## PLYMOUTH'S NEW PASTOR

Rev. J. A. Fisher, Succeeding Dr. Thain, Preaches His Introductory Sermon.

WELCOMED BY A LARGE CONGREGATION

He Describes the Necessity of Being Constantly in Touch with Jesus, Who Was Made Sympathetic by Temptation -Making of a Man-

The many members, friends and communicants of Plymouth Congregational church, situated at Twentieth and Spencer streets, in Kountze Place, gathered at the house of worship yesterday morning to welcome a new pastor, Rev. J. A. Fisher, recently from Chicago, and listen to his introductory sermon. This gentleman comes to Omaha a stranger, taking the place of Rev. Dr. Thain, who has gone to Tabor, Ia.

Yesterday morning the church was filled. The pulpit was beautifully decorated with an endless quantity of cut flowers, while in Its depths sat a young man of pleasing face. The organist rendered one of the best selections of music, after which the young man delivered a sermon that won him scores of friends, making his hearers feel that he was the right man in the right place. An eloquent speaker, strong and forcible, Mr. Fisher carried his hearers with him, they feeling that the services were altogether too short. As soon as he had finished the delivery of his sermon, instead of seeking the peclusion of his private room, he stepped down into the body of the church, grasping the hands of those who crowded around him, having a kind word for every one.

The text of the morning was selected from Hebrews, iv., 15, the subject being "The Sympathetic Christ." In discussing the text Mr. Fisher said that his purpose was to speak of the necessity of being in touch with Jesus. He was the same when He was in the wilderness, fighting the devil, as He was when He stood in the tabernacle, declaring that He was the Son of God. Dwelling at length upon the temptations of Christ, Mr. Fisher described the three important ones, the first being the time after Jesus had fasted; the second being the time when the devil took Him upon the pinacle of the temple and the third when the devil took the Savior upon the mount. In refusing to be tempted upon these occasions Jesus was teaching lessons that had ever since been handed down to man, showing that He was in sympathy-with and was working for the good and salvation of the

As an illustration of the work of Christ, the speaker referred to the sculptor and the block of marble. The sculptor from the block of marble chips, hews and carves until he has brought forth a perfect image. So with God. He hews, chips and strikes sledge hammer blows until he has brought forth

a perfect man.

The farmer sinks the steel of the plov into the bosom of the earth until the field is covered with scars and the next day he puts on the harrow, following this with the seed. Then the rains come and later on the golden grain waves in the gentle wind, waiting for the knife of the reaper to garner the golden heads. So it is in a Christian life, God sowing the seed and pre-paring to reap the harvest. paring to reap the harvest.

#### WHAT NEBRASKA CITY DOES.

Extent and Importance of the Industries Located at Otoc's Capital.

Some slight notion of the importance which Nebraska City has attained as a manufacturing point may be gained from the following digest of the address of Judge Hayward at the banquet given by the Manufacturers and Consumers association last Friday night at the Watson house. Judge Hayward has dealt with the cold facts, and makes a strong showing for his city. He

"The Nebraska City Distilling company bushels of grain. It employs eighty-five men at a salary of \$1,250 per week. Profits are uncertain, but inasmuch as the company makes from each bushel of grain four and one-half gallons of high wines, worth over and above the government tax 25 to 39 cents a gallon, it must increase the value of an acre of grain, worth in the market \$12 to from \$46 to \$54. For each acre of corn used it pays the government \$166.

"Next comes the Argo Starch works, builded, owned and operated by Nebraska en. This concern asked for no It uses each year 350,000 bushels City men. of corn and makes 500 car loads of goods worth \$207,000. This increase of \$102,000 is all an addition to the wealth of Nebraska This increase of \$102,000 City. The company employs seventy-five people at good wages, and makes an article that well deserves the first premium awarded it at the World's fair. The people here make, buy and sell Argo starch. are now doubling the capacity of

"The Nebraska City Packing company re-ceived from us a donation of \$7,000. It can handle 1,500 hogs a day, and employs \$175 men when in operation. The Chicago Packing and Provision company handled from July 1, 1893, to July 1, 1894, 277,870 hogs, which cost \$3,840,200. It employs 165 men at \$1,750 per week. The value of its product is unknown, but it adds to the value of each hog from 35 cents to \$2. This concern received from the people a bonus of

