STRIKE RUMORS THE LEADING FEATURE

Corn Was Quiet with the Exception of a Sharp Advance in July on Cover-Ings by Shorts-Onts Advanced Early.

CHICAGO, July 11 .- Wheat went up with a rush and down with a thump today, mainly on conflicting strike rumors, closing Mc lower. Corn closed 36c higher for July and unchanged for September. Oats finished 36c lower and provisions at a slight decline.

Wheat opened at from 1/4c to 1/2c advance, and, after selling down from 14c to 14c, ral-Hed from %c to ic, eased off 1%c, changed some and closed easy. The firmer feeling was influenced some by the bullish government report, but more particularly by the stronger tone of cables. The sharp advance after the opening was due largely to the rumor that the strike had been settled, and, upon the denial later, the price sagged back and lost the early advance. Trade was fairly Corn was quiet, with the exception of a

Corn was quiet, with the exception of a sharp advance in July on covering by shorts. The range for July was 2½c.
Outs advanced early, but reacted later on selling. The range for September was 5½c.
Provisions opened early on liberal offerings, later becoming steady, but duil. Compared with last night September pork is 2½c lower, September lard 5c lower and September ribs 2½c lower.

OMAHA GENERAL MARKETS.

Staple and Fancy Produce. market on country produce was rather

quiet yesterday. The receipts of most kinds of country produce are large enough, and there is no apparent reason why the market should not show more life, except that the shipping trade has been cut off very largely by the rallroad The demand for butter was not large yesterday

and the packers did not appear to be at all anxious whether they bought anything or not. The market was about steady at the decline The erg market is very weak, and while some

dealers are still trying to get the old price for their best eggs, other buyers claimed that they could get all they wanted at the price they could get all they wanted at the price quoted below. Receipts are rather on the increase, which helps to weaken the market.

The market on poultry did not show any change yesterday, except that spring chickens were hardly so strong.

VEGETABLES.

Polatoes, tomatoes and water melons are about the only kinds of vegetables that are being received from a distance. Other kinds of vegetables are being furnished by the local growers, and they are supplying no small perportion of the potatoes in addition.

The general market on vegetables is slow, and there is not much life to the trade. The railroad companies gave notice yesterday morning that they would receive perishable goods, but the amount of shipments were not large, as the trade has been in such shape during the past few days that orders have not been solicited.

FRUITS.

The situation in the fruit market does not show any change. The market is almost bare of fruit of all kinds. There were a few black-berries in this morning, and that was about the sum total of freah receipts, though there were a few lowa cherries brought in by nearby growers. The market is well supplied with bananas, and there are enough lemons for present requirements, and that about includes all that was to be had, in the fruit markets yesterday. Business was practically at a standstill at many of the fruit houses, and it seemed like a Sunday.

Active Day on 'Change Notwithstanding Periods of Depression. NEW YORK, July 11 .- This was an active day on the Stock exchange, and although there were periods of depression, taken as a whole the market was in good tone and a very general advance in prices was the result of the day's trading. Occasional bear raids were made on certain stocks, notably Chicago Gas, but Sugar and St. Paul were also attacked without sending their prices below the opening. News from the various strike centers became improved in tenor, and as speculative operations are for the present mainly governed by the labor situation the trading gained

in strength with the reported improvement in the railway camp.

The failure of the general strike ordered Grand Master Workman Sovereign was a factor in the stock market, and was to some extent regarded as the beginning of the end of the railroad strike. Sugar, which furnished more than a third of the total sales, was strong at the opening and in such good demand as to cause the shorts to cover with a celerity that sent the stock speeding upward at a rapid galt, an advance of 3 per cent having been recorded before noon. At the higher figures there was some realizing, and a reaction of 1 per was some realizing, and a reaction of 1 per cent took place in the afternoon, but on new purchases, some of which were made on Washington orders, a higher level— 39%—was reached, being a gain of 1½ per cent, the closing sale being at a figure only ¼ per cent below the best of the day and 2% per cent above the closing price of yesterday. Orders to sell Chicago Gas were on the board at the opening, which were on the board at the opening, which sent the price down % per cent to 72%, the selling being by timid holders, who feared the consequences of a general strike in Chicago. There were good supporting orders at the decline, and before midday a gain of 1% per cent was effected, follo by a reaction of 1/2 per cent and an adby a reaction of ½ per cent and an advance of 1½ per cent, bringing the shares up to 75, with a final reaction of ½ per cent, the advance on yesterday's closing price being 2 per cent. St. Paul lost ½ per cent at the opening, but quickly raited, and on a brisk purchasing movement, in which London was prominent, sold up 1½ per cent, with a final reaction of ½ per cent. Burlington, after an opening decline of ½ per cent, rose 1½ per cent, subsequently receding ½ per cent. Rock Island fall off ½ per cent at the opening.

