The sheriff claims to have sufficient evidence to convict the man under arrest (Str.ker Warden) of derailing the eastern overland train yes terday which resulted in the death of the engineer and four privates and the wounding of seve al others. He was seen with three other strikers, who have also been appre hended, driving in a wagon Tuesday night to the scene of yesterday's disaster. The team was hired from Wilson's stable on K street, and it is claimed Worden was heard to remark that he had enough dynamite to blow the train to heli.

Strike Over at Los Angeles.

LOS ANGELES, Cal., July 12.-So far as Los Angeles is concerned the strike is over. Even many of the strikers admit that the strike is a thing of the past. The Santa Fe strikers are hastening to put in applications for their old places. Freight trains are run-ning all over southern California and passeager trains, with few exceptions, are running as they did before the strike. The Santa Fe is regularly sending out its over lands with a complement of troopers and deputies aboard each train. The greatest event of today was the departure of a Southern Pacific passenger train for San Fran-cisco. Shortly before noon the train pulled out of the Arcade depot for the north. It was the first train sent north in twelve days All local trains are running on the Southern

Railroads Resuming Operations-Everything Looks Favorable In the West. Ratiroad officials were feeling a great deal happier yesterday than during any day of the past fortnight, the general impression being that the backbone of the strike was broken, so far as Chicago and the trans-

missouri country were concerned, Passenger and through freight trains arrived and departed on time, and the business of the various railroad companies centering here was reported at nearly normal condi-All Chicago roads are now taking perishable and other freight, including live stock, for all points on their systems, in-cluding the Union stock yards, Chicago, While some of the roads are still compelled use the Elgin, Joliet & Easern, the "Oute Belt line," as it is called in Chicago, for eastern connections, it is thought that everything will be running without a single hitch

The situation on the Union Pacific was very much brighter than for many days, the operating department opening up far west territory which has been shut off from the outside world for a week past.

Superintendent Bancroft, in a telegram to General Manager Dickinson, stated that everything was quiet at Evanston, Ogden and Salt Lake, and that passenger and freight trains were being handled promptly and without trouble. No. 2 left Ogden on time yesterday, No. 1 leaving Granger twelve hours late on account of slight washouts near Granger. The train which left Ogden about midnight with a number of companies of United States troops on board had not at the time of the filing of the tele gram covered 150 miles of territory west o From a telegram received by The Bee

from Ogden confirmatory of the exclusive information published Wednesday in this paper, companies of the troops referred to will be stationed at Truchle, Wads worth, Reno and Carlin, until the Central Pacific is open from Ogden to Oakland. All rail communication with the Coem d'Alene country is broken and a general strike, according to dispatches, has beer ordered from Tekoa to the mines. This portion of the western country, which was formerly a part of the Union Pacific, but now under the management of the Oregor Railway and Navigation company, has beer under water a good portion of the last six weeks and the surprise is that the railroad employes should want to go out after having been compelled to suspend work for weeks The engine crew which carried the train to Tekoa Wednesday had orders to stand by the engine during the night and to keep up fires for the outward trip yesterday. But there was a grave doubt that the crew would be permitted to obey orders.

General Manager Dickinson stated that

he knew little of the situation on the Oregon Railway and Navigation company, Received McNeill having taken possession of the road July 3, it having passed entirely out of the control of the Union Pacific company at that

be continued along the Union Pacific Mr. Dickinson stated that the matter was wholly in General Brooke's hands. He thought however, that they would remain until all appearance of trouble was dispelled. The Union Pacific is now being guarded

with troops as follows:
Pocatello, companies B and F, Seventeenth infantry, Captain Roach, Lieutenant Grum-ley; Captain Chubb, Lieutenant Smith. Rock Springs, companies D and G, Sev enteenth infantry, Captain O'Brien, tenants Johnson and Perry: Captain Rogers. Lieutenant Davis.

Evanston, company C , Eighth infantry of Fort Robinson, Captain Corliss, Rawlins, company D, Eighth infantry of Fort Robinson, Lieutenant Hubert. Green River, company B, Eighth infantry of Fort Nichtrara, Captain Wilhelm. Laramle, company G, Eighth infantry of ort Niobrara, Captain Hayden.

The mines at Rock Springs and Hanna vere opened Wednesday, all the miners at both places returning to work as soon as traffic was resumed and engines provided for moving cars. A representative of the A. R. U. labored industriously at Rock Springs to callst he miners in the strike, but so far as can be learned his efforts were not crowned with success in making of the opening up of the Union Pacific, all the mines in operation before the Pullman boycott was begun are now actively being worked.

SITUATION REVIEWED.

All Eyes Turned Toward the Meeting of the Federation of Labor.