"Below the packing houses comes the cereal mills, also builded and owned by our own people. They asked no bonus, but Messrs. Zimmerer, Sroat and others raised \$600 and bought and presented them the ground for their first building. In one year this company uses 3,477,500 bushels year this company uses 3,477,500 bushels of grain. It employs 130 men, uses two car loads of coal every day, and receives and ships thirty car loads of goods every twenty-four hours. It uses the crop from 4,250 acres of land every month, and increases the value of grain handled by it \$255,000 a year. Nearly all of this increase remains in Nebraska City. Of the twenty-six other manufacturing industries in this city I have no time to speak, but they are by no means small. Egan's brick yard consumes 500 cars of coal per year and turns out millions of the best building and paving bricks. Mattes' Brewing company Schminke Milling company now from over 100,000 bushels of wheat makes a product worth \$50,000 per annum, and when run-ning full time can double that amount.

The great object of all these plants is to add as much as possible to the value of vast crops that grow all around us The Nebraska City Canning company from an acre of corn worth \$16 makes goods worth \$40; from an acre of tomatoes, worth \$35, its product amounts to \$100, and from acre of beans, worth \$55, it produces goods worth \$150, not including the value

of the cans. "These results make small farms profitable and make it possible for men to pay, is they have this summer, \$200 an acre for farming land west of the city. Our great mills increase the value of corn from 2 to cents a bushel for fifty miles around and add \$10 to the value of every acre of land

in this county. One farm eight miles from the city sold in June for \$70 per acre. Sales are made every month at from \$50 to \$70 an acre for farm-

ing purposes.
"Our factories used last year 3,800 car

loads of steam coal. The railroads shipped in here from July, 1893, to July, 1894, 15,631 car loads of raw material, and shipped out car loads of raw material, and snipped out a product of 8,800 car loads. These indus-tries employ about 1,000 people and pay out \$12,000 per week for wages. The railroads employ here to handle our goods 140 men and pay them \$2,100 per week. This makes our pay roll over \$700,000 each year. The raults are all we can ask. In one year we results are all we can ask. In one year we have seen bu' one store closed by the sheriff. have seen but one store closed by the sheriff. The total mortgage and execution sales of real estate from July, 1893, to July, 1894, in Otoe county amounted to \$22,887. Of these sales \$10,900 were farms and \$11,987 covered all the sales in this city and the six prosperous villages in the county. There is not today, for rent in the city a first or second rate dwelling house, and not a first class store room vacant. Last winter we kept no soup houses for unemployed. Our total aid to the poor by all our aid societies and county commissioners in the entire county amounted to \$4,400—less than 17 cents a amounted to \$4,600-less than 17 cents a

head for our population. Our people are employed and are loyal and contented. "Our merchants are all presperous and most of them own their stores and discount most of them own their stores and discount their bills for cash. We are improving our streets, extending our water works, doubling the capacity of our starch works, building several fine residences and two larger churches than any now in the city. We still want more factories. We now hope for a larger corn crop than ever grew in this county, and will in ninety days have one-half million bushels of apples to pack one-half million bushels of apples to pack and ship. Every dollar of our money, as it is earned, goes into new industries. To those who invest among us we offer many advantages. We are in the center of the best farming lands in the world. We have within 150 rolls these million consumers. within 150 miles three million consumer of our goods. Taxation is low-our larger plant in 1893 paid only \$678 taxes. Our people believe that no man should own more wealth than he carns and that he should control all that he owns. We furnish em playment to labor and protection and justic to capital and extend a hearty welcome to

#### By Violence

Little is accomplished in this civilized era, but with the gentle laxative, Hostetter's Stomach Bitters, the bowels are relieved without abruptness or subsequent weakening. Dyspepsia, malaria, rheumatism, weakness and kidney trouble yield to this reliable curative, foremost, also, among invigorants and recommended by physicians. Give this medicine a fair trial and be convinced.

#### B. & O. TUNNEL.

A Baltimore Project Which Will Save Forty Minutes in a Short Journey.

