Low Cables and Favorable Weather Stopped the Advance in Wheat.

OPENING TRADES SHOWED A DECLINE

Corn Was Weak Covering a Brief Range-Free Offering and Rains in the West Caused the Decline-Stocks and Bonds.

CHICAGO, June 22.-Low cables and favorable weather stopped the advance in wheat today, and July closed 740 lower. July corn closed 1%c lower, July oats 1%c lower and provisions at a slight advance.

Opening trades in wheat showed a 14c to ic decline, and after selling up from 140 to %c broke off %c, rallied %c, changed some, and closed steady. The easier feeling at the start was attributed to the lower continental cables and the rains, though the early Liverpool advices quoted 14d advance on both spot and futures. Foreigners were reported as free sellers in New York. Early private cables quoted Paris "wheat unchanged," Antwerp "weather warm and bright, market dull, but holders firm;" Hamburg, "weather dry, market weak;" Ber-Ifn, "wheat %c lower, rye unchanged, and weather improving;" Frankfort-on-the-Main, "buyers indifferent," Another Berlin cable quoted wheat 11/2 marks lower and Paris flour 10c easier. There were bad reports from the northwest, and especially South

New York reported as high as forty loads taken there yesterday for export and six loads were reported worked here today. Later in the session private Liverpool advices reported holders were anxious to sell, with prices down 12d. The elevator interests and local professionals sold July quite freely during the early part of the session. Clos-ing cables were generally lower, but there was some buying near the finish, causing the steady close.

Corn was weaker, covering a %c to %c

range. Free offerings, the action of wheat and rains in the west caused the decline. Large receipts and free selling caused weakness in oats. The range for July was

Provisions were strong at the start on light hog receipts. At the advance there was considerable realizing, and the market closed weak. Compared with last night. September pork is 5c higher, September lard unchanged and September ribs 244c higher, Freights-For Buffalo, corn at 1c; wheat

for Kingston, 24@2%c.

OMAHA GENERAL MARKET.

Condition of Trade and Quotations or Staple and Fancy Produce. The general market on country produce is rather slow, and there does not appear to be much life or snap to the trade. While butter

and poultry remain about steady, eggs are weak elated over the encouragement they claim to have received in their fight on the Eigin call board. They aim at nothing less than making Chicago the great butter market of the country

The British Board of Trade has issued a report showing the importations of butter into the United Kingdom for the five months past. The figures, which represent 10s-weight, are as follows for the different countries: Sweden, 10s,388; Denmark, 451,397; Germany, 85,388; Holland, 47,896; France, 195,411; Canada, 196; United States, 25,198, other countries, 23,791.

At the fruit auction restorday only one car of California fruit was offered. There were 711 crates of apricots, it planes, and 13 peacies, or a folial of EN crates. The offering being small and the demand pretty fair, the market was active and the sale soon over. Prices on core were a little stronger than on the previous day. There will be no auction today but on Munday a far of cherries and two ears of apricots and peacles are reported to arrive.

The new apples arriving here from California are quite wiscome, as this market has been hare of apples for a long time. The apple crop was very light last year throughout must of the important producing sections, and the supply was exhausted earlier than usual. At a few eastern points there are still some old apples left. Generally chough stock is carried by speculators to supply the medicate wants until n wapples appear, and, as a result, they can be found in the markets all the year round. This season, however, they have been cleaned up very closely. The small yield made it possible to only evaporate a very small quantity, and fresh have not only been cleaned up closely, but there are hardly any dried apples left in the country, and high prices have prevailed on both throughout most of the season. The coming crop is looked for with interest, dealers watching the indications as to the prospect with unusual interest.

The lemon market here has a firmer feeling. At eastern pients of supply, as New York, the market is said to have an exceedingly buoyant appearance, the tendency of prices being strongly upward. The statistical position is regarded as very fovorable, hence the indications are accepted as permissing a good market for at least a month to come.

At the annual meeting of the Florida Fruit exchance, just held in that state, the manager reported that the exchange marketed 495,119 pikes, of fruit, being an increase of 25 per cent over the preceding year, the total gross average on semages being \$1.75, and the net average at shippers' stations \$1.05 per box. On pinoapples the gross average was \$4.95, and the net \$2.15 per crate. These averages cover all fruit sold, good, had, indifferent and unsound. The business of the exchange for the year amounted to nearity* \$1,980,000 gross, and on sales of fruit \$50,000 was paid to the growers in net returns. A dividend in cash of 10 per cent, was declared in addition to a stock dividend of 100 per cent, which was issued by the directors some weeks ago.

