 Opening trades in wheat were at %c loss, and after advancing from 1/4c to 1/4c, gradually declined from %c to %c, became guite firm, advanced from 1 to 1%c and closed steady. The weak cables, strike situation, the larger movement of the new crop and the fine weather here and abroad all combined to create a bearish tone and everal long lines were sold out. The advance just before the close of the session was due to good buying and better closing cables. Shorts covered.

Corn was steady within 1/2c range. A decline in the middle of the session was caused by sympathy with wheat, but the market firmed up on buying.

Oats were weak on favorable weather and free offerings. The range was %c for July. Provisions were dull and easy with wheat, ompared with last night September pork is

Results of the Strike on the Market. Results of the Strike on the Market. CHICAGO, June 29.-Many of the commission houses at the stock yards regard the situation as serious and have notified their clients in lowa, Kansas, Nebraska, Missouri, Texas and other states not to ship stock unless the rail-road agrees to deliver the shipment and to be responsible for long delays, or responsible if there are any losses on account of delay. The re-sult is that the shipments have been stopped in many instances, and the price of meat is expected to take a rapid jump upward before long.

expected to take a rapid jump upward before long. Swift and company said: "We hardly know how the the-up will affect our business. From present indications it looks as if the results would be disastrous. Some of our perishable freight is on the read now, and we will hold the roads responsible if there is any damage. Last night we had to take a line of dressed beef cars back, being afraid to send them out. We could get no assurances last night that the railroads would get the shipment to the point designated on time. The situation is certainly a bad one."