The Baltimore & Ohio railroad is preparing a gigantic coup that will draw Washington and New York nearer together by forty minutes. This is the new \$8,000,000 tunnel under the city of Baltimore, by which the transportation of cars across the river at Baltimore will be obviated. For many years the Pennsylvania road sublet a part of its road, including an entrance to the largest Baltimora station, for a handsome sum to the Baltimore & Ohio. But the rival road began to cut so deeply into the Pennsylvania's business that it came down hard on the Baltimore & Ohio and refused to renew the lease. Shut out of Baltimore and cut off as far as the Susquehanna river, it looked as if the Pennsylvania had forever disposed of the Baltimore & Ohio as a rivat for its New York line. But the Baltimore & Ohio pluckily built its own tracks from Baltimore to the Susquehanna, across which it threw a splendid iron bridge. It was enabled to take a more direct route than the Pennsylvania road, and so cut off sixteen miles of distance, which the Pennsylvania has made no effort to discount, as it would cost millions. The Baltimore & Ohio trains had then to be taken across the river at Baltimore, but even with that disadvantage it landed passengers at the foot of Liberty street in New York exactly five hours from the moment of starting from Washington. Meanwhile the \$8,000,000 tunnel was begun under the city of Baltimore, and within a few months it will be open for traffic, when the Baltimore & Ohio will have its competitor exactly forty minutes behind in the race to New York, with no prospect of shortening th difference between them. There has been a good deal of secrecy maintained about this tunnel, the Baltimore & Ohio people having determined on a great stroke when it is opened. Nobody is allowed to write it up and all inquiries are met with polite evasions, which tell nothing except that they are building a tunnel which will some time or other be finished. It is, however, declared by the Boston Transcript that it is considerably nearer completion than the officials will let on—and it is certain that four hours and

#### twenty minutes will take a train through from Washington to New York, with a strong probability of the lopping off of the odd twen'y minutes. LAST HALF FARE EXCURSION.

Vin the Wabash R. R. Will leave Omaha on Tuesday, July 17th, for Toronto, Canada. Giving everybody one more chance to visit friends. All trains more chance to visit friends. ## AFFAIRS AT SOUTH OMAHA

Movement to Secure Free Mail Delivery in Adjacent Country Districts.

FARMERS WILL ORGANIZE TO THIS END

Results of Yesterday's Gun Club Contest-Chief Brennan Gets a Clew to Volz

Robbery-Other News from

the Magic City.

The farmers in the vicinity of South Omaha have been discussing of late a proposition to have a free delivery of mail system established by congress in localities where the population is sufficiently large to have as much right to have their mail delivered as the town folks and a meeting will soon be called to discuss the proposition in detail. Mr. P. McArdle and Mr. J. H. Klinker, together with other farmers, talked the matter over here Saturday, and, although no date has yet been announced, it is certain that a meeting will be held soon

and the initiatory steps taken to bring about

the passage of a law giving free delivery in

the country where the locality is thickly

settled. "We propose to organize a club to begin with and before we pledge our support to a candidate for congress he must promise us passage of a law giving us a free delivery of mail. In some localities we should get a mail once a day, and in others perhaps two or three times a week would be sufficient. One of the principal objects in getting mail once a day is to secure the market quotations. Many of us would take a daily paper also where we now only take a weekly."

Gun Club Shoot. The South Omaha Gun club had another nteresting shoot yesterday afternoon.

The first match was a crub shoot at ten olue rocks and resulted as follows: Berlin, ; Kebs, 9; Hughes, 6; Welsh, 1; Babcock, ; Smith, 9; Lewis, 10; John Flynn, 6. The next was at fifteen blue rocks and resulted: Welsh, 4; Kebs, 6; Smith, 9; Lewis, 10; Babcock, 3; Berlin, 8; Flynn, 7.
The next was at five live birds, single rise. Berlin killed 4; Babcock, 3; Smith.

Flynn, 4. Three men paid \$1 entrance fee each and shot at live birds, miss and out, as follows: Berlin, 8; Smith, 8; Lewis, 5. Berlin and Lewis tied on a match at ten birds and divided the money.

In a contest at ten blue rocks, \$1 to enter,

; Babcock, 4. In shooting off the tie At five pairs of blue rocks, double rise, \$ o enter, the score was: Berlin, 8; Lewis ; Smith, 9. Smith won the tie.

Clew to Volz Robbery. Chief Brennan thinks he has located some of the clothing that was stolen from Mr. Volz, the tailor, a few nights ago. He received a letter from the chief of police at Muscatine, Ia., stating that there is a package of cloth in the express office which was shipped from Omaha, addressed to E. Maher. The chief says the goods were shipped away from here by Tom Maher Maher is now doing twenty days in the county fail, and by the time he serves out his sentence the police hope to unravel the details of the Volz robbery.