Island fell off & per cent at the opening,

sold up to 1% per cent, and reacted % per cent. Northwestern made a gain of 1% per cent, closing at the highest. The improvement in the grangers was largely due to the excellent showing of the corn crop in the government report, made corn crop in the government report, made public last evening. The general market was strong as a rule during the afternoon, the best figures of the day being current just before 2 o'clock, after which realizing caused some fecessions, which were partially recovered, the speculation being decidedly firm at the close, with prices mostly higher than the last figures of yesterday.

Pullman made the greatest gain, 5 per cent on purchases of 900 shares. The additional \$500,000 Western Uulon stock listed on the exchange was issued for the purchase of the American Rapid Telegraph

chase of the American Rapid Telegraph company, which had been one ated by the Western Union on a lease, but which was recently bought under forselesure. The lond market was firm during the morning, but was easier in the afternoon, closing rather heavy. The principal changes for the day are: Declines—Louisville, St. Louis & Texas firsts, 3 per cent; Northern Pacific seconds, 2% per cent; Northern Pacific thirds, 2½ per cent; Northern Pacific Montana firsts, 1 per cent; Wabash seconds, 2½ per cent; St. Paul, M. &. M. consols, 2½ per cent; St. Paul, W. & Ms., 2½ per cent; Chicago, St. Louis & New Orleans, 2 per cent; Southern Pacific consols fives I per cent; sols, fives, I per cent.
Advances—Wisconsin Central firsts, 2%

The Evening Post says: The stock mar-ket was not slow in its response to favor-able developments in the labor situation. As the preceding weakness in the market had been only slight, so the reaction was not at all sensational. There was not a continuous movement of activity throughout the day; at times transactions on the market ceased as completely as they did at times on Tuesday. But values nevertheless recovered promptly and decidedly; the advance was general throughout the list.

The Evening Post's London cablegram ays: The stock markets were still stagsays: The stock markets were still stag-nant today, but marked by a more cheer-ful tone. Americans closed near the best. The difficulties apprehended at tomorrow's settlement are not connected with the American market. South American stocks improved on a fall of 6 points in the Argen-tine gold premium. The India council sold 55 lakhs of rupees today at rates rang-ling up to 12, 29, 294 ing up to 12 29-32d.

Feesigts of Hogs Furpess Any Previous Tay in the History of the Yards.

CATTLE TRADE IS STILL IN BAD SHAPE

Buyers Inclined to Great Caution, Making it Hard for Sellers to Get Rid of Stock-Hogs Active and Lower.

WEDNESDAY, July 11. Again the records at South Omaha have been broken in the matter of receipts. There were 248 cars of hogs, or 16,866 head received today, which was the largest in the history of the yards. For the three days this week 31,000 hogs have been received. The receipts of cattle were 83 cars, or 2,153 For the three days the receipts head. were 13,000 head. While the fresh receipts of cattle were

only moderately heavy, there were 5,100 held over from the day before, making a total of fully 7,000 head on sale. The great bulk of these cattle were native corn fed beeves. The market opened in bad shape. There was everything against the seller and nothing to stimulate the buying. The threatened walkout of the trades unions at Chicago and at other points made every one cautious, and there was very little done before midday. The railroads gave shippers some assurance by announcing that they would receive cattle for Chicago, but as every one was predicting that the market would be overrun, there was not much in the announcement to stimulate prices. Some of the most desirable cattle sold at about yesterday's bids, while a good many more cattle sold 10c lower than was offered for them at one time yesterday. A good many were left over, and the shipments in first hands will be larger than usual. Butchers' stock, like beef cattle, were

lower, and the feeling was very weak.
Stockers and feeders were slow, and while there were a good many would-be buyers in the yards, the market on fat cattle was so discouraging that very little trading was done. Representative sales: DRESSED BEEF.