BANANAS—As usual, when perries are on

which was issued by the directors some weeks ago.

RANANAS—As usual, when berries are on the market the demand for bananas is not very heavy. Choice stock, \$2.00@2.50.

LEMONS—The demand has not been increased to an extent sufficient to advance prices as yet, and the market remains steady. Fancy lemons, 300 size, \$1; fancy lemons, are to be had on the market at \$1.50g2.5.

FINEAPPLES—There is a fair supply of Florida pineapples on the market at \$1.50 per doz., or \$7.0087.59 per crate of about six doz.

Wood Market.

Wood and Cotton Reporter says of the was market: Wood was never so low as at present. The secured value of wret the world over was never so low as at present. In face of all this the increase in the clip of has now reached the lowest point ever known. In face of all this the increase in the clip of Australian for the season just closing is slightly in excess of 1,000,000 lbs. The clip of the River Platte promises an increase, while the clip of this country, after including pulled wood, promises to be about the same volume as that of 1931. Most of our woods are now practically on what may be termed a "free trade basis." All our medium domestic woods grading one-quarter blood and below are, with duty off, and the freight and other expenses added, cheaper than any competing wood which can be laid down here from Europe were wood free tasiny. Three-eighths and one-half blood woods are just about on a parity with values abroad, while fleeces and territories are still somewhat above values for similar woods in English and onlineatial markets. The market has not improved. Values are uncertain and very difficult to determine in the absence of demand. The quotations for this XX today is 200 and Michigan X. Ize. These are the lowest prices ever known for those woods in this country. Texas, California, pulled, Australian and carpet wools are all dull and receiving only very limited demand. The sales for the week in Bosten amount to 1.75,000 lbs. domestic and 18,500 lbs. The sales since January I amount to 50,921,000 lbs. foreign, making a lotal of 1.85,500 lbs. The sales for the week in Posten agreements and several of 1.985 bales domestic and 25,700 lbs. St. Louis General Market.

STOCKS AND BONDS.

NEW YORK, June 22.-There was in absence of buyers to take up the stock offered. The total exports of gold for the week, including the \$3,500,000 which goes out tomorrow, brings the total up to nearly \$8,000,000, which is the greatest amount shipped in any one week since the begin ning of the year. The subtreasury furnished the specie for export tomorrow, but it is to be reimbursed by the banks. The process of returning to the subtreasury the gold which is withdrawn by shippers is very slow. Up to this afternoon only \$900,000 in gold had been sent into the subtreasury of the gold taken for shipment Thursday. said, however, that arrangements are now completed to return the specie promptly. The banks gained largely in curreacy this week from the interior movement the net receipts being estimated at \$3.500,000.
At the opening of the Stock exchange the market was weak. Sugar, which was put in per cent up on moderate sales, fell off i per cent, and for a while was held within

a small fraction of the lower figures, but on the receipt of buying orders from Wash-ington the stock took an upward turn, ad-vancing 3 per cent, to 99%. There was no particular news to affect the stock and the purchasing movement was not apparently engineered by the lastde clique, which had been bulling the shares. In the later dealings a reaction of I per cent took place, followed by a final rally of 15 per cent, making a gain on the day of 15 per cent. The grangers were fairly active, with St. Paul in grangers were fairly active, with St. Paul in the lead. The fluctuations in Burlington & Quincy, Rock Island and St. Paul were kept within a limit of 1 per cent, and lost from 14 to 14 per cent from yesserday's closing figures. Northwest broke 14 per cent to 104% and railled 14 per cent at the close. Considerable Atchwon stock was brought out today, the holders being unwilling to meet the assessment levied on the shares by the plan of reorganization. A new low level was established in the stock today, which touched 4%, a decline of 1% per cent from last night. During the last heur the market was unsattled but at the close was improving The bond market has been generally heavy

The Evening Post's London cablegram says The chairman of the London Atchison bond holders' committee has resigned, owing t the nature of the reorganization scheme. Th published details of the scheme equal the worst anticipations, but it may pass, though fears of foreclosure by the 4 per cent bondholders exist. But the whole Atchison business, from first to last, utterly disgusts English holders. The stock markets were idle and Americans were flat, led by Atchison, but the closing was above the worst. Market operators prognosticate no real recovery in Americans this year.

