Impeachment Papers Filed Late Yesterday Afternoon-Animus of the Charges as Shown by City History and Character of the Schemers.

HASCALL AND WHEELER TAKE THE LEAD

At 4:15 o'clock yesterday afternoon Joseph R. Clarkson, a member of the firm of Hall, McCullough & Clarkson, filed in the office of the clerk of the district court a remarkable paper, purporting to be charges of impeachment against Mayor George P. Bemis, in which it was claimed that the executive had been guilty of misfeasance and malfeasance in office. This wonderful document was signed by Isaac S. Hascall and Daniel H. Wheeler, two members of the city council, and therein they alleged that Mayor Bemis should be deposed from the position which he occupies. In brief, the charges are as follows:

Official misconduct as a member of the Board of Fire and Police Commissioners in obstructing the enforcement of the law egainst gambling.

That he has conspired with certain persons to permit the running of gambling places

in Omaha in violation of law. That on April 21 he was guilty of mal feasance in office by spending several hundred dollars of city funds for Kelly's army after it had passed through Omaha and was

going through lows.

That he failed, neglected and refused to appoint a succes or to Mr. Cowgill as city electrician after the council had rejected the appointment of Mr. Cowgill, and left the office vacant.

That he was guilty of a misdemeanor in office by selling Bemis park, in which he was interested as owner, to the city of Omaha, of which he was mayor. That he was interested personally and as agent in the contract for the purchase of Bemis park for \$30,000, and drew \$29,750 thereon.

The fact that this document was filed a such a late hour, and when none of the judges were upon the bench, was a matter that was the subject of some animated discussion, it being thought that it was a trick to secure some snap judgment, known only to the main plotters in the scheme. A lively hustle was made during the evening to find some judge who would issue the writ prayed for, but none was found, and, as a result, th issuance of the writ will go over until thi

PLAN TO LOOT THE TREASURY. The announcement that Dan Wheeler and Ike Hascall had attempted the political life of the mayor of this city did not fall like a thunderbolt. Although commented upon to great extent, all of the comment was of a kind that was not complimentary to the two councilmen who had tendered their assistance in carrying out the damnable plot that was incubated by the corporate boodle ring. was denounced as a piece of dirty work while many of the citizens went still farther and unhesitatingly stated that the whole affair was nothing more nor less than the part of a scheme and the forerunner of an attempt of the corrupt combine to loot

the treasury of the city. Hascall, with his wonderful knowledge of the law, claims that if a judge of the dis-trict bench signs the writ asked for Mayor Bemis will be suspended and President How ell of the council will become the acting mayor until a final determination of the issues can be had. That question, however depends upon what the judge who takes the case may think of the charges which Has-call and Wheeler have drummed up for the

The charter of cities of the metropolitan class provides that when two councilmen shall prefer charges and specifications against the mayor the judge of the district court shall cite such officer to appear, and that the proceedings shall take precedence over all civil causes, and that the accused shall be tried by the rules of such court made and provided. The charter also provides that the judge may suspend the cused, but the whole matter of suspension

is left to the discretion of the court Taking the charter view of the situation it is doubtful if any judge upon the bench of this district cares to take upon his shoulders the responsibility of suspending Mayor Bemis with no more evidence than flimsy charges trumped up by two men who are known to be actuated by motives which have never been too honest, in these or any of their other public or political

