#### Prof. Charles T Kent.

One of the most scholarly and liberal of he students of the literature of the bible is Prof. Charles T. Kent of the University of Chicago, who will lecture before the Chautauqua assembly, at Crete in July. Dr. Kent's lectures will be upon the poetic books of the bible. He will treat of the minor prophets, lecturing upon their times, in-fluences, environments and works. Admirative and appreciative need not weaken veneration and Dr. Keat will handle the books under consideration as he would touch any other

## EVIDENCE NOT DAMAGING.

Inspector Landergren's Case Heard by the Health Board Committee. The official investigation of the alleged misconduct of Sanitary Inspector Landergren, in threatening members of the council in order to obtain an additional appropriation to carry on the work of the Board of Health, proved to be a fizzle. The special

committee, consisting of Councilman Bruner, Health Commissioner Saville and Chief Scavey, met in the committee room of the council yesterday and heard the evidence in the case and will report the result at the next meeting of the board. The man who claimed to be threatened

The man who claimed to be threatened was Councilman Back, who said that Lander-gren had approached him in regard to the matter and had told him that he would make the council pass the extra appropria-tion. This was all the evidence that was

adduced against Landergren. Councilman Howell said that Landergren had merely talked to him with regard to the appropriation and had urged the im-portance of the work of the Board of Health. Jacobsen told a similar story, with the ad-ditional statement that Landergren had told him that he had no personal motive in speaking to him in regard to the matter, but that he was convinced that the work of the board was too important to the interests of the city to be allowed to drop for lack of funds. This ended the investigation and it is probable that the committee will recommend that Landergren be exoner-

#### Canceled Huse's Contract.

The failure of M. J. Huse to furnish lum ber of the required thickness for sidewalk construction has resulted in the action of the Board of Public Works in canceling his contract and the matter will come before the council for approval next Tuesday night. Huse submitted a very low bid on wooden sidewalks when the bids were opened last spring and the contract went to him without opposition. Since then the board has found it impossible to get any work done by the contractor. Huse delivered the lumber on several jobs, but in each instance the inspector decided that it was not two inches thick, as required by the contract. Conse quently no sidewalks have been built by the contractor, and something over a week ago the board warned him that if he did not begin the construction of sidewalks according to contract inside of a week his contract would be canceled. The contractor failed to get action and the threat was made good

If the action of the board is approved by the council they will at once readvertise for bids, and if no bids are received as low as that on which Huse obtained his contract they will let the contract and endeavor to hold Huse and his bondsmen for the differ-ence on the ground that it is expense incurred through his failure to carry out his contract. The contractor claims that it is impossible

at this time to procure lumber of the thick-ness required, but members of the board say that they have investigated the matter and find that the required lumber can be obtained, but that it costs \$2 more per 1,000 feet.

Standard Oil Company Wants a Show at Gas Trust Profits.

NEW YORK, June 23 .- The action of the Fulton Municipal Gas company of Brooklyn in reducing the price of gas to 90 centss per 1,000 cubic feet, beginning July 1, is construed in well informed circles as being the first move in a war of the Standard Oil company against the Gas trust. One of the strongholds of the latter is in Boston. Six months ago the Fulton company and certain members of the Fulton company and certain members of the Standard Oil company bought out the Brocklyn Gas Light company of Boston. Since that time the New York company has been laying new pipes all over the suburbs of Boston, and they now an-nounce that on and after July 1 residents of Back Bay, Roxbury, Brockline and Dorchester Heights can have gas at 90 cents per 1,000 cubic feet. Among the gas com-panies doing business in Boston are the fol-lowing, the treasurer of each being F. H. lowing, the treasurer of each being F. H. Addick: Bay State Gas company, Boston Gas Light company, Dorchester Gas Light company, Roxbury Gas Light company and the South Boston Gas Light company. J. E. Addick, president of the Brooklyn, N. Y., Gas company, is one of the photokyn, N. T., Gas company, is one of the principal owners of all these companies and he is represented in them by his relative, F. H. So far as could be learned the board has taken no action in the matter. Unless the dump is located by Thursday morning the court will have something to say in the matter, as it has been represented that the board intends dallying along until the court adjourns for this term, and after it adjourns nothing will be done in the matter. The attorneys for the men who are hauling garbage on their own account promise to keep the matter stirred up until it is settled, and that before the court adjourns

## BADLY BEATEN BY FOOTPADS.

Harry McCreary Slugged and Robbed in S ght of Home. Harry McCreary was slugged and robbed shortly after 10 o'clock Friday night near his residence at Twenty-Fifth and Manderson. His father saw him get off the car about 10 o'clock, but it was nearly 11 when he was found unconscious on the sidewalk. His wife heard the groans that led to his discovery. His head was cut and bruised in several places and there was evidence of a heavy blow across the nose and face. The most serious wound was at the base of the skull and the doctor who was called to attend him stated his belief that the skull was fractured. The unfortunate man had not recovered

consciousness at noon yestorday. When found his pockets were turned inside out, and his watch and what money he had were gone That it was the work of footpads there is not the slightest doubt.

McCreary was struck several blows, but it is believed that the first one rendered him unconscious and prevented any outery, as no sound of a struggle was heard by any one in that vicinity. The extent of his injury is not yet known, but his condition is regarded as critical.