CHICAGO, July 12.- The strike situation throughout the country today was in general one of quietness. The central points of interest have been the meeting of labor leaders, with President Gompers of the American Federation of Labor at their head, in this city. It is admitted that the action of that body, if taken unanimously, will have a marked effect on the situation, and persons well informed as to the predelictions of the persons composing it express the opinion that unanimous action by it, except in the reaction of quieting the present agitation or turning it into other channels, is unlikely It is known that several suggestions are being considered by these leaders. Among them are the following:

First That the striking Pullman employes, n high patriotic grounds, appeal to President Debs to declare the strike off be of the infinite damage which is being done to the business of the country.

Second. That the leaders unite in an appeal to the public to quit patronizing Pullman sleeping, drawing room and dining cars Third. That President Cleveland be quested to appoint a commission to investigate the strike and the causes which led up o it in expectation that the report of such a commission would justify the action taken by the strikers and free them from charges

f rioting and disorder. That immediate efforts be made Fourth to secure the impeachment of Attorney Gen-Fifth. That an effort be made to secure

the passage of a compulsory arbitration law by congress. Sixth. That complaints be lodged looking to the indictment of the railway managers for conspiracy to obstruct the movement United States mails by refusing to run mail cars except in connection with Pullman cars.

Union Machinists Walk Out. CHICAGO, July 12 .- At noon today the union machinists threw down their tools and joined in the general sympathy strike which was inaugurated yesterday. As usual in such cases, the strike affects the large shops much more than the smaller concerns, where

only a few men were employed. Promptly at 12 o'clock the 700 men employed by Fraser & Chalmers laid down their tools and went on a strike. Before doing so they had notified President W. J. Chalmera of their intention and had held a long co ference with him, in which the men had stated their position. They said they had no complaint against the company nor any grievance of any kind, but had been ordered strike out of sympathy and would do se

to show their sentiments.

Mr. Chalmers made a speech, in which he said he hoped that the strike would cause no hard feelings between the company and its employes, and, with a handshake and well wishes all around, the men left, and where a few minutes before the big shop had been bustle and confusion all was silent. Over 100 men employed by the Gates Iron company walked out at the same hour and a

number of other shops were affected. Organizing a New Sleeping Car Company. ST. state. Grand Jury Reads Debs' Dispatches. CHICAGO, July 12,-Telegrams sent by E. V. Debs to his agents ordering strikes or various roads were read to the federal grand jury today. A reporter for an evening paper testified to several speeches and interviews in which Debs is alleged to have outlined his plans to tie up the roads. E. M. Mul-ford, manager of the Western Union, produced a large package of telegrams written by Debs to agents of the A. R. U. on different roads, and particular attention was paid to the dispatches sent after Judges Wood and Grosscup had issued their injunction ordering strikers and rioters not to interfere with the operation of the roads taken at that moment under the protection of the court. Debs' telegrams were in some in-stances to persons on roads now in the hands of receivers. Those who profess to know say the evidence of Debs having violated the injunction is contained in the dispatches.

Ind eting the Str kers at Tacoma-TACOMA, Wash., July 12 .- C. A. Barnes, ex-chief clerk of the freight department of the Northern Pacific, was arrested today for contempt of court. The complainants, George Hunter and A. C. McClelland, claim he tried with threats and intimidations to inducthem to quit working for the company. He was held in \$2,000 bonds by Judge Gilbert for a hearing tomorrow. Just after Barnes was taken into court the federal grand jury brought in an indictment against him the same charge. Barnes had a good position. Officers of the road claim he induced the freight clerks at the wharf to join him in quitting them. He is understood to be a member of the A. R. U. and was one of the first men here to quit. It is expected that ndictments against others of the strikers will be returned tomorrow.

Introduced the Pony Express. EVANSTON, Wyo., July 12 .- (Special to The Bee.)-During the tie-up on the Union Pacific the people in this section were cut off from communication with the outside our from communication with the outside world, except by telegraph, and no daily papers were received for several days. Messrs. Alvin Moore, Norman Dempsey and Paul Wilkinson, three enterprising young men of Evanston, conceived the idea of es-tablishing a pony express between this city and Park City, Utah, in order to get Salt Lake papers. These papers reach Park City at 10 o'clock in the morning of the day o' publication, and by means of the pony ex press the boys were able to get them into Evanston at 6 o'clock the same day. The papers found ready sale at 25 cents each.