OMAHA LIVE STOCK MARKET

Arother Day of Light Receipts Shows a Great Falling Off for the Week.

CATTLE TRADE SOMEWHAT IMPROVED

Dealers Get a Little Nearer Together Over the Meager Offerings-Hogs Feel the Effect of Light Supply and Strong Demand.

COLORADO. 24 cows..... 785 1 65 HOGS-The market felt the falling off in receipts and the increase in the shipping demand today. Trade ruled active and prices averaged fully a dime higher than Thursday. There was a more favorable tone to advices from Chicago, and all classes of to advices from Chicago, and all classes of buyers were out early after supplies. Choice heavy and butcher hogs brought \$4.85 and common light and light mixed stuff sold down at \$4.70. Most of the ordinary loads weighing 240 and over brought \$4.80 and for the lighter grades \$4.75 was the popular figure. The market was active from the start and firmed up as the morning advanced, closing very strong. Most of the hogs changed hands at \$4.75 and \$4.80. Thursday's trading was largely at from \$4.65 to \$4.70 and a week ago today the bulk of the receipts went over the scales at from

\$4.55 to \$4.65. Representative sales:

CHICAGO LIVE STOCK.

There Was a Materially Lighter Supply of

CHICAGO, June 22.—There was a materially lighter supply of cattle in the yards today than oppressed the market yesterday and Welnesday. So far as prices were concerned, little change was apporent. Heavy steers, no matter how good, were neglected and weak, while for fair to prime light and medium weights the market was rather strong. Pales were princi-pally at from \$1.50 to \$4.00 for steers, with from

fair to prime light and medium weights the series of all kinds of stock continue light, the decrease so far this week, compared with last, amounting to 4,300 cattle, 14,500 hogs and 4,700 sheep.

Dealers were disappointed both at the quantity and quality of the offerings of cattle. There was little change in the market worthy of note. All classes of buyers displayed indifference, and, while it was possible to realize fully steady prices for desirable light and medium weight beeves, the heavier grades were in very poor request and thin, grassy stock hard to move at any price. It was a dull, dragging trade throughout and there were some, mostly common cattle, still in first hands at the close.

The cow market was practically unchanged. Dry fed stock ruled firm and grassers very weak. Calves were in poor demand, even at very low prices, and the market for rough stock was no better.

Stockers and feeders were slow sale, and if anything prices ruled a shade easier. There was not a very extensive country demand, on account of the duliness in the fair cattle market, all classes of deelers were bidding lower. Only a moderate volume of business was transacted, Good to choice from the country demand, and, on account of the duliness in the fair cattle market, all classes of deelers were bidding lower. ELKS AT ATLANTIC CITY. Grand Secretary Suspended and a Tempor-

ary Successor Appointed. ATLANTIC CITY, N. J., June 22 .- In the grand lodge of Elks a resolution to elect delegates from the floor of subordinate lodges instead of selecting the last exalted ruler was tabled. A charter was granted to the lodge at Moundaville, O., and a board of grand trustees was empowered to suspend the grand secretary from the functions of his office, and to appoint his successor pro tem. It was decided that a majority of the committee on laws and ap

peals shall consist of lawyers, their appoint ment to be subject to the grand lodge approval. A report was adopted that a per capita tax may be sent to the grand secretary by checks made payable to the grand treasurer.

The grand lodge at its afternoon session received the reports of committees, after which they fixed the salary of the secretary at \$4,000 a year and appointed a committee to prepare and report a new constitution at the next annual meeting. The charter the next annual meeting. The charter of the Springfield, Mass., lodge was revoked and a charter granted to Atlantic City lodge. E. B. Squires of Cleveland, O., who was sus-

7 hought Death Preferable. GALVESTON, June 22 .- William Foster, who was seized with convulsions while undergoing a surgical operation at the Seely hospital and whose vitality ran down so low that life had to be maintained by artificial respiration, found that he had lost the power of speech as well as of hearing. On leaving the hospital Foster thought that without these faculties life was not worth living and started toward the bay with the intention of drowning himself. Two mounted officers arrived in time to see Foster throw himself into the slip. He was fished out and subsequently taken home.
