NEWS FROM COUNCIL BLUFFS

Queer Case of Mixed Up Memory that Set Free Two Criminals.

DAILY AND CARTER RELEASED YESTERDAY

Their Alleged Victim Instrumental in Giving the Men Their Liberty—Could Not Remember Faces Very Well on the Stand.

Daily and Carter, the two men who were arrested at the driving park during the last racing meeting, were brought out for an examination yesterday afternoon.

Charles Huber, it is remembered, found a man's hand in his pocket while watching the race. He grabbed hold of the fellow's wrist by a sudden movement and kept him until Officer Clear came up and took him in charge.

During the several minutes that elapsed Huber had a chance to examine the fellow's looks closely, and might have been supposed to remember that he was a small man, rather heavy set, with smooth face.

Yesterday, however, the fact was developed that a man's memory is likely to go back on him when most expected. Huber told all the details of the affair as straight as a string, until it came to give a description of the pickpocket.

The fellow was tall and slim, and had a sandy mustache. This description, however, had not been arrested until fully half an hour after Huber had turned Daily over to the police.

He stuck to the story in spite of all the efforts that were made to remind him of his mistakes.

As the prosecuting witness himself went back on the case in this queer manner, there was nothing left but to discharge Daily. Carter's case was then dismissed. Huber being nowhere to be found.

"Will you join me in requesting George M. Pullman to settle this great difficulty by arbitration? I have sent this telegram to the mayors of fifty cities."

To this Mayor Cleaver replied as follows: "I think it absolutely necessary for the government at once to devise some means for settling this Indian camp, in order to prevent, if possible, the recurrence of like conditions."

Mayor Pingree had evidently not decided himself just what he wanted to do. For Mayor Cleaver received the following from him in reply:

"Will you join in a petition to congress for the submission of an amendment to the constitution, if necessary, under which laws may be enacted for the submission of international disputes to arbitration? I have sent this telegram to the mayors of 100 cities."

Engineers on a Strike. The prevailing opinion struck the Manawa railway yesterday morning and there were no trains run either to or from the lake until 1:30 p. m.

The four engineers struck on account of a reduction in their pay by Manager Reed. The cause of the strike was a change in the schedule of trains. Under the schedule the men were to run from 5 a. m. to 3 p. m., and after that trains were run every twenty-two minutes until 11:55 p. m.

The engineers received 20 cents less per hour so were able to get along very well. By the new schedule Manager Reed reduces the number of trains from 9 a. m. to 2 p. m. to three, and runs trains from 2 p. m. to 5 p. m. until 11:55 p. m.

The engineers thought that to work nine hours for 60 cents at eighteen hours for \$2 was a little too much, and they accordingly quit work.

All during the morning people thronged the corner of Broadway and Ninth street waiting for trains to take the afternoon train. After a great deal of inconvenience to the public Manager Reed succeeded in getting them to take the place of the dissatisfied engineers, and a train was run to the lake at 1:30 p. m.

The Eagle laundry plant has been greatly enlarged and improved, and are now prepared to turn out a large amount of strictly first-class work, including and colored spirits, ladies' waists, etc., a specialty. We guarantee not to fade warranted colors. Telephone, 157, 724 Broadway.

Trains arriving and left yesterday for the Washburn for the first time in a good many days, running clear through to St. Louis. The condition of the Rock Island is nearly the same as it has been since last Sunday, with trains Nos. 1, 2, 3 and 4 running on schedule time.

Will Not Strike. The impression among local Knights of Labor seems to be that the general strike ordered for this morning at 7 o'clock will not particularly affect the people of this county. A meeting of workmen was held last evening at Liberty hall, behind closed doors, but from what could be gathered after the meeting it seems that the members of the union are not inclined to quit work on account of a sympathetic strike. They claim that they have no grievance, and, therefore, are not interested. The majority of these workmen are married men and own their homes here.

The foremen of the gangs in the several hedges among their men last night to ascertain what the men intended to do. Several small meetings were held, but no definite action was taken. At least the men had not decided yet what they would do.

Smiley Refuses to Smile. Mr. Smiley, a man who deals in dead hogs, was wrathful when he read in The Bee yesterday that all dead animals taken from the stock yards would have to be handled as hogs instead of as carcasses.

By an ordinance passed at a meeting of the city council Monday night.

"They are bound to run me out of business," he said. "Cooking and smoking the hogs is the way to get the best of the hogs. They can go to Alaska with their ordinance for all I care. I propose to continue to handle the hogs as I have in the past, and if they want to arrest me, let them do so."