To Open Union Pacific Shops. LARAMIE, Wyo., July 12 .- (Special to The Bee.)-It is believed here that the Union Pacific officials are making preparations to open the shops. The shopmen are all being called on and requested to report to the ma ter mechanic whether they will return to work in accordance with the order of Judge Riner or refuse to do so. The offi-cals desire to know how many men are ready to go to work. About 50 per cent of the employes here have signified their ingness to resume work as soon as the shops

Gratified at Cleveland's Latest Move. CHICAGO, July 12 .- On being shown the telegram announcing President Cleveland's purpose to appoint an arbitration board, Mr "We are very much gratified to pear of President Cleveland's decision. It is to be hoped that the board will be promptly appointed and organized and that its work will be prosecuted vigorously to the end of the existing conflict. We are of course for arbitration, and have been from the begin ning, and had this principle been recognized this strike would have been avoided."

Traffic Revived at Cedar Rapids. CEDAR RAPIDS, Ia., July 12 .- (Special Telegram to The Bee.)-The stagnation which came with the strike is passing away. The railroad yards, which have been practically closed, were active today. The Burlington, Cedar Rapids & Northern began to take freight north as far as Minneapolis and east for every station on the Rock Island west of Blue Island avenue. About a dozen trains were sent out during the day.

Pottery Workers Strike Ended. WASHINGTON, July 12 .- Through the good offices of Senator Smith of New Jersey the strike of the pottery workers, involving about 7,000 laborers in New Jersey was settled, and as a collateral effect the difficulties in the same trade in Ohio, volving about 5,000 men, will probably be settled. The potters went back to work this morning at a reduction of only 2½ per cent on the scale paid before June 1.

Strikers Must Return Today. TERRE HAUTE, Ind., July 12 .- Notice posted up in the Vandalia vards today, signed by John G. Pa's bronzed and brawny sons are once more perched upon the apex of the monument, where they climbed by taking Doctor Kniesley's weary Saints by the nape of the neck and the fundamental basis of their pantaloons and wallowing them around upon the pulverized earth three times in suction. The last game was played yesterday after-

noon, and notwithstanding it was hot enough to bake a hen, it was an ideal summer day all the same, one of those kind when everybody wants to be out doors where they can hear the chirping of the little grasshoppers and feel the freshening breeze fan their intellectual brows and curl in and out among their whiskers.

As before intimated, the Rourkes won, and everything was bright and entrancing at the Charles Street park. The mellow warmth of the dog days immersed field, grand stand and bleachers in a minglement of such soft and soothing hues as living artist could never hope to reproduce upon lifeless canvas. Not a fleck of vapor marred the blue expanse above, and the winds from the south were fervent enough to boil potatoes in. In appreciation of this lovely meteorological condition the largest week day crowd of the season was out, hundreds of whom were ladies. In fact the grand stand was a veritable parterre of brightness, color and beauty and it couldn't have been anything else but the presence of all this beauty that spurred Sammy McMackin on to such a picturesque piece of pitching.

While this young college graduate is deserving of the most unstinted commendation, it wasn't his reticulated curves alone that carried the day.

THERAPEUTICAL VALUE OF BASE HIT. The Rourkes' little sticks had considerable to do with it. Pa had purchased a new lot, and they contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves.

A base hit, as every living crank knows is one of the greatest things in life, particularly if made at the right time. It is an unfailing specific | for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, pervous prostration, palpitation of the heart. pale and sallow complexions and all diseases resulting from vitiating humors in the blood. Anyway that is what Dr. Kniesley told his gang just before the game began.

And the doctor was emineutly correct. With his characteristic punctilliousness, General Jackson Haskell tapped a new ball precisely at 3.45, and Johnny Johnson, that erring and misguided youth from Podunkville, took his position and a mouthful of fine cut in the little square in the center of the diamond. Johnny was full of hope and confidence

and prunes, and he swore that he would win the game or pitch his crystal arm off. He kept his word. When he left the park in the melancholy gloaming he had but one arm—he left the other one in the refresh-ment booth for Ike Miner to stir his lemon-Johnny would be rather a nice looking

fellow if it wasn't for his face; when you see that you want to rush for the gunwales. What Dr. Kniesley wants to do with Johnny is to lead him away and feed him In the course of a few years he may be fat ugh to kill. his position over the can. He never said a

Taking a pony of oatmeal, Kid Seery took ord, but stood and looked at Johnny way that made his heart beat thick and fast. He had a new log, about the size of a horse's leg, and everybody expected to se him bust the ball. All he did, however was trundle one down to Mohler, was blotted out at first. Then all the ladies clapped their hands, but whether it was be cause Seery had been jostled aside or because Lily Langtry Langsford hove into view I

won't say. TWO OF A KIND.

Anyway, Langy smiled as if it was meant for him, lifted his off foot into the air once or twice, then shot a swift one out to Mc-Kibben and joined the youthful Seery on the bench. Hutchison and the Saints came in Hutchison could do no better They lasted just so long.