HOW IT WAS HATCHED. During the last campaign the franchised corporations banded themselves together in their support of Ike Hascall for the position of mayor of this city, the agreement being to also support certain men for the council. Money was used as freely as water and all of the influence and means at comhand went toward the securing of the elecon of the ticket endorsed by the combine Hascall, however, was ignominiously de-cated, and for a time this was a black eye to the corporation gang, but within thirty ys after the result of the election had en declared the conspiracy to depose Mayor Bemis by bringing impeachment charges was hatched, the plan then being O get rid of him on account of alleged misdemeanors in office committed during als first term. The infamous plot had its quarters in the office of Solon L. Wiley of the electric lighting company, while the hindquarters were trailed up Farnam street located in the office of the World-Her-For some reason the plotters failed to show their hands to the public, but soon afterwards they instituted their crusade of morality and commenced the raiding of the gamblers, using this as a cloak and a disguise to cover the cloven foot that was to be put forward at a later date. Their failure to elect the president, of the council was a temporary check, but soon the schemers got their second wind and again jumped into the breach. It required two council to sign the charges, and a great deal of difficulty was experienced in getting the and man, Hascall, however, being ready sign anything that would have a tendency to throw the city government into the hands of the raiders. Wheeler was not the first man who was approached upon the subject of signing the charges, as another member was tampered with, he being taken up into the mountain, where he was shown a fair land, all of which he was promised, providing he would lend himself to the con This member, who at one time has had a connection with the World-Herald, was ap pealed to on the grounds of friendship, bu hen the hand was shown to him he turned it down with a flat refusal. Two other councilmen were offered a good round sum of money if they would bring the charges, but they refused the boodle, after which at-tention was turned to Mr. Edwards, who partially agreed to haul the chestnuts out of the fire, but coming to his senses he

like a balloon, but an occasion was arising and decisive action had to be taken, as desperate circumstances required desperate WHY THEY DISLIKE BEMIS. Mayor Bemis has stood as the bulwark between the treasury and the looters of the trong box and has balked the jobs at every prn. Only two weeks ago an omnibus rdinance went through the council pro-iding for the payment of a \$17,000 bill to s electric lighting company and an asphalt vement repairing bill for \$14,000. Both these claims were vetoed, but when they

came conscience stricken and refused to

oin the copartnership with Hascall. Finally the conspiracy seemed to have collapsed

of these claims were vetoed, but when they not back to the council the bill of the lighting company went over the veto with a burrah, but a sufficient amount of lubricator fad not been applied and the bill of the sphalt company failed to get the necessary number of votes. This temporarily disabled the gang, but the members threw out new lines and again resorted to desperate tactics, which they adopted yesterday.

Wiley, it would seem, is in sorry straits for money, but it is manifest that he does not dare to go to the courts to press his follows and ask for a mandamus to compel

or money, but it is manifest that he does of dare to go to the courts to press his laims and ask for a mandamus to compel he mayor to sign his warrant. Instead of oing this he finds that his chances are after by securing the assistance of a potton Guiteau like Hascalt. The emergency for the desperate act came

and the combine found this the opportune time for the ousting of the mayor. This is not the only reason that Hascall has for politically assassinating Mayor Bemis. If he can get him out of the way he will have a \$16,000 grading job that he has declared must be secured at all hexards, and owing to some of the circum-tances surrounding the deal he knows that he can never pull through it with Bemis watching over the treasury. Beyond all of this there is a member of the Board of Public Works to be appointed within the pext twenty-four hours, to say nothing of the four or five other important offices to be filled. Hascall and his co-workers in the dastardly scheme which they have concocted realize that if they can but out Bemis out they will have full swing and can run things to suit their own fancies Last, but not least, there is the city elec trician vacancy, and it is the evident in-tention to foist Wiley's man Friday upon the city through the back door of an acting

Regarding the charge of the appropriating of money to aid the Kelly Commonwealers It is known that it is too filmsy to be considered for one moment, as the money was oted by the city council, the warrant drawn on the treasury for the amount simply being signed by the mayor.

In regard to the gambling matter, it was

the outcome of the crusade and was in line with the course followed by the preceding mayors of the city, and coming down to the Bemis park subject, upon which Hascall and Wheeler place so much stress, the bonds for the purchase of the land were voted for this specific purpose three months before r Bemis became the executive of the In no way did he engineer the sale of the tract, being simply one of the smaller stockholders in the Bemis Park company.