INDIAN TERRITORY. 104 steers.... 888 2 60 . 688 2 10 HOGS-Including the fresh receipts and the holdovers, there were fully 18,000 hogs on sale. The shippers opened the market by paying \$4.90 to \$5.00 for a few of the best loads early in the morning. The packers and the most of the shippers were bidding low and the bulk of the offerings changed hands in fairly good season at \$4.75 to \$4.80. Although the market was weak for a time, the close was strong. A few loads were held over unsold, largely upon orders of owners, who did not feel satisfied with the prices. The general market could

CHICAGO, July II.—The arrivals of stock were comparatively limited today, less than 100 car-loads arriving, but as they were the first re-ceipts by rail since July 2 the effect was reas-

celpts by rail since July 2 the effect was reassuring.

Teday 21 cars of cattle were shipped and 5 cars of hogs.

Prices were much weaker today. The sharp declines yesterday at western points and the prospect of increasing receipts from now on gave prices an unmistakable downward tendency. Buyers kept off for concessions, and the few sales reported were at lower figures than have been current for some days past. Quotations are nominal at from \$1.75 to \$5.50 for caltie, from \$5.25 to \$5.75 for hogs, and from \$2 to \$4.50 for sheep. Kansas City Live Stock Market.

TOOK TANK KEE IMTO CUSTODY. Expressed His Desire to Be So Taken In Long Telegraphic Messages. Tank Kee is in town.

Although Tank Kee is known from the Atlantic to the Pacific and from the British line to the Gulf of Mexico as the greatest living Chinese lecturer, the simple fact is that he never saw China, having been born down in Sangamon county, Illinois, where he was reared and raised by a family of Germans. This fact, however, has nothing to do with Tank Kee's visit to Omaha upon this particular occasion. Tank Kee has been in the city many times before, always posing as an orator and a lecturer, but this time he comes in a new role, being in the cus-tody of Mike Healey, a deputy United States marshal, and, by the way, one of the best boys of the Hawkeye state.

Once upon a time Tank Kee had money to throw to the birds, so to speak, and he threw it until now, speaking in the language of the street, he is walking upon his uppers At the time when Tank Kee was flying up among the clouds he struck Cedar Rapids Ia., and was so pleased with the town that h concluded to pitch his tent. The good people of the town coddled him up, making him think that he was the greatest being upo this mundane sphere and feeling that he ought to do something in return, Tank Kee donated to the Masonic library his entire collection of Chinese curios, which was accepted over a banquet board and with much pemp and splender.
Time rolled on and things commenced to

run down at the heel, Mr. Kee being in the procession and keeping well up toward the head. The Chinese lecturing business was not what it had been in years gone by and couple of weeks ago the almond-eyed gan tleman from Sangamon county dropped into the library at Cedar Rapids and informed the library at Cedar Rapids and informed George B. Parvin, the gentleman in charge, that he had come for the false gods and chop sticks which he had left there some years before. Mr. Parvin told Mr. Kee that a gift was a gift and as evidence of the fact he flashed a bill of sale, signed with a tea chest hieroglyphic before the Americanized selection. celestial. For a moment this took the wind out of his sails, but quickly recovering, he pulled a gun and commenced shooting great holes in the air. In his wild career he shot so near Mr. Parvin that that gentleman vacated the building and turned the whole thing over to the shooter. In a short time the populace congregated and declared that the Chinese must go. This was not neces sary, for the Chinese had taken time by the forelock and had gone. For a time his whereabouts continued to be unknown, but one day he telegraphed back that he was tired of being a fugitive and wanted to re-turn. The telegram was turned over to Healey, who at once wired, "You can come When Tank Kee received the telegram he wired back some 10,000 words, giving a history of his life, at the same time acting up his defence in detail. This measure was sent collect. To this another telegram was sent to Joplin, Mo., Mr. Kee's abiding place, telling him to use the mails and not the wires, as Uncle Sam had a strike to put the wires, as Uncle Sam had a strike to put down, and needed all of his spare change. Instead of following the advice. Tank Kee sent another collect message, in which he gave a full and complete history of the wrongs his people had been compelled to suffer, ending with the suggestion that if he was to be captured, the capturing would have to take place instanter, as he intended to change his place of abode. Fearing that additional telegrams might reduce the treasury surplus. Deputy Healey started for Jopury surplus, Deputy Healty started for Jop-lin a couple of days ago, first wiring Kee to meet him half way and at Council Biuffs. Yesterday the two men met at the trans-fer at the Bluffs, after which Tank Kee was arrested and brought over to this city

and quartered at the Paxton, where the en-tire day he occupied an arm chair in the rotunda, his greatest fear being that the