Mohler knocked a few knotholes into space and Paddy Boyle attended to both Cole and Preston firing Archie out at first and eating the big third baseman's fly, hide, tail and

The second was inaugurated by Captain Mac swinging his omnibus pole hard against one of Johnny's first prizes. There was a sort of a veiled cadence, half distant, yet full of that familiar tenderness that no crank has ever been known to resist. The ball fell among the gamopetal us p'ants

in Mrs. Smiley's back yard across Seven-teenth street, and Captain Mac loped like a wounded ostrich around to second. Then all the men and boys shouted and the ladies waved their point lace handkerchiefs, they did so love to see Mr. McVey apply his large elegant feet with such rapidity to the surface of the Fifth ward.

But one little tally was all we got, after all, for after Mac had galivanted home on a couple of bungles by Johnny Johnson and Horace Hollingsworth, Fear, Hoyle and Mc-Mackin were put aboard the hog train. For the Saints Judge Cooley tied the score. Sammy refused to allow him to touch the ball, so he walked, and then after two men out he was driven over the plate by

McKibben's two bagger. Then the first real explosion came. It was an inning when smoking was permitted on the three rear seats only. LAST OF JOHNNY JOHNSON.

Again Kid Seery arrayed himself at the plate. His face bore a look of that awful anxiety a married man feels when he goes home at 1 in the morning, pulls off his tan shoes and tip-toes up stairs into his wife's lair. Uttering a sort of a low wall he crouched, then hopped onto one of Johnny's hand-painted slants and knocked the scales off of it. He only walled a moment, and off of it. He only scatter a moment, and then while McFarland was plugging up the hole the ball made in the air the Kid gathered himself up in his arms and hur-riedly fled to first. Lify Langtry then sided up to the pan with a rankling ambition gnawing at his lights. His face looked like huge custard pie, and lifting his foot to the ladies in the grand stand he nodded to Johnny to separate himself from the ball. He did so and the filly pasted it far out into the offing. Colones Marcum performed a series of startling dath-dubs with Hutch's grounder and the banes were full of graybacks, and Kniesiey pulled at the wrong end of his cigar. Captain Mac got a hammericek on his tree, and hurled the ball down to third, but while third was putting it across to first Kid Seery splashed across the Old Man Fear coaxed a pass out of Johnny, and Papa pasted him with frightful vehemence in the neck and another pair swept home. Spavined curves helped Peddy to the first corner. Paddy forced Pa out at he plate, and Johnny made a dent in Sammy's back with the ball, and again the bases

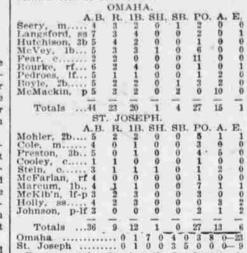

Again it all rested with Kid Seery. He came out of his shell and stealthily crept up to the plate. But Johnny knew him, and he walked, forcing in the Mexican hidalgo. For the recond time Langsford Sourished. Everybody said he would kick in the side of the grand stand, he handled that foot of his so recklessly. But did he? I guess not. But suffering brothers and sisters, how he did

McKibben came in, but he fared even worse. When the last man had turfied up his tootsy-wootsies to the nodding sunflowers the Rourkes got a couple of boys to count their runs. They got up to twenty-three and The following batch of hieroglyphica will furnish lots of food for reflection;

Plungers Off at Brighton.

NEW YORK, July 12.—The attendance at Brighton Beach today was as good as usual, which means very nearly the capacity of the ground. The favorites went down again, although second choices were generally the ones to cause the upsets, Governor Fifer was the favorite in the opening race and the McCafferty contingent backed him as if it was all over. Gloriana was a little too much for him, however, and in a whipping finish she won by half a length. Harry Reed was the choice in the third race and Dwyer plunged on him. Little Ella led the way for a mile, then Monaco and Harry Reed took up the running, and try as hard as he could, Sims could not get there. Results:

First race, five furlongs: Gloriana (12 to 1) won, Governor Fifer (11 to 5) second, His Grace (20 to 1) third. Time: 1:03.

Second race, mile: Flirt (2½ to 1) won, Charter (20 to 1) second, McIntryre (60 to 1) third. Time: 1:44%.

Kentucky Horse Raisers Opposed to the American Turf Congress' Methods. LEXINGTON, Ky., July 12.—The Kentucky Breeders association, the oldest racing association in the United States, will lead a revolt against the American Turf congress. It is claimed that the latter organization, by its dictatorial rules, has ione much to injure the price of thoroughfone much to injure the price of thorough-bred yearlings, and the Kentucky associa-tion, composed of Kentucky's foremost breeders, has decided to take steps to pro-tect their own interests.

The local association will meet tomorrow or Saturday and take action in the matter. It is likely the association will resign its membership in the congress.
