DISTRICT COURT MATTERS.

The value of the stocks involved is about $150,000.

He will give two hours each day to bible instruction. Other men of God, such as A. J. Nathan, the Jew, Augustus Nash, formerly Young Men's Christian association state secretary, George S. Fisher, secretary of the World's Gospel union, and some representative of the China inland mission, as well as a number of returned missionaries, are expected to be present. As it is the object of this meeting to increase and deepen the interest in bible study and world wide evangelization the expenses are as low as it is possible to make them. The board and lodging, instruction and rent of grounds is guaranteed not to exceed $5 for each person for the eight days. For further information address C. P. Stealey, state secretary of the Gospel union, Lincoln.

AGITATING IRRIGATION.

Nebraska Farmers Will Not Remain at the Weather Man's Mercy.

NORTH PLATTE, Neb., June 22.—(Special to The Bee.)—The recent rains have not dampened enthusiasm for irrigation in this vicinity. New irrigation companies are multiplying and much practical work in the way of surveys and digging of canals already under way is being done. Two years of drouth has convinced farmers that irrigation, while not an absolute necessity in western Nebraska, is something more than a luxury. Since learning that irrigating canals can be constructed on low lands at a cost of $1.50 to $2.50 to the irrigating capacity of the canal and that the yearly expense of keeping the canal in running order is from 15 to 25 cents per acre, farmers are organizing for co-operative work. Eighty per cent of the cost of construction being in the item of labor, the labor surplus at the present time can be effectively utilized. Farmers living south of Brady Island recently formed an incorporation for work and will proceed at once to construct a canal forty miles in length that will irrigate 50,000 acres of the best valley land in the state.

In North Platte the Farmers and Merchants Canal company has been incorporated and engineers are already in the field perfecting surveys for ditches that will irrigate 40,000 acres lying west and south of here.

President Fort of the State Irrigation association is actively engaged in pushing the work. He reports Dawson county as equally alive to the importance of irrigation, fully 300,000 acres of Dawson county land being susceptible of irrigation at comparatively little expense.

HIGH WIND AT HEBRON.

Wednesday's Storm Swept that Vicinity and Other Localities.

HEBRON, Neb., June 22.—(Special to The Bee.)—About 4 o'clock Wednesday heavy black clouds gathered in the south, and shortly after 5 they were preceded by a terrific wind and clouds of dust. The wind moved with a velocity of forty miles per hour. During the storm the house of V. Buller was struck by lightning, doing but little damage.

The heavy rains of late have greatly revived small grain, and while it will not be a heavy crop it will fully average a good three-fourths crop. Corn is standing well.

WEST POINT, Neb., June 22.—(Special to The Bee.)—The heavy rains of yesterday and today have assured the corn crop, and hopes are entertained that the small grain may yet partially recover. The Plum Creek valley, north of town, is overflowed.

WILCOX, Neb., June 22.—(Special to The Bee.)—The drouth was broken today by over an inch of rainfall, which is in time to save the corn. Small grain will not make over one-fourth of a crop, but with favorable weather from now on the farmers here will have a large corn crop.

Regardless of the hard times and dry weather, this locality is experiencing a steady and substantial growth in the way of improvements.

BLOOMINGTON, Neb., June 22.—(Special to The Bee.)—It commenced raining here at 6:30 yesterday morning and continued until 10 o'clock. The small grain crop will be short, but corn promises to be a full field. The hay crop promises to be up to the average.

SECOND ROUND FOR BONACUM.

Ejectment Suit Against Father Corbett Will Go the District Court.

NEBRASKA CITY, June 22.—(Special Telegram to The Bee.)—The last suit against Father Corbett by Bishop Bonacum came up before Judge Eaton, being the ejectment case wherein the bishop seeks to gain possession of the Palmyra parsonage now occupied by Corbett. In opening, Corbett's attorney stated that under the statute such cases should be tried within ninety days of answer day; that the case had been postponed from time to time and June 14 was the last day upon which the case could be heard. The action, he said, would have to be commenced over from the beginning Judge Eaton overruled the motion and decided in favor of the bishop. Exceptions were taken by the defendant and the case will go to the district court, Father Corbett in the meantime giving bond for rent of the parsonage. This will further put off the settlement of this difficulty for five months.

Going Out of Business.

The Morse Dry Goods company is about to retire from business; a business established nearly as long as Omaha itself. The decision has been arrived at after deliberate consideration of the stockholders, the principal ones having so much other business that it is impossible to give the attention to the dry goods store that such an undertaking demands.

Through all the years of its existence it has been a splendidly managed store, carrying a stock unsurpassed as far as quality and styles are concerned, from ocean to ocean.

Thousands of dollars worth of goods have been closed out within the last two days, and if the crowds and prices keep at the present notch it will be only a question of a few weeks when the Morse company will have closed its entire business.
