights sold principally at from \$4.70 to \$4.80 and from \$4.75 to \$4.85 bought the bulk of heavy hogs. Nothing remained in first hands. Common to extra, 200 to 250 lbs., from \$4.55 to \$4.85; common to extra over 220 lbs., from \$4.55 to \$4.95; common to extra over 220 lbs., from \$4.76 to \$4.90; common to extra over 220 lbs., from \$4.75 to \$5; common to choice mixed, from \$4.76 to \$4.90; choice assorted, 150 to 189 lbs., from \$4.75 to \$4.80; good light, 160 to 190 lbs., from \$4.75 to \$4.80; good light, 160 to 190 lbs., from \$4.65 to \$4.76; common to fair light, 140 to 200 lbs., from \$4.25 to \$4.55; culls, from \$3 to \$4.40.

The sheep trade was quiet and prices about the same as on Monday. Poor to choice sheep were quoted at from \$1 to \$3.50, and sales of spring lambs were on a basis of from \$2.75 to \$4.50. There was a fair demand at the above quotations and the feeling was firm.

Concerning Thompson's Ghost. OMAHA, June 19 .- To the Editor of The Bee: In Monday morning's Bee appears a somewhat sensational ghost story with ref-erence to the house situated at 2112 Douglas

somewhat sensational ghost story with reference to the house situated at 2112 Douglas street. I am not interested in the ghost, but am in certain statements contained in the closing chapter of the story.

It is true that this property was owned by Father Ryan in his lifetime. It is not true that he bequeathed it to his sister, Mrs. Lamb; it is not true that Bishop Scanneil got hold of the property to the exclusion of Mrs. Lamb; it ig not true that the bishop rented the house as soon as he could; it is not true that Mrs. Lamb's counsel told her to move into the house as soon as she could; it is not true that Mrs. Lamb's counsel told her to move into the house as soon as she could; it is not true that Mrs. Lamb got ready to move her belongings into the house, but discovered that the bishop had rented it to some one else; it is not true that Mrs. Lamb has since been endeavoring to get possession; it is not true that Mrs. Lamb has since been endeavoring to get possession; it is not true that Mrs. Lamb may be able to account for the recent strange occurrences, but if Mr. Thompson is seeking for a reduction in rent, it is quite probable that he can account for these occurrences.

The fact is that the will of Father Ryan provided a specific legacy of \$8,000 in favor of Mrs. Lamb and gave the balance of his property to the bishop. No controversy whatever has arisen between Mrs. Lamb and the bishop, and neither of them has had possession or sought possession of Father Ryan, but no conflict has arisen or can arise between them. Certain heirs of Father Ryan, but no conflict has arisen or can arise between them. Certain heirs of Father Ryan, but no conflict has arisen or can arise between them. Certain heirs of Father Ryan are contesting his will, and pending the contest the court has appointed. Mr. Rush alone has had possession of the property under authority of the court and has rented it, and neither Mrs. Lamb nor the bishop have made any question on Mr. Rush's right to take charge of the property and to rent it pending

Mr. Bittner's Explanation. HUMBOLDT, Neb., June 18 .- To the Editor of The Bee: Owing to misrepresentation, false reports and slanderous communications I will give full detail of the business I have been engaged in, and can prove and swear to every ore of the assertions made here. I arranged with baking powder manufactur-ers in Kansas City to furnish me with bak-ing powder at lowest factory prices, to place on sale with merchants, and also samples for distribution. I then advertised for men

if after four weeks' trial they proved them-selves efficient to handle the business sucserves emerent to handle the business successfully, to pay them \$12 per week and expenses. And to help pay cost for advertising, sample box baking powder, postage, stationery, etc. they were to send 25 cents, and by so doing they would receive sample box baking powder, contract and full information concerning the work. And the 25 cents barely covered the cost of the above mentioned. My profits were to begin when they commenced work. I received quite a number of applications, but not one-fifth of them contained the necessary amount. I fulfilled every agreement, and sent applicants everything that I agreed to send in advertise-ment. I am also prepared to fulfill every agreement made in contract. It is reported that I have received from \$200 to \$600 in that I have received from \$200 to \$600 in this way. This remains yet for certain parties to prove. I do not know the exact amount, but it is not over \$20 or \$25, and my expenses during the time were fully that much. I had no thought of defrauding any one, and meant to carry on an honorable and legitimate business. A certain party in Humboldt reported to the postal authorities that I was using the mails for frauduthe stat I was using the mails for fraudu-lent purposes, which has caused me expense and trouble, and it now remains for the grand jury to decide whether or not this legiting business is a fraud.

JOE HITTNER, Jr.

Art in Norway.

OMAHA, June 18.—To the Editor of The Bee: In this morning's Bee a Swede or this city corrects a statement made by you in a previous issue, to the effect that a Swedish artist. Baroness Sparre, was a Norwegian. The Norwegians are not anxious to deprive any Swedish nobleman or noblewoman of any honors to which they are entitled, neither are they anxious to claim them—the noble people—as their own. His statement is correct so far as it relates to Baroness Sparre, but when he adds that Sweden is in art far advanced of Norway, I beg leave to correct him, as he makes a gross mistake, to say the least. Every well educated man, both in Scandinavia and the other European countries, knows that the Norwegians during the last twenty-five or thirty years have made an almost unparalleled progress in the arts and sciences, and even surpassed the Swedes in artistic painting, if we can believe what German and French critics say. These are facts which cannot be denied.

ARNFIN GELMEYDEN, OMAHA, June 18 .- To the Editor of The

Chinese performance at Courtland beach,

Elkhorn Precinct's Poverty. The county commissioners are surprised to find that the residents of Elkhorn precinct are in such sorry straits, so far as having any household furniture is con-cerned. In this precinct last year the ag-sessors returned household furniture of the value of \$530, while this year he was unable to find a thing that was worth listing for assessment. Out in this precinct last year the assessors returned fifty dogs, but this year it is apparent to the minds of the com-missioners that the dog catcher has been

doing a good business, as not a canine has been returned for taxation. See La Rose Bros. at Courtland beach.