Magle City Gossip Miss Fannie Gosney is home from a visit with friends in Blair. Officer Tangeman -arrested fifteen mer

Rev. Ross of the United Presbyterian church delivered a sermon on Odd Fellow ship yesterday morning.

F. A. Lyman of Salt Lake, formerly em-ployed in Mr. Seykora's drug store, is visit-ing here for a few days. A petition is being circulated among the property owners on N street, between Twenty-fourth and Twenty-seventh, asking

that the street be paved with brick After a painful illness, the wife of Mr. Conroy died yesterday morning at seph's hospital. Mr. Conroy is manager of the Postal telegraph business here. The funeral will be held at St. Agnes church Tuesday morning at 9 o'clock.

When Traveling. Whether on pleasure bent, or business, take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. PREPARING FOR LABOR DAY.

Debs May Be the Orator-Committees Planning a Big Celebration. The regular meeting of the committee on Labor day from Central Labor union was held yesterday morning. A letter from Eugene V. Debs was read in answer to a request to be present and deliver the oration of the day, in which he said if it were possible to be here on that occasion he would gladly come. The begretary was then instructed to write him again and try to make the appointment. The committee has several places in view for the afternoon exercises, but has not decided which to en-gage. The subcommittees appointed are gage. The subcommittees appointed are: Sebring and Beerman, on soliciting among the merchants and business men for funds; committee on printing, Sebring, Cohen and Meyer; committee on privileges, Heacock,

Beerman and Meyer. Mr. Julius Meyer was elected the committee's treasurer.

The coming celebration will be the sixth annual celebration of Labor day in Nebraska, and as it is now a national hollday for the working people an endeavor will be made to make the celebration the largest ever seen in this part of the country. Intee's treasurer. vitations will be issued to outside organiza-

tions, and the committee expects very large delegations from adjacent cities. Balloon goes up at Courtland.

Frank Trainor, who was arrested by Detectives Savage and Dempsey Saturday afternoon as a suspicious character, was identified yesterday by several parties as

the thief who burglarized a residence In Council Bluffs one night last week and se-cured about \$300 worth of jeweiry and money. The thief will be turned over to the Council Blums authorities.

SOLD TO THE DOCTORS.

A Man Consents to Be Carved Up for a Cash Consideration An account was published last fall of a man who, for a consideration of \$5,000, consented to let two South American doctors pore a hole through his stomach in the interest of science. At that time a New York man named Osbaideston advertised for a man who would consent to go down to Guayaquil, Ecuador, and there submit to an experimental operation by two doctors. Osbaldeston acted as agent for those two sicians. It was illustrative of the hard times that more than 120 answers were received. The operation in question was simply an in-cision in the stomach, through which the action of the gastric juices might be observed. The cavity thus made was about the size of a hazelnut. Tubes of gold and silver were inserted, and through these the nourishment taken by the patient was forced, the digestive process being marked by the aid of an electric light. Incidental to the operation certain chemical substances were administered to the patient through the ube to ascertain properly the action of drugs n combination with each other. Twice before had Osbaldeston obtained subjects for these medical men. The first patient was Joseph Burton. He recovered after nearly a year of suffering and is now a farmer in Queensland. The second subject was in-oculated with several frightful diseases and died a horrible death. died a horrible death.

Among the 120 persons who answered Osaldeston's advertisement last August was a well-knit, powerful looking fellow who had been a sallor. He was about 5 feet 8 inches in height, welghed about 180 pounds, looked hard and wiry and was as active as cat. Osbaldeston decided that he would do. His name was Ferdinand Pietrich. The first week in September Pietrich sailed for Guayaquil. There for four or five weeks be remained under medical care in preparation for the ordeal, and it was the second or third week in October before the chief surgeon, Dr. Adele Ajaico, ventured to perform the operation. Osbaldeston has informed a writer for the New York World that the operation was completely successful and that the patient was on the road to recovery, when he took to drink. Under these conditions it became necessary to stop the treat ment for a time, and in this interval Pie ment for a time, and in this interval re-trich, while sitting on the battlements of a fortress one morning was sunstruck and died within two hours. He was alone in the world and it does not appear that he ever re-ceived the money for which he had risked his life, or, in fact, anything beyond his traveling expenses.