Just then Councilman Ryan hove in sight and Smiley gave him a cold stare. It was useless for a poor devil to try to do anything, with a city council that was owned and controlled by corporations. Mr. Smiley one of his third ward smiles and walked away.

Thieves Continue to Plunder. The police have so far been unable to detect the gang that has been robbing right and left in this locality for the last three weeks.

Monday night a rocking chair was stolen from the sidewalk in front of Mr. Tickner's store at Twenty-seventh and N streets. Mr. Tickner had been resting in the chair and while he stepped in the house for a moment some one got away with the chair.

It was supposed that the thief had been carrying the chair to the place and carried away a large-sized milk can filled with milk. After using Mr. Tickner's chair to help him get up the stairs, the thief wanted to steal, they blew out the lamp and even took it along.

It was perhaps the same gang that made a detour to the house at the large smoke house at the Hammond plant. While in the act of prying open a window they were discovered by a watchman and driven away.

A Forger with a Nerve. There is a young man who lectures the common of J. M. Sessions, who has a gall that would look well in a frame. A short time ago he drifted into Otto Maurer's saloon and passed a forged check, securing \$18. A warrant was issued for his arrest, and the police were looking for him for the last few days. He signed the name of F. E. Short, Jr. son of R. R. Plane, was arrested this morning on the charge of forgery.

He confessed the crime, and also to bring a large number of buildings, extending over a period of several months, and was sent to the reform school, but was released on account of ill health. He has a human body, but lacks the human heart, no effort to cover his tracks or express any regret.

Big Day at the Yards. Yesterday was the biggest day in the history of the South Omaha stock yards, in so far as stock receipts were concerned. The total number of cars received was 489; 327 cars contained cattle, 161 contained hogs and there was one car of sheep.

The largest number of cars ever received in the South Omaha stock yards, and the sales were not any more extensive than they have been on days when the receipts were high.

AFFAIRS AT SOUTH OMAHA

Number of Packing House Employees Who May Go Out is Uncertain.

CERTAIN DISSATISFIED MEN MAY QUIT

Several Small Meetings Held Last Evening but No Action Taken—Record Breaking Stock Receipts at Yards—Magic City Gossip.

There are over 3,000 logging men employed in South Omaha, and the result of a request calling all of the men out today can only be guessed at.

The men in the packing house are not getting out at all times by a long way, and this fact may have a tendency to induce some to strike who would otherwise stay at their posts of duty.

The majority do not belong to the Knights of Labor or any other society. Those who are perfectly satisfied with their wages and hours will be likely to remain in and the others may quit.

One of the foremen in a large packing house said: "A few days ago, when this strike was first talked of, there was not half a dozen men who spoke of walking out to help along the strike. Since that time the papers have had so much to say and the situation has been so thoroughly discussed that there is now such a strong feeling of sympathy for the Pullman strikers that I would not be surprised if a good many of the men would quit today if they are requested to do so by organized labor."

"Will the men who walk out be discharged or asked to quit?"

"I cannot say as to that. My idea would be to pay them off up to date, however, and then when the trouble is over it can be determined what will be the casualties. If any of my men quit work I will certainly pay them off."

But little slaughtering has been going on at the local hedges since the strike. The bulk of the hogs bought on the market have been reloaded and shipped east. As a consequence great many of the hog dealers and packers have been out for the last three or four days.

The packers have increased their force of men, and they are doing their best to get through any particular part of trouble, but it is simply a step of precaution.

The packers have their cellars and store rooms crowded with hogs, and they intend to kill any more at present, as it is still uncertain whether or not cars can be secured to carry the product away.

Toward the end of the week the Stock Yards company, who do all the train work for the packers, seem to be very well satisfied with their lot. It is doubtful if one of them could be induced to quit work on account of a sympathetic strike. They claim that they have no grievance, and, therefore, are not interested. The majority of these workmen are married men and own their homes here.

FOR SAFE KEEPING LAST NIGHT ON THE ADVICE OF FRIENDS, WHO SAY THAT HE HAS RECENTLY BECOME DEMENTED.

Waltmire left his home last night before his friends could get to him, and said he was going to South Omaha and purchase a suit of clothes for his mother, who was at the corner of Sixteenth and Davenport streets by Officer Durr's side, who tried to buy out a fruit stand and a saloon, offering to pay for the same with a check. He said that he had left the check on a seat in a street car, and every time one would pass he would jump on and ask the conductor for his alleged valuable piece of paper.