The experiments conducted by Dr. Ajaico ecall the famous story of Alexander St. Martin, which ranks as one of the first standard precedent cases of its kind. St. Martin, who came of a French Canadian family, was employed by the American Fur company at what is now Mackinaw, Mich. In 1822, when 18 years old, he was accidentin 1822, when 18 years old, he was accident-ally shot, receiving in his left side the whole charge of a musket, which fractured the left ribs, lacerated the lungs and entered the stomach. Dr. William Beaumont restored him to health, but the opening in the stomach was never closed. From 1825 to 1833 Dr. Beaumont conducted experiments on the stomach studying the

St. Martin's stemach, studying its operations, secretions, etc., while the patient, with a big hole in his stomach, walked about the streets attending to his business and presenting the appearance of a man in good health. Dr. Beaument found, among other things, that he color of the membrane of the stomach is pale pink and that its appearance is velvet-like. The doctor would pake food into the stomach and examine it in the different pro-cesses of digestion. He would watch the action of stimulants at one time and at an other he would try the effect of sedatives He tried opium, alchohol, raw meat, boiled meat, broiled meat, roast meat and fried meat. In spite of the outrages to which his stomach had been subjected, St. Martin lived to old age and actually survived his

Was a "Side Line" Affair. A trio of traveling men who hall from Chicago, had a lively fight in front of the Dellone hotel yesterday forenoon. The men had been making a night of it and happened to meet at this hotel in the morning. Two of them had a grudge against the other and they settled the matter in quick order. It seems that about a week ago J. F. Hartzell, one of the parties, had trouble at one of their stopping places with B. F. Delaplaine, and struck him over the head with a beer bottle. Delaplaine swore vengeance and armed himself with a pair of iron knuckles. When he met Hartzell yesterday he sailed in and beat him badly, cutting his head open in several places. W. W. McFarland, who was with with Delaplaine, took part in the fight by Ricking Hartzel in the face when he was down. All of the participants were locked up. had been making a night of it and hap

## CARDINE WE'RE NOT

The Extract of the Heart of the Ox. DR. WM. A. HAMMODD.

WASHINGTON, D. C.

"In the case of a prominent physician of Indiana, the heart beat was feeble and irregular, and there was a constant vertige while walking, or even while in a standing position. In this case the relief was equally promit. He remained under my care only three days, being summoned home by telegram by sickness in his family, after making arrangements to precure a sufficiency of Cardine for home use, and I advised him to continue it for at least a month. He arrived home before the Cardine reached him, and feeling the meed of it, he at once telegraphed for it to be sent to him as soon as possible. He informed me that the effect upon him was so decided that, whereas, formerly he was leath to walk even a few steps for fear of being overpowered by digilness, a single injection enabled him to walk as much as he pleased for four or five hours afterwards.

FURNITURE of Every Descript on Temporary Location 1206 and 1208 Douglas Streat.

# QUITE QUIT

But we'll quit July 23, and that will be the end of our great "quitting businesssale." Beginning this week we give a grand tableau of prices. (There won't be any red fire, we hope. Had enough of that already.)

## THE PRICES MILLBE SPECTACULAR

## MEN'S SUITS.

All Men's Spring and Summer Suits cut right in half.

## PANTS.

We sell a pair of pants for \$1.00 and \$1.50 that can't be made for twice the money in any factory in America.

## BOYS' SUITS.

All of these cut right in the middle. There are several hundred left. All good styles.

## SHIRTS.

Wilson Bros.' Negligee Shirts, imported Scotch Gingham, collars attached, also detached [2 collars],

Only 75e.

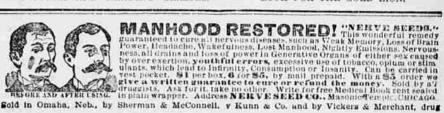

Cor. 13th and Farnam.

Con't Fool With Your Eyes Headache Cause I by Eye Strain.

Many persons whose heads are constantly aching have no idea what relief scientificaly fit-ted glasses will give them. This theory is now universally established. "Improperly fitted glasses, will invariably increase the trouble and may lead to TOTAL RLINDNESS." Our ability to adjust glasses safely and correctly is beyond question. Consult us. Eyes tested free of charge.
